SUM OF FIVE HUNDRED THOUSAND (\$500,000.00) DOLLARS FOR
CERIAL PURPOSES.

It is enacted by the General Assembly as follows:

SECTION 1. The City of Providence is hereby authorized and empowered, in addition to and not in substitution for authority previously granted, to issue, in addition to the bonds heretofore issued and now outstanding, under its corporate name and seal, serial bonds in any form which the city council of said city may approve, in a sum not exceeding five hundred thousand (\$500,000) dollars. Said bonds shall be of any denomination not exceeding twenty thousand (\$20,000) dollars each, shall bear interest at a rate not exceeding three and one-half per centum (3½%) per annum, payable semi-annually; the principal thereof and the interest thereon shall be payable in any coin or currency of the United States of America, which at the time of payment is legal tender for public and private debts and the debts incurred by said bonds shall be obligatory on said city in the same manner and to the same extent as other debts lawfully contracted by said city. The dates of maturity of said bonds shall in no case be more than twenty-five (25) years after date of issue and not less than three and one-half per cent nor more than six and one-half percent of the principal amount of said bonds issued shall become due and payable in any one year; provided, however, that the first instalment of the principal of the bonds issued under the provisions of this act shall mature on such

date as the city council of said city shall determine, but not later than five years after the date of issuance.

SEC. 2. Said bonds shall be signed by the city treasurer and countersigned by the mayor of the city of Providence and shall be issued and sold at such times and in such amounts as the city council of said city shall determine; provided, however, that the premiums, if any, arising from the sale of said bonds shall be applied to the payment of the principal of said bonds in the order of their maturity. The proceeds arising from the sale of the bonds authorized by this act shall be delivered to the city treasurer, and such proceeds, except as hereinafter provided in respect to the premiums arising from the sale thereof, shall be expended for the purpose of constructing or reconstructing sewers and/or for the purpose of acquiring land or easements in land in said city for sewer purposes. No purchaser of any of said bonds, however, shall be in any way responsible for the proper application of the proceeds derived from the sale thereof.

SEC. 3. The city of Providence shall annually appropriate a sum sufficient to pay the interest upon the bonds issued and outstanding under the authority of this act, and also to pay the principal of the bonds maturing in any such year, until said bonds are paid in full. All obligations of said city which are incurred under authority of this act shall be excepted from the operation of section 25 of chapter 329 of the general laws of 1930.

SEC. 4. This act shall take effect upon its passage and shall be submitted to the qualified electors of the city of Providence at the next general or special election in said city, and said bonds shall not be issued unless a majority of the electors of said city voting thereon shall approve this legislative action.

AN ACT

IN AMENDMENT OF AND IN ADDITION TO CHAPTER 489 OF THE PUBLIC LAWS, 1923, ENTITLED "AN ACT TO PROVIDE FOR THE RETIREMENT OF EMPLOYEES IN THE CITY OF PROVIDENCE", AS AMENDED.

It is enacted by the General Assembly as follows:

SECTION 1. Subdivision (11) of Section 1 of Chapter 489 of the Public Laws, 1923, as amended, is hereby amended to read as follows:

(11) "Final Compensation" shall mean the average annual compensation, pay or salary earnable by a member during the five successive years of his service as an employee, during which such average was the highest.

SEC. 2. The first paragraph of Subdivision (1) of Section 5 of said Chapter 489 is hereby amended to read as follows:

(1) The annuity savings fund shall be a fund in which shall be accumulated contributions from the compensation of members to provide for their annuities and their withdrawal allowances. Upon the basis of such tables as the retirement board shall adopt and regular interest, the actuary of the retirement system shall determine for each Class A member the proportion of the compensation which, when deducted from each payment of his prospective earnable annual compensation prior to his eligibility for service retirement and accumulated at regular interest until his attainment of the minimum age of service retirement for his group, shall be computed to provide at that time an annuity equal to the pension provided on account of his service as a member. Such proportion of compensation shall be computed to remain constant. In the event that the provisions of this Chapter for the determination of the amount of the pension of a Class A Employee on account of his service as a member shall at any time be amended, the retirement board shall adopt, as of the effective date of such amendment, rates of contribution for Class A Employees computed on the basis of such amendment and such contribution rates shall apply to all members who become Class A Employees after said effective date at the age attained upon entrance into such Class. No increase in percentage contribu-

tion rates shall be required of members who are so classified on said effective date, but any such member may elect prior to said date to contribute at the rate as so amended applicable to his age attained on said date and thereafter deductions shall be made from his compensation at such amended rate. The retirement board shall adopt as of April, 1951 for Employees in Class B a percentage contribution rate of five percentum, and thereafter deductions shall be made from the compensation of all members so classified at this rate, anything to the contrary in this Chapter notwithstanding.

SEC. 3. The second paragraph of Sub-division (1) of Section 5 of said Chapter 489 is hereby amended to read as follows:

The proportion so computed for a member one year younger than the minimum retirement age for service retirement from his group shall be applied to any member who has attained a greater age before entrance into the retirement system. The Retirement Board shall certify to the head of each department the proportion of earnable compensation of each member so computed, and the City Controller shall deduct such proportion from the compensation of each member on each and every payroll of such department for each and every payroll period; but the City Controller shall not make any deductions for annuity purposes from the annual compensation of a member who elects not to contribute if he has attained the minimum retirement age in the case of a Class A Employee, or if he has completed twenty-five years of creditable service in the case of a Class B Employee. In determining the amount earnable by a member in a payroll period, the retirement board may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period and it may omit deductions from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period; and to facilitate the making of deductions it may modify the deduction required of any member by such an amount as shall not exceed one-tenth of one percentum of the annual compensation upon the basis of which said deduction is to be made.

SEC. 4. The third paragraph of Sub-division (1) of Section 5 of said Chapter 489 is hereby amended to read as follows:

The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein and shall receipt for his full salary or compensation; and payment of salary or compensation less said deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment except as to the benefits provided under this act. Said amounts shall be deducted and when deducted shall be paid into said annuity savings fund, and shall be credited, together with regular interest to an individual account of the member from whose compensation said deduction was made.

SEC. 5. The fourth paragraph of Sub-division (1) of Section 5 of said Chapter 489 is hereby amended to read as follows:

In addition to the contributions deducted from compensation hereinbefore provided, any member may redeposit in the annuity savings fund by a single payment or by an increased rate of contribution an amount equal to the total amount which he withdrew previously therefrom as provided in this act, or any member may deposit therein by a single payment or by an increased rate of contribution an amount computed to be sufficient to purchase an additional annuity, which, together with his prospective retirement allowance, will provide for him a total retirement allowance equal to sixty percentum of his final average salary at the minimum retirement age. Such additional amounts so deposited shall become a part of his accumulated contributions except in the case of retirement, when they shall be treated as excess contributions returnable to the member in the same manner and form as his normal accumulated contributions. The accumulated contributions of a member, withdrawn by him or paid to his estate or to his designated beneficiary in the event of his death as provided in this act, shall be paid from the annuity savings fund. Upon retirement of a member, his accumulated contributions shall be transferred from the annuity savings fund to

the annuity reserve fund.

SEC. 6. Paragraph (c) of Sub-division (3) of Section 5 of said Chapter 489 is hereby amended to read as follows:

(c) Immediately succeeding the first valuation, the actuary engaged by the Retirement Board shall compute the rate percentum of the total compensation of all members during the preceding fiscal year which is equivalent to four percentum of the amount of the total pension liability on account of all members and beneficiaries not dischargeable by the aforesaid normal contribution made on account of such members during the remainder of their active service. The rate percentum originally so determined shall be known as the "deficiency contribution rate." On the basis of the first actuarial valuation following the 1st day of April, 1956, the deficiency contribution rate shall be revised to provide for the liquidation of the deficiency then existing.

SEC. 7. Sub-division (9) of Section 9 of said Chapter 489 is hereby amended to read as follows:

(9) Any member in service as a Class A Employee who has ten or more years of total service may retire upon his written application to the retirement board setting forth at what time, not less than thirty nor more than ninety days subsequent to the execution and filing thereof, he desires to be retired, provided that the said member, at the time so specified for his retirement, shall have fulfilled the above service requirement and notwithstanding that, during such period of notification, he may have separated from service.

SEC. 8. Paragraph (c) of Sub-division (12) of Section 9 of said Chapter 489 is hereby amended to read as follows:

(c) Upon the death of a retired member who has not made an optional selection as provided in Section 10 hereof or upon the death of the survivor of a retired member and the beneficiary under an optional selection as provided in Section 10 hereof, if such optional selection has been made and become effective, a payment shall be made to the estate of the retired member, or to the estate of the survivor as the case may be, or to such person as the retired member shall have nominated

by written designation duly executed and filed with the retirement board in an amount equal to the excess, if any, of the retired member's normal accumulated contributions at retirement over the sum of the payments made on account of his pension and normal annuity, plus the excess, if any, of the retired member's excess accumulated contributions at retirement over the payments made on account of his excess annuity.

SEC. 9. This act shall take effect April 1, 1956, and all acts or parts of acts inconsistent herewith are hereby repealed.

Charles Gerard McGovern is 28 years of age, DOB 8-27-27, a citizen and is single. He resides with his sister at 26 Bergen St. and has resided at that location for the past 27 years. He attended eight grades at the Blessed Sacrament Junior High School. He enlisted in the United States Navy in October, 1945 and was honorably discharged in August, 1946. He re-enlisted in the Navy February 1, 1951 and was honorably discharged January 26, 1955. After his discharge from the Navy, he was employed by the Linder Furniture Co., 996 Chalkstone Ave. for two weeks. Since June of this year, McGovern has been supplying merchandise to Joseph Racquier, an Auctioneer who conducts an Auction on Scott Road, Ashton, R. I. each Monday and Saturday evening.
