Resolution Requesting the Governor and the General Assembly to create a Commission to conduct a properly funded empowered investigation of the safety, necessity and regulation of the State's LNG Facilities and the feasibility of safer alternatives and to take all measures necessary to ensure the public health, safety and welfare of all Citizens in the Metropolitan Region.

Whereas, The Algonquin Liquified Natural Gas ("LNG") facility ("Facility") at Fields Point, Providence, was constructed in the early 1970's, and

Whereas, The Facility's siting puts tens of thousands of people at risk in the Providence, East Providence, Cranston, Warwick and other Cities in the Metropolitan Area because of the extreme hazards of LNG, which are recognized in R.I.G.L. 39-1-2.1, and

Whereas, The Providence Fire Department in 1972 and in 1975 recommended major safety improvements to the existing Facility which have never been implemented, and

Whereas, A report to the Congress by the U.S. General Accounting Office in 1978 found that the Facility's dike is inadequate to contain a major spill and recommended that LNG facilities be built inground in remote areas, rather than aboveground in densely populated areas, and

Whereas, The technology and regulations for siting and constructing LNG facilities have advanced considerably since the early 1970's, and

Whereas, Serious concerns, founded on Government and Scientific Documents, have been raised about the safety necessity of the Facility, and

Whereas, The recent investigative report on the Facility of the Rhode Island Division of Public Utilities and Carriers has not resolved such concerns,

Whereas, The Providence City Council has an obligation to protect the health, safety and welfare of the Citizens of Providence,

Now, Therefore, Be it Resolved, That the Providence City Council does hereby request that the Governor and the General Assembly create a commission to conduct a properly funded and empowered public investigation of the safety, necessity and regulation of the State's LNG facilities and the feasibility of safer alternatives, and to take all measures necessary to ensure the public health, safety and welfare of all Citizens in the Metropolitan Region.

COUNCILMAN IGLIOZZI requests the Floor to Speak on a Point of Personal Privilege and states:

"I don't mean to interrupt the election, but I do want to say that I'm glad that we finally are at the end of this long road in the creation of the Juvenile Hearing Board. As you all know, I sheparded the bill through the State Legislature last year and through the City Council this year. However, the appointment process stalled and took an additional month to work out. So I'm glad to see that the last piece of this process is completed and that the Juvenile Hearing Board can begin its formidable work. As you all know, there have been plenty of statistics and information presented in other communities, such as East Greenwich, who already have such a Board, which is doing very well. Having been one of the sponsors of the Providence Legislation Ordinance, I feel equally hopeful of the

productivity of this Providence Juvenile Board. Also it is important to know that the members of this Board are all volunteers and even though they are all volunteers, there were an overwhelming number of candidates that came forward, but we could unfortunately not satify them all. But, perhaps in the future, we will. I thank you again for your time and I would like to thank all of you for your support on the Council with this very worthwhile Ordinance."

COUNCILMAN GLAVIN places in Nomination the name of Ruth Abreu Rosales, 31 Joslin Street, and Ann Marie Ritchie, 27 Ansel Avenue, to be appointed as Alternates to the Juvenile Hearing Board for a One (1) Year Term, expiring December 31, 1993.

back to the City Solicitor's Office that when we do contracts and it is negotiated in a timely fashion that they be transmitted to the City Council for review or ratification if it's deemed appropriate by the Courts, thank you."

PERSONAL PRIVILEGE

COUNCILMAN DeLUCA requests the Floor to Speak on a Point of Personal Privilege and states:

"Thank You Mr. President. I feel compelled to address the recent decision that was reached yesterday afternoon by the Providence Plan Housing Board which approved Phase I of a project called the Mandela Woods Project. All of you know I oppose the plan.

"I spoke before the Board yesterday but unfortunately, my concerns fell on deaf ears. I certainly support the revitalization of that particular area, but the costs of the styling of the housing and the non-ownership issue, bothers me a great deal.

"I object the Plan for three (3) basic reasons.

"1. A project type of situation like this does not work, reports show it and I understand some of the reasons why it hasn't worked but there are projects that do work probably because of good management.

"The 2nd reason is that the cost of the project is far too much; more than twice or three times that what it should be and I understand there

are some reasons why the expense would be higher than normal but this is way out of whack.

"The 3rd reason is that these are rental units — 136 rental units which are going to occupy mostly Section 8 and this was not the original intent.

"These are the reasons that I object.

"What is happening here is a crime, because City, State and Federal Tax Dollars are not being used wisely.

"Phase I of this project will cost a total of 20 Million Dollars and we will have 136 Condo Style Units. For 20 Million Dollars, we can fix up about 500 boarded up houses in South Providence and more and create 1,000 to 1,500 units and clean up 75% of the City's abandoned property problem.

"The real cost of these units . . . that's another question. They are saying it is going to cost \$114,000 per unit, however when you include the price of the land and include what they are leaving out, the site costs, cleaning of the site, etc., include the building of the Community Center, the whole bill — \$20 Million Dollars. Then, the price has

gone up to 150,000 per unit and that's quite expensive when the going market price for a Condo Style Building is anywhere between \$35 to maybe, \$60,000 if you want more. There is quite a discrepancy in the price from \$35 to \$150,000.

"For \$100,000 you can build a three (3) bedroom raised ranch in Western Cranston. For \$94,000 you can build a three (3) bedroom ranch in South Kingston, minus the waterfront view. For

\$7,000,000.00 you can build 136 raised ranches in empty lots in Providence and your mortgage including taxes and insurance would be around \$360.00.

"How can we justify \$145,000 per unit in South Providence? It does not make sense. Thank you."

COUNCILMAN IGLIOZZI requests to Speak on a Point of Personal Privilege and states:

"Mr. President, I would like to speak on the issue of Mandela Woods. What I've done is reflect, like every single person on this Council reflects whenever they consider any issue before it, and made a short list of my analysis. I think when you hear this mental process, all of you will basically follow the same decision making process whenever you consider any issue of a like nature.

"Whenever I try to come to a decision I always begin by saying number one, is the idea a good public policy? I think that every single one of us in this room can say that all good ideas are always based on good public policy. For example, the Constitution of the United States was based on good Public Policy. The next question I look at whenever I reflect on a political decision, is whether or not it is legal. What is the legal impact? The next question I ask is what is the impact financially on the constituents and taxpayers of the City of Providence? The last question I ask is a very pragmatic question. Whose interest is being served and who is going to benefit from it and what is the quickest and most efficient way to achieve the goal?

"If I have positive answers to all of the above questions that I've just outlined, I always feel confident that I'm on solid ground and I can stand

firm. I feel that the public perception will always bear me out.

"I know there have been some allegations of racism and I'm not here to defend myself because anyone who knows me, knows that I'm not a racist. What I am here to say is that we met on this issue of Mandela Woods and I asked the first question of whether or not it was good public policy. Then I thought of the Providence Plan and I reflected on the fact that the Providence Plan was created not to be an instrument to fund old programs, because if that was the case, we all have tables full of old programs that we have been working on for years. In fact, the Providence Plan was a commitment by all of us to put aside our personal programs in order to benefit the entire city in the most efficient way and for that reason it was good public policy.

"As a result, we all went out two years ago, having public meeting after public meeting telling our constituents time and time again, that the Providence Plan was our opportunity to save our neighborhoods, to save the taxpayers and to ultimately save the owner-occupied homeowner in the City of Providence.

"So, when I say that I did not like the public policy behind Mandela Woods, it is only for this one reason. If Mandela Woods was the fourth or fifth project out of the Providence Plan, I assume I would have no problem. But, instead, it was the

first plan presented after we funded the Providence Plan for a completely different purpose.

"Now, we must go out to our constituents over the next few months and tell them that the Providence Plan is not going to be accomplishing the goals that we set out but rather, the Providence Plan will be focusing on a housing project called Mandela Woods. Therefore, the public policy fails and that concerns me.

"The question with regard to legality of Mandela Woods is of no real concern because Mandela Woods is legally sound under the Providence Plan Corporation Authority. This particular analysis has no real affect. However, the spirit of the Ordinance which gave legal authority to the Providence Corporation, clearly did not presume that Mandela Woods would be the first project to be funded out of the Providence Plan.

"Turning to my next question, the financial impact of this decision. Let me give you an example. If the Providence Plan were to give me One Million Dollars to solve the problems in my neighborhood, I guarantee that my neighborhood would have substantial improvement within six months. However, with regard to Mandela Woods, we are spending Twenty Million Dollars not in the entire city, but in one specific Ward and for that reason the financial impact affecting only one Ward, rather than the entire City, concerns me a great deal.

"The next question is the pragmatic affect of this decision. I can appreciate a Councilman fighting for his project in his Ward and I wish him the best of luck with that project and I hope that he proves us wrong and that Mandela Woods is a complete success. But, I believe that all the Federal Statistics have shown that this kind of project will fail. That scattered housing is the better way to provide affordable housing to those needy people in the City of Providence. For that reason, I don't think that pragmatically, it is the best way to solve the affordable housing problem nor the owner-occupied difficulty that we are facing.

"So, ultimately, I do not believe that we are on very firm ground perceptually to the public. I believe the perception of this project will ultimately be bad and that the Council will have a difficult time justifying this project.

"I would never vote against another Council Person's project whether it was for One Million Dollars or Twenty Million Dollars because I believe that we must all stand together. However, when every single one of the questions in my analysis fails to produce a positive public policy result, I believe that the perception will be bad to the public and ultimately we will have to explain ourselves to the taxpayers which will be impossible and for that I believe that we owe the taxpayers of the City of Providence an apology.

"Mr. President, thank you for this opportunity to speak."
