## Notes to Monthly Statistical Report for the Port of Providence

1. Cars - the revenue variance reflected for cars in this report may be misleading. The Port of Providence no longer handles cars as the operation is consolidating in New Jersey due to a company decision. Some of these cars are still handled in Davisville. The last shipment of cars to Providence was in March of 1991.
2. Lease - the revenue variance reflecting a decrease in lease revenue is due to the fact that the Brewster Lumber site has been vacant since January 1991 and thus generates no revenue.
3. Other decreases reflected - steel and lumber - these two commodities are almost directly tied to the construction industry which has declined due to the economy. Likewise petroleum is being impacted by the year to year fluctuation demand. The scrap market has also been impacted by the market recession.
