To: Colonel Dean M. Esserman, Chief of Police
From: Sgt. S. Woodruff, Traffic Bureau
Subject: Abandonment of portions of Pearl, Perkins, Rice and Central Streets
re: Petition to the City Council by the Armory Revival Company

Dear sir:

It is my understanding that the Armory Revival Company will be converting an abandoned warehouse to condominium lofts, offices and shops. In their plan, they are asking that the City Council abandon portions of the above referenced city streets.

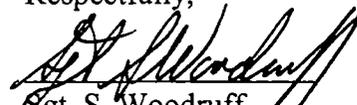

Apparently the City has agreed to abandon portions of Pearl Street in consideration of for certain property to the rear of Central High School. There appears to be a provision for an easement to that area of the former parking lot.

The Armory Revival Company also proposes to have the City abandon all of Perkins Street. After speaking with members of the Company, I learned that the Fire Department voiced concern over gaining access to the rear of the Dodge Street area with their fire apparatus. I further learned that the Company will allow parking on an angle thereby leaving a twelve foot lane of travel on the northerly side of the street.

Rice Street is proposed to be abandoned by the City from Pearl Street, westerly, for a distance of about three hundred and eighty (380) feet. There are some businesses on Rice Street and the Company has agreed to grant an easement for these companies.

I conclude that as long as the City is granted permanent access to the area of the so called "Pearl Street Lofts", for the purpose of emergency response and proactive patrols, the suggestions of the Armory Revival Company is agreeable.

Respectfully,

Re: Petition to Abandon a Portion of Pearl Street, Rice Street, and Perkins Street

Dear Councilman Hassett,

The Armory Revival Company submitted three separate proposals to abandon various streets in conjunction with the renovation of the former Harold's Furniture buildings. After review of the various petitions, the Fire Department can not adequately respond utilizing the documentation provided. A single map is needed that shows the extent of all the proposed changes together. It is also our understanding that the various streets involved may have changes to the traffic patterns that will effect the Fire Departments response to the buildings served by the streets in question. It is imperative that all issues that may affect our response are addressed in a single proposal. Please have the petitioner provide the required documentation so we can adequately address the safety of the residents and citizens affected by the proposal.

SUBJECT: Petition for Street Abandonment
Rice Street (Portion of)
Providence, Rhode Island

Dear Councilman Hassett:

The referenced Petition to the City Council has been reviewed for any impact this action might have on the Providence Water (PW) water distribution system. Our records indicate that an active 6-inch water main is located in the portion of Rice Street where the abandonment is proposed. Attached to the main are several services, which are connected to the building that once house "Harold's Furniture" and to the building at 1 Central Street. Accordingly, this main must remain active.

PW has no objection to the street abandonment provided that the Petitioner grants a full utility easement to PW to maintain, construct, repair, etc. the existing water main and its appurtenances and that no permanent construction, whatsoever, be allowed within the easement. The easement shall cover the full width of the existing Rice Street right-of-way. Actual dimensions and wording of the easement shall be subject to review by PW as to form and content.

If you have any questions, please feel free to contact me at (401) 521-6300 EXT 7241.

Re: Pearl Street Lofts/Abandonment's

Thom, I have reviewed the appraisal submitted by Tom Sweeney for Armory Revival Co. The report alludes to certain easements and restrictions but does not specify what they are and what impact they would have on the development of the parcels. I have not received the maps from Public Works as of this writing.

The assumption of easements is real but the developers plan to use the land as support parking and open space for their commercial development. The parking use alone would be a valuable asset to the development. While I concur that reduction in value from the \$5.00 per ft. fair market value is warranted, I do not however agree with 75% of the value.

It is my opinion that a reduction of 50-60% would be acceptable and should the easements be egregious, 60% would be fair market value or \$2.00 per ft.

Re: CPC REFERRAL NO. 3209: Proposed Abandonment of a Portion of Rice Street

Dear Councilman Hassett:

The City Plan Commission at its regular meeting on Tuesday, September 16, 2003 reviewed and evaluated the request of the Committee on Public Works that the Commission review and make a recommendation regarding the proposed abandonment of a portion of Rice Street, as petitioned by Mark Van Noppen of the Armory Revival Company.

The Commission made the following findings of fact as required by the *City Plan Commission Handbook* Policy No. 1: "Criteria and Guidelines for Approval of Street, Highway and Rights-of-way Abandonment":

1. *A public interest has to be clearly demonstrated. A public interest is defined as one or more of the following: public health and safety, adequate provision of transportation, general improvement of traffic patterns and/or circulation, convenient access to properties, avoidance of a nuisance, significant economic development, preservation of a historical or cultural feature, and improvement of the general welfare of the community.*

The public interest is being served in this project that proposes to redevelop a vacant complex of historic buildings that are listed on the city's Industrial and Commercial Buildings District. The northernmost portion of Pearl Street is on the interior of the complex.

2. *No negative impact is evident on existing land uses, future plans, zoning, safety, health or welfare of the community by the proposed abandonment.*

The proposed abandonment would not negatively impact the current or future land uses, zoning or welfare of the surrounding community. The applicant plans to add landscaping

and other improvements to aforementioned portion of Rice Street. The section of the street would provide entrances to the surrounding buildings, and provide loading space for the warehouse.

3. *All abutting landowners agree to the proposed abandonment.*

The petitioner is the sole abutter of the easternmost portion of Rice Street. Armory Revival Company will construct a new driveway for the benefit of neighboring property owners as a means of access from Central Street to the rear of their properties that now back up to the portion of Pearl Street that will remain a public street. The applicant will grant an easement in perpetuity to pass over the private driveway.

4. *No physical or legal access will be denied to any land or property in surrounding areas by the proposed abandonment.*

The applicant has provided a means to preserve access to the surrounding areas.

5. *No existing or future public services or facilities need to be protected, provided, or maintained within the right-of-way. An easement retention may be necessary to provide access to, maintain, or provide existing or future service or utility needs.*

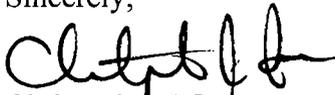

Any approval of the proposed abandonment should be with the condition that any necessary easements be granted to provide access to, to maintain or provide for existing or future service or utility needs. The applicant has stated that the abandoned portion of Rice Street will provide for utility enhancements of the redevelopment project and will leave the portion of the street open and available to Public Safety vehicles in accordance with their needs expressed in their written comments on the traffic circulation plan for this project.

6. *The proposed or intended use of the street and/or adjacent properties must be shown on a petition or plan, and such use shall be in conformance with existing zoning and Comprehensive Plan Objectives.*

The proposed abandonment and project is in conformance with Zoning and Comprehensive Plan objectives.

The Commission voted to recommend to the Committee on Public Works that it approve the subject abandonment with the condition that any necessary easements be granted.

Sincerely,

Christopher J. Isgrig

Re: Petition to Abandon a portion of Rice Street

Dear Mr. Van Noppen:

When the Providence City Council approved Armory Revival's petition to abandon a portion of Rice Street, several easements and other requirements which should have been mentioned in the text of the Resolution did not get incorporated. There are basically two ways to address an issue like this. The first is to start from scratch once more, and I think we can all agree that we would prefer another alternative. The second is to rely upon a provision already included within the Resolution: "(3) Such other conditions as the Mayor or the Law Department shall see fit to impose." Thus, I write to make you aware that the Law Department will impose the following conditions:

- a. The Providence Fire Department requires that travel lanes (depicted in a map attached to their comments) be designated and posted as fire lanes.
- b. A full utility easement shall be granted to Providence Water to maintain, construct, and repair an existing 6" water main and its appurtenances. No permanent construction can be permitted within the easement, which shall cover the entire width of the existing Pearl Street right-of-way.
- c. Narragansett Electric maintains both overhead and underground equipment in the area, and requires an easement for this equipment.
- d. A full sewer easement, to the City of Providence Department of Public Works, is required for this portion of Rice Street to accommodate a 12" sewer line.

- e. New England Gas Company has a 6" natural gas main in this portion of Rice Street, and requests a twenty-foot wide easement be provided for the facilities' continued operation and maintenance.

Also, I'd like this letter to reflect my understanding and yours that Armory Revival will now be taking title to the entirety of the portion of Pearl Street which is being abandoned. The Company's tax obligations will reflect this ownership interest.

Any questions regarding this matter can be directed to me. Thank you.

Very truly yours,

Adrienne G. Southgate

RE: Proposed Abandonment's
Pearl, Perkins & Rice Streets

Dear Councilman Hassett:

The Department of public works objects to the abandonment's of ~~the~~ Pearl and Perkins Street as presented. These abandonment's will have a negative impact on the traffic circulation.

However, The Department of Public Works will reconsider said abandonment's, if the developer presents plans to create a new 40' Public Right of Way from Rice to Public. Central Streets.
