Dear Councilwoman Brassil:

It is my intention to reorganize the Department of Public Property, subject to your approval.

A new position of Management Officer will be created. The creation of the position Management Officer will allow the Director to eliminate the positions of Deputy Director, Department of Public Property and Secretary to the Director, Department of Public Property.

This will result in a savings within the Department in its item "O" account of \$47,941.92. Ordinance No. 429, Approved July 20, 1984, places the Management Officer in the Salary Grade 25. I recommend, because of the skills and experience required, that the person filling this position start at Step 2, i.e., \$409.31 per week. Thus the net savings will be \$26,657.80 per year in the Department of Public Property.

In order for the efficient operation of this Department I request that the necessary changes be made forthwith. In the advent that you desire additional information in regard to these changes I will be more than happy to appear before your committee.

Thank you.

Respectfully submitted,

HENRY W. FAZZANO
Acting Director
Department of Public Property
