## NOTICE

DATE: February 1, 1974

FILE NO: 74-2-4

This office has under consideration the application of

R. I. DEPARTMENT OF TRANSPORTATION  
STATE OFFICE BUILDING  
PROVIDENCE, RHODE ISLAND 02903

for a State of Rhode Island assent to design proposal is to outlet a new drainage outfall into tidal areas of the Woonasquatucket River in Providence, see attached plans for exact location. The proposed 60" dia. storm drainage outfall is to accomodate surface flows from the Route 6 Expressway and to collect surface runoff from other City of Providence storm drainage systems which must be re-located and/or modified becuae of the Route Expressway highway project. A considerable portion of the storm runoff which is to be discharged at the new outfall was previously discharged into the Woonasquatucket River at other locations.

During the highway construction this Department will be utilizing all available means to control against pollution and siltation of any water course.

Waterway WOONASQUATUCKET RIVER

~~CITY / Town~~ PROVIDENCE, RHODE ISLAND

Plans of the proposed work may be seen at this office and at the City Clerk's office, City of PROVIDENCE, RHODE ISLAND.

You are advised that if you have good reason to enter protests against the proposed work it is your privilege to do so. It is expected that objectors will review the application and plans thoroughly, visit site of proposed work if necessary, to familiarize themselves with the conditions and cite what law or laws, if any, would in their opinion be violated by the work proposed. If you desire to submit a protest statement, to receive consideration, it should be in writing and be received at this office on or before

MARCH 1, 1974.

Rhode Island Federal-Aid Project No. U-019(11)  
Route 6 Connector - Contract II

Design proposal is to outlet a new drainage outfall into tidal areas of the Woonasquatucket River in Providence, see attached plans for exact location. The proposed 60" dia. storm drainage outfall is to accomodate surface flows from the Route 6 Expressway and to collect surface runoff from other City of Providence storm drainage systems which must be relocated and/or modified because of the Route 6 Expressway highway project. A considerable portion of the storm runoff which is to be discharged at the new outfall was previously discharged into the Woonasquatucket River at other locations.

During the highway construction this Department will be utilizing all available means to control against pollution and siltation of any water course.

Note:

See reverse side-consult information booklet-application must be fully completed.
