Ms. Rose M. Mendonca  
City Clerk  
City of Providence-City Hall  
Providence, Rhode Island 02903

Dear Ms. Mendonca:

Thank you for your recent letter informing me of  
City Council Resolutions 929 and 932.

My staff has contacted city officials concerning  
Resolution 929, and it is my understanding that appropriate  
review action will be taken. The Department of Commerce,  
which handles the federal funds involved, is aware of the  
situation.

With regard to Resolution 932, I have been very  
concerned about the high cost of energy. Nevertheless,  
I do not believe price controls will improve matters.  
Controls on gasoline have not prevented a 50% price  
increase this year, and they have inhibited conservation.  
Controls have also inhibited oil production and use of  
alternate sources of energy.

For these reasons, I do not believe that reimposing  
price controls on heating oil would be constructive. At  
the same time, however, I believe we should provide sub-  
stantial assistance for low and moderate income Americans  
who are hardest hit by rising energy prices. I have  
recently supported several measures that would provide such  
assistance by using revenues from the windfall profits tax.

Once again, thank you for informing me of the City  
Council's resolutions.

Sincerely,

  
John H. Chafee  
United States Senator
