The Honorable City Council
Councilman Robert J. Haxton, President
Providence City Hall
Providence, Rhode Island

Dear Mr. Haxton:

As you probably know, I shall retire from my position as Director of the Department of Building Inspection as of July 31, 1976.

In my thirty-eight years of service to the City of Providence, I have tried to perform my public duties to the best of my ability. I have given the same attention and care to the City business as I would have bestowed upon my own affairs; and have always considered a City government as merely a business organization, in which the citizens are stockholders.

Although some of my years of service may have been more or less strenuous, there has also been a large measure of pleasure and satisfaction in being able to accomplish some of the objectives for which I labored. This accomplishment would have been impossible without the splendid cooperation which I received from the Mayors and Councilmen under whom I served, together with my office staff, representatives of the building industry, engineers, architects, and the trade organizations whose interest was most helpful.

Because of my association with BOCA International, and also having served as President, the City of Providence has kept pace with new developments, materials, and methods of construction in order to provide lowest cost construction within adequate and acceptable standards of health and safety.

The Honorable City Council

-2-

June 28, 1976

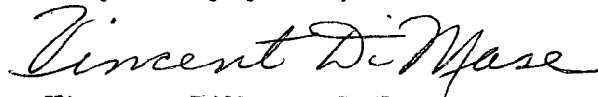

It has been compensation beyond measure to have been an active participant in the growth of the City during the past years.

I have been singularly happy in the profession of my choice, because it has enabled me to serve the people of Providence whose fellowship and friendship I shall always cherish.

I welcome this opportunity to acknowledge, with sincere appreciation and whole hearted thanks, the much valued interest, guidance and cooperation of the members of the Honorable City Council.

Please express my very best wishes for continued success to all. May the years ahead bring you joy, good health and contentment.

Very truly yours,

A handwritten signature in cursive script that reads "Vincent DiMase".

Vincent DiMase, P.E.
Director, Department of
Building Inspection
