PETITION TO THE CITY COUNCIL

TO THE HONORABLE CITY COUNCIL OF THE CITY OF PROVIDENCE:

The undersigned respectfully petitions your honorable body

WHEREAS, your petitioner has two factory buildings located on diagonally opposite corners of the intersection of Point and Eddy Streets, in the City of Providence, and,

WHEREAS, the increased business of your petitioner requires a greater utilization of and expansion into one of said buildings presently used mainly as a warehouse, and

WHEREAS, such increased utilization and expansion will require a much greater flow of materials and personnel between said buildings, and

WHEREAS, the passage of such materials and personnel across said intersection at street level would create a substantial interference with the normal traffic through said intersection and would be hazardous for said personnel and would prevent the operation of your petitioner's business at a level of efficiency sufficient to warrant such expansion, and

WHEREAS, your petitioner desires to construct between said buildings and across said intersection a bridge which would accomodate the passage of said personnel and materials and avoid the hazardous and undesirable condition specified above, and

WHEREAS, the General Assembly of the State of Rhode Island has passed an act, Chapter 1833 of the Public Laws, January Session 1947, entitled "An Act to Enable Davol Rubber Company to Build and Maintain a Bridge Over and Across the Intersection of Point Street and Eddy Street in the City of Providence," which act authorizes and empowers the construction and maintenance of such a bridge upon such terms and conditions as may be described by the City Council of the City of Providence.

WHEREFORE, your petitioner respectfully petitions your honorable body to pass a resolution granting permission to your petitioner to build and maintain a bridge across the intersection of Eddy and Point Streets from a building located on Lot 310, Plat 21 to a building located on Lot 313, Plat 21, a distance of one hundred fourteen feet for the purpose of connecting said buildings of your petitioner located thereon, said bridge to be constructed in accordance with detail drawings upon their approval by the City Engineer and the Office of Building Inspection of the City of Providence, the bottom of such bridge, except for the posts or supports thereof, to be at least twenty feet above the surface of said streets.
