How the City Directory will help you

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day they would use it in their personal as well as business affairs.

Well, now—doesn't it concern you? It has your name, business and address correctly listed, where your friends looking for you will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, gives numbers at corners; the clearest map of the City; Buildings, Government, Societies, and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. **But be sure you use the latest** as an old edition will mislead you.

PROVIDENCE STREET DIRECTORY

COPYRIGHT, 1924, SAMPSON & MURDOCK CO., Providence, R. I.

Giving the location of each street, and showing what other streets and places run from it or across it, with the number at which any intersect. From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Westminster Street No. 1129 comes, you look at Westminster Street, and find that Knight Street runs from 1089, and Bridgham Street from 1191, showing that 1129 Westminster Street would come about half-way between Knight and Bridgham Street

Why our Prices are Low

The value of a directory, like anything else, depends on the use made of it. The more people who use a directory the greater is the service it renders to the community, and the greater is its value as a co-operative reference advertising medium.

It has been our policy to keep our prices as low as possible for the high type of information service given, and even during the inflated war period we did not take advantage of conditions to make large increases as many did. That we were not obliged to do so proves that our previous policy was sound, also that as one of the oldest directory publishers, we have so served and educated the business men in our territory that the directory is generally used more widely than elsewhere, which is clearly shown by comparison with other cities.

A study of our prices will convince any business man that he is not being over-charged. An examination of any Sampson & Murdock Co. Directory will show the large value given, and after consideration of these two points no one should deny themselves a full year of directory usefulness on account of price.

The additional fact that there are over 14,000 individual advertisements in Sampson & Murdock Publications alone, shows to what extent they are accepted by progressive business men as the Catalog of their City, in which they naturally wish to be described.

Why our Prices are Low

The value of a directory, like anything else, depends on the use made of it. The more people who use a directory the greater is the service it renders to the community, and the greater is its value as a co-operative reference advertising medium.

It has been our policy to keep our prices as low as possible for the high type of information service given, and even during the inflated war period we did not take advantage of conditions to make large increases as many did. That we were not obliged to do so proves that our previous policy was sound, also that as one of the oldest directory publishers, we have so served and educated the business men in our territory that the directory is generally used more widely than elsewhere, which is clearly shown by comparison with other cities.

A study of our prices will convince any business man that he is not being over-charged. An examination of any Sampson & Murdock Co. Directory will show the large value given, and after consideration of these two points no one should deny themselves a full year of directory usefulness on account of price.

The additional fact that there are over 14,000 individual advertisements in Sampson & Murdock Publications alone, shows to what extent they are accepted by progressive business men as the Catalog of their City, in which they naturally wish to be described.
