**CHILSON'S
Improved Cone Furnace.**

(Patented in the UNITED STATES, ENGLAND and FRANCE.)

Ten sizes for Brick and Portable Casings.

THIS truly celebrated Furnace stands pre-eminently ahead of all known plans for thoroughly and economically warming all classes of buildings. More than 20,000 of the Chilson's have been made and sold.

The "ARLINGTON" Portable Range.

CHILSON'S NEW RANGE, 1872.

THE first sight of this splendid Range will show the greatest improvements ever made in PORTABLE RANGES. Its beautiful style and superior, fine, heavy castings, are unsurpassed. Its hot closets, reservoir and hot water fronts are just what every housekeeper should have.

**CHILSON'S
New Brick and Portable
COOKING RANGES.**

This class of work will commend itself to all in want of the best Range ever made.

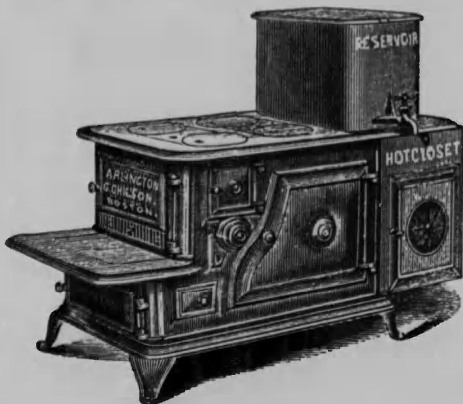

Special attention is given to the erection of the above Furnaces, Ranges and Stoves, and to Ventilation of Buildings in any part of the country. CHILSON'S NEW PARLOR and STORE STOVES, REGISTERS, VENTILATORS, FRAME GRATES, &c., constantly on hand, and for sale at the subscriber's store, 99 & 101 Blackstone Street, Boston, or at his foundry in Mansfield, Mass. Nothing but what is STRICTLY FIRST CLASS WORK, is manufactured by me.

The above articles may be obtained in PROVIDENCE of my authorized agents.

THE J. C. HOADLEY

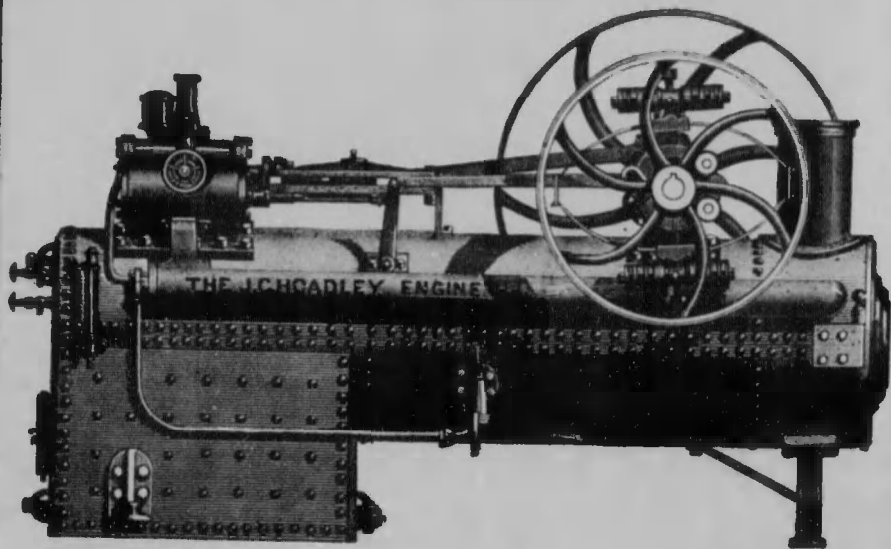

IMPROVED

PORTABLE ENGINES.

All Sizes from 9 to 100 Horse Power.

(COVERED BY FIVE PATENTS)

Made only by **GEO. T. McLAUTHLIN & CO.**

This cut shows the unmounted Engine complete, except the Smoke Pipe, with Pump and Regulator ready for use.

These wonderfully efficient and economical variable Cut-off Portable Engines have no competitors in ECONOMY OF FUEL AND WATER, and in regulation of speed.

They are widely known and have attracted the favorable attention of many expert Steam Engineers, both at home and abroad.

At the Centennial, after most thorough and exhaustive tests, the **HOADLEY PORTABLE ENGINE** received the **HIGHEST AWARD**, and the highest possible approbation of the Judges. See their official report, Group No. 20.

These Improved Hoadley Portable Engines

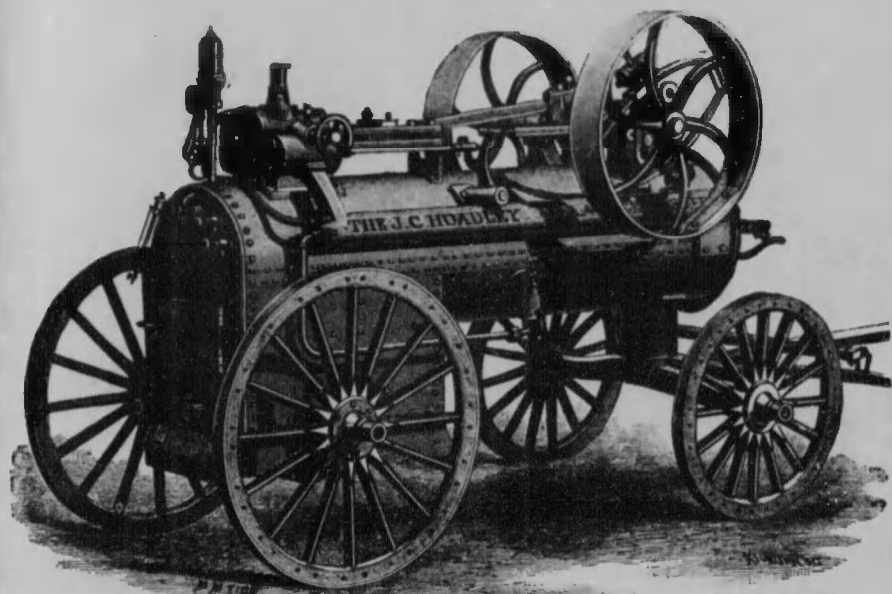

Are made with Automatic Cut-off Regulator, Balanced Valve, Steam Jacketed Cylinder and Valve Chamber, Direct Regulator Connection, &c., and require *only about one-half the boiler, fuel, steam and water* of Mr. Hoadley's former noted Standard Portable Engines. They equal in average economy the best Stationary Engines and Boilers in general use.

We apply these improvements to the Old Style Hoadley, or to any first-class, strongly made Portable Engines, and guarantee *one-third gain in power from the same boiler and fuel.*

BELOW IS A CUT SHOWING THE

MOUNTED ENGINE COMPLETE,

EXCEPT THE SMOKE PIPE.

WE ALSO MAKE

STATIONARY HOADLEY ENGINES

UNDER THE SAME PATENTS.

They are not excelled in economy, are exceedingly simple, and of moderate cost. Their perfection of speed renders them valuable for

ELECTRIC LIGHTS.

McLAUTHLIN'S

PATENT

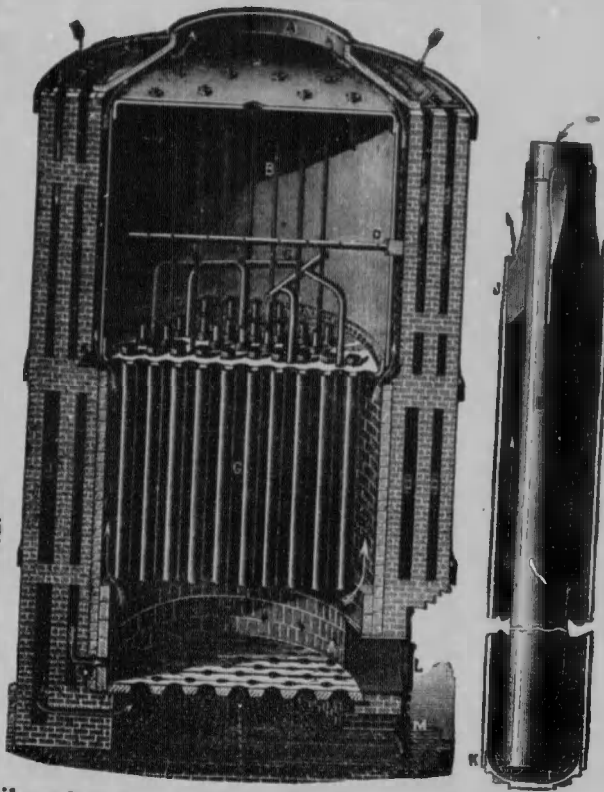

DROP-TUBE SAFETY STEAM BOILERS,

COMBINING

Large steam and water space; perfect circulation; entire freedom from unequal expansion; ample heating surfaces; superior draft; suspension entirely within the fire chamber; protected brick work,—the supply of air passing down its air spaces, which also prevents waste of heat through it;—manifold safety blow-off,—which, combined with the enforced circulation, admits of using water that would prove dangerous in ordinary boilers;—distributive safety feed, etc., etc.

THE LARGE CUT IS A VERTICAL SECTIONAL VIEW.

A, central smoke flue; B, steam and water cylinder; C, manifold blow-off, drawing from surface of crown sheet; D, distributive safety feed-pipe; E, supporting rings, having lugs on which boiler rests. Ascending arrows show boiler entirely enveloped in the fire and gases. Descending arrows show supply of air through the brick work.

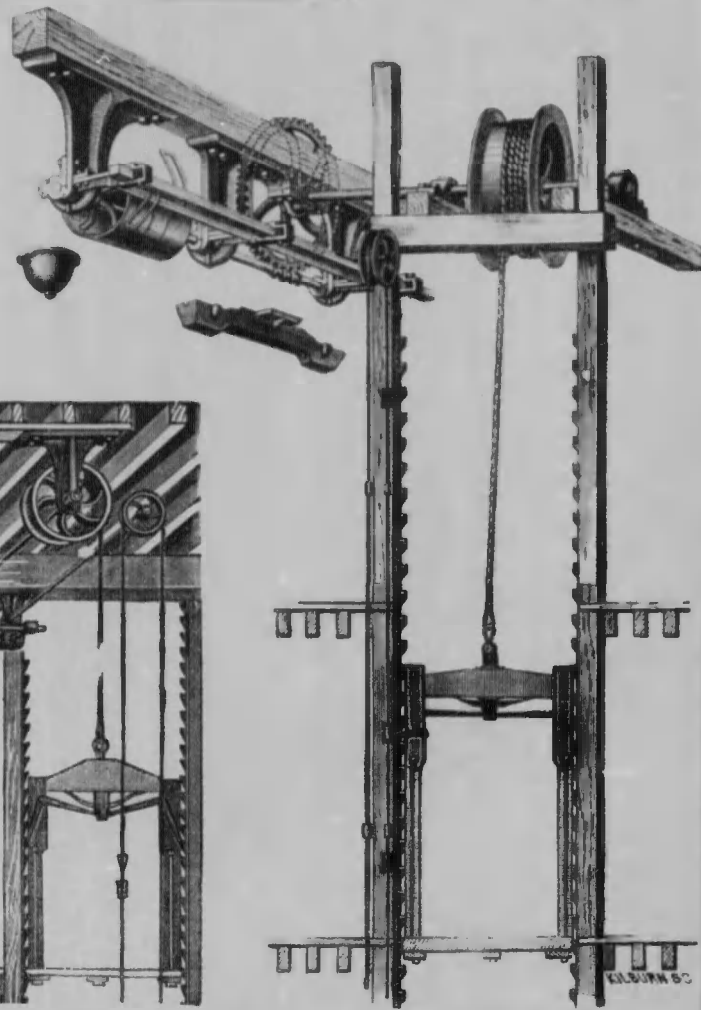

THE SMALL CUT.

Shows one of the tubes enlarged, the fire-tube J K in section. Circulating tube E rests on centering lugs on plug K. The tube guide at the top sustains itself by spring pressure, and receives tube E loosely within it.

These Boilers have proved, by fourteen years use, remarkably economical and free from repairs or accident. They are made only of superior strength, materials, and workmanship, and are sold at the price of ordinary horizontal tubular boilers.

PASSENGER, FREIGHT, CARRIAGE & HAND ELEVATORS,

HOISTING WHEELS, HATCH COVERS, &c., &c.

This cut shows the car suspended by the **SAFETY** pawls and racks, as in case of the car being accidentally blocked or the rope broken.

Our Freight Elevators are without a competitor in price for an Elevator of their class. They are very extensively adopted, and *none* are operated with better satisfaction.

The cuts are imperfect, but give a general idea as put up on the simplest and most durable plan.

We get them up in styles to meet all locations and uses.

TEST TURBINE WATER-WHEELS.

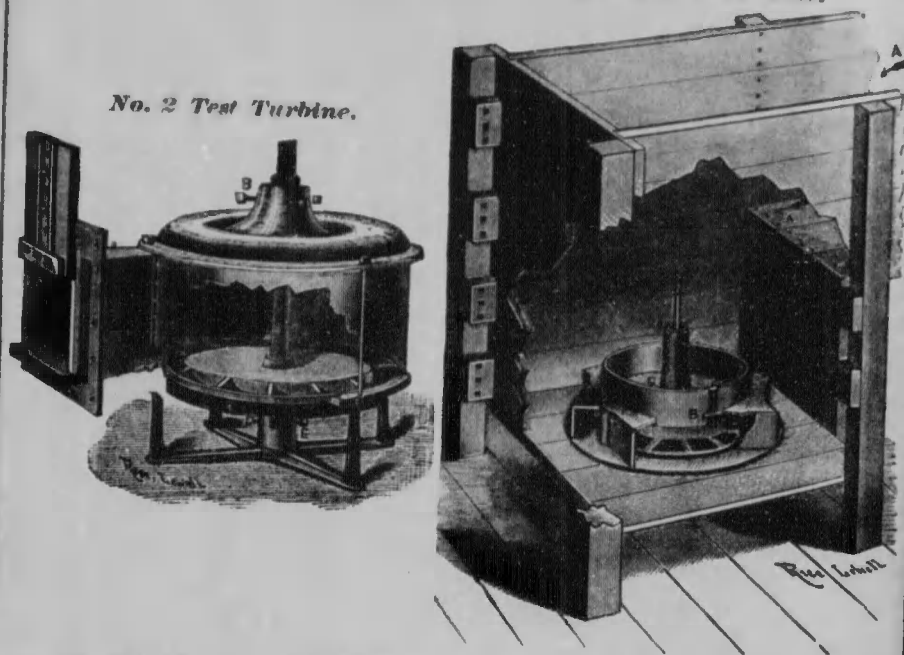

PRICES LARGELY REDUCED.

Over thirty years' experience in the Water-Wheel business, and a series of 5300 of the most accurate comparative test experiments on record, have led to the production of our

No. 1 and No. 2 TEST TURBINES.

We claim that for a term of years, working under the conditions that mills are generally subject to, the No. 1 has not its equal in average economy of water, and freedom from care, interruptions and delays; and that the No. 2 is not excelled by any Wheels that can be furnished and put in at so little cost.

No. 1 Test Turbine.

In the No. 1, the water discharges under the flume bottom, on which the Wheel is set.

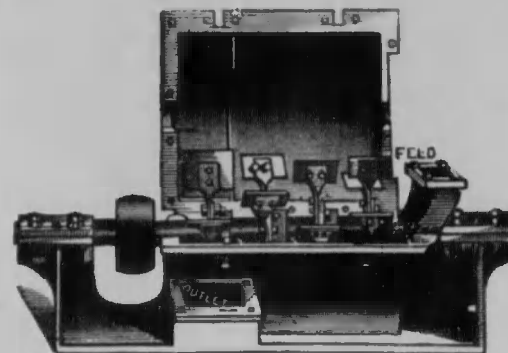

The gate B C is open. It slides within the spout case, closing upon a seat at its rim, near the level of the Wheel. It is proof against leakage and wear.

The No. 2 is in iron casing. It is set outside of the flume. We also fit these with wood casing.

The upper parts of the shafts are not shown.

THE PATENT

MAGIC PULVERIZER

Has proved by years of *PRACTICAL WORK* its superiority for pulverizing **FRIABLE AND SEMI-FRIABLE MATERIALS**. No dressing or sharpening is required, and the wearing parts are easily replaced.

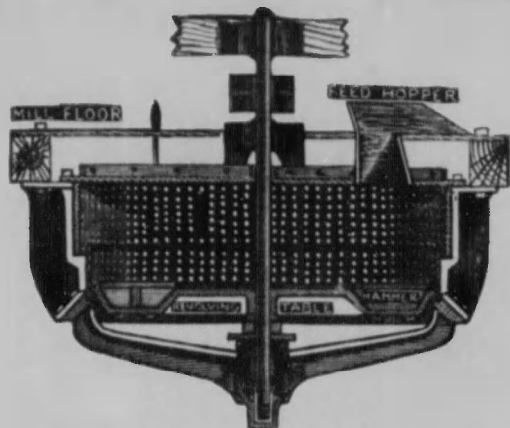

It consists of a Horizontal Cylindrical Case, with a rapidly revolving shaft carrying **STEEL PADDLES** in the first part, and **EXHAUST FANS** in the second, the combined operation of which creates concussive action of the grains upon each other in millions and in numberless repetitions, the material only escaping the combating vortices by the exhaust current, which is regulated for the fineness required.

It has been successfully used on a wonderful variety of materials, including **Ores, Minerals, Mica, Glue, Bones, Asbestos, Sugar, Grains, Dried Roots, Paints, Chemicals, Fertilizers, etc.**, and for **GRANULATING** corn, meal, glue, etc. It has also proved valuable for **TRITURATING LIQUIDS**.

The engraving shows a small machine thrown open to show the internal parts.

A hopper to be placed at the "FEED" aperture conducts the material into the machine. The "OUTLET" is to be connected by a pipe to a large settling chamber, into which the pulverized material is discharged. The diaphragm seen within the casing is proportioned for medium work; for coarse it is made narrower, and for fine, wider.

THE PATENT
MAGIC CRUSHER

Is adapted to all FRIABLE and most SEMI-FRIABLE substances, as proved by years of practical use. It consists of a Revolving Table, with Steel Hammers attached, placed upon a vertical shaft, and surrounded by a perforated casing, within which it revolves and through which the crushed material is discharged. The grade is controlled by the size of the perforations in the casing.

The Material thrown in receives at the rate of 5000—
Shattering or Rending Blows per Minute, of a—
force due to a velocity of two to three—
miles per minute.

No Crusher known works with less power or less wear and repairs. It crushes easily FIVE TONS AN HOUR, and COSTS LESS than any other of similar capacity.

The Cut is a vertical sectional view.

THE RHODE ISLAND DEMOCRAT.

ALBION N. MERCHANT, Editor.

The Official and Only State Democratic Newspaper.

SUBSCRIPTION, \$2.50. IN ADVANCE, \$2.00.

PUBLICATION OFFICE, 91 WESTMINSTER ST., PROV., R. I.

The following named eleven (11) Weekly Newspapers have been consolidated with The Rhode Island Democrat, and this paper now enjoys the circulation of the Twelve Subscription Lists combined, making it one of the best advertising mediums in the country:

Democrat and Sentinel, Burlington, Vt.	Herald, Nicholville, N. Y.
Sunday Sentinel, Burlington, Vt.	News, Plattsburgh, N. Y.
Home Visitor, St. Albans, Vt.	Journal, Champlain, N. Y.
Recorder, North Hero, Vt.	Record, Port Henry, N. Y.
Sunday Sentinel, Rutland, Vt.	Star, Chateaugay, N. Y.
Journal, Morris, N. Y.	

The Democrat is the ONLY Democratic Newspaper published in Rhode Island. It is recognized by the State Committee as the official organ of the party, and it has a general subscription circulation throughout Rhode Island, Vermont and Northern New York. Taking into consideration the extent and character of its circulation, its advertising tariff is as low as that of any other newspaper. Orders from respectable and responsible parties receive prompt attention. Address:

DEMOCRAT PUBLISHING CO.,

PROVIDENCE, R. I.

TO ADVERTISERS.

The attention of business men is called to the following publications, which cannot fail to prove advantageous to them as Advertising Mediums, covering, as they do, so many localities:

CORBETT'S HERALD

Circulates in Providence and adjoining towns.

THE EAST PROVIDENCE EAGLE

Has a general circulation in East Providence, Rumford, East Providence Center, and Riverside.

THE PAWTUCKET SUN

Is devoted to the interests of the people of Pawtucket and Central Falls.

Rates for space in any or all three of the above newspapers will be cheerfully given by addressing

EDWIN A. CORBETT, Editor and Publisher, Providence.

THE FASTEST PRINTING PRESSES IN THE WORLD IN THE OFFICE OF THE JOURNAL BULLETIN.

The large and continuous increase in the circulation and business of the PROVIDENCE JOURNAL and EVENING BULLETIN has compelled the introduction of the best printing machinery known. The office is now equipped with two Hoe Perfecting Presses (pictured above), which will together print one thousand copies of the BULLETIN, or five hundred copies of the JOURNAL in one minute. Notwithstanding the increase in size and circulation, the rates of subscription and advertising remain unchanged, or rather have, in some particulars, been reduced. The JOURNAL, daily, 66 per annum; three cents, single copy. Semi-weekly, \$3.50, in advance. Weekly, \$2.00, in advance. The BULLETIN, daily, 66 per annum; two cents, single copy. LIBERAL TERMS WITH NEWSDEALERS AND CLUBS.

Perfect Book-keeping vs. Defective Book-keeping.

A COMPLETE mastery of the science of Book-keeping is the crowning accomplishment of a business education.

It is through accounts, governed in their composition by correct principles, and scientifically rendered, that we reach intelligible, correct, and reliable results, in our book-keeping and in our business.

Governed by such principles, scientifically employed in planning and maturing a system of Book-keeping already published, submitted, approved, and adopted as a text-book by very many of the best accountants in this country, we claim to have produced a treatise on the science of Book-keeping, in the line of merit, far in advance of any treatise of the kind hitherto published.

Thus much as a prelude to the following discussion :

But to proceed : So fatally deficient in elementary governing principles are all other treatises on the theory and science of Book-keeping hitherto published ; and such are the undisguised gross violations of standard principles in recording various business transactions, which abound to a greater or less extent in all other treatises on this subject ; and so false to the facts in their several cases are certain records involving personal debit and credit, which records disgrace most treatises on the science of Book-keeping, inasmuch as one portion of these records represents virtually an abandonment of the valid personal claims they were designed to emphasize and protect, while the other portion of these questionable records represents the repudiation of the valid personal obligations they were designed to acknowledge and promulgate ; and

so false to standard principles of debit and credit are certain rules employed by these objectionable treatises to guide the student in his work, the legitimate application of which rules have no foundation in logical reasoning ; and so vague, obscure, and impracticable are certain processes employed by these objectionable treatises in their attempts to reach correct results, that we have been constrained to make the following statement of facts in the interest of education :

Scholfield's new scientific system of Book-keeping, recently published by the Author, under copyright, and taught in his Commercial College, is the only scientific system of Book-keeping taught in America which will bear the light of modern criticism.

This work exposes and avoids that false system of practice which debits a portion of one's available claims against others to himself, and credits a portion of one's irrevocable liabilities to himself ; thus debiting the creditor in the one case, and crediting the debtor in the other ; a system of practice either openly advocated or silently approved by all other treatises hitherto published on this subject.

Again : Such are the fallacies indulged in by all other treatises on the theory and science of Book-keeping in general use ; which treatises have misled Teachers, Students, and Practitioners alike in this much-abused science, that we have deemed it advisable to prepare and publish the following Axioms as a reliable standard by which the treatises of which we complain and the practices they engender may be correctly gauged, and exposed to the light of reason and sound logic, where their glaring absurdities and pernicious practices will be made to appear :

AXIOMS.

First. A debtor should never be credited for an obligation due from him to another.

Second. A creditor should never be debited for a claim held by him against another.

Third. A person should never be both debited and credited for the same thing in one transaction.

Fourth. An asset should never be treated, either in business or in Book-keeping, as a liability.

Fifth. A liability should never be treated, either in business or in Book-keeping, as an asset.

Sixth. Profit and Loss should never be debited when no loss, either direct or indirect, has been incurred.

Seventh. Profit and Loss should never be credited when no profit, either direct or indirect, has been realized.

Eighth. A person should never be debited in his personal account for his Note or Acceptance in favor of another, while such Note or Acceptance is held in the possession of the creditor.

In the face of these axioms, which prudence dictates and common sense approves, we find in the treatises of which we complain numerous solutions of practical transactions in direct violation of these axioms, as follows :

To debit, as these treatises do, the Interest account of the creditor in a record of the accrued interest on a Note or Bond when purchased from another, is to violate the second, fourth, and sixth axioms.

To credit Interest account in a record of the accrued interest on an assumed obligation in the form of a Note, when such obligation is assumed, is to violate the first, fifth, and seventh axioms.

To debit Interest account for any portion of one's assets on opening a set of Books in Double entry, is to violate the second, third, fourth, and sixth axioms.

To credit Interest account for any portion of one's liabilities on opening a set of Books in Double entry, is to violate the first, third, fifth, and seventh axioms.

To debit the payor's personal account for his protested Note, whilst such note is retained in the possession of the payee, is a violation of the eighth axiom.

Having thus criticised the prevailing, nevertheless very defective, systems of Book-keeping by other authors, it remains

for us to produce a better system, a system of Book-keeping governed in all its details, combinations, and results by correct principles; logical, intelligible, correct, and reliable.

Such a system, embraced in a treatise recently published by A. G. Scholfield, of Providence, R. I., entitled an *Essay on Debit and Credit*, can be had at the following prices :

OPINIONS OF THE PRESS.

Mr. ALBERT G. SCHOLFIELD, principal of the commercial college in Providence, bearing his name, has recently published an elementary and practical treatise on book-keeping, bearing the title of *An Essay on Debit and Credit*. This careful and exhaustive work on the science of accounts is based upon experience, and will bear the closest analysis and scrutiny. The object has been to elucidate a new and admirable method of detecting errors in single-entry book-keeping, to expose a common fallacy, and to illustrate the true method of opening a set of books in double entry. By a simplified classification of interest and premium, it avoids the fallacious entries of several popular works on book-keeping, which treat a debtor as a creditor and a creditor as a debtor, assets as liabilities and liabilities as assets. They both debit and credit profit and loss in the record of certain original transactions, when there has been neither gain nor loss, and they treat a person as both debtor and creditor, in one and the same transaction. This contradictory classification has puzzled the brains of all classes of persons, and this work will no doubt be hailed especially by accomplished accountants everywhere as bringing light out of darkness.—*Boston Daily Advertiser*, Oct. 23, 1881.

AN ESSAY ON DEBIT AND CREDIT, by A. G. SCHOLFIELD, is the title of a new treatise upon book-keeping, in which the author claims to have made great improvements upon the methods now in use for keeping accounts, both by single and double entry. The author is the principal of a commercial college in Providence, R. I., and his system appears to be well worthy the attention of all those who take pride in the accuracy of their records of business transactions and the facility of their explanations.—*Boston Herald*, Oct. 23, 1881.

AN ESSAY ON DEBIT AND CREDIT.—A new treatise on the science of accounts, modestly called an *Essay on Debit and Credit*, has been presented to us by the author, Mr. A. G. Scholfield, the founder of Scholfield's Commercial College, in Providence, R. I., and for thirty-five years its principal. This exhaustive work marks a new era in the science of accounts. It presents many important and invaluable features not known to the old system—the latter being so intricate and puzzling as to mislead young learners and old accountants alike. This essay will admirably serve the double purpose of simplifying many hitherto complicated things in the science of accounts, and transforming what in its study has heretofore been an irksome task into a pleasant pastime. It exposes the error fallen into by most, if not all other, treatises on book-keeping.

This essay also elucidates fully the duty of an administrator, a guardian, trustee, and a treasurer; thus these and many other features constrain us to pronounce it a work of great excellence and merit, an invaluable guide to the student, an indispensable companion to the accomplished accountant, and a desirable accessory to every well-ordered counting-room.—*Lowell Times*, June 7, 1881.

ESSAY ON DEBIT AND CREDIT.—Such is the modest title of an exhaustive and exceedingly meritorious treatise on the science of accounts, by Mr. A. G. SCHOLFIELD, of Providence, R. I. The author has not contented himself with walking in the old and beaten paths, but has marked out for himself a new and original one, often running directly across the track of his predecessors. In the old system the classifications of debits and credits have been so illogical and contradictory as to puzzle the brains of both the young learner and the old accountant. The author has done much in this work to aid in clearing away the rubbish usually surrounding this subject, and in presenting it in such a light as to be easily seen and perfectly comprehended.—*Lawrence Daily American*, Sept. 8, 1881.

DEBIT AND CREDIT.—An *Essay on Debit and Credit*, by A. G. SCHOLFIELD, of Providence, R. I., founder and proprietor of a commercial college bearing his name, has been brought to our notice. From a partial examination, we are led to the conclusion that it is a work of unusual merit. As a guide to beginners in the science of book-keeping, it will prove invaluable, and as a text-book and counting-house companion, indispensable.—*Lynn Daily Evening Item*, May 5, 1881.

AN ESSAY ON DEBIT AND CREDIT.—Anything that tends to make book-keeping a more simple art should be hailed with joy. The old systems were worse to follow or explain than a *Herald* war map, or a tangled skein of silk, and young book-keepers often despair of learning all the intricate, puzzling forms. An *Essay on Debit and Credit*, by A. G. SCHOLFIELD, has recently been published, that does much to clear the sight of students in book-keeping, and it can be read with profit by guardians, administrators, assignees, treasurers, and other keepers of accounts. It includes lucid illustrations of bills of sale, leases, co-partnership contracts, balance-sheets, account-current sheets, etc., and is a very desirable work for everybody to own as a help to defective memories, or deficient knowledge.—*Holyoke Transcript*, May 14, 1881.

A BRIEF HISTORY

OF

Scholfield's Commercial College.

THIS Institution was founded by its present Proprietor, Albert G. Scholfield, in June, 1846.

In the absence of suitable quarters, not to be found in the City of Providence, in which to locate such an Institution, it was located temporarily in the Mallett Building, on South Main Street, waiting the completion of a building in process of erection on Westminster Street, near the junction of

Westminster and Weybosset streets, to which (Jones Building) it was removed in April, 1847.

This was the first commercial school established in Rhode Island, and the patronage for its first year was secured by great exertions on the part of the principal, so skeptical were the citizens of the State in regard to the necessity for such a school and the advantages to accrue therefrom.

The primary object of this Institution was to cultivate a taste for Writing, and awaken a greater interest in the science of accounts. Hence, Writing and Book-keeping were the leading branches taught. For the first three years its patronage was drawn mainly from men in actual business, either as accountants or their employers.

It soon became apparent that it were wise to introduce other branches, the common and higher English department and Mechanical Drawing, which latter study has been almost exclusively confined to professional mechanics.

After three years' occupation of a suite of rooms in the Jones Building, and it having become apparent that a more favorable location could be obtained elsewhere, this Institution was removed, in the spring of 1850, from the Jones to the McNeal Building, No. 81 Westminster Street, where it thrived beyond all precedent, and maintained itself against all competition, near or remote. At this stage of progress, occupying, as we did at this time, seven large apartments, all of which were crowded to their utmost capacity, we were compelled, by the constantly increasing number of students, to seek more capacious quarters, which we did, in the Howard Building, to which this Institution was removed in July, 1866.

Whilst the accommodations for such an Institution, thus secured, were the best that could be obtained in this city at that time, and served our purpose better than the place from which we last moved, yet it did not meet all the requirements of an Educational Institution like ours. In the erection and completion of the Paris Building, so-called, on the corner of Westminster and Eddy streets, every desirable provision was made to meet the demands for a Mercantile and Commercial

School edifice, and in April, 1881, Scholfield's Commercial College was removed to this building, where it now occupies apartments in every way suited to the demands of the times. The patronage of the school has ranged since its establishment from Fifty to Five Hundred Students per annum. The Teachers have numbered from two to twelve, as occasion has demanded. During the Thirty-seven Years of its existence it has enjoyed a patronage of Eleven Thousand Students, and has graduated Three Thousand Four Hundred in the Business or Book-keeping course. In relation to the merits of this Institution, let its past history and the Eleven Thousand who have received instruction within its walls, answer. In relation to its future, we have only to say that never since this Institution was founded were we as well prepared to impart instruction in the various branches we advertise to teach, as we are to-day.

REMOVAL.

This Institution, recently removed to its present quarters, occupies the entire fourth story of the new Paris Building, No. 198 Westminster Street, embracing the Paris Hall, the dimensions of which are thirty-three by seventy-five feet, fifteen feet studded, and lighted by eight massive windows on the north. Connected with this splendored hall are five spacious and commodious rooms, two of which are each sixteen by twenty-four feet. The entire premises are heated by steam, and for light and ventilation are not excelled, if equaled, by any other Educational Institution in this city or State. These unsurpassed College Rooms are reached by a well-lighted and easy staircase, or by means of an elevator. The public are cordially invited to call and look through our premises.

PROVIDENCE STEAM AND GAS PIPE CO.

STEAM HEATING

— OF —

Public Buildings and Manufactories made a Specialty.

Where Manufactories are heated by *EXHAUST STEAM* a great saving in Fuel is effected where the Exhaust Steam is used without the excessive back pressure usually produced on the Engine. By our system we guarantee to *UTILIZE THE EXHAUST STEAM* with the highest degree of Economy, in a simple and inexpensive manner. *Abundant references given.*

GRINNELL SENSITIVE AUTOMATIC SPRINKLER.

The *AUTOMATIC SPRINKLER* has been practically proved to be the most efficient Fire Apparatus ever invented. The water is liberated by the effects of Heat. It concentrates all available water on the fire, thus securing *Greater Efficiency and Less Damage by Water* than any other apparatus. It has been subjected to *SIXTY* accidental fires, and worked with entire success, and is endorsed by all the Factory Mutual Insurance Companies of New England.

BUILDERS OF

COAL AND OIL GAS WORKS, AND GAS HOLDERS,

For Cities, Towns and Manufactories.

OUR PETROLEUM OIL & ROSIN GAS WORKS

Have been in successful operation for more than *TWENTY YEARS*, and we are now lighting upwards of One Hundred First-Class Manufactories, at less than one-third the cost of coal gas in cities, or at an average cost of less than *One Dollar a Burner a Year*, when running full time.

STEAM CARPET BEATING ESTABLISHMENT

117 SUMMER STREET,

ECONOMY! NEATNESS!! DESPATCH!!!

Old Carpets made to look nearly as GOOD as NEW by the use of the

PATENT CARPET BEATING MACHINE.

GREASE REMOVED BY A NEW PROCESS. SPECIAL RATES FOR RENOVATING.

By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, yet thoroughly expel all the Dust and Moths. The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

Orders sent by Mail, or otherwise to the Factory will receive prompt attention. Open every working day of the year. All Work Guaranteed.

PRICES FOR CLEANING CARPETS:

Ingrain and Three-Fly.....	5 cents per yard.
Brussels and Tapestry.....	6 " " "
Velvet and Aubusson.....	7 " " "

Providence Steam Trap Co.

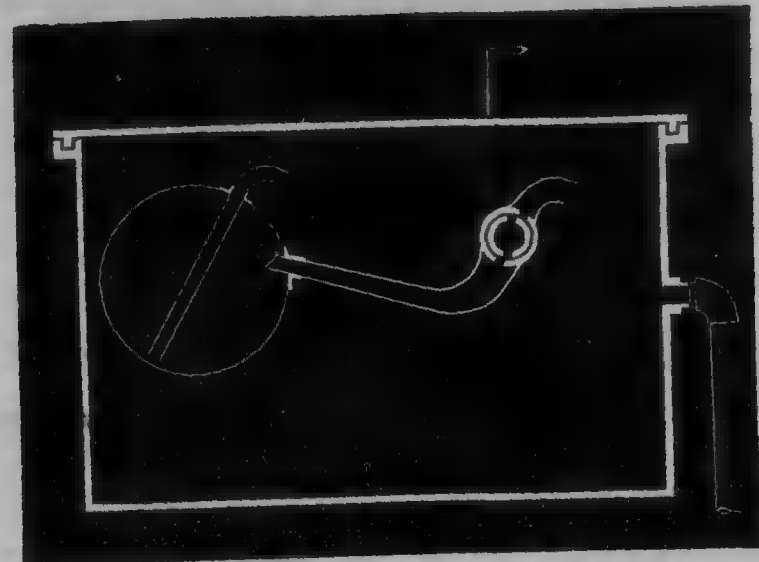

—MANUFACTURERS OF—

Newton's Patent Steam Trap,

Newton's Patent Oscillating Fire Bars, Newton's Patent Compensating Valve.

The Attention of Manufacturers and Steam Users in general is called to our

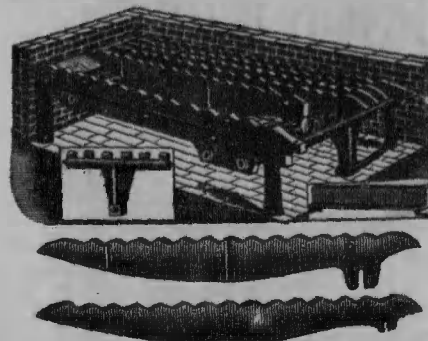

Steam Trap.

Steam Trap.

Which we claim to be superior to any other now in use, and to have a simplicity of construction which alone gives it an advantage over all others. It cannot get out of order as it always works to a face and will stand a pressure of 1 to 140 pounds and is adapted to conditions where much dry Steam is needed. We shall be glad to send one of these Traps to any one who may wish to try it, and it can be retained for 30 days and if not satisfactory, returned at our expense. We have sold our Traps to some of the largest mills in New England where they are working and giving perfect satisfaction. **References.**—Scott Cotton Mill, Lowell; Lawrence Mfg. Co., Lowell; Washington Mills, Lawrence; Manchester Print Works, Manchester, N. H.; S. H. Greene & Sons, River Point, R. I.; Providence Worsted Mills, Charles Fletcher, Proprietor, Providence, R. I.

The Patent Fire Bars,

Which are very much appreciated where they are used, will consume from 1 to 25 pounds of fuel per square foot per hour, and will not warp as they are free from expansion and contraction both transverse and longitudinal.

The following companies, &c., to whom we refer have them in successful operation:—Providence Worsted Mills, Charles Fletcher, Proprietor, Providence, R. I.; Lewiston Bleaching and Dyeing Co. Lewiston, Me.; Shove Mills, Fall River Mass.; Elizabeth Mills, Hill's Grove, R. I.; Augustus Chase, Fall River, Mass.; Durfee Mills, Fall River, Mass.; S. H. Greene & Sons, River Point, R. I.

We thank our patrons for past favors, and hope to be able to serve them as well, if not better in the future.

These hooks act on the same principle as pegging on the sole of the boot. The teeth taking the place of pegs, the belt is not weakened by punching holes, and the teeth taking hold in so many places, the strain comes more uniformly on the ends of the belt, which prevents tearing out the ends.

CONTRACTOR FOR

Artesian and Driven Wells,

Mechanics Exchange, Opp. P. O. Providence.

5 MARKET SQUARE, NEWPORT, R. I.

Having added to my outfit the best Steam Drill Rig in the Oil Region Market, I am better than ever prepared to furnish water, pure and plenty, by passing through salt water, or hard and bad surface water. Deep-driven wells have proved inexhaustible where all others have gone dry. They yield water free from contaminations. No fee is needed, and no water rent to pay. Three to four sets of skilled workmen constantly employed, whose experience aggregates 974 wells. Water pumped up FROM ANY DEPTH from surface in driven or drilled wells, by means of lower-working cylinders, put down with tools of my own invention.

I can refer to all of my patrons, a few of whom are DR. JOB KENYON, Warwick, R. I., and Hon. JAMES M. FENDLETON, Westerly, R. I., of the Board of State Charities and Corrections of Rhode Island.
