LETTERS

For many years we have experimented with various methods of producing letters which really look like typewritten copies.

To get your letter before a busy executive it must look exactly like one of his regular business messages.

The Kier Individualizing Press is a new invention and with it we are furnishing letters which are exactly like those written individually upon a typewriter.

Call and see this machine in operation or let us call and show you not only samples but proofs of what our letters are doing for others.

We offer a complete service including—Lists—Use of Lists—Addressing—Mailing—Copy Work.

MAILING LISTS

To get maximum results from any mail campaign you should use extreme care in getting your list of prospects.

Often we find it advisable to address from our own Master Lists instead of having a client go to the expense of buying the names.

No matter what your list requirements may be, it can do no harm to talk with us about them.

Remember we furnish both national and local lists.

We offer a complete service including—Lists—Use of Lists—Addressing—Mailing—Copy Work—and Letters which are exactly like Typewritten Copies.

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you.

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Thermostatic Radiator Traps—Packless Radiator Valves

THE Trap is simple, positive, self-cleaning. Consists of a body and cover with thermostatic disc secured in cover. Action positive, valve seats squarely like a globe valve (the tightest of all types). No loose parts, no sliding contacts, nothing to gum up or obstruct the liberal water opening. Parts are always interchangeable.

The roughing-in dimensions conform to standard adopted by Heating and Piping Contractors National Association.

Made in 5 sizes, and for steam pressures from 25 in. of vacuum to 25 lb. gauge pressure.

The valve is a bona fide quick opening packless radiator valve, not dependent on springs and packing rings. Dunham "built-up" bellows makes this possible. This built-up sectional construction admits of uniformity of thickness of metal throughout all corrugated parts, and provides for the in-and-out movement to take place from the flat of the metal instead of at the inside and outside edges.

Both lever handle and wheel handle models. Both types can be furnished with extension handles for operating valves when radiator is located in recess, behind grille, under window seat, or on ceiling.

DUNHAM VACUUM PUMPS

A reliable vacuum pump for handling both gases and liquids efficiently, as well as returning condensate to the boiler, completely assembled (including electrical equipment) as the factory and thoroughly tested before shipment. Ready to run when feed wiring is connected.

The unit includes a vacuum-producing element which easily produces a high vacuum. Operation of the pump is controlled by the Dunham Differential Controller, which is governed by the difference in pressure in the steam mains and radiators, and the return lines—a method not utilized in vacuum heating prior to the *Dunham Differential Vacuum Steam Heating System.*

Standard units in several sizes are built to discharge against a pressure of not more than 20 lb. at the pump. Special pumps are furnished to discharge against 35 lb. pressure at the pump.

How this Commission Yarn Dyeing Service Saves You Money

A FRANKLIN PACKAGE *of Dyed Yarn Will*

IF you have your yarn dyed in the wound Franklin Package form you eliminate skeins and chain warps with their attendant waste, also one winding operation in the case of warp yarn for weaving.

Franklin Process dyeing, using the pressure method, also effects superior penetration and the yarn, being wound at all times, remains unchanged in twist and is free from felting

The complete story of Franklin Process Commission Dyeing Service is told in our de luxe Book A. Write our nearest office and we will be glad to send you a copy.

Remember **more than one half of the money spent on advertising yearly,** goes for ads which are used for kindling purposes 48 hours after publication.

It is not so with Directory Ads

for they are bought to be used continuously throughout the entire year by the general public and business men alike.

Your ad is there on file, as in a ledger, indexed by the Classified Heading of the business in which you are engaged, and can be turned to immediately when wanted.
