

THE CITY OF PROVIDENCE
STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

RESOLUTION OF THE CITY COUNCIL

No. 40

Approved February 14, 1974

RESOLVED, that the Building Board of Review is requested to reopen a Public Hearing on Algonquin Gas Company's installation of L N G for the purpose of presenting questions of conflict of interest, adequate insurance coverage in the event of a disaster, and other questions that can be answered.

Rhode Island

Department of City Clerk

MEMORANDUM

DATE: February 8, 1974

TO: Councilman Johnson

SUBJECT: Building Board of Review—Algonquin Gas Company

CONSIDERED BY: Councilman Darigan

DISPOSITION: Attached is photo copy of petition submitted to the City Clerk, by Councilman Darigan, directing that the same be transmitted to you for your information.

City Clerk

We the undersigned, want the Building Board of Review's Public Hearing re-opened on Algonquin Gas Transmissions Company's application for a Building Permit to build two 600,000-Barrel L N G Tanks at Fields Point. We were unaware of the Public Hearing when it was held in 1972, and unaware of the proposed installation. There are many questions that we feel must be answered before such an installation is built.

We the undersigned, want the Building Board of Review's Public Hearing re-opened on Algonquin Gas Transmissions Company's application for a Building Permit to build two 600,000-Barrel L N G Tanks at Fields Point. We were unaware of the Public Hearing when it was held in 1972, and unaware of the proposed installation. There are many questions that we feel must be answered before such an installation is built.

Complete

We the undersigned, want the Building Board of Review's Public Hearing re-opened on Algonquin Gas Transmissions Company's application for a Building Permit to build two 600,000-Barrel L N G Tanks at Fields Point. We were unaware of the Public Hearing when it was held in 1972, and unaware of the proposed installation. There are many questions that we feel must be answered before such an installation is built.
