

ANNUAL REPORT

PROVIDENCE POLICE

DEPARTMENT

1952

February 2, 1953

The Honorable John B. Dunn
Commissioner of Public Safety
Police Headquarters
Providence, Rhode Island

1-179

Dear Sir:

It is with a feeling of great personal satisfaction that I present herewith, a detailed report of the activities of the Providence Police Department during the year of 1952.

Figures recently made available by the Federal Bureau of Investigation indicate that crime has increased throughout the nation for the first six months of 1952. This rise has been reflected here, however, complete figures reveal that the increase in crime experienced in 1951 has been reduced considerably during 1952. Clearances on criminal offenses improved greatly over previous years, particularly in the vicious crimes of robbery and burglary. Closely related to increased clearances was the quantity of stolen property recovered and returned to the owners, in fact, the total amount recovered exceeded the national average by 12 percent. A comparison of the incident of crime in cities of 200,000 - 300,000 population group (page 10) shows that the crime rate in this city, in every category recorded, is considerably below the rate in the 'Average City'.

The continued efforts of the Mayor's Traffic Safety Committee, combined with the whole-hearted cooperation which the Committee and this department received from the various civic groups, the local press and radio, and the thousands of citizens of Providence, contributed to a marked degree in keeping the number of highway fatalities in the city to a minimum, and our record in that direction was even better than that of 1951, which was outstanding. A continuous safety campaign throughout the year and strict enforcement of the 25 mile per hour speed limit by the members of the department, also aided materially in the attainment of such good results.

Contributing in a noteworthy degree to the enviable record of the department for 1952 was the addition of twenty patrolmen, ten new patrol cars and the acquisition of modern equipment to assist us in keeping abreast of criminal resources. Also, in the very near future eleven recruits are to start training to become policemen in our Police Training School.

During the year fifteen women were added to the payroll to act as School Crossing Guards. We now have a total of forty School Crossing Guards to aid in the good work being performed by the Junior Police Traffic Patrols in guarding the safety of children at dangerous school crossings. This increase in the number of Crossing Guards has relieved additional patrolmen for other necessary police duties and has generally contributed to overall efficiency.

Continuous efforts were made through the year to enforce the provisions of the vice, gambling and liquor laws with very satisfactory results and there will be no slackening of these efforts during the current year.

Respectfully submitted,
Warren A. Martin

DIVISION OF PERSONNEL & TRAINING

Recruit School

During the year 1952, this division conducted the Ninth Recruit School, which started January 21, 1952 with a total of 20 trainees, and they completed their training July 21, 1952. Upon the completion of their training schedule there were 18 vacancies in the department which were filled by the men of this class to bring the department up to the desired and authorized strength of patrolmen. Two men from this school were placed in the pool of recruits and they were appointed as vacancies occurred.

School Crossing Guards

At the beginning of the fiscal year in October 1952, this department was authorized to increase the number of school crossing guards up to an authorized strength of 40. This increase was based on the success of the plan conducted during the year 1951 - 1952. These women have been doing splendid work and have received high praise for the efficient and capable manner in which they carried out their assignments. They have won the confidence of children and respect of parents and motorists by the manner in which they have performed their duties. At a recent fire at Candace Street Grammar School, three crossing guards were commended for their actions in caring for pupils released from the school by taking charge of them during the entire morning administering to their comfort and calming their fears regarding clothing and possession left behind because of their quick exit.

In order to bring the number up to the authorized strength of 40, it was necessary to hold an examination and select 21 new guards due to the resignation of 6, at the termination of the school year.

Auxiliary Police

At the present time the department has 70 Auxiliary Police, and they meet once a month and are given instruction in police procedure, traffic control, the proper method of patrolling a post, courtesy, and the latest techniques of civilian defense. They have formed a unit within their own group known as the Police Reserves which is separate from the Civilian Defense Group. They have selected 20 men from the Auxiliary Unit and have received a charter. They also meet once a month and they plan to continue after the present emergency to help the police in any manner in which they can be called upon to lend assistance.

Inspection of Personnel and Precinct Records

Periodical Inspections were conducted by this division of personnel on duty. Violations that were observed were reported to either Division or Precinct Commanders, and they were instructed to take the necessary steps to enforce department regulations and correct violations. In some instances when violations of a minor nature were observed they were warned by the inspecting officer. Precinct and Division Records and Record Books were inspected periodically and evidence of laxity or incomplete records were immediately brought to the attention of the officer in charge for proper action.

Nightly inspections were conducted by this division, and during these night inspections it was observed that the Sergeants have been unable to supervise the personnel in the proper manner. This is due to the fact that one Sergeant and one Lieutenant have been assigned during a tour of duty and various incidents which arise during a tour of duty makes it impossible in some instances for the Sergeant to repond because of a previous incident requiring his time, and this also causes a lack of supervision of the personnel. It is felt that more Sergeants are needed in the precincts in order to properly supervise their personnel, and unless they are motorized they could not efficiently discharge their duties. It is my opinion that there should be at least two sergeants for each night relief, also the precincts should be sub-divided so that the sergeants would be supervising not more than one-half of the personnel out during a tour of duty. Sergeants also should be rotated on each tour of duty so that they would not be supervising the same personnel on successive tours of duty. This would increase the efficiency of the patrolling force and would effect the discipline of the entire department due to the increased supervision.

Inspection of Personnel and Precinct Records (cont'd)

It is felt that the relieving posts should be re-established and enforced. In transporting the patrolmen to and from their relieving posts, it is felt that the cruiser should be manned with a Sergeant taking the outgoing relief to the various relieving posts and picking up the incoming relief. The other Sergeant in a scout car should follow the same procedure and in this manner the city would not be left unprotected.

Firearms Training

Due to the sale of the department pistol range at Sockanosset, at the present time there is not a suitable range available to carry out this important phase of training. This was reflected by the results of the qualification held at the Warwick Police Department's Range, when 31% of the number reporting for qualification failed, and due to the fact that this range was not available for further use the men were not able to fire again in order to qualify. Unless this phase of training is established again, many of our men who have received yearly training and familiarization with the various types of weapons used by this department may find themselves unable to handle weapons other than their own sidearms when called upon in an emergency.

Refresher School

It has been three years since a refresher school was held at this division. In view of the fact that important legislation affecting police procedure has been adopted by the General Assembly during this time, I recommend that such a course be held sometime during the coming year of 1953, so that the personnel of this department can be briefed and given a clear explanation of their duties, and changes of department police outlined to them, and at the same time courtesy and discipline can be stressed. This will enable them to render to the public an intelligent and efficient discharge of their duties.

Ninth Recruit School, started January 21, 1952 and their course of training was completed July 21, 1952, the following statistics relate to this school:

I	<u>Applications accepted</u>	57
II	<u>Rejections</u>	
	(a) Failed to pass physical examination	5
	(b) Failed to pass qualifying examination	12
	(c) Rejected because of police record	<u>2</u>
		19
III	<u>Other Causes for Failure to be Admitted</u>	
	(a) Failed to furnish eligibility (30 days)	8
	(b) Withdrew before qualifying examination	5
	(c) Failed to appear for qualifying examination	3
	(d) Called back into Armed Service	<u>2</u>
		18
IV	<u>Candidates Accepted for Training</u>	<u>20</u>
	Total	57
I	Average Age	25 1/5 years
II	Average Height	5 ft. 9 3/5 in.
III	Average Weight	177 lbs.
IV	Scholastic Attainment	2 1/2 yrs. High School

School Crossing Guards: August 5, 1952 an examination was held for the position of school crossing guards, and 21 were selected for this position to bring the number of guards up to the authorized strength of 40, and fill vacancies caused by the resignation of 6. The following statistics relate to the applications received for this position:

Applications Received -----			75
I	Rejected Overweight -----	5	
	" Underweight -----	2	
	" Failed to meet minimum height requirement -----	2	
		9	9
II	Failed to Process Application -----	2	
	" to appear for Qualifying Examination -----	8	
	" to pass Qualifying Examination -----	34	
		44	44
III	Withdrew Application -----	1	1

	Total --		75

Auxiliary Police: The following is a report of the number of Auxiliary Police Qualified for this phase of Civilian Defense with this department:

Auxiliary Police ----- 70

PROMOTIONAL SCHOOLS

There were no schools for promotion conducted this year, as there is sufficient personnel from the previous schools awaiting promotion to the rank of Sergeants and Lieutenant. The Lieutenant's roster contains a total of 5 men awaiting promotion to that rank and the Sergeant's roster contains a total of 7 men eligible for promotion to that rank.

List of Sergeants awaiting promotion to rank of Lieutenant ----- 5

List of Patrolmen awaiting promotion to rank of Sergeant ----- 7

PROMOTIONS

The following promotion was made during the year 1952:

Promoted from Captain to Chief of Detectives - 1

AVERAGE SERVICE AND AGE OF POLICE PERSONNEL

LECTURES

During the year 1952 members of this division lectured to civic organizations, fraternal organizations and various police departments of several cities and towns. Following is a summary of lectures presented:

City & Town Police Departments	- 5
" " Auxiliary Police	- 3
Civic & Fraternal Organizations	- <u>3</u>

ARMORER'S ACTIVITIES

The following is a report of the attendance and qualification of the department for the year 1952:

Total Attendance		
(Including Recruits of 9th School) -----		379
<u>QUALIFICATION:</u>	Experts -----	84
	Sharpshooters -----	94
	Marksmen -----	<u>81</u>
	Total -----	259 68.3%
<u>UNQUALIFIED:</u>	-----	<u>120</u> 31.7%
		379

REPORT OF QUALIFICATION OF 9TH RECRUIT SCHOOL:

<u>QUALIFICATION:</u>	Experts -----	5
	Sharpshooters -----	<u>15</u>
	Total --	20
<u>UNQUALIFIED:</u>	-----	0

The following repairs were made by the Armorer during the year 1952:

.38 cal. Service Revolvers repaired -----	15
.44 cal. Service Revolvers repaired -----	7
Riot Guns Repaired -----	<u>4</u>
Total	26

Monthly inspections were conducted at roll calls of precincts and divisions to check the condition of arms and if personnel were carrying the proper equipment.

At the recent incident which occurred in the city of Pawtucket involving a crazed gunman who killed a Pawtucket Policeman, the Armorer's Wagon which is equipped with gas guns and riot guns for such emergencies was dispatched to the scene. Fortunately the wagon was in the garage at the time, but if it had been out on the highway it would have been impossible to dispatch this important piece of equipment to the scene as it is not equipped with a radio. Inasmuch as the Armorer was the one who fired the projectiles into the house and routed the crazed gunman from his cover, I recommend that this vehicle be equipped with a two-way radio in order that this vehicle can be dispatched to the scene of an emergency without any delay.

INVESTIGATIONS

The following investigations were conducted by this division for the year 1952:

Failing to detect a break, while on post -----	8
Officer, Fails to register a duty call -----	1
Investigation; Complaint of mistreatment by police -----	2
" Dispute involving Sergt. and Patrolman -----	1
" Policeman accepts gratuities -----	1
" Policeman associating with undesirables -----	<u>1</u>
Total ---	14

Cruisers	5	9
Motorcycles	14	13
Passenger Cars (Private Plates)	<u>3</u>	<u>4</u>
Total	62	58

JUNIOR POLICE ACTIVITIES

Safety education of the school children played an important part of the activities of the Junior Police Patrolmen. Each of the 62 public elementary and junior high schools and the 26 parochial schools were visited at least twice by the patrolmen. They went from room to room, from the kindergarten to the ninth grade, and instructed the children in highway safety.

Sixteen Junior Police Traffic Patrols were on duty at school crossings, protecting their classmates while crossing the streets. These patrols, composed of boys between the ages of 11 and 16, were organized and are supervised by the patrolmen with the cooperation of the school principals. Each Junior Police Patrol relieved one regular Policeman from school traffic duty and left him free for other important police work. However, with the inauguration of the Women Crossing Guards in September 1951, many principals since that time have refused to allow Junior Police Patrols to be installed at their schools. They feel that the Women Crossing Guards are better able and equipped to perform this duty.

A well rounded athletic program was conducted during the year 1952. Five teams were entered in the baseball league sponsored by the Department of Recreation. Five teams were also entered in the same department's touch football league. A team coached by Patrolman Raymond F. Waldraff, representing the Elmwood Section, defeated a team coached by Patrolman John J. Flynn, of South Providence, for the City Championship. All the necessary equipment needed was furnished by the Recreation Department as the Junior Police is without funds. There were also five teams entered in the Journal-Bulletin Community Basketball League for Boys, and we extend our sincere thanks to Mr. Webster Youlden, of the Journal-Bulletin, for inviting the Junior Police to compete in this league.

During the summer months a team representing the North End Junior Police, organized and coached by Patrolman Charles J. Davey, was entered in the Providence Junior League. This team won the championship in its league and went on to defeat the winners of the championship of the City Junior League.

We are also thankful to the City Council for appropriating the necessary funds to operate the Junior Police Camp at Point Judith during the past summer. 360 needy boys were given a two weeks vacation at the seashore. This camp has now been in operation for the past seven summers and its benefits are too numerous to mention here.

On the night of October 31st. Hallowe'en, parties were given for over 5000 children in six neighborhoods of the city. These parties were organized and conducted by the members of the W. & J. Division. The purpose of the parties was to eliminate, as much as possible, vandalism and destruction of property which is so prevalent on this night. Judging from the number of complaints received, it is safe to say that the parties were successful. Much of the credit for their success belongs to the merchants and other interested citizens of our city who were so generous in their donations of food and prizes.

Disorderly Conduct -----	3
Drunk -----	11
Operating an Automobile not Properly Registered -----	1
Total number of Prosecutions -----	96
Telephones removed for gambling activities -----	63
Persons arrested for investigation -----	403

DETECTIVE DIVISION

During the year 1952 the Detective Division, under the supervision of Chief of Detectives Walter E. Stone and his Administrative Assistant, Lieutenant Thomas B. Healey, investigated a preponderance of the 31,241 complaints received by the department ranging from Murder to petty complaints. The efficiency of this division is emphasized when its clearances are compared with those of other departments of cities of comparable population.

Of two murders reported, one was quickly solved. The paucity of leads in the second murder have been traced to surrounding cities as far west as Buffalo, N.Y., but to date have been unsuccessful. However, this case is still under investigation and detectives assigned and instructed to follow any and all clues in an effort to apprehend the perpetrator or perpetrators of this vicious crime.

The narcotic squad, activated last year, investigated seven complaints of teen-age smoking of marijuana cigarettes and found them to be gossip and without foundation. This squad is bent on suppressing this traffic and has made a few arrests of addicts. From their investigations it can be positively reported that the narcotic traffic in this city is very light.

Information was received by this division that a gang of thugs were planning a holdup of one of our leading hotels. Detectives were assigned to keep a surveillance on the activities of this mob and representatives of the Federal Bureau of Investigation and the Massachusetts State Police were kept informed and invited to participate with our detectives in this case. On May 5, 1952 the holdup was to be staged and from the surveillance it was learned that the gang had met in a local diner. Our detectives and the other law enforcement agents swooped down on them and effected the arrests of three armed hoodlums in the crowded diner without a shot being fired and nobody hurt. Among those arrested was Harvey (Mad Dog) Bistany, a notorious criminal, wanted in New York City for Post Office robberies, in Worcester, Massachusetts for Assault with Intent to Kill and Robbery and also wanted in several Massachusetts cities for Bank Robberies. This arrest with its ramifications, lead to the arrest of ten other notorious criminals, all who have been convicted of bank robberies in Massachusetts, New York, and New Jersey. It focused national recognition to this department and caused our own City Council to pass a resolution commending our detectives for their bravery and efficiency. It is a striking example of our desire to cooperate with all law enforcement agencies.

In August of this year a thug was arrested by our detectives for robbery and positively identified by the victim. During the investigation it was learned that this man was wanted in Connecticut for a brutal murder. The Connecticut authorities were notified and the murderer was delivered to them and has been tried and convicted. This is another example of our cooperation with other departments.

Clearances of major crimes reported was increased 8% over last year with a general clearance of 29%. Seventy-five percent of stolen property was recovered and ninety-six percent of all automobiles stolen were recovered and returned to their owners.

No organized crime exists in this city and none will be tolerated.

Assistance received from the various precincts and division is appreciated and the Detective Division has and will reciprocate to the fullest extent.
