I took a ride through the Arbor Glenn/Maplewood Complex area on July 22, 2004 and noted a number of areas where sidewalk repairs have been effected. The DEpartment at this time has a significant backlog of applications for repairs which we are preparing to inventory, appraise and prioritize based upon condition and need from applications received. Applications for this area will be inspected and fed into this mix and we will do what we can to provide a program to address these needs.
