4 (20) Manufacturer's inventory

5 (i) For the purposes of sections 44-4-10, 44-5-3, 44-5-20, and 44-5-38, a person is
6 deemed to be a manufacturer within a city or town within this state if that person uses any
7 premises, room, or place in it primarily for the purpose of transforming raw materials into a
8 finished product for trade through any or all of the following operations: adapting, altering,
9 finishing, making, and ornamenting; provided, that public utilities, non-regulated power
10 producers commencing commercial operation by selling electricity at retail or taking title to
11 generating facilities on or after July 1, 1997, building and construction contractors, warehousing
12 operations including distribution bases or outlets of out-of-state manufacturers, and fabricating
13 processes incidental to warehousing or distribution of raw materials such as alteration of stock for
14 the convenience of a customer, are excluded from this definition.

15 (ii) For the purposes of sections 44-3-3, 44-4-10, and 44-5-38, the term "manufacturer's
16 inventory" or any similar term means and includes the manufacturer's raw materials, the
17 manufacturer's work in process, and finished products manufactured by the manufacturer in this
18 state, and not sold, leased, or traded by the manufacturer or its title or right to possession
19 divested; provided, that the term does not include any finished products held by the manufacturer
20 in any retail store or other similar selling place operated by the manufacturer whether or not the
21 retail establishment is located in the same building in which the manufacturer operates the
22 manufacturing plant.

23 (iii) For the purpose of section 44-11-2, a "manufacturer" is a person whose principal
24 business in this state consists of transforming raw materials into a finished product for trade
25 through any or all of the operations described in paragraph (i) of this subdivision. A person will
26 be deemed to be principally engaged if the gross receipts which that person derived from the
27 manufacturing operations in this state during the calendar year or fiscal year mentioned in section
28 44-11-1 amounted to more than fifty percent (50%) of the total gross receipts which that person
29 derived from all the business activities in which that person engaged in this state during the
30 taxable year. For the purpose of computing the percentage, gross receipts derived by a
31 manufacturer from the sale, lease, or rental of finished products manufactured by the
32 manufacturer in this state, even though the manufacturer's store or other selling place may be at a
33 different location from the location of the manufacturer's manufacturing plant in this state, are
34 deemed to have been derived from manufacturing.

1 (iv) Within the meaning of the preceding paragraphs of this subdivision, the term
2 "manufacturer" also includes persons who are principally engaged in any of the general activities
3 coded and listed as establishments engaged in manufacturing in the standard industrial
4 classification manual prepared by the technical committee on industrial classification, office of
5 statistical standards, executive office of the president, United States bureau of the budget, as
6 revised from time to time, but eliminating as manufacturers those persons, who, because of their
7 limited type of manufacturing activities, are classified in the manual as falling within the trade
8 rather than an industrial classification of manufacturers. Among those thus eliminated, and
9 accordingly also excluded as manufacturers within the meaning of this paragraph, are persons
10 primarily engaged in selling, to the general public, products produced on the premises from which
11 they are sold, such as neighborhood bakeries, candy stores, ice cream parlors, shade shops, and
12 custom tailors, except, that a person who manufactures bakery products for sale primarily for
13 home delivery, or through one or more non-baking retail outlets, and whether or not retail outlets
14 are operated by person, is a manufacturer within the meaning of this paragraph.

15 (v) The term "Person" means and includes, as appropriate, a person, partnership, or
16 corporation.

17 (vi) The department of revenue shall provide to the local assessors any assistance that is
18 necessary in determining the proper application of the definitions in this subdivision.

19 (21) Real and tangible personal property acquired to provide a treatment facility used
20 primarily to control the pollution or contamination of the waters or the air of the state, as defined
21 in chapter 12 of title 46 and chapter 25 of title 23, respectively, the facility having been
22 constructed, reconstructed, erected, installed, or acquired in furtherance of federal or state
23 requirements or standards for the control of water or air pollution or contamination, and certified
24 as approved in an order entered by the director of environmental management. The property is
25 exempt as long as it is operated properly in compliance with the order of approval of the director
26 of environmental management; provided, that any grant of the exemption by the director of
27 environmental management in excess of ten (10) years is approved by the city or town in which
28 the property is situated. This provision applies only to water and air pollution control properties
29 and facilities installed for the treatment of waste waters and air contaminants resulting from
30 industrial processing; furthermore, it applies only to water or air pollution control properties and
31 facilities placed in operation for the first time after April 13, 1970;

32 (22) New manufacturing machinery and equipment acquired or used by a manufacturer
33 and purchased after December 31, 1974. Manufacturing machinery and equipment is defined as:

34 (i) Machinery and equipment used exclusively in the actual manufacture or conversion

1 of raw materials or goods in the process of manufacture by a manufacturer as defined in
2 subdivision (20) of this section, and machinery, fixtures, and equipment used exclusively by a
3 manufacturer for research and development or for quality assurance of its manufactured products;

4 (ii) Machinery and equipment which is partially used in the actual manufacture or
5 conversion of raw materials or goods in process of manufacture by a manufacturer as defined in
6 subdivision (20) of this section, and machinery, fixtures, and equipment used by a manufacturer
7 for research and development or for quality assurance of its manufactured products, to the extent
8 to which the machinery and equipment is used for the manufacturing processes, research and
9 development or quality assurance. In the instances where machinery and equipment is used in
10 both manufacturing and/or research, and development, and/or quality assurance activities and
11 non-manufacturing activities, the assessment on machinery and equipment is prorated by
12 applying the percentage of usage of the equipment for the manufacturing, research, and
13 development and quality assurance activity to the value of the machinery and equipment for
14 purposes of taxation, and the portion of the value used for manufacturing, research, and
15 development, and quality assurance is exempt from taxation. The burden of demonstrating this
16 percentage usage of machinery and equipment for manufacturing and for research, and
17 development and/or quality assurance of its manufactured products rests with the manufacturer;
18 and

19 (iii) Machinery and equipment described in section 44-18-30(7) and (22) that was
20 purchased after July 1, 1997; provided that the city or town council of the city or town in which
21 the machinery and equipment is located adopts an ordinance exempting the machinery and
22 equipment from taxation. For purposes of this subsection, city councils and town councils of any
23 municipality may by ordinance wholly or partially exempt from taxation the machinery and
24 equipment discussed in this subsection for the period of time established in the ordinance and
25 may by ordinance establish the procedures for taxpayers to avail themselves of the benefit of any
26 exemption permitted under this section; provided, that the ordinance does not apply to any
27 machinery or equipment of a business, subsidiary or any affiliated business which locates or
28 relocates from a city or town in this state to another city or town in the state.

29 (23) Precious metal bullion, meaning any elementary metal which has been put through a
30 process of melting or refining, and which is in a state or condition that its value depends upon its
31 content and not its form. The term does not include fabricated precious metal which has been
32 processed or manufactured for some one or more specific and customary industrial, professional,
33 or artistic uses;

34 (24) Hydroelectric power generation equipment, which includes, but is not limited to,

1 turbines, generators, switchgear, controls, monitoring equipment, circuit breakers, transformers,
2 protective relaying, bus bars, cables, connections, trash racks, headgates, and conduits. The
3 hydroelectric power generation equipment must have been purchased after July 1, 1979, and
4 acquired or used by a person or corporation who owns or leases a dam and utilizes the equipment
5 to generate hydroelectric power;

6 (25) Subject to authorization by formal action of the council of any city or town, any real
7 or personal property owned by, held in trust for, or leased to an organization incorporated under
8 chapter 6 of title 7, as amended, or an organization meeting the definition of "charitable trust" set
9 out in section 18-9-4, as amended, or an organization incorporated under the not for profits
10 statutes of another state or the District of Columbia, the purpose of which is the conserving of
11 open space, as that term is defined in chapter 36 of title 45, as amended, provided the property is
12 used exclusively for the purposes of the organization;

13 (26) Tangible personal property, the primary function of which is the recycling, reuse, or
14 recovery of materials (other than precious metals, as defined in section 44-18-30(24) (ii) and
15 (iii)), from or the treatment of "hazardous wastes", as defined in section 23-19.1-4, where the
16 "hazardous wastes" are generated primarily by the same taxpayer and where the personal property
17 is located at, in, or adjacent to a generating facility of the taxpayer. The taxpayer may, but need
18 not, procure an order from the director of the department of environmental management
19 certifying that the tangible personal property has this function, which order effects a conclusive
20 presumption that the tangible personal property qualifies for the exemption under this
21 subdivision. If any information relating to secret processes or methods of manufacture,
22 production, or treatment is disclosed to the department of environmental management only to
23 procure an order, and is a "trade secret" as defined in section 28-21-10(b), it shall not be open to
24 public inspection or publicly disclosed unless disclosure is otherwise required under chapter 21 of
25 title 28 or chapter 24.4 of title 23;

26 (27) Motorboats as defined in section 46-22-2 for which the annual fee required in
27 section 46-22-4 has been paid;

28 (28) Real and personal property of the Providence performing arts center, a non-business
29 corporation as of December 31, 1986;

30 (29) Tangible personal property owned by, and used exclusively for the purposes of, any
31 religious organization located in the city of Cranston;

32 (30) Real and personal property of the Travelers Aid Society of Rhode Island, a
33 nonprofit corporation, the Union Mall Real Estate Corporation, and any limited partnership or
34 limited liability company which is formed in connection with, or to facilitate the acquisition of,

1 the Providence YMCA Building; and

2 (31) Real and personal property of Meeting Street Center or MSC Realty, Inc., both not-
3 for-profit Rhode Island corporations, and any other corporation, limited partnership, or limited
4 liability company which is formed in connection with, or to facilitate the acquisition of, the
5 properties designated as the Meeting Street National Center of Excellence on Eddy Street in
6 Providence, Rhode Island.
