SUBJECT: Referral No. 807 - ZONING CHANGE ON CYPRESS STREET

Gentlemen:

The subject referral received consideration by the City Plan Commission at a meeting held on Tuesday, April 24, 1956.

This referral is a request for a change in zoning from an R-2 Zone to an R-4 Zone of Lots 142, 143 and 176 on Assessor's Plat 6 located on Cypress Street. The area in question contains 23,250 square feet.

Reference is made to Referral No. 777, from the Committee on Ordinances, dated February 15, 1956 which requested a similar change in zoning as the present petition. The City Plan Commission recommended denial and the petitioner subsequently withdrew the application.

The establishment of an R-4 Zone in this particular location would introduce an undesirable use and would adversely affect adjoining and surrounding properties. Therefore, in order to avoid a serious case of spot zoning and an undesirable use in this location,

The Commission

VOTED: To recommend that this petition be denied.

February 29th, 1956

The City Council of Providence,
Providence, R. I.

Dear Sirs,

As a householder in the city block bounded by Camp, Cypress, Larch and Ivy Streets, I am naturally interested in the petition of Dana Bomes, by Edward Bomes, to change from an R-2 Two-family Zone to an R-4 Multiple Dwelling Zone Lots 142, 143, and 176. Lot 176 touches one of our lots (173). As well as being affected personally by the situation, I am also interested in a larger sense. As President of the Rhode Island Committee on Discrimination in Housing, the total housing situation in Providence is of particular interest to me.

My husband and I have carefully investigated the whole situation and we agree on these points:

- 1) Lots 142 and 143, and to a lesser extent Lot 176, are at present an eyesore in the neighborhood and need improving in some way.
- 2) A two-story, eighteen-family apartment building such as Mr. Edward Bomes says he plans to put up would possibly be an asset to the neighborhood.
- However 3) If the zoning change were made, Mr. Bomes could scrap those plans and build up to six floors or 75 feet high. He would be free to build several other types of buildings, such as a hotel or restaurant.
- 4) A large building would effectively cut down on light and air and increase noise and disturbance to the surrounding householders.
- 5) Such a zoning change for these three lots under consideration would possibly make it easier for other lots on this block to be similarly rezoned in the future. The character of the block would thus be in danger of being altered adversely.
- 6) Spot rezoning and the haphazard erection of apartment buildings do not fit in to the City's own plans for the future.

For these reasons, we believe that Mr. Bomes should not be granted his petition.

Yours sincerely,

Shirley Lee

SUBJECT: Referral No. 805 - ZONING CHANGE ON THE SOUTHERLY SIDE OF CHALKSTONE AVENUE

Gentlemen:

The subject referral received consideration by the City Plan Commission at a meeting held on Tuesday, April 24, 1956.

This referral is a request for a change in zoning from an R-3 Zone to a C-2 Zone of Lots 113, 114, 131, 132, 133, 382, 383 and 378 on Assessor's Plat 66 located on the southerly side of Chalkstone Avenue. The area in question contains 57,763 square feet.

Reference is made to Referral Nos. 545 and 622, from the Committee on Ordinances, dated December 9, 1953 and June 23, 1954. Referral 545 requested a change in zoning from an R-3 Zone to a C-1 Zone for the aforementioned lots, and Referral 622 requested a change in zoning from an R-3 Zone to a C-2 Zone for the same lots. The City Plan Commission recommended denial for both petitions. The City Council granted leave to withdraw.

On the field trip it was found that the area is almost exclusively residential in character.

Inasmuch as the area to the north and west is adequately supplied with commercial zones, an additional commercial zone would be unwarranted. Therefore,

The Commission

VOTED: To recommend that this petition be denied.
