Dear Councilman Petrosinelli:

This department received a copy of a Petition for the abandonment of a portion of East Drive located between Middle Street and General Street in the City of Providence.

The Water Supply Board has a 6" A.C. water main, three water-supply services, and two hydrants in the portion of East Drive to be abandoned. This main cannot be abandoned. The Water Supply Board shall require full-street width easement from curb to curb. The easement should contain a clause that no obstructions, landscaping, or improvements shall occur within the easement area to insure that maintenance and repair to the water main can be effectively accomplished.

Re: Referral No. 2207 - Abandonment of East Drive between Middle Drive  
and General Street

Gentlemen:

The City Plan Commission at its January 21, 1987 regular monthly meeting reviewed and evaluated the subject referral from your Committee.

The petitioner is the Harrowhills Limited Partnership presented by its attorney, Mr. John Garrahy of Edwards and Angell Law Firm at 2700 Hospital Trust Tower, Providence, Rhode Island.

A field inspection revealed that East Drive is a two lane paved public street located within a housing project being recently renovated by the petitioner. The upper portion of the former Valley View Housing Project being recently renovated requires additional parking spaces according to the petitioner. The existing number of parking spaces within the renovated area amounts to 106 parking spaces. The developer is planning to provide an additional 89 parking spaces including 22 spaces to be directly located on East Drive reducing this two-lane street to a one-lane, one-way driveway.

The major reason for a proposed abandonment is the establishment of legal overnight parking on East Drive for the tenants.

According to the field observation a renovation of existing structures comprises conversion of larger 3 bedroom apartments into smaller apartment units, thus increasing a need for additional parking spaces.

East Drive, as a regular public street, contains underground utilities and the City is obliged to provide regular maintenance such as snowplowing, surface repair etc.

The Commission voted to advise the Committee on Public Works that no objection is offered to this petition under the following conditions:

Referral No. 2207

- The Police and Fire Departments agree to this abandonment
- The City Traffic Engineer consents to it
- That appropriate easement be retained for water, sewer and other utilities
- That the property owner post clearly that this is not a public street

Dear Mr. Clement:

In researching the Department of Public Parks site maps and records, our conclusion is that the proposed abandonments of the above-captioned streets or portions of same, will in no way conflict with any Parks Department facility or future plans for the areas.

Therefore, the Department of Public Parks has no objection to the proposed abandonments.

Re: Harrowhills Limited Partnership/  
Abandonment of East Drive

Dear City Clerk:

On December 16, 1986, I submitted a petition on behalf of Harrowhills Limited Partnership requesting that the City Council abandon that certain public way known as East Drive which is located between Middle Street and General Street in the City of Providence. I understand that as part of the process of reviewing the petition each city department which may have an interest in the abandonment is asked whether they have any objections to the proposed abandonment. I would request that this letter explaining the petition be included in your file for the above-referenced matter.

Harrowhills Limited Partnership ("Harrowhills") recently acquired a portion of the former Valley View apartment complex located off Admiral Street in the City of Providence. Harrowhills has already begun making extensive repairs and renovations to the complex to improve its appearance and to make the apartments an asset to the neighborhood and to the city. It is anticipated that some of the apartments will be ready for occupancy beginning March 1, 1987. This project will provide much needed two and three bedroom housing for city residents.

Harrowhills has requested that East Drive be abandoned to enable it to more safely and efficiently manage the entire apartment complex.

One of Harrowhills concerns is being able to provide its residents with sufficient parking spaces. As originally

developed, the complex did not provide for one parking space per unit. While this may have been sufficient in the 1950's, today many units will have tenants which have more than one automobile. Harrowhills has developed a plan to gain additional parking spaces from the existing available land, however, it is important that the complex be developed in a safe and aesthetic manner. It is not desirable for either the residents or the neighborhood to transform all available green space into blacktop. The abandonment of East Drive will not only provide some additional parking, but also enable Harrowhill to make better use of the available space for parking and landscaping.

Another concern of Harrowhills is the safety of the residents of the complex. While the street must remain an open private way, the posting of signs indicating that it is not a public street and the appearance of a private street will tend to reduce the amount of traffic using the street as a cut-thru between Admiral Street and Douglas Avenue. This will result in less danger to the residents from potentially speeding automobiles.

It is the intention of Harrowhills to continue to provide access to public safety vehicles and in no event will the street be blocked to prevent access to such vehicles. In addition, because the street is encumbered with water lines, sewer lines, gas lines, fire hydrants, street lights and other utilities, Harrowhills will provide easements and other instruments to appropriate entities to ensure the continued operation and maintenance of such utilities.

Because of the nature of this petition, the City effectively becomes the beneficiary of the abandonment. The City is relieved of the burden and cost of street maintenance, snow plowing, etc. without denying the residents of East Drive, the use of a properly maintained street. In addition, the land would be returned to the tax rolls.

We look forward to discussing this proposal before Public Works Committee of the City Council and with any other interested parties.

Very truly yours,

Dear Chairman Petrosinelli:

This department had previously written to the Committee stating its objection to the proposed abandonment of East Drive. Since that letter, we have reviewed the plans of the abutters and have also reviewed a letter from the abutters' attorney dated January 23, 1987 which indicates the proposed use of the street.

Since the street will remain a private right-of-way and because easements will be granted for the maintenance of utilities on and under the street and in addition to the abutters accepting full responsibility and/or liability for maintenance of facilities, excluding the utilities, we hereby withdraw our objection to the abandonment of East Drive.
