CHILSON'S PATENT IMPROVED CONE FURNACES,

AND DOUBLE-OVEN COOKING RANGES,

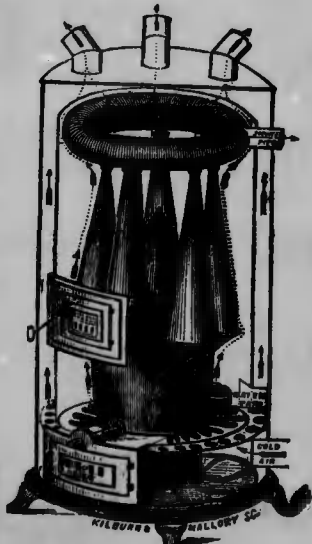

Should be Seen by all in Want of Superior Work.

CHILSON'S CONE FURNACE.
(Patented in America, England, and France.)

This Furnace is now in such general use, and its reputation being so well and favorably established, renders it needless to particularize here its many superior advantages for Warming Buildings over any other known plan. Sizes suitable for Warming all classes of private or public buildings, and for setting either in Brick Work or as Portables.

A GOLD MEDAL was awarded to this celebrated Furnace at a recent Fair of the Massachusetts Charitable Mechanic Association, and the only gold medal ever awarded to any Furnace in Massachusetts.

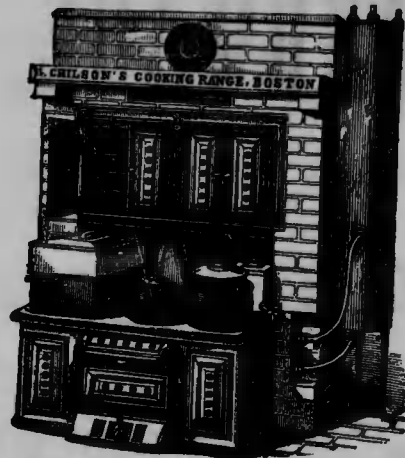

IN PORTABLE CASINGS.

Combines the most important improvements ever made in Cooking Stoves. This statement is fully confirmed by the large number of Testimonials received from those who have used these Stoves the past season, and five minutes' examination of the Stove itself will further prove all that is claimed for it. Sizes suited to all practical purposes, from that of the smallest family to the largest class of Hotels, with or without WATER FRONTS, EXTENSION TOPS, HOT CLOSETS, RESERVOIRS, &c., and fitted for either Coal or Wood. Chilson's New Parlor and Store Stoves, Registers, Ventilators, Frame Grates, &c., &c., constantly on hand, and for sale at the subscriber's Store, 89 & 101 Blackstone Street, Boston, or at his Foundry in Mansfield, Mass.

The above articles may be obtained in PROVIDENCE of my authorized agents, Messrs. WM. H. FENNER & CO., 121 Broad Street.

CHILSON'S PATENT ELEVATED DOUBLE-OVEN COOKING RANGE.

This celebrated Range, just remodeled and improved, has become an INDISPENSABLE FIXTURE in all well-regulated Kitchens. It is truly the

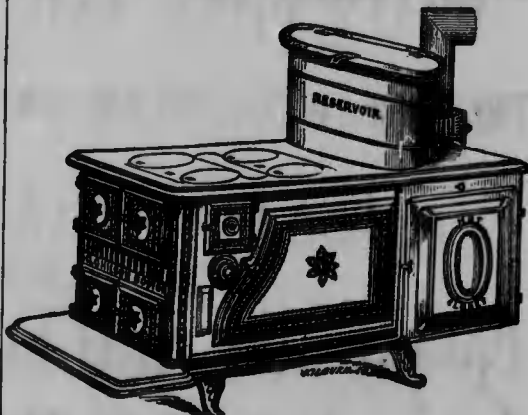

COOK'S FAVORITE, as can be proved by the many thousands of TESTIMONIALS received.

Sizes in variety, for Dwellings, Hotels, &c., with or without Water-Baths, for Bath-Boilers, and other Washing purposes; also

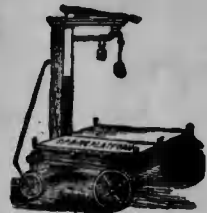

HOT CLOSETS & HOT-AIR FIXTURES, FOR HEATING ADDITIONAL ROOMS, WHEN DESIRED.

No Housekeeper will long use any other plan of Cooking-Range after an examination of this.

WEBSTER'S DICTIONARY
UNABRIDGED
NEW ILLUSTRATED

Over 3,000 Fine Engravings.

10,000 Words and Meanings not in other Dictionaries.

A necessity to every intelligent family, student, teacher and professional man.
What Library is complete without the best English Dictionary?

"Superior, in most respects, to any other English Dictionary known to me."—*Hon. George P. Marsh.*
"THE NEW WEBSTER is glorious—it is perfect—it distances and defies competition—it leaves nothing to be desired."—*J. H. Raymond, LL.D., President of Vassar College.*

"All young persons should have a standard Dictionary at their elbows. And while you are about it, GET THE BEST; that Dictionary is NOAH WEBSTER'S—the great work unabridged. If you are too poor, save the amount from off your back to put it into your head."—*Phrenological Journal.*

"Every farmer should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every mechanic should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon your table by the side of the Bible; it is a better expounder than many which claim to be exponents. It is a great labor-saver; it has saved us time enough in one year's use to pay for itself; and that must be deemed good property which will clear itself once a year. If you have any doubt about the precise meaning of the word *clear*, in the last sentence, look at Webster's nine definitions of the *v. t.*—*Massachusetts Life Boat.*

Persian Green, or Paris Green Imitation.

In offering this article to Dealers and Consumers, we do so with perfect confidence that it is superior in point of Brilliancy, Durability, and Economy to any other Green in

the market. It is particularly adapted for Painting Window Blinds, and all kinds of ornamental work, having a covering power unsurpassed by any other Green.

TRADE MARK.

Our LIQUID DRYER FOR HOUSE PAINTING is just the article needed, as it dries very quick and hard, and readily mixes with oil. One half-pint of this Dryer to a gallon of Raw Oil makes an oil far superior to boiled oil, as it dries much harder and quicker, and not sticky, like boiled oil. Put up in cans, half-barrels, and barrels, at prices satisfactory. Warranted to do as recommended, or no sale.

WHERE OUR

FRICITION PULLEYS

ARE USED,

THEY EFFECT A GREAT SAVING IN BELTING,

as there is no wear to the edges of the belt by constant rubbing of the shipper, as there is where tight and loose Pulleys are used; they occupy less than half the room, require much less shipping motion, thereby starting or stopping more quickly, with less strain on the belt than where the belt is shipped from one Pulley to another, as the full width and power of the belt is always on the Pulley.

Various sizes are manufactured, from ten (10) inches to six (6) feet diameter and upwards.

ALSO, MANUFACTURE A VARIETY OF SIZES OF

FRICITION COUPLINGS,

having V or wedge-shaped segments, which are especially designed for starting heavy-gear machinery, for connecting shafting without sudden shock, and without check or hindrance to motive power while it is being started. In connection with their manufacture, we have facilities for executing general

MACHINE WORK,

SHAFTING, HANGERS, PULLEYS, GEARS, &c.

All orders or correspondence will receive prompt attention. Address

NOYES'
CELEBRATED POP CORN CAKES.
Excelsior Sugared Pop Corn.

POP CORN BALLS
43 Richmond St., Providence, R. I.
ARE MANUFACTURED AT

LLOYD'S
SUPERPHOSPHATE OF LIME,
MANUFACTURED AT PROVIDENCE, R. I.

FROM many years' experience, the proprietors can, with confidence, recommend their SUPERPHOSPHATE OF LIME as a TOP DRESSING for WHEAT, CLOVER, GRASS, (Pasture or Meadow,) and at the time of sowing or drilling for INDIAN and SPRING CORN, POTATOES, CARROTS, TURNIPS, ONIONS, CELERY, &c.

Weight per acre, from five to six hundred pounds where farm yard manure is not used with it, but when the land receives, say half a dressing of farm yard manure, then from two to three hundred pounds will be sufficient.

If sown broadcast, the land should be immediately harrowed or ridged up, so that the manure will not be exposed to the air or sun; when drilled, it must be well mixed with loam, and care taken that the seed and manure do not come in immediate contact.

THE
Reliance Wringer,
 WITH THE CELEBRATED
KEYED ROLLS,
THE BEST IN USE.

The Reliance possesses all the requisites for a First Class Machine.

The Rubber of these Rolls is keyed to the Grooved Shaft as shown in the cut, and is vulcanized to its canvas support when made. This gives great strength to the Rolls, and overcomes what has always been the weak point in a Wringer.

The Reliance will compare favorably with any similar machine in quality and price.

Sold at the leading Stove Stores and House Furnishing Depots in Providence, and by Country Merchants generally.
 Dealers will address

VOLNEY W. MASON,
 MANUFACTURER OF MASON'S
Patent Friction Clutches!

— FOR —
STARTING MACHINERY,
 Without Sudden Shock or Jar.

References can be given to many of our Best Manufacturers who have them in use, among others the

Corliss Steam Engine Co., Providence; S. H. Greene & Sons, Riverpoint; Atlantic Print Works, East Greenwich; Oriental Print Works, Apponaug, R. I.; James Sanders, Centerville, R. I.; W. F. & F. C. Sayles' Bleachery, Pawtucket, R. I., and many others in Providence and vicinity.

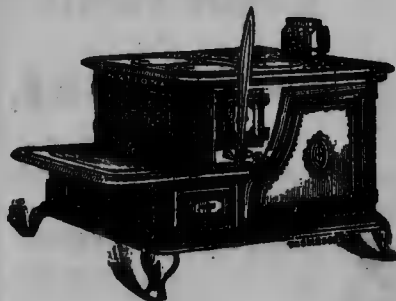

BALTIMORE, FEBRUARY 15TH, 1867.
 This is to certify that we have used MASON'S PATENT FRICTION PULLEYS on our looms for two or three years past, and have recently applied them on all of our new looms. We use the 26 inch diameter, 5 inch face, and their action is quick to start or stop, and devoid of all sudden shock on starting. They save our belts from the constant wear of shipping, and they are constructed in a durable manner, and we consider them the best device known to us for the purpose of driving "Looms."
 WM. E. HOOPER & SONS.

COAL MINE, PORTSMOUTH, R. I., JULY 16TH, 1867.

MR. VOLNEY W. MASON:

Sir:—Yours of the 11th instant is at hand. In reply, would say that we are using, and have been for the past two years at our North Mine two of your Friction Couplings: one is used for hoisting coal and rock, weighing with the car about one and a half tons, from a depth of from 400 to 600 feet, up an incline of some 35 degrees, and it has worked to our entire satisfaction. The Friction Coupling on our pump also works well, and we are satisfied that for ease of working, efficiency and DURABILITY, YOUR FRICTIONS ARE UNEQUALLED by any other arrangement known to us.
 Yours, very truly,
 WM. COBB, Act. Mr. Hope Coal Mine Co.

**EXCELSIOR
 FANCY DYE WORKS,
 WESTERLY, R. I.**

Having newly fitted up our works for Dyeing and Finishing, we would respectfully inform Dry Goods Dealers and others that we are now prepared to do work on an extensive scale. It is needless to enumerate the advantages an establishment of this kind will afford when conducted by responsible parties. Many who have given to such their patronage can readily attest their value. Patterns and colors which may have become unseasonable or out of style, if re-dyed and finished, will be rendered saleable at but small expense.

Possessing every facility for excelling in the business, and employing none but first-class workmen, we will guarantee satisfaction on all work entrusted to us.

Goods of all descriptions,—Silk, Woolen, and Cotton, or Mixed Goods, Ribbons, Braids, Yarns, &c.,—re-dyed and finished on as reasonable terms and as promptly as by any house in the trade.

**WILCOX
CALORIC AND STEAM ENGINE COMPANY,
112 AND 114 DORRANCE STREET,
PROVIDENCE, R. I.**

Manufacturers of a new and improved style of AIR ENGINES, which they are ready to furnish at short notice, to persons desiring limited motors. Recent improvements upon these engines have freed them from the difficulties which have heretofore existed in motors of this class. The following are some of the peculiar advantages possessed by them:

They are comparatively light, compact, perfectly safe, economical, and so simple that they can be managed by any person not skilled in mechanics; performing labor usually done by steam power. They run at high speed—from 80 to 400 revolutions per minute, smoothly, with little noise, and can therefore be used in any place where power is desired. They are perfectly reliable for all purposes for which they are intended, of superior workmanship, and consume a very insignificant quantity of fuel. The space the various sizes occupy on the floor is as follows:

6 inch Cylinder Engines,	15 by 24 inches.	One man.
8 " "	" 18 by 30 "	1-2 horse.
12 " "	" 24 by 36 "	1 "
16 " "	" 36 by 48 "	2 "

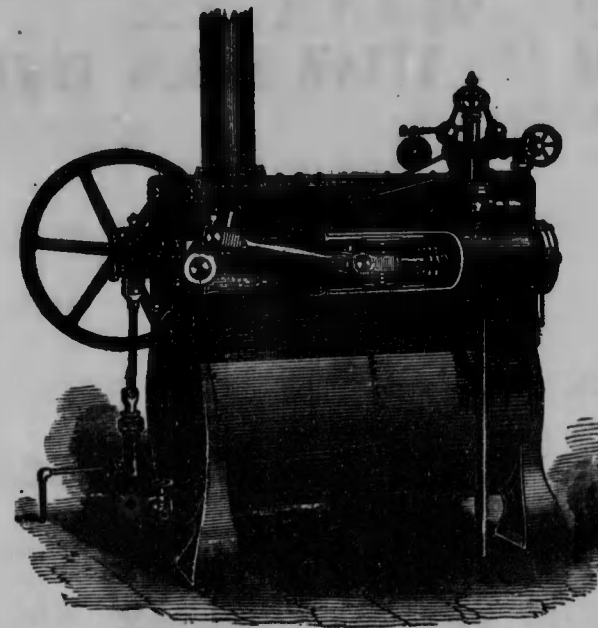

Parties desiring motors are requested to state what machinery they propose to drive, when they will be informed what size engine will be best suited to their purposes.

We are also manufacturing a STEAM GENERATOR and STEAM ENGINE, from 5 horse power to 20 horse power.

The Generator is subjected by us to 400 lbs. pressure to the square inch, and is built with special reference to safety and economy, so as not to require an engineer.

Circular giving full particulars will be sent on application.

CHARLES H. DENISON, Ag't.

Steam Generators & Engines,

MANUFACTURED AT

112 & 114 Dorrance Street,

BY THE

WILCOX CALORIC & STEAM ENGINE COMPANY.

THIS COMPANY ARE BUILDERS OF

Caloric Engines from One Man to Four Horse Power.

For all orders which exceed that power, they are able to supply a Steam Generator, from FIVE to TWENTY Horse Power.

These Engines are built with special reference to SAFETY and ECONOMY, and do not require an Engineer to run them.

The Generators are built in sections, of cast iron, capable of sustaining an immense pressure, tested to the extent of 400 lbs. to the square inch, and any section can be replaced with very little expense or delay.

Their consumption of fuel is very small, and their safety almost absolute.

"The Providence Weekly Gazette."

When we first conceived the idea of starting the present WEEKLY GAZETTE, we based it upon our experience in publishing the WEEKLY TIMES, which was printed up to the very day we left in the Tenth Rhode Island Regiment of Volunteers, for the defense of our Capitol, the City of Washington. The TIMES had paid us well. The GAZETTE, thus far, has netted us a better profit than ever the TIMES did. We attribute the success to the CIRCULATION, which is entirely in the hands of our Agent and Business Manager, Mr. JOHN W. COLB.

Three thousand copies are printed weekly; twenty-five hundred of which are circulated in the wards of the city, which supplies about one-quarter of the families in all the different wards weekly, every week supplying new families in those wards, thereby taking four weeks to supply the entire city. The balance, five hundred goes into country villages through the State; never two weeks in succession in the same village. Our distributing in this way precludes Mr. COLB from having any remuneration at the end of the year by CARRIERS' ADDRESS, as we circulate to the same families only once in four weeks. We pay Mr. C. what he thinks a fair and honorable remuneration, together with his travelling expenses. Of course he has to hire the services of a boy, (who is under his immediate eye,) in order to get the large edition circulated in two days. We think this is the whole secret of our success. During the short time the GAZETTE has been published, more or less cash advertisements and notices have been left out for want of room. We desire to give the readers of our paper a full reading page, but as yet have been unable to do so, but will as soon as our narrow limits will admit.

Thankful for the very liberal patronage already received, we invite the citizens of the State generally to call and see the LARGEST PRINTING OFFICE ever opened in New England.
