A SILVER MEDAL.

The Highest Prize was awarded me at the Exhibition of the Massachusetts Charitable Mechanics Association.

John H. Bufford's LITHOGRAPHIC ESTABLISHMENT

490 Washington St.

BOSTON.

Notice.

Branch Office,
No. 201
Broadway,
New York.

Our Facilities for producing Lithographic work cannot be excelled.

Price as low if not lower than other establishments.

It is a mistaken idea of the public that I confine myself to first class work only, for those who want a cheap class of work can have it and better work for the same price than others can produce.

HAVING LATELY GREATLY INCREASED my machinery and with the best corps of printers and a large a corps of artists as any establishment in the country I am better able than ever to fill the largest order at moderate figures and without delay.

I am in no way connected with any other establishment in the city my only place of business in Boston is 490 Washington Street corner of Beach Street.

Promptness a Specialty.

Very Respectfully

The Patronage of John H. Bufford.
all Solicited.

TELEGRAPH FIRE ALARM.

GAMEWELL'S AUTOMATIC SYSTEM, ADOPTED BY THE CITY OF PROV. Dec. 1870.

DIRECTIONS.

When a fire has been discovered, go to the nearest box and open the door, pull the hook down as far as you can. (firmly without jerking,) and then let it slide back, close the door and remove the key.

When the bell inside the alarm box is heard to ring, it is an indication that an alarm has been already given, and in order to ascertain if it is for the same fire, carefully count the signals. If the signals indicate a fire in another district, wait until all the signals have sounded and then give the alarm.

The key-holders will be careful not to give an alarm unless they are certain there is a fire, nor give an alarm for a fire seen at a distance. After giving an alarm they will see that the box is securely closed.

The Providence Steam Carpet Beating Establishment,
52 SUMMER STREET.

ECONOMY, NEATNESS AND DISPATCH.
Old Carpets Made to Look Nearly as Good as New.

The undersigned having purchased the exclusive right for this State, to use the PATENT CARPET CLEANING MACHINES, which has been in successful operation for a number of years in most of the principal cities of the Union, and having had eight years experience in this business, feels confident, now that he has opened an establishment in this city, that he can give entire satisfaction, and would respectfully solicit the patronage of the public.
By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, yet thoroughly expel all the Dust and Moths. Orders sent by mail or otherwise to the factory will receive prompt attention.
ALL WORK GUARANTEED.

PRICES FOR CLEANING CARPETS:

Ingrain and Three Ply,	- - -	5 cents per yard.
Brussels,	- - -	6 " " "
Velvet and Aubusson,	- - -	7 " " "

A Gold Medal was awarded to these Tubes at the Exhibition of the Massa-
chusetts Charitable Mechanics Association in 1869, and for the opinion of
practical manufacturers, we refer to the following:

OFFICE OF A. & W. SPRAGUE MFG. CO., Providence, R. I., Dec. 23, 1869.

CHAS. F. TAYLOR, Treasurer, Providence, R. I.: Dear Sir—For some THREE YEARS we have
been using the Cop Tubes of the Burgess Cop Tube Co., and have found them in every way satisfactory.
We cheerfully recommend them to cotton manufacturers as the BEST COP TUBES THAT WE
HAVE EVER USED.

Respectfully yours,
A. & W. SPRAGUE MFG. CO., AMASA SPRAGUE, Treas.

LAWRENCE, 12th January, 1870.

CHAS. F. TAYLOR, Esq., Treas. Burgess Cop Tube Co., Prov., R. I.: Dear Sir—I cheerfully give my
testimony in favor of the Paper Cop Tubes you have furnished us. The ordinary article made of paper
was so unsatisfactory that we continued the use of the Tin Tubes until we heard of yours, but have
adopted the use of your manufacture exclusively, and are well satisfied with them.

I am truly yours,

Moulton's Patent Water Elevator, for Wells, AND PATENT SAND VALVE BUCKET.

Safe, easy, not liable to get out of order, and under perfect control even of a child, with no possible chance for an accident to the person using it. A peculiar and important feature in this Elevator is, the crank does not turn with the descent of the bucket, the axel on which the rope is coiled being disconnected by means of a ratchet, and controlled by a lever, thereby preventing all jerking or shaking of the curb. Prices reasonable, and all parts warranted.

This is an improved Bucket having a metallic bottom with a sand valve attached, which I claim will remove the sand from the bottom of a well without interfering with the operation of the valve. It is so constructed that the sand cannot clog up the valve and prevent it from closing when the bucket is raised from the water. This valve also does away with another great difficulty common to all valve buckets in winter, by breaking the ice which may have formed around it, enabling it to operate as easily in winter as in summer.

This Curb and Bucket took the highest premium at the N. E. and Bristol County Fairs.

Orders solicited and promptly filled to any part of the country.

Volney W. Mason & Co.,

MANUFACTURERS OF

Mason's Patent Friction Clutches,

STARTING MACHINERY

Without Sudden Shock or Jar.

Reference can be given to many of our best Manufacturers who have them in use, among others, the

Corlis Steam Engine Co., Providence; S. H. Greene & Sons, Riverpoint; Atlantic Print Works, E Greenwich; Oriental Paint Works, Apponaug, R. I.; James Sanders, Centreville, R. I.; W. F. & F. G. Saylor's Bleachery, Pawtucket, R. I., and many others, in Providence and vicinity.

RIVERPOINT, R. I., May 19, 1869.

VOLNEY W. MASON & CO.,—Dear Sirs: Our experience with your Friction Pulleys and Clutches extends over a period of at least eight years. We first applied them to Mangles, two of them requiring great power to operate them; so great as to cause excessive breakage of gears in starting, when other kinds of Clutches were used. Since the application of MASON'S FRICTION CLUTCH, no other kinds have been broken through their means. Besides five Mangles, there are here, twenty other machines driven by Mason's Friction Clutches and Pulleys, varying in size from 14 in. diameter, 9 1-2 in. face, to 30 in diameter, 10. in face. Among these are a Singeing Machine, Washing Machines, Madder Dye Becks, Second Dyeing Machines, Hot Watering Machines, &c., &c. Their application to machinery in the Madder Dye House, is especially satisfactory and useful, for the reason the belts running in a moist atmosphere, stretch badly and unevenly on the edges, and the butts and laps are separated where they come in contact with the shipper; while in case your Pulleys are used, no such injury is inflicted. With ordinary care, your Pulleys and Clutches will last many years, though subjected to continual use, as in the case of those in our establishment. Yours truly,

S. H. GREENE & SONS.

Drawings, Specifications and other Papers
 PREPARED.

Being a practical Mechanic, well acquainted with the law and practice of the Patent Office, I am enabled to offer the best facilities for giving a clear understanding of the merits of any Invention to the Commissioners of Patents and Examiners.

TOWN CLERK'S OFFICE,
 KINGSTON, R. I., Sept. 20th, 1871. }
 This may certify, that Mr. BENJAMIN ARNOLD, of East Greenwich, R. I., has within the last 18 years made for me FORTY-NINE applications for Patents to the U. S. Patent Office; FORTY-SEVEN of which have been granted. He has also been engaged for me as Patent Agent and Attorney in re-issue and extension cases, and has met with success in every case most gratifying to me. Such unusual success indicates great ability and zeal. Mr. Arnold is also a Scientific and Practical Mechanic, and I can confidently recommend him to inventors as one most likely to succeed in securing their patents for them, and all business may be submitted and entrusted to him with the greatest confidence.

JOHN G. PERRY,

(Commissioner for the State of Rhode Island at the Paris Exposition, 1867.)

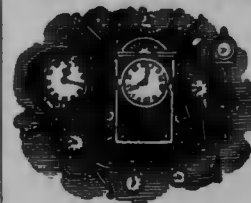

Refers to N. E. Butt Co., Hope Iron Works, and others.

Any person, by sending a Sketch or Drawing of their Invention, by mail, can have an opinion as to the probability of obtaining a Patent, free of charge. To those who obtain Patents through me, I will freely give advice, founded upon my own experience, about selling or operating them to the best advantage.

Agents for Gates & Son's OAK TANNED LEATHER HOSE.

Sole Agents for New England for the METROPOLITAN LINEN HOSE, RUBBER LINED LINEN HOSE, and RUBBER HOSE, 2, 3 and 4 Ply.

Allen's Spray Nozzle has been adopted by a number of Fire Departments and Manufacturing Co.'s, and has given universal satisfaction, as our testimonials will show. In case of smoky fires it enables the firemen to clear a track through the dense smoke to the seat of the fire immediately, as it keeps a cool breeze in the fireman's face while advancing, thereby saving much delay, when delays are most dangerous to the destruction of property.

The Hook and Ladder Strap is an invaluable invention, which can be quickly adjusted to the Hose and Ladder. Particular attention paid to filling all orders promptly.

WILLIAM W. TUPPER & CO.,

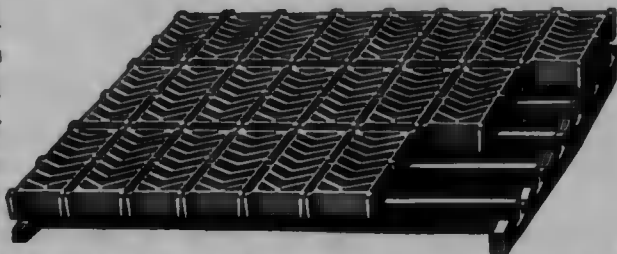

NO. 206 WEST STREET, NEW YORK,

Patent Sectional Grate & Grate Bars,

For Steamboats, Steamships, Locomotives and other Furnaces,

No. 1.

We are now prepared to furnish these Grates with greater dispatch having completed our series of Iron Patterns, which will enable us to deliver at short notice.

Our Patterns are of the following sizes, and are marked respectively thus:

- A— $\frac{1}{4}$ inch opening and $\frac{3}{8}$ inch iron, for burning Screenings.
- B— $\frac{3}{8}$ " " " $\frac{3}{8}$ " " for Pea Coal.
- C— $\frac{1}{2}$ " " " $\frac{1}{2}$ " " for Large Nut Coal.
- D— $\frac{5}{8}$ " " " $\frac{1}{2}$ " " for Stove Coal.
- E— $\frac{3}{4}$ " " " $\frac{1}{2}$ " " for Grate Size.
- F— $\frac{7}{8}$ " " " $\frac{1}{2}$ " " for Steamers.
- G—1 " " " $\frac{1}{2}$ " " for Ocean Steamer Lump.

PLEASE TAKE NOTICE.

Those who may favor us with orders for these Grates will please specify No. 1, or "Sectional Grate," and the letter corresponding with the opening, or size of coal used; giving, if possible, a diagram of Furnace. State if the Fire-Box be of brick or iron. Give the exact dimensions of depth and width in the clear. If of iron, measure width from the rivet heads in the corner laps. We make the allowance or margin for expansion.

No. 2.

Average weight of this Grate, 47 pounds to the square foot.

Is our long bar section with the diagonal openings. The bars are same length as ordinary Grate Bars, and designed for the use of both hard and soft coal, where it is necessary to break up the coke or clinker by raking underneath. These bars have great air opening, and more strength and durability, with less weight, than any other grate bar now in use.

This is to certify that I have used W. W. Tupper & Co's Grate Bars for the last 6 years, and find them to be in every respect superior to any Bar I have ever used in making steam easier and saving all of 15 per cent. of fuel.

PROVIDENCE, April 1st, 1870.
EUGENE CAHILL,
Engineer for Gorham Manufacturing Co.

W. W. TUPPER & Co.: Gents—Your Patent Grate Bars have been in use in these Mills for about two years, and have thus far given the best satisfaction. On referring to our account of coal used during the period, I find that we have not only saved a large per centage of coal, but have driven our steam from five boilers where we were formerly using six—the Mills also being kept at a warmer temperature than formerly.

Truly yours, F. HAINES, Agent.

MANUFACTURERS AND IMPORTERS OF

**Surgical and Dental
INSTRUMENTS,**

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:—

TRUSSES.

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also, the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel.
N. B.—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity, the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, Knee Caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club Feet, &c. Also, Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles and Conversation Tubes for the Deaf, together with many other articles for the use of the Sick and Invalids.

Also, the largest and best assortment of

Atomizers and Nasal Douche,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:—

"1893. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers. The Committee have no hesitation in awarding for this superb exhibition, the highest premium. * * * The various other instruments for inhalation of atomized liquids, and for Local Anesthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed,) GILMAN KIMBALL, M. D., Chairman.

MANUFACTURER OF THE

RANDALL SKELETON GRATE BAR,
Patented February 9th, 1869.

TESTIMONIALS.

A. O. CORBETT. Dear Sir,—I have used the Randall Patent Grate Bar nearly a year, and they are the best I ever used. They work admirably.

MILFORD, March 19, 1870.

R. C. HUSSEY.

Having used the Randall Skeleton Bars, in connection with the three large Steam Boilers attached to the St. James Hotel for nearly two years, I do not hesitate to recommend them, especially for durability, and also for general excellence for the purpose designed.

BOSTON, March 29th, 1870.

M. M. BALLOU, Proprietor St. James Hotel.

A. O. CORBETT. Sir,—I have been using the Randall Grate Bars in one Furnace, on board steamer Star of the East, since April 15, 1868. I find them the best I have ever used. They give better draught, and burn the coal up cleaner, and leave less ashes and clinkers than any grate I ever used.

L. S. DAVIS, Chief Eng'r Steamer Star of the East.

A. O. CORBETT. Dear Sir,—We have given your Grate Bar a trial for the last three months, and it has given perfect satisfaction. We have given it some severe tests with leather chips, which make the hottest fire.

WORCESTER, Jan. 27, 1870.

D. G. RAWSON & CO.

A. O. CORBETT. Dear Sir,—We have been using a set of the Randall Skeleton Grate Bars seventeen months. They have not warped in the least, and are as good as new. We cheerfully give you this testimony in answer to your inquiry.

BOSTON, March 3, 1870.

O. WRIGHT & CO.

A. O. CORBETT. Dear Sir,—The set of Randall Skeleton Grate Bars put into one Furnace on board this vessel are yet all right. They have been in constant use since Sept., 1869. You are at liberty to refer to me to any one inquiring about them.

BOSTON, April, 1871.

Yours respectfully,

A. J. SAVAGE, Chief Eng'r Steamship Geo. Appold, Baltimore and Norfolk Line.

A. O. CORBETT. Dear Sir,—In answer to your inquiry about the Randall Skeleton Grate Bars, put in here in December last, I state with pleasure, that, being determined to test them thoroughly, I have kept an accurate account of coal used, and find up to this date that I have used ten and a quarter tons less than in the same length of time last year.

BOSTON, April 7, 1871.

Signed,

C. KNOWLTON, Eng'r in charge Heating Apparatus of Macular, Williams & Parker.

Organized as the Exponent of the Non-Forfeiture Law of Massachusetts.

It was the first Company to proclaim the benefits of this Statute to the public; the first to make all its policies subject to this Statute, and which had "the honor of the first practical compliance with the Statute.

All the Profits are divided among the Policy-holders. Dividends paid annually on the Contribution Plan, commencing one year from the date of the Policy, and may be used as Cash in payment of premiums or to purchase additions to policy.

All its Policies are Non-Forfeitable after One Payment, or entitled to a paid-up Policy.

By reference to the Report of the Insurance Commissioner of Massachusetts, it will be seen that this Company is not surpassed by any other in the United States, as to security to Policy holders.

Have had unusual opportunities of ascertaining precisely what is wanted, and
of producing a perfect machine. They have brought out an en-
tirely NEW WRINGER, which they call the

"PROVIDENCE."

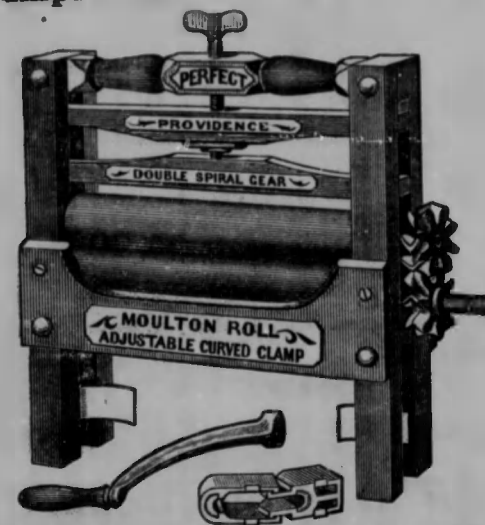

NEW.

1871.

PERFECT.

A Great Improvement over all other Wringers.

IT SAVES LABOR.
IT SAVES THE CLOTHES.

IT SAVES TIME.
IT WILL SAVE its COST EVERY YEAR.

IT WRINGS FASTER THAN BY HAND.

We consider the Providence superior to all others for the following reasons:—

- 1st. The ROLLERS, of large size and best quality of White Rubber, are all secured to their Shafts in the most permanent manner, by the MOULTON PROCESS, making the BEST ROLLER IN THE WORLD.
- 2d. The PATENT METAL JOURNAL CASINGS prevent any wear upon the Journals.
- 3d. The wooden journals in which the iron shafts of other machines run, soon wear, and the efficiency of this Wringer is thereby greatly reduced.
- 4th. The DOUBLE SPIRAL COGS used on the Wringer give the utmost ease and steadiness in working, while the double stop prevents them from bottoming or being thrown out of gear. We furnish either single or double gear PROVIDENCE, as desired.
- 4th. The ADJUSTABLE CURVED CLAMP readily adjusts this Machine to tubs of any size or thickness, making a perfect fastening. No wooden pegs or rubber straps on this Clamp.
- 5th. SIMPLICITY, STRENGTH and BEAUTY, are combined in this Machine, with all the requisites of a first-class Wringer.

Ten Sizes for Brick and Port-
able Casings.

This truly celebrated Furnace stands
pre-eminently ahead of all known plans
for thoroughly and economically warm-
ing all classes of buildings. More than
20,000 of the Chilson's have been made
and sold.

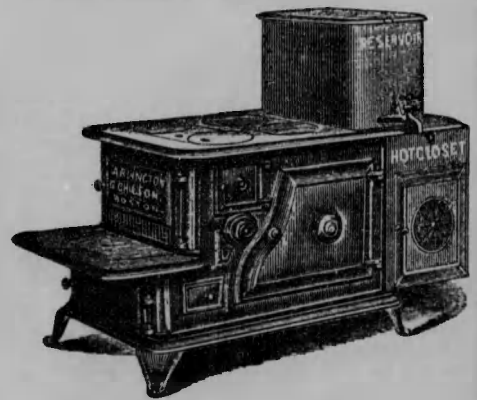

The Arlington Portable Range.

CHILSON'S NEW RANGE, 1872.

The first sight of this splendid Range
will show the greatest improvements
ever made in PORTABLE RANGES. Its
beautiful style and superior fine, heavy
castings are unsurpassed. Its hot closets,
reservoir and hot water fronts are just
what every housekeeper should have.

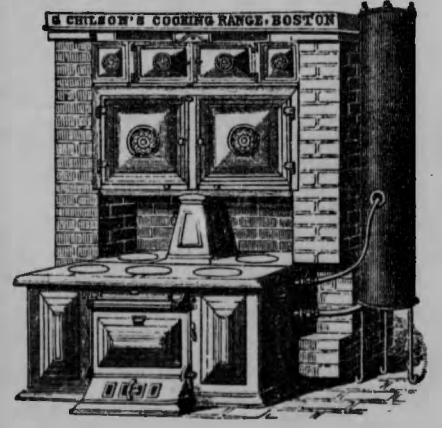

THE ARLINGTON COOK STOVE. CHILSON'S NEW STOVE—JUST COMPLETED.

This Stove has been got up so thoroughly complete
in all its arrangements, with its superior fine, heavy
castings and nice workmanship, as to have NO rival in
this country. It is fitted with HOT WATER FRONTS,
HOT CLOSETS and RESERVOIRS when wanted. Sizes
suited to all practical purposes, from that of the small-
est Family to the largest class of Hotels.

CHILSON'S NEW BRICK AND PORTABLE COOKING RANGES.

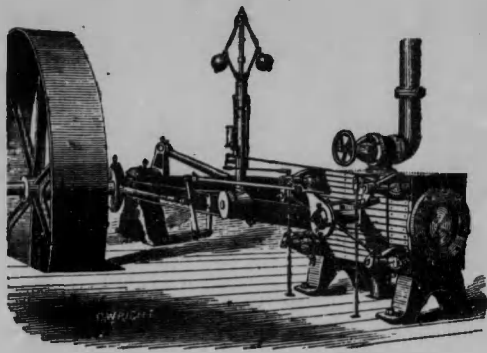

This class of work will commend itself to all in
want of the best Range ever made.

Special attention is given to the erection of the above Furnaces, Ranges and Stoves, and to Ventilation of
Buildings in any part of the country.

BRÖNNER'S PATENT

Gas Burner & German Globe.

MANUFACTORY, FRANKFORT ON THE MAIN, GERMANY.

BACON, STEENE, & CO.,

Sole Agents for the United States and Canada.

TO THE PUBLIC.

Gas Engineers, Proprietors of Railroads, Manufactories, Hotels, Churches, Theatres, and Public Buildings,

Your attention is respectfully called to the advantages attained by the use of Brönners Patent Burner and German Shade, effecting an immense economy of Gas, varying from 20 to 30 sometimes 40 per cent, and even more, besides which there is obtained a softness, brilliancy, and steadiness of light unequalled by the ordinary burners in general use.

Brönners Burners are so constructed that the Gas is allowed to pass out of the orifice from which it is emitted, without that disagreeable hissing sound, so inseparable from most other burners; and the flame thus produced is kept perfectly steady by the Brönners shape Globes which accompany the Burners, avoiding the unsteady and flickering light so common with most gas lights. The almost entire absence of heat and of smoke, makes this Burner peculiarly valuable, in addition to the large saving of gas produced by it, causing the gas to be consumed as fast as emitted, instead of allowing it, as usual with other burners, to be propelled into the atmosphere to the injury of health and furniture.

This Burner is used very extensively in Europe and New York, and is the most popular in the market.

A liberal discount offered to the trade.

STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.
From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of High Street No. 324 comes, you look at High Street, upon page 16, and find that Spring Street runs from 296, and Winter Street from 352, showing that 324 High would come about half way between Spring and Winter.

MANUFACTURERS OF

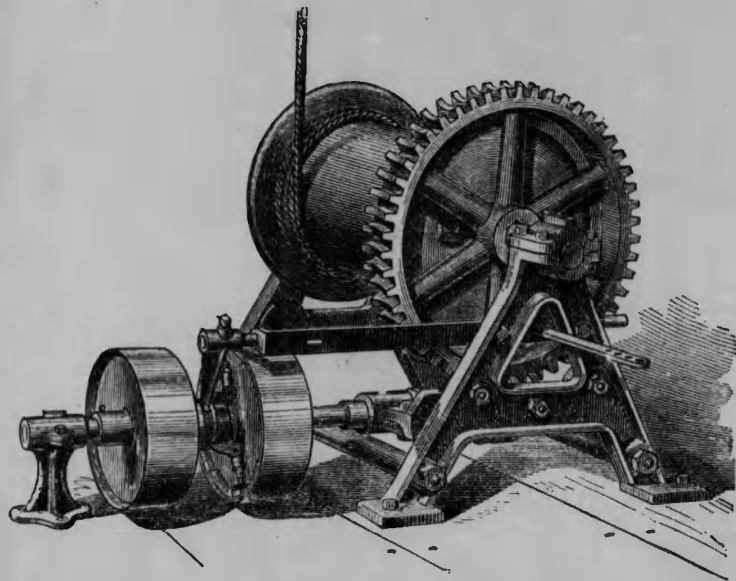

Patent Friction Pulleys and Friction Clutches,

FOR CONNECTING SHAFTING AND GEARING.

HOISTING MACHINERY,

OF NEW AND IMPROVED PATTERNS,

FOR ELEVATORS AND OTHER PURPOSES.

These Machines operate without noise or shifting of Belts; always having the full width and power of the Belts on the Pulleys, CAN be STOPPED or STARTED or REVERSED QUICKER than any other.

(See Page 538.)

PURE WATER CONDUCTS TO GOOD HEALTH.

MASONS' Improved Cemented Wells.

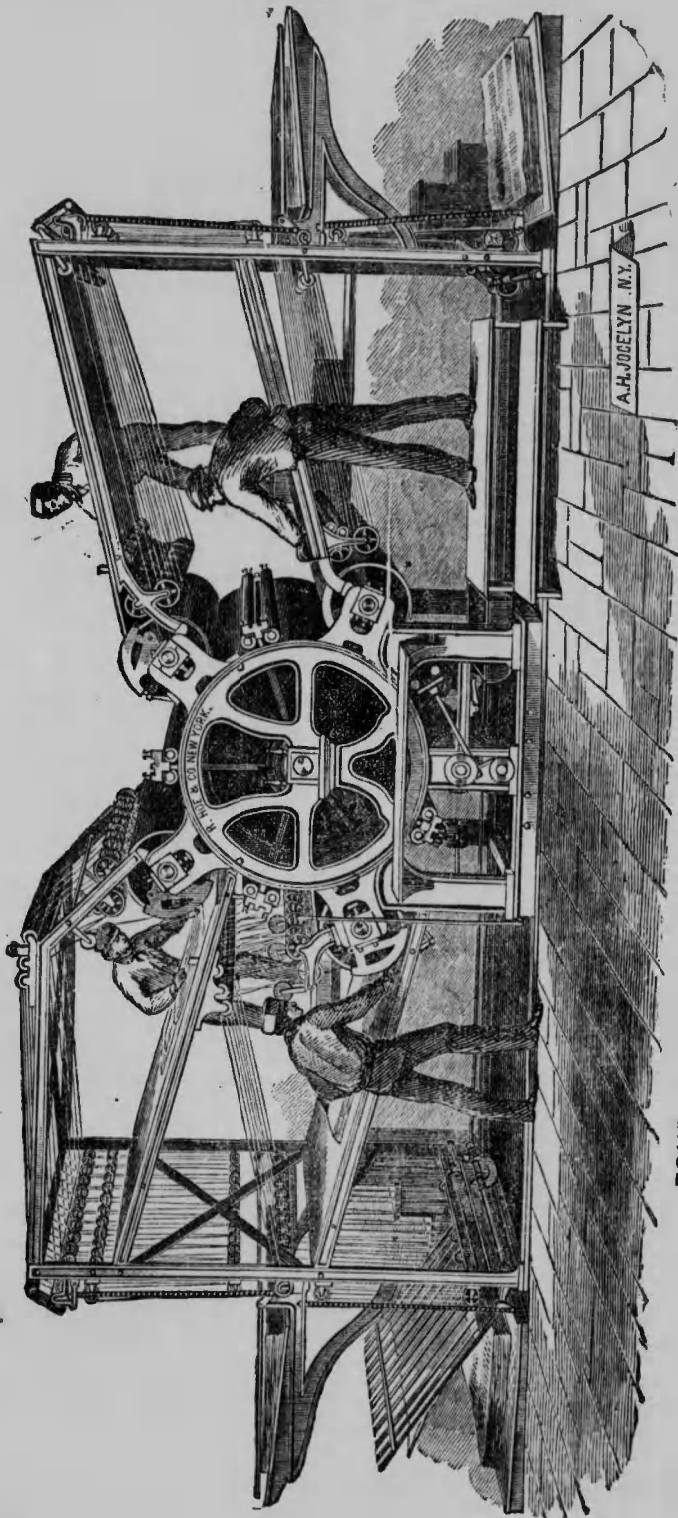

(PATENTED MARCH 14TH, 1871.)

The novelty of this Well consists in using Hydraulic Cement, plastered directly on the earth of the vertical sides of the well, of proper thickness to prevent the ground from caving in; thereby very effectually shutting out all impure surface water from entering the well.

**1872. Improved Galvanized Lightning Rod. 1872.**

The attention of the public generally is called to this reliable and beautiful Lightning Conductor which has been steadily gaining favor in the community for the last eight years, for the following reasons:—

It will never RUST or CORRODE but remain clean and bright.

Its INSULATION is thorough and the best yet devised.

Solid Copper Screw Couplings make it equal to a continuous rod.

Its peculiar construction gives it great strength and large surface, and when surmounted by Gold Plated Cluster Points of Pure Copper, and properly erected, it becomes a combined practical and ornamental safeguard against damage by lightning.

The long experience of the subscriber in the business enables him to do first-class work. Old rods will be examined free of charge and if found unsafe will be carefully removed and replaced with new. All work will be done in the most substantial manner and at reasonable rates by an experienced workman under my personal supervision. If any building upon which I erect this rod should be damaged by lightning while the rods remain in good order I will refund the money paid me for the same.

N. B.—I have no connection with, or interest in any team except the one I travel and operate with.

THE PROVIDENCE WEEKLY GAZETTE.

WHEN we first conceived the idea of starting the present *Weekly Gazette* we based it upon our experience in publishing the *Weekly Times*. The *Times* had paid us well, and the *Gazette*, thus far, has netted us a better profit than ever the *Times* did.

Three Thousand Copies are printed weekly; two thousand of which are circulated in the wards of this city, which supplies one-quarter of the families in all the different wards, weekly, every week supplying new families in those wards, thereby taking four weeks to supply the entire city. The balance, one thousand, goes into country villages through the State; never two weeks in succession in the same village. We think this is the whole secret of success. The *Gazette* has now been published over five years, and has become a "fixed fact." We desire to give the readers of our paper a full reading page, but as yet have been unable to do so; but will as soon as our narrow limits will admit.

Thankful for the very liberal patronage already received, we invite the citizens of the State generally, to call and see

Notice.

Branch Office
No. 201
Broadway
New York.

OUR FACILITIES for producing Lithographic work cannot be excelled.

PRICE AS LOW IF NOT LOWER than other establishments.

IT IS A MISTAKEN IDEA of the public that I confine myself to first class work only, for those who want a cheap class of work can have it and better work for the same price than others can produce.

HAVING LATELY GREATLY INCREASED my machinery and with the best corps of Printers and as large a corps of Artists as any establishment in the country I am better able than ever to fill the largest order at moderate figures and without delay.

I am in no way connected with any other establishment in the city my only place of Business in Boston is 490 Washington Street corner of Beach Street.

Promptness a Specialty.

Very Respectfully
The Patronage of John H. Bufford.
