Whereas, In the death of City Solicitor Nicholas Van Slyck, Esquire, who has for more than seventeen years filled that office with distinguished ability, the public service has sustained a great loss. He has been uniformly careful in guarding the interests of the city, and considerate of those to whom consideration was due, wise and firm in counsel, prudent in avoiding controversy, skillful in conducting litigation, and courteous, friendly and just to all; that, notwithstanding his extensive legal practice, which he has honorably and successfully conducted, he has found time to discharge his duties to the public in various positions of trust and confidence, and to render most valuable aid in the great work of public education;

City Solicitor.

Nicholas Van Slyck.

that in every relation of life he has proved himself the faithful officer, the useful citizen and the possessor of those traits and characteristics which constitute the good and true man; Therefore be it

Resolved Unanimously that the City Council offers to the family of the deceased its profound and respectful sympathy in their great loss, and that a copy of these resolutions be transmitted to them, duly certified by the Mayor and City Clerk.

Communication.

City of Providence.
City Solicitor's Office,
March 16, 1892.

To the Honorable the City Council of the City of Providence:

I am in receipt of a copy of joint resolution of the City Council No. 106, approved March 11, 1892, directing the City Solicitor to apply to the General Assembly for the amendment of Section 9 of Chapter 7 of the Public Statutes, or so to extend the time for the City Clerk to return certified lists of registry voters to the clerks of the boards of canvassers of the several wards from the third Saturday in January in each year to the first day in February in each year.

Section 19 of Chapter 735 of the Public Laws (January Session, 1889), expressly repeals Chapter 7 of the Public Statutes and all acts in amendment thereof and in addition thereto, and I am not aware any statute now in force which requires the City Clerk to return certified lists of registry voters to the clerks of the boards of canvassers in the several wards at any time.

Under these circumstances I consider it proper to ask further instructions before making application to the General Assembly.

Very respectfully,

C. M. Van Slyck,
Assistant City Solicitor.

Report of the Joint Special Committee on the Widening of Elmwood Avenue.

Report.

To the Honorable the City Council of the City of Providence:

Widening Elmwood Avenue.

The joint special committee, who were appointed by resolution No. 898, approved June 24, 1891, "to confer with the owners of real estate on Elmwood avenue, with a view of widening said avenue, from Lexington avenue to Roger Williams Park to a width uniform with that of Greenwich street," respectfully beg leave to report:

That pursuant to the instructions contained in said resolution, your committee have given the matter careful consideration, have examined the thorough-

Report.

fare named, and have given several public hearings thereon. The unanimous sentiment manifested at these hearings was that the widening of this highway would prove of inestimable advantage to the city, and, with but two exceptions, the abutting owners were earnestly in favor of carrying out the project contemplated by the resolution. At the outset, however, your committee met with some opposition in their conference with the several owners of estates on Elmwood avenue, in arriving at an agreement as to the terms and conditions upon which they would deed to the city sufficient land to widen the avenue so as to conform with Greenwich street. These objections your committee have removed, and have succeeded in obtaining from all but two of the property holders on this avenue an agreement that they will deed to the city, for highway purposes a strip of land ten feet in depth, on either side of said avenue, provided the city council will remit the assessments for benefit by the widening of Greenwich street (upon the parties assessed), and, also, provided that the city will exempt said owners from assessments for curbing in front of their several estates, and that the city will keep the front of the said estates on said avenue in as good condition as they now are. The conditions named in the agreement obtained by your committee from abutting owners are deemed to be fair and equitable, and will undoubtedly meet the approval of the city council.

Widening Elmwood Avenue.

Your committee are convinced that the widening of this avenue will prove a most desirable improvement, continuing, as it will, the present Greenwich street boulevard through to Roger Williams Park and furnishing, when completed, one of the most picturesque driveways in the city. The cost of this new boulevard to the Park will be about $20,682.01, which, when it is considered that all but two of the abutting owners have agreed to give their land, your committee believe to be a reasonable outlay, when the benefits that must accrue are taken into consideration. Your committee, therefore, unanimously recommend that this improvement should be made, and whenever that portion where the committee have failed to agree, that the street be laid out under the highway act, and the price thereon be fixed by a committee appointed therefor in the usual manner by the board of aldermen.

Your committee, therefore, submit the following resolutions, and recommend their passage.

Respectfully submitted,

For the committee,

George E. Barton,
Chairman.

Sidewalks
Wayne St.

Resolved. And it is hereby ordered and directed, that the sidewalks on Wayne street, from Douglas avenue to Candace, in the City of Providence, shall be altered and improved by omitting the same from said Douglas avenue to said Candace street, so that said sidewalks for their whole length, as aforesaid, shall be the width as occupied, three-eighths of an inch rise per foot from the inside of the curb to the street line, except modification necessary to suit the excavation line and shall be otherwise constructed in manner and of materials as follows, viz:

All material above said grade shall be excavated and removed. Sand and or gravel shall be used for filling whenever it may be required.

The foundation shall be composed of clean, coarse gravel, properly crated with tar, and shall not be less than two inches in depth, after being rolled and thoroughly compacted.

The top of the foundation shall be brought to a smooth surface by the addition of fine pebble completely coated with tar and thoroughly rolled.

The top dressing shall consist of clean, sharp sand, thoroughly saturated with tar, and applied in a layer of such thickness, that, after being rolled and compacted, it will not be less than an inch in depth. The total depth of walk when finished shall not be less than three inches.

Wayne St.

The quality of the tar used shall be equal in all respects to that made by the Providence Gas Company. The gravel and sand shall be thoroughly dry before coating or saturating the same with tar.

Concreting.

Said alteration and improvement of said sidewalks shall be completed within six weeks from the time of the passage hereof.

And it is hereby further resolved, ordered and directed, that notices of the aforegoing resolution, order and direction, required to be given, and the publication of the aforegoing required to be made, shall be given or made, as the case may be, in manner and as required by law.

To the Honorable the City Council of the City of Providence:

The joint standing committee on police report that in accordance with City Council resolution No. 78, adopted January 22, 1892 the ambulance branch of the police department has been transferred to the Rhode Island Hospital. The ambulances, horses, harnesses and equipments have been bought and and turned over to the hospital authorities, and the city auditor holds their receipt for the same.

This transfer will relieve the police department from a service for which it was not specially prepared, and will insure a more humane and intelligent care of those who by accident or misfortune are in need of immediate assistance.

Under city council resolution No. 81, approved January 6, 1892, $2,500 was appropriated for the purchase of this ambulance equipment, of which sum $2,404.56 has been expended, leaving a balance of $95.44.

Respectfully submitted,
Joseph H. Kendrick,
Chairman.

Report. To the Honorable the City Council of the City of Providence:

Police Signal System. The joint standing committee on police beg leave to report that in accordance with city council resolution No. 588, passed September 19, 1891, appropriating $1,400, and also resolution No. 660, passed October 10, 1891, appropriating $1,000 additional for the purpose of extending the police signal service in the second and eighth districts, that they gave the matter early attention, and after visiting several towns and cities where both the Municipal and Gamewell systems were in use, this committee were of the opinion that the Gamewell Company's equipment promised the best service to the city. Their factory at Newton Upper Falls was visited, and their instruments were found to be most complete. The finished product, both in quality of material and perfection of workmanship, satisfied the committee that this company were in a position to do first-class work.

The Municipal and Gamewell Companies were both invited to bid on the contract, and both responded. On opening the bids it was found that the Gamewell Company were the lowest bidders by about $600, and the contract was awarded them by a unanimous vote of the committee.

The work has been completed and the system has been in successful operation for some three months

Electric Lights.

Narragansett Electric Lighting Co.

Whereas, in the opinion of the city council it is desirable that the city have a larger number of electric lights for street lighting, provided the same can be obtained at a just and equitable reduction from the present price.

And Whereas, under the terms of the act entitled "An act concerning the Narragansett Electric Lighting Company," passed at the January session of the General Assembly, 1892, no provision is made for fixing any lower or different price for lights than is now paid until the expiration of the present contract.

And Whereas, at the suggestion of the joint

special committee relative to establishing an electric light plant by the City of Providence, said Narragansett Electric Lighting Company has signified its willingness to cancel its existing contract and to enter into a new arrangement for furnishing not less than thirteen hundred arc lights of the same quality and candle power as those now furnished, at a price to be fixed by arbitration for a period equal to the unexpired term of said present contract, and the further term of three years thereafter;

And Whereas, arbitration would seem to be the fair and fairest method of determining what reduction from the present price for electric lights is just and equitable;

Now Therefore it is hereby resolved by the city council of the City of Providence as follows, viz.:

That a joint special committee consisting of Messrs. Barney, Jacob H. Kendrick, and Mc Carthy of the common council, and aldermen Ballou, Fuller and Thiet be and they hereby are appointed to confer with the said Narragansett Electric Lighting Company, and to report, subject to the approval of the city council, the terms and form of a new contract between the city and said Narragansett Electric Lighting Company, providing for the cancellation of the existing contract between the city and said company, and for the furnishing of not less than thirteen hundred electric arc lights, of the same quality and candle power as those now furnished the city by said company for a period equal to the unexpired term of the present contract, and for a further term of three years thereafter, at a price to be fixed by arbitration, said contract to contain and embody all the reservations, conditions and provisos, for preserving and protecting the rights of the city, set forth and contained in an act entitled "An Act concerning the Narragansett Electric Lighting Company," passed at the January session of the General Assembly, 1892.

Report — Mayor's Portrait

To the Honorable the City Council of the City of Providence:

The joint special committee appointed by resolution No. 28, passed January 4, 1892, to wait upon his honor, Mayor Potter, and request him to sit for his portrait, respectfully report:

That they have discharged the duties assigned them by the city council, and have secured for the City of Providence an admirable portrait of the present mayor of the city. Your committee have caused the portrait to be suitably framed, and placed in the chamber of the common council. Your committee desire to express their high appreciation of the work executed by the artist, Mr. John W. Arnold, for he has not only succeeded in producing a wonderfully lifelike portrait of his honor the mayor, but has also contributed to the city's gallery a genuine work of art that cannot fail to call forth the recognition its excellence merits.

Canal St. & North Main St. Concreting

Resolved,

And it is hereby ordered and directed that the sidewalks on the east side of Canal street and on the west side of North Main street, from Steeple street to Elizabeth street, in the City of Providence, shall be altered and improved by concreting the same from said Steeple street to said Elizabeth street, or that said sidewalks, for their whole length, as aforesaid, shall be the width as occupied, three-eighths of an inch rise per foot from the inside of the curb to the street line, except modification necessary to meet the occupation line, and shall be otherwise constructed in manner and of materials as follows, viz.:

All material above said grade shall be separated and removed. Good sand or gravel shall be used for filling wherever it may be required.

The foundation shall be composed of clean, coarse gravel, properly crated with tar, and shall not be less than two inches in depth, after being rolled and thoroughly compacted.

The top of the foundation shall be brought to a smooth surface by the addition of fine pebble completely coated with tar and thoroughly rolled.

The top dressing shall consist of clean, sharp sand, thoroughly saturated with tar, and applied in a layer of such thickness that, after being rolled and compacted, it will not be less than one inch in depth. The total depth of walk when finished shall not be less than three inches.

The quality of the tar used shall be equal in all respects to that made by the Providence Gas Company. The gravel and sand shall be thoroughly dry before crating or saturating the same with tar.

Said alteration and improvement of said sidewalks shall be completed within six weeks from the time of the passage hereof.

And it is hereby further resolved, ordered and directed, that the notice of the aforegoing resolution, order

and direction, required to be given, and the publication of the aforegoing required to be made, shall be given or made, as the case may be, in manner and as required by law.

Proclamation of Governor

State of Rhode Island and Providence Plantations.

Proclamation.

By His Excellency D. Russell Brown, Governor.

Whereas, By an act of the General Assembly of this state, passed at its May session, A. D. 1892, the twenty-first day of October of this year is made a legal holiday, in commemoration of the four hundredth anniversary of the discovery of America by Columbus; and

Whereas, The President of the United States, acting under the authority of the Congress thereof, has issued a proclamation recommending the observance of that day by public demonstration and by suitable exercises in the schools and other places of assembly throughout the land;

America.

Now, Therefore, I, D. Russell Brown, Governor of the State of Rhode Island and Providence Plantations, do hereby recommend and request the people of our state to observe the said twenty-first day of October, 1892, as a general holiday.

This four hundredth anniversary of the unveiling of a new continent is an occasion deserving of national recognition, and it cannot be more worthily observed than by complete cessation from our daily vocations. Let our citizens make a special effort to close their offices, factories and shops on that day, so that all who labor may have an opportunity to join in the celebration, and let the authorities of our cities and towns arrange appropriate programmes of entertainment and instruction for the per-

ple.

Proclamation of Governor.

This day and its associations present a most opportune occasion for impressing lessons of courage, perseverance and loyalty upon the rising generation, therefore let our school-houses re-echo with patriotic epochs and songs, while above them float our nation's flag.

It is also meet that in the joyful exercises of the day we should gratefully remember the Divine guidance that has marked the epoch since Columbus first heard the unexplored ocean, and that has blessed and protected the development of our republic.

In testimony whereof, I have hereunto set my hand and caused the seal of the State to be affixed at Providence, this twentieth day of August, in the year of our Lord one thousand eight hundred and ninety-two, and of independence the one hundred and seventeenth.

[L.S.]

D. Russell Brown.

Report.

Improved Sewerage System.

Report.

To the Honorable the City Council of the City of Providence:

The Joint Committee on sewers to whom was referred a communication of the commissioner of public works relative to an additional appropriation for continuing work on the Improved Sewerage System, with authority to report to either branch of the city council, respectfully report:

That they have carefully examined the reports of the department of public works showing the amount of work completed, and in process of construction upon the Improved Sewerage System, pursuant to the directions of the city council, together with the expenditures therefor. The building of a new sewerage system in Providence has been watched with deep interest by a large number of our citizens, and an imperative demand continues from all sections for better sewer accommodations. The recent epidemics that have alarmed some of the larger cities, and the threatened outbreak of the cholera, have aroused the public to a realizing sence of the danger that confronts them, for it is generally conceded that bad drainage and defective sanitary surroundings are the principal causes of a great proportion of the mortality in large cities. It is therefore of the utmost importance that the improved sewerage system should be pushed forward with all possible speed.

Your committee are aware that considerable time has elapsed since the commissioner of public works was directed to construct the new sewer system, but it must be borne in mind that it was a very great undertaking; but notwithstanding the obstacles encountered, a good portion of the system has already been built and is now in successful operation.

Your committee believe that the plan of the commissioner in not attempting to construct the whole system at one time was both wise and prudent, and has resulted in saving the city many thousands of dollars. It is now evident, however, that the commissioner of public works is prepared to take hold of and complete the balance of the system to better advantage than could have been attained had it been decided to construct the Elmwood division and the Allen's avenue line at one and the same time.

The discharge of the city's sewage into the river flowing through the heart of the city has caused an intolerable nuisance which should be abated at the earliest possible date, and this can only be accomplished by the immediate

instruction of the sewers herewith recommended, then all of the sewerage of the west side will be removed from the streams in the centre of the city, and we shall be relieved from the unbearable stench that has afflicted our citizens for so long a time. Necessarily the main trunk sewers must first be completed, but it is especially important that the section through Valley, Promenade, Steeple, Core and Dorrance streets, should be commenced at once, & as not to impede the progress of the work of the railroad companies in the improvement of the railway terminal facilities of this city. The right of way should also be speedily obtained for the building of the proposed line through from the end of Dorrance street to Allens avenue. Your committee having given these matters appropriate consideration unanimously recommend the passage of the accompanying resolution making the necessary appropriation of $1,500,000 to complete the improved sewerage system, as already ordered by the city council, and also the passage of the accompanying resolutions ordering sewers to be constructed in the above named streets.

Fourth of July Celebration

Report.

To the Honorable the City Council of the City of Providence:

The Joint Special Committee upon the Fourth of July Celebration respectfully report:

That in attending to the duties assigned them, they endeavored to furnish entertainment for the people in a manner satisfactory to all.

The amount appropriated by the City Council was four thousand dollars, and the amount expended, as per vouchers on file with the City Auditor, was three thousand, eight hundred and eighty-eight dollars and eighty cents, leaving an unexpended balance of one hundred and eleven dollars and twenty cents.

That the celebration was eminently successful and very satisfactory to the citizens, was in a great measure due to the hearty co-operation of the several persons who aided the Committee in carrying out the details of the program.

Report

Report

To the Honorable the City Council of the City of Providence:

The committee of conference appointed by the Board of Aldermen, and the committee of conference appointed by the Common Council on December 5, 1892, to take into consideration the appointment of an arbitrator on behalf of the City of Providence for the purpose of fixing the price to be paid by the city for electric lights in accordance with the provisions of the contract with the Narragansett Electric Lighting Company for furnishing electric lights, dated October 29, 1892, respectfully report:

Appointment of an Arbitrator

That immediately after their appointment the committees of the two branches organized and have held a number of conferences at which they have fully considered the respective merits and essential qualifications required of a "disinterested person as arbitrator" to represent the City of Providence in determining the price to be paid for electric lights. The qualifications of the several gentlemen who were referred to at the informal caucus of the City Council held on December 5th, were given appropriate consideration, and due attention was accorded to the opinions expressed by the representatives of the tax-payers at that meeting. It was agreed, however, at the outset that it would be for the best interests of the city to select one of our own citizens to discharge the important duties of arbitrator under the contract; providing a gentleman fully qualified in the broadest sense of the term could be found who would accept of responsible a trust.

Electric Lights.

Having thoroughly inquired into the subject and having made a careful review of the attainments possessed by each of the various persons whose names were considered in connection with this office, the committees of the two branches are unanimous in presenting for the consideration of the City Council the name of your fellow-citizen, Mr. Gardiner C. Sims, believing that he is pre-eminently qualified to represent the City of Providence as an arbitrator

in determining the price to be paid for electric lights.

Your Committee, therefore, unanimously recommend the appointment of Mr Sims as arbitrator on the part of the City of Providence under said contract with the Narragansett Electric Lighting Company.

Respectfully submitted,
H. B. Winship,
Chairman of Committee of Conference on the part of the Board of Aldermen.
Joseph H. Kendrick,
Chairman of the Committee of Conference on the part of the Common Council.

Read whereupon it is ordered, that the same be received.

Whereas,

An agreement has been heretofore made by all the owners of all the lots abutting on what is now called Elton street on the "Moses Brown Farm plat replatted August, 1891, by Charles E. Paine," recorded in the land record office of the City of Providence, Rhode Island, in plat book 19, page 19, and on plat card 640 to the effect that said owners would convey to the City of Providence for

Elton St.

Sewer Assessment

the purpose of a public highway, a tract of land, now Elton street, then private land, running from Wayland Avenue as said Avenue appears on said plat, easterly to Butler Avenue as said Avenue appears on said plat, if the city would construct a trunk sewer through said Elton Street from said Wayland Avenue to said Butler Avenue, and continue said trunk sewer to the Seekonk River, and whereas such deed was made to the City of Providence, to be held in escrow by Nicholas Van Slyck, Esq., late City Solicitor of said City, and not to be recorded until after the completion of said trunk sewer, for the purpose of securing the City of Providence against any claim on account of constructing said sewer through private land, and of securing the owners of said land, and said land from all liability to assessment on account of the construction of said sewer until each of the lots abutting on said street shall be connected with said sewer and whereas without knowledge of said agreement and that said deed was to be held in escrow as and for the purposes aforesaid, and was not to be recorded until the construction of said sewer, said deed was placed on record before the said sewer was completed and at such a time that contrary to said agreement and to the purpose for which said deed was held in escrow, the lots now abutting on said Elton street became liable to assessment for said sewer, and whereas the city is desirous to rectify said mistake, and not willing to take advantage thereof, and whereas there is to be a delivery to the said City of Providence by the owners of said lots, of an agreement that in consideration that the City of Providence will delay and postpone the collection of the sewer assessment for such sewer through Elton street upon said several lots abutting on said street until each of said lots respectively shall from time to time connect with said sewer.

The owners of said lots, shall respectively agree for

themselves and their several heirs and assigns, such covenant to run with the land, that the several owners of said several lots shall and will pay the said sewer assessment without interest on said respective lots, whenever upon application to enter said sewer permission to enter the same as to said lots is given to the respective owners thereof, said agreement containing also a stipulation that the lien on said lots respectively in consideration of said postponement, shall continue by such agreement and be extended as to each of said lots until said sewer assessment against each of said lots or the several owners thereof shall be paid; it being expressly understood and agreed, however, that as soon as the assessment on each lot shall be paid, said lot shall be forever discharged from further liability.

Provided, however, that if, at any time after the date of the passage of the within resolution, any owner of two or more adjoining lots shall connect or cause to be connected one of such adjoining lots with said sewer, then and thereupon when said one lot or adjoining shall be connected with said sewer, the other or others of said adjoining lots or belonging to such owner, shall be liable for the payment of the said assessment for the construction of said sewer in the same manner, and at the same time as said lot or immediately connected with said sewer shall be, under the provisions hereof.

Now therefore resolved for the considerations aforesaid that the City of Providence will and does hereby postpone and delay, and agree to postpone and delay the collection of the said sewer assessment upon each of said lots respectively according to the terms of said last mentioned agreement, and does hereby authorize and direct that the collection thereof on each of said lots respectively shall be postponed and delayed in accordance with said agreement until application to enter said sewer by the respective owners of said lots respectively shall be made and permission to enter said sewer as to said lots shall be given, and that then and thereupon said respective assessments shall be due and payable

without interest.

Provided that the within resolution shall take effect from and after the time that said agreement to be given the city, shall be executed and delivered to the city by said parties.

Message Closing City Hall.

Message of the Mayor in Relation to the Closing of the City Hall on Saturdays During the Months of July and August at 12 M.

City of Providence,
Executive Department, City Hall.
July 10, 1893.

Gentlemen of the City Council:

Having been requested by many of the clerks employed in the several departments in the City Hall, to close the building Saturdays at 12 M. through the the months of July and August, so that they may enjoy the pleasure of a full half-holiday through the warmest of the summer months:

In compliance with their request, being heartily in sympathy with any movement looking towards the shortening of the hours of labor, and feeling that a few less hours for the clerks, for two months of the year, will not be detrimental to the City's interest in the several departments; recommend that you take such action in amendment of the ordinance as will permit of the closing of the City Hall as requested.

Respectfully,
William K. Potter, Mayor.

Repair Sidewalks on Congdon St. & Warren St.

Resolved, And it is hereby ordered and directed, that the sidewalks on the following streets, viz.: Congdon street from Jenckes street to Halsey street, and Warren street from about 150 feet north of Fuller street to about 150 feet south of Fuller street, shall be altered and improved by concreting the same or that said sidewalks for their whole length as aforesaid, shall be the width as occupied, three-eighths of an inch rise per foot from the inside of the curb to the street line, except modification necessary to meet the occupation line, and shall be otherwise constructed in manner and of materials as follows, viz.:

All material above said grade shall be excavated and removed, good sand or gravel shall be used for filling wherever it may be required.

The foundation shall be composed of clean coarse gravel properly coated with tar, and shall not be less than two inches in depth, after being rolled and thoroughly compacted.

The top of the foundation shall be brought to a smooth surface by the addition of fine pebble, completely coated with tar and thoroughly rolled.

The top dressing shall consist of clean, sharp sand, thoroughly saturated with tar, and applied in a layer of such thickness that, after being rolled and compacted, it will not be less than one inch in depth. The total depth of walk when finished shall not be less than three inches.

The quality of the tar used shall be equal in all respects to that made by the Providence Gas Company. The gravel and sand shall be thoroughly dry before coating or saturating the same with tar.

Said alteration and improvement of said sidewalks shall be completed within six weeks from the time of the passage hereof.

And it is hereby further resolved, ordered and directed, that the notices of the aforegoing resolution, order and direction, required to be given and the publication of the aforegoing required to be made, shall be given or made as the case may be, in manner and as required by law.

Report

Report.

To the Honorable the City Council of the City of Providence:

The Joint Special Committee upon the Fourth of July celebration respectfully report:

That the municipal celebration of July 4th, 1893 met the approval of our citizens generally and will pass into history as one of the most enthusiastic and successful Fourth of July celebrations that the people of Providence ever witnessed.

Fourth of July Celebration

The amount appropriated by the city council was four thousand dollars and the full sum allowed to your committee was expended as may be seen by the schedule of the several items of expense on file with the vouchers therefor in the office of the city auditor.

Having discharged the duty assigned them, your committee desire to acknowledge the valuable assistance rendered by Col. Isaac L. Hoff, chief marshal of the military parade and the trades procession, and to all who in any way assisted in making the celebration of the one hundred and seventeenth anniversary of American Independence a complete success. Also their appreciation of the fine appearance of all the organizations that made the parade on the morning of July 4th, 1893, a most attractive and patriotic feature of the celebration.

Respectfully submitted

Location of Trolley Poles

Report

To the Honorable the City Council of the City of Providence:

The joint committee on railroads who were directed by resolution No. 598 approved October 20, 1893 to examine into and report relative to the advisability of a uniform location of trolley poles and relative to complaints upon the present location of poles, respectfully report:

That they have considered the same and have conferred with the commissioner of public works and the president of the Union Railroad Company relative thereto. Your committee find that the Union Railroad Company have already located nearly all of the poles that will be required for the present electric car service under the supervision and direction of the chief engineer of the fire department, and that these poles have been placed on the sidewalks several inches inside the curbing in order to prevent the hubs of passing vehicles from striking against them. Wherever poles have been set in an unsatisfactory location the president of the Union Railroad Company has expressed a willingness to change them, but it seems to your committee that the lines of poles erected by the railroad company have been located as well as any system of poles that are now occupying the public highways. However, in order to secure uniform location, all poles in the future will be located not less than six inches from the inner side of the curbing.

Your committee are of the opinion that no further action is necessary in the premises, and having fully answered the inquiry made in the resolution they ask to be excused from the further consideration thereof.

For the Committee,
George L. Vose, Chairman.
