PREFACE.

This issue of the PROVIDENCE DIRECTORY AND RHODE ISLAND BUSINESS DIRECTORY is the 54th number in the series. It is published and delivered to our patrons earlier than in any former year, and in many other ways it is in advance of any previous edition.

The Map which is an important feature of this publication has been thoroughly revised and affords now the most complete and accurate Map of Providence ever issued. The Harbor lines have been extended, the Cove Lands laid out, new Street Railway lines shown and unused lines obliterated, public buildings, including Brown University buildings, indicated, streets extended and named, and many other additions and corrections made. While we have annually corrected our Map from information obtained through our canvassers and from other reliable sources, we have not until this year undertaken a complete revision, and we have been able to do this with the assistance of Mr. H. E. Sherman of the Civil Engineers Dept., whose close scrutiny, intelligent criticism and practical methods have been faithfully and successfully applied to this work. Captain Pettis, Supt. of street numbering, has also given much useful information, and Mr. J. C. Thompson, lately deceased, whose extensive knowledge of map making has been of great value to the publishers of this book for many years, completed the preparation of the Map copy.

Notwithstanding the great depression in business, so keenly felt in this City and State, Providence has moved rapidly toward that higher position which she is soon to occupy among her sister Cities.

Many costly, loftly, elegant and extensive buildings have been erected, avenues and boulevards laid out, parks beautified and many other improvements, public and private, effected. The street car system has been so extended and the accommodation it affords so improved, that residents in localities in any direction many miles from the centre of the City, find easy access thereto.

Work upon the Cove Lands, involving the improvement of railroad terminal facilities, is progressing as rapidly as could be expected considering its magnitude.

The population of the City, if we may judge from our Directory, has grown even more than in many past years. The increase in names, as shown by the statement on the opposite page, is 3032, while the average increase for the last fifteen years is 2242.

The changes which have occurred among our citizens during the past year, so far as the General Directory takes cognizance, are as follows: —

Of those whose names appeared in the Directory of 1893, 12,005 have changed the location of their residences, 3,179 their business location, 3,010 the nature of their business or occupation, and in 367 firms changes have been made either in their names or membership.

In 1884, we published a list of twenty-one citizens then living in Providence, whose names appeared in the first Directory of Providence issued in 1824. Of that number there are but two remaining, viz:—Edward Congdon, born in 1802, and Thomas R. Brigge, born in 1807.

Attention is respectfully directed to the table of "Changes in the Directory" on the opposite page, also to "Contents" on page 5.

PROVIDENCE STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Westminster Street No. 1129 comes, you look at Westminster Street, and find that Knight Street runs from 1067, and Bridgham Street from 1189, showing that 1129 Westminster Street would come about half-way between Knight and Bridgham Streets.

PROVIDENCE STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Westminster Street No. 1129 comes, you look at Westminster Street, and find that Knight Street runs from 1087, and Bridgham Street from 1189, showing that 1129 Westminster Street would come about half-way between Knight and Bridgham Streets.

PROVIDENCE HOUSE DIRECTORY.

In this House Directory the numbers have been arranged in regular succession, without distinctive reference to either side of the street. Names of house-keepers and boarders are given at residences, being designated by the abbreviations h. and b. after the name. When neither of these abbreviations appear, business places are indicated, and at such places the names under which the business is carried on (individual, firm or company), are given. When at the same street number, more than one name appears, they are arranged alphabetically, except, that where different rooms or apartments are given by numbers, these are arranged numerically, and the names of their occupants, in corresponding relation.

The abbreviation r. between the street number and the name signifies "rear," but when it follows the name, "rooms."

The streets are arranged in alphabetical order.

The usual Street Directory, giving the location of each street, and showing what other streets, places, etc. run from it or across it, is published on pages 17 to 36.
