Last Winter's Financial Panic did not effect the Northwestern. IT HAS NO FLUCTUATING SECURITIES.

Stock in The National Mutual Building and Loan Association of New York, is better than money in a Savings Bank, because it pays a higher rate of interest, is secured by first mortgages on improved city property. ROBERT S. FLETCHER, State Agent, 9 Custom House Street.

HIGH INTEREST, LOW MORTALITY, WITH SAFE AND ECONOMICAL MANAGEMENT, HAVE MADE THE NORTHWESTERN THE MOST SUCCESSFUL LIFE INSURANCE COMPANY IN THE WORLD.

WOONSOCKET DIRECTORY, SAMPSON, MURDOCK, & CO., 54 North Main Street, Providence, R. I.

Stock in The National Mutual Building and Loan Association of New York, is better than money in a Savings Bank, because it pays a higher rate of interest, is secured by first mortgages on improved city property. ROBERT S. FLETCHER, State Agent, 9 Custom House Street.

The Northwestern confines its business to the Healthy portion of the United States.

Request any agent attacking the Northwestern, or Questioning our claims, to come WITH YOU to our office and make his Statements.

10 Cents a day saved will give you $500 in eight years. 20 Cents a day, $1000. This money loaned and the interest compounded at six per cent. twelve times a year, gives your small savings the same proportionate profit that the capitalist receives. ROBT. S. FLETCHER, State Agt., 9 Custom House St.

Incorporated June, 1856; Established by

GEORGE H. CORLISS,

INVENTOR OF THE CELEBRATED

"CORLISS ENGINE."

DESIGNER & BUILDER OF THE FAMOUS

"CENTENNIAL ENGINE,"

Exhibited at the Philadelphia Exposition, 1876.

THIS company, established in 1849, by GEO. H. CORLISS, builds these Engines in different styles, *i. e.*, condensing, non-condensing, single or in pairs, compound and triple expansion, in sizes from 50 to 2,000 horse power.

These works are fully equipped with heavy special tools of Mr. Corliss' invention, for the manufacture of these perfected Engines. This guarantees a degree of precision in workmanship, and consequent interchangeability of parts not hitherto attempted.

These Engines are in general and successful use for Manufacturing and Electric Lighting, and all other purposes requiring close regulation and economy in fuel.

The public will understand that we have no relations with American or European builders of so-called "Improved Corliss Engines," and that the final and perfected Engine of Mr. George H. Corliss, embodying his latest ideas, is to be obtained exclusively at our works.

Stock in The National Mutual Building and Loan Association of New York, is better than money in a Savings Bank, because it pays a higher rate of interest, is secured by first mortgages on improved city property. ROBERT S. FLETCHER, State Agent, 9 Custom House Street.

The Key to Success in Business.

BY A. G. SCHOLFIELD,

Principal of Scholfield's Commercial College, Providence, R. I.

Copyright 1890, by A. G. Scholfield.

The Intellectual Advantage to the Student, of the Study of Bookkeeping, as it is Taught in Scholfield's Commercial College.

There is no study that one can take up and pursue for the same limited time, that combines as much in variety, and that can so effectually discipline the mind in reasoning from cause to effect, and that can so intellectually and effectually equip him, or her, for the various duties of life as the study of Double Entry Bookkeeping under a competent teacher. This study secures to the student an easy, graceful and legible hand writing. This study compels its

students to acquire a thorough knowledge of Commercial Arithmetic as a preliminary qualification for the study of Bookkeeping. This study in its practical details, as pursued in this college, also requires its students to write all the letters of business correspondence suggested by the business which is the subject of the students' lessons. Our students are required to write all these letters and to submit them for criticism and when corrected to copy them into his Book of Forms for future reference. The laws of business to which every person's business is subject more or less, in its conduct and its records, are also here taught in all their practical details in connection with Bookkeeping.

This study embodies not only the foregoing preliminary considerations, but it calls into requisition certain fundamental governing principles, a thorough knowledge of which the student must acquire before he can commence or pursue understandingly the study of either single or double entry. Intellectually equipped with a thorough knowledge of these elementary governing principles, the student proceeds alone, aided by a competent teacher withal, to solve understandingly in the Day Book, Journal and Ledger and auxiliary books, the various actual business transactions which are the subjects of the students' lessons in both Single and Double entry. So definite, clear and available, to satisfy any inquiry which may arise in the business they represent are these business records, made under our supervision, that the student becomes at once fascinated in pursuing this very interesting and most important branch of education.

Finally, the time having come when the net gain or loss in the business of the past should be ascertained, that business the records of which are rendered in conformity with correct principles and their subordinate rules; the student proceeds to perform this task by making a Grand Balance Sheet, which sheet combines a Trial Balance, a Balance Sheet and a Profit and Loss Sheet, his Grand Balance Sheet made from the Ledger constitutes a mathematical process by which both gross and net gain or loss in the business in the past is ascertained and proven beyond a doubt. The student having intelligently solved the profit and loss problem under consideration, proceeds to close the Profit and Loss account in the Ledger into the account or accounts to which it is subordinate. Having availed himself of the rare opportunity offered in Scholfield's Commercial College, for acquiring a thorough business education, and having under the guidance of its principal and his assistants opened a set of business books in double entry, penned their records daily, weekly and monthly, solved every problem demanded of the Accountant from day to day, and closed the business into Profit and Loss correctly and understandingly, the student realizes for the first time that he holds the intellectual key to the science of double entry bookkeeping—the key to success in business and to a competency through life. What enterprising young gentleman or lady does not covet such an accomplishment?

Encouragement for the Ladies.

Whilst the demands for Bookkeepers to fill places of trust and responsibility are about equally divided between Gentlemen and Ladies, there is another lucrative source of employment recently opened to ambitious and enterprising young ladies for which they should not be slow to qualify themselves, that is Shorthand and Typewriting. The demand for competent Shorthand and Typewriters is constantly increasing and is greater than the supply. The compensation for such services is from six to fifteen dollars per week.

Besides, there is no service which one can render to his or her employer which will command from the employer greater respect and consideration than that of a Shorthand and Typewriter or Bookkeeper.

Furthermore: the expert Shorthand and Typewriter is not only always in the line of promotion, but her daily practice in the line of her profession opens to her wider fields of thought, the cultivation of which qualifies its subject for a large field of usefulness.

Such are the emoluments, intellectual tendencies, aspirations and accomplishments of an accomplished and ef-

ficient Shorthand and Typewriter. Ladies will you qualify yourselves for this honorable and remunerative occupation? The increasing demand for Typewriters waits for your reply. Does the reader ask, where can this instruction be acquired most effectually? we answer, it can be acquired most effectually in Scholfield's Commercial College where Shorthand has been taught during the last thirty-six years and Typewriting has been taught during the last two years. Our machines employed in teaching Typewriting are of the three best known to the profession.

The facilities for providing situations for its graduates is not excelled if equalled, by any other school in New England.

SCHOLFIELD'S
Commercial College,

174 Westminster Street,

Providence, R. I.

Founded by its present proprietor, A. D. 1846, since which time this College has educated

Twelve Thousand Students.

The branches of study here taught are Writing, Bookkeeping, Commercial Arithmetic, the common English branches, Shorthand, Type Writing, Mechanical Drawing, Painting in Oil and Water Colors, Commercial Law and Business Correspondence.

NO CLASSES.

Each student is favored with separate instruction. The superior advantages that the principal of this College possesses for securing to its student-graduates remunerative employment will be always cheerfully conferred on such students. The demand upon us for our student-graduates Accountants during the last year has been greater in favor of Ladies than of Gentlemen. Will the Ladies qualify themselves to supply such future demand? For further particulars call or send for our College Circular, which will be forwarded by mail to any address.

After passing Nayatt, Warren comes in sight; then Bristol and Fall River. Sailing up Mt. Hope Bay, you pass Mt. Hope, celebrated in the early history of the State. After turning the northern extremity of the island of Rhode Island, you enter Seaconnet River and pass through the two bridges, and a short sail takes you by Fogland Point, and out where you can feel the gentle swell of the ocean, and soon arriving at Seaconnet Point, where ample time is allowed for getting dinner, and for a drive or a bath. The Northwestern challenges all other Companies to a comparison of policies of the SAME DATE, AGE AND KIND.

NEW ENGLAND BUSINESS DIRECTORY, Price $6.00.

Stock in The National Mutual Building and Loan Association of New York, is better than money in a Savings Bank, because it pays a higher rate of interest, is secured by first mortgages on improved city property. ROBERT S. FLETCHER, State Agent, 9 Custom House Street.

THOMAS EVANS,

FRONT.

Examinations and Test of Steam Plants for securing economy of fuel. Steam Engines Indicated and Power carefully measured.

Investigations made on the performance of Steam Engines and Boilers under all working conditions.

Thomas Evans' Patent Grate Bar.

TO STEAM USERS:

One of the chief features of this grate bar is "*A Uniform Air Space*," free from sharp angles and curves, the air flowing through this bar meets with the least possible resistance, enabling a large amount of air to pass through with minimum amount of draught. The very large amount of air necessary to form a perfect combustion under ordinary conditions in burning coal demands a carefully designed grate bar, one that will allow free access of air or oxygen to the incandescent fuel and at the same time allow of the refuse ashes to fall through freely. This bar contains from 46 to 65 per cent. air space, according to nature of fuel used. To all parties using grate bars, it is worth their serious consideration.

Yours truly,

THOMAS EVANS, Steam Engineer,

THE PROVIDENCE

Steam Carpet Beating Company,

NEW NUMBER 151 SUMMER STREET.

Telephone No. 1539.

Economy! Neatness!! Despatch!!!

Old Carpets made to look nearly as good as new by the use of the **Patent Carpet Beating Machine.** Grease removed by a new process. Special rates for renovating. By this method of cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, *yet thoroughly expel all the Dust and Moths.* The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

If it be found necessary, we can apply our *heated steam process* in addition to the machine for removing dust and dirt; and this process will effectually relieve the carpet of all impurity, and in doing this bring the colors out almost like new. The moths and vermin are killed and not likely to trouble the fabric for a long time to come. Health and comfort are both promoted thereby. The carpets are not only beaten and cleaned, but are thoroughly aired, there being a constant supply of fresh air going through the machine at all times.

Orders sent by Mail or Telephone to the Factory will receive prompt attention. Open every working day of the year. ☞ALL WORK GUARANTEED.

CARPETS, RUGS, BLANKETS, ETC., WASHED.

Carpets called for, Cleaned and returned without regard to weather. Cartage free.

No other large company can show such a proportion of insurance **gained** as compared with the **new business written.** The death ratio for the year was 0.97 of the mean amount at risk—a ratio phenomenally low for a company **thirty-two years old,** especially as compared with other companies. The average of all companies reporting to the Massachusetts Insurance department in 1889 was 1.32.

The printed statements of the three leading New York companies is not sufficiently in detail to permit comparison upon some important points.

The following figures, however, show how the NORTHWESTERN stands in comparison with those companies in the matter of growth, the point most largely dwelt upon by them during late years.

The figures relating to years previous to 1890 are from the Spectator Pocket index, those for 1890 are from the printed statements of the companies.

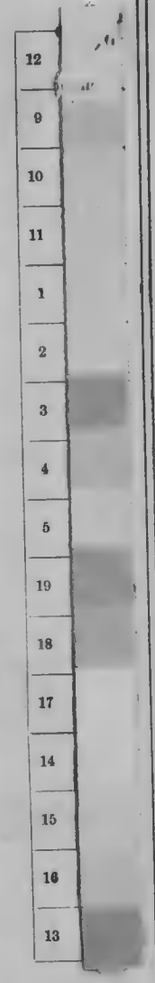
PLASTICO.



The Permanent Coating for Walls and Ceilings.

In Pure White and Tints as shown on the margin of this page

Combines all the advantages of so-called Kalsomines with none of their disadvantages. Elegant Relief Work, Modeling, Combing, Stippling and Blending can be done better and cheaper with it than any other material. Specially adapted for **Interior of Factories, Halls, Public Buildings or Residences,** as any number of coats can be applied to plaster, wood or any solid surface, without scaling off, and it does not require to be taken off to renew from time to time, as it hardens with age, on the surface. (Ask the dealer to show piece of wood with 30 coats on to confirm this statement.)

It is as **Fire Proof** as any light coat can be; the wood can be burned from our wood samples and leave the coating of Plastico intact. Sections of designs furnished in full size for decorating with Plastico.

Full Particulars, Samples and Prices on Application to the Agents.

The names on the above Board of Directors are a sufficient guarantee for the faithful conduct of business and success of the Bank. All the Directors take an *active part*. The business is conducted on the well known Mutual "Building-Loan Society," or "Co-operative Bank" plan, loaning all of the Banks moneys **at home, in New York and New England,** to those who wish to buy homes 'on easy terms and long time.' No Western loans. No farm loans. No loans to speculators. All loans are **"Homestead Loans,"** to assist the rentor to own a home. The years of experience of the Banks and Mortgage Companies has proven that "Homestead Loans" are always the safest. Hence when you buy Co-operative Building Bank Stock, you buy equities in the best City Real Estate mortgages, all of which *are being paid off* by regular weekly or monthly payments. As the security is thus constantly increasing, your risk is steadily decreasing, and you have **The Safest Investment Possible.** 100 years experience has again and again proven the truth of this statement.

INVESTORS AND ECONOMIZERS.

To meet the requirements of the people and suit their convenience the Bank issues two classes of stock.

First.—**Prepaid Coupon Stock.** Pays 6% cash dividends and doubles the principal in 8½ years. $500 to $10,000 received.

Second.—**Installment Stock.** Regular weekly savings with their Compound interest earnings double in 8½ years. The more you save the more you are worth. $1.20 per week amounts to $1000 in 8½ years. $6.00 per week amounts to $5,000.

TO THE PUBLIC.

After a careful examination we are confident that the Co-operative Building Bank combines in its plan in the greatest degree **Equity, Safety,** and **Profit** and that the people can place implicit confidence in the Bank, and so commend it to all, whether **Investors, Economizers** or **Borrowers.**
