TELEGRAPHIC FIRE ALARM.

New Code of Fire Alarm Signals. Gamewell & Co.'s Automatic System.

Directions to be observed when a fire is discovered:
1. Go to the nearest box and open the door, pull the hook down as far as you can (firmly, without jerking), and then let it slide back, close the door and remove the key.
2. On giving an alarm, if the small bell inside is heard ringing, it is an indication that an alarm is being sent over the wires; in all such cases, count the signals being sounded, and be certain whether it is for the same fire or not; if not for the same fire, wait until the signals have entirely ceased, before pulling the box.
Key holders are cautioned not to give an alarm until certain of a fire; not to give an alarm for a fire seen at a distance; and to be sure, after giving an alarm, that the door is securely closed before leaving the box.

THE SIX CYLINDER ROTARY PRINTING MACHINE,

Used for Printing the **EVENING BULLETIN**, at the rate of 12,000 to 14,000 per hour.

The circulation of the **EVENING BULLETIN** having increased so rapidly as to require faster machinery, the Publishers, four years since, at large expense, added to their office a Six-Cylinder Type-Revolver Press, capable of throwing off printed sheets at a rate exceeding 200 per minute, and devoted that machine to the service of the Bulletin. The daily circulation of the **EVENING BULLETIN** now ranges from 16,000 to 19,500 copies, and the Publishers are compelled to consider the imminent need of still more rapid printing facilities. The Bulletin reaches every considerable town and village in the State, and along the borders of Massachusetts, on the evening of its issue, and is a most effective medium of communication with the people. It is a complete newspaper in all respects; contains the morning as well as evening dispatches from every quarter of the world, and is furnished at the low price of Six Dollars per annum. Village clubs receive liberal consideration.

KNOWLES, ANTHONY & DANIELSON, Office, No. 2 Weybosset Street.

Four Cylinder Type Revolving Press, on which the PROVIDENCE JOURNAL is printed.

The Providence Journal,
DAILY, \$8.00 per annum.
SEMI-WEEKLY (Monday and Thursday), \$3.50 in advance.
WEEKLY (Friday), \$2.00 in advance.

The **JOURNAL** is recognized as one of the best advertising mediums in the Country, and its prices are uncommonly reasonable for the service rendered.

KNOWLES, ANTHONY & DANIELSON,

Office, No. 2 Weybosset Street, Providence, R. I.

The Publishers of the **PROVIDENCE JOURNAL** continue to bestow labor and expense in unlimited measure to meet the demands of the people of the City and State for a complete newspaper. Having secured a location central and convenient, they are constantly adding features of interest to their counting-room equipments, and increased facilities for newspaper making in their other departments. Their presses are capable of making twenty thousand impressions in an hour, and their working force is large enough to secure the prompt publication of the news by day or night. The terms of subscription have not been advanced since the establishment of the **JOURNAL** in 1820, but have rather been reduced, as postage is now prepaid on newspapers sent by mail for which the subscription price has been remitted. The terms of subscription are as follows:—

Where MANUFACTORIES are Heated by EXHAUST STEAM a great saving in Fuel is effected where the EXHAUST STEAM is used without the excessive back pressure usually produced on the Engine. By our system we guarantee to UTILIZE THE EXHAUST STEAM with the highest degree of Economy, in a simple and inexpensive manner. Abundant Reference given.

SPRINKLING PIPING.

Parmelee Automatic Sprinkler

The PARMELEE AUTOMATIC SPRINKLER has been practically proved to be the most efficient Fire Apparatus ever invented. The Water is liberated by the effects of heat. It concentrates all available water on the fire, thus securing GREATER EFFICIENCY and LESS DAMAGE BY WATER, than the present system of sprinkling. It has been subjected to FIVE accidental fires, and worked with entire success, and is endorsed by all the Factory Mutual Insurance Companies of New England.

ECONOMY! NEATNESS! And DESPATCH!

Old Carpets made to look Nearly as GOOD as NEW by the use of the
PATENT CARPET BEATING MACHINE.

By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, yet thoroughly expel all the Dust and Moths. The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

The Improved **UNION Carpet Sweeper,**

Patented, - - August 14, 1877.

Manufactured by the

**Union Carpet Sweeper Co.,
PROVIDENCE, R. I.**

Its simplicity of construction, durability, the first quality of the materials used in its manufacture, and the fact that it will sweep cleaner than other Machines, unite in making this carpet sweeper the very best in the market. The motion is produced by rubber rolls and will not injure the carpet in the least. At the late Mechanics' Fair, Boston, Mass., the judges say in their report: "This sweeper combines utility with simplicity," and "is superior to all others exhibited."

SCHOLFIELD'S

Commercial College,

No. 137 WESTMINSTER STREET,
Providence, R. I.

This institution was founded by its present proprietor, A. D., 1846, and has been in successful operation thirty-three years.
The object and aim of this institution is to impart to both sexes a

Business Education,

embracing WRITING, BOOKKEEPING, and the LAWS of BUSINESS, and the COMMON and HIGHER ENGLISH BRANCHES, MECHANICAL and PERSPECTIVE DRAWING. Also, WATER COLOR PAINTING, and PAINTING IN OIL ON CHINA.

DAILY LECTURES

will be given before the Students by the Principal, on COMMERCIAL LAW, POLITICAL ECONOMY, PARTNERSHIP, AGENCY, BILLS of EXCHANGE, MERCANTILE CORRESPONDENCE, ETC., ETC. This institution approximates nearer to actual business in its plan of teaching the Science of Bookkeeping than that of any other institution in America. No Text Books are used, and each Student is favored with Separate and Special Instruction. For further particulars, call or send for our Illustrated Circular and Catalogue.

Address,

A. G. SCHOLFIELD.

As Indisputable evidence of the merits of this Institution as a Business College, I submit the following Testimonial from a few of its Graduates:

TESTIMONIAL.

The undersigned, at various times pupils of A. G. Scholfield, Teacher of Book-keeping, cheerfully bear testimony to the following facts:

- 1st. His method is *scientific*, indicating a thorough acquaintance with the fundamental principles on which the various systems of Book-keeping are based.
 - 2d. His system is eminently *practical*, well adapted to give his scholars a thorough insight into the various transactions of business life; and all his illustrations and solutions are made in such a plain and impressive manner as to leave every essential point perfectly intelligible to the pupil, and fasten it indelibly upon his memory.
 - 3d. His mode of teaching is *original*. Following no "illustrious predecessor," he adopts his *own* rules and examples, which, though simple and easily understood, are nevertheless *thorough* and *comprehensive*. With a knowledge of the best methods by other authors, he brings to the work, what we esteem of far greater value, *his own mature experience* as a practical accountant.
- In conclusion we would only add our *entire confidence* in Mr. S. as a *man* and a *teacher*. His long experience, close application, faithfulness and unwearied devotion to his favored pursuit, entitle him, as we believe, to the entire confidence and liberal encouragement of this enlightened community.

OFFICE, 54 KILBY, Cor. WATER STREET, BOSTON.

This Company beg leave to call the attention of Cities and Towns wanting a Superior Street Light, to their facilities for furnishing the same. Being owners and lessees of valuable patents used in this business, which, together with the low price of fluid, enables them to guarantee a light exceeding in brilliancy and cheapness of price anything heretofore attempted. They particularly call the attention of all interested to the fact that the light supplied by this company is permanent, not subject to being easily ex-

tinguished by the wind or by defects in the lanterns, a matter of great importance in Lighting streets. Contracts made for one, three or five years, as committees may desire.

The long experience of the officers of this Company in lighting streets with gasoline, warrants them in promising faithful work and prompt attention.

Correspondence Solicited.
