## Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

***If the results are not entirely satisfactory, it is up to you.***

---

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost of an up-to-date mailing list and waste postage stamps by the gross.

***Would you improve on old methods?*** Then phone or write at once for particulars to

## *It is no more than we should do*

When we spare no trouble or expense to make our directories as accurate and complete, as intelligent, trained and well paid service can make them.

***Of course we would make more money*** for a time if we consented to use the easy going, hit or miss style sometimes suggested to us, but we are not in business for a few years only and we believe that careful, honest work will always be appreciated and usually rewarded as it has been in our case.

***For sixty-nine years*** we have been building upon the solid foundation of careful, accurate compilation and for just so long our publications have been quoted as a synonym for reliability and completeness in all that pertains to such books of reference.

***That is why to-day*** they are consulted perhaps more than any other similar publications in the world; why the advertising section is continually expanding in spite of fierce competition and why our patrons find that "It pays to advertise in the Directory."

### *How to make this Book Serve You!*

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. ***Put—"We are listed in the directory" in all your copy.*** Tie up your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

***Customers-to-be;*** but how can you get hold of them unless you look them up, and you might as well look them all up while you are doing it, for Directory lists make this easy.

***Supply Men;*** Some are better than others, know about them all—and choose.

***Competitors;*** they exist—let them and the public know you exist—for a purpose.

THE FIRST SOURCE of information about a business is ***The Directory.*** It is made from actual canvass and forms the basis of every kind of "mailing list", "trade directory", "reference book" or "buyers guide" in this territory. PUBLICITY ENGINEERING

Is the Systematic Science of Developing Business through

ADVERTISING

***DISPLAY ADVERTISING*** depends on subconscious attention and retention. It is of value where a desire to purchase does not exist, and must be created.

***DIRECTORY ADVERTISING*** recognizes conscious intention in most business, and places its story where keen minds seek information before buying.

Note the attempts to classify advertisers in newspapers and magazines under caption of "Business Directory" then compare with a Real Directory for completeness. Consider length of life of advertisement, and cost and form your own conclusions of relative value to your own business.

***How to make this Book Serve You!***

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. ***Put—"We are listed in the directory" in all your copy.*** Tie up your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

## PUBLICITY ENGINEERING

Is the Systematic Science of Developing Business through

ADVERTISING

***DISPLAY ADVERTISING*** depends on subconscious attention and retention. It is of value where a desire to purchase does not exist, and must be created.

***DIRECTORY ADVERTISING*** recognizes conscious intention in most business, and places its story where keen minds seek information before buying.

Note the attempts to classify advertisers in newspapers and magazines under caption of "Business Directory" then compare with a Real Directory for completeness. Consider length of life of advertisement, and cost and form your own conclusions of relative value to your own business.

## A Public Service Publication

Few lines of Business have such a varied clientel as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business life and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and who's life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

# A One-Newspaper City

***The Pawtucket Times*** is located in a "one-newspaper city" and it has made good to the interests of its home people and those residing in the surrounding towns which make up its trade zone, to the extent that it has gained a paid for circulation exceeding 21,000 copies every evening.

***Pawtucket*** and the adjoining city of Central Falls have a population of about 80,000. It is easy to understand therefore, how thoroughly the ***Times*** covers its own city and the adjacent towns. It is liberally patronized by Providence merchants because it furnishes the only direct method of reaching a big army of out of town and ready purchasers. There is neither waste nor duplication in its circulation, and every copy possesses a recognized purchasing power efficiency.

***It is no more than we should do***

When we spare no trouble or expense to make our directories as accurate and complete, as intelligent, trained and well paid service can make them.

***Of course we would make more money*** for a time if we consented to use the easy going, hit or miss style sometimes suggested to us, but we are not in business for a few years only and we believe that careful, honest work will always be appreciated and usually rewarded as it has been in our case.

***For sixty-nine years*** we have been building upon the solid foundation of careful, accurate compilation and for just so long our publications have been quoted as a synonym for reliability and completeness in all that pertains to such books of reference.

***That is why to-day*** they are consulted perhaps more than any other similar publications in the world; why the advertising section is continually expanding in spite of fierce competition and why our patrons find that "It pays to advertise in the Directory."

***We shall be pleased*** to send you prices on advertising in one book or in combinations.

# Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You ***can*** do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

***If the results are not entirely satisfactory, it is up to you.***

---

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost of an up-to-date mailing list and waste postage stamps by the gross.

***Would you improve on old methods?*** Then phone or write at once for particulars to

## *It is no more than we should do*

When we spare no trouble or expense to make our directories as accurate and complete, as intelligent, trained and well paid service can make them.

***Of course we would make more money*** for a time if we consented to use the easy going, hit or miss style sometimes suggested to us, but we are not in business for a few years only and we believe that careful, honest work will always be appreciated and usually rewarded as it has been in our case.

***For sixty-nine years*** we have been building upon the solid foundation of careful, accurate compilation and for just so long our publications have been quoted as a synonym for reliability and completeness in all that pertains to such books of reference.

***That is why to-day*** they are consulted perhaps more than any other similar publications in the world; why the advertising section is continually expanding in spite of fierce competition and why our patrons find that "It pays to advertise in the Directory."

***We shall be pleased*** to send you prices on advertising in one book or in combinations.

## ADVERTISING

***DISPLAY ADVERTISING*** depends on subconscious attention and retention. It is of value where a desire to purchase does not exist, and must be created.

***DIRECTORY ADVERTISING*** recognizes conscious intention in most business, and places its story where keen minds seek information before buying.

Note the attempts to classify advertisers in newspapers and magazines under caption of "Business Directory" then compare with a Real Directory for completeness. Consider length of life of advertisement, and cost and form your own conclusions of relative value to your own business.
