MAYOR'S
OFFICE OF
COMMUNITY
DEVELOPMENT

March 15, 1978

City Council
c/o City Clerk
City Hall
Providence, RI 02903

Dear Councilmen and Councilwoman:

Enclosed please find a copy of the Annual Performance Report for Fiscal Year 1978 Community Development Activities.

The report is submitted yearly to the Department of Housing and Urban Development and answers those questions you have requested us to respond to.

If there are any further questions please feel free to contact this office.

Sincerely,

Vito Russo

Vito Russo

CITY OF PROVIDENCE
ANNUAL PERFORMANCE REPORT

I. Progress of Planned Activities Narrative

I. Housing Rehabilitation Program

- a. The Home Improvements for Providence Program has continued its efforts to organize more efficiently the administrative staff and the assistance process. The program no longer extends direct loans but instead distributes grants and facilitates the obtaining of bank loans. Since the last performance report 415 cases have received assistance. The application process has been suspended indefinitely to allow for the servicing of applicants who have already applied. The New Homes for Federal Hill Program received additional funding for the prior year and is effectively distributing aid to the respective neighborhood.

In August 1977 the Stop Wasting Abandoned Property Program was initiated. Fifteen homes are being renovated; three are completed. This program is proving very effective in arresting urban decay and precluding the subsequent demolitions.

Preliminary work has been expended toward founding a Neighborhood Housing Services Program in the Elmwood Neighborhood (Census Tracts 2 and 3). The program is developed by the Urban Re-investment Task Force. The Task Force has had great success in establishing productive Neighborhood Housing Services Programs in other cities across the country. The Program involves city officials, neighborhood residents and the local private lending institutions in a neighborhood high risk revolving loan fund. The primary objective is to provide and integrate efforts by local lending institutions and residents toward the rehabilitation of neighborhood homes. Presently the ENHS is finalizing its corporate structure and by-laws. It has demonstrated tremendous success in obtaining the participation and financial commitments, of the local private lending institutions, the city government and the neighborhood residents. Over 200 people have applied for membership.

Funds have been reserved for in an Escrow Fund that will be administered by the Providence Department of Code Enforcement. The Fund will be used to rehabilitate the units of tenants where landlords have been reluctant to respond to code enforcement directives. In this manner renters can be assisted through Community Development Block Grant funds. The Escrow Fund has been effective in cajoling and coercing the cooperation of negligent landlords. It has now begun to use the financial resources provided by MOCD, and promises to be very effective in the rehabilitation of renter occupied units.

The Home Improvements for Providence Program has collaborated with the Rhode Island Historical Preservation Commission wherever questions of an Historical nature arise.

As of December 31, 1978, \$43,069 in bank funds has been contracted to HIP applicants as the bank portion of the 3% loans. The HIP Program has attempted to address and refine the many complications that have arisen during its three years of operation. The fundamental administrative process is in place. An Arbitration Board has been formed to review assistance complaints and to ensure quality workmanship. Minority contractors have been invited to discussion sessions to determine their needs and limitations not only for the Home Improvements for Providence Program but also for the Stop Wasting Abandoned Properties Program. With such conscientious monitoring and revision the Housing Programs will become even more effective in serving Providence's Housing needs.

Bank Loans	--	first year	\$ 5,426
		second year	<u>40,293</u>
		total	\$45,719

3. First Year Public Housing Assistance Program

A. Funds for Physical Rehabilitation

- a). i) Roger Williams--A consolidated contract was signed between the Public Housing Authority and the Mayor's Office of Community Development for the purchase and delivery of 280 refrigerators and one for 280 stoves. These appliances have been purchased and installed at Roger Williams.

- (ii) (iii) (iv) Elderly Projects--A contract for fencing at Kilmartin Plaza project was signed and the fence has been erected.

Panic bars have been installed or corrected on existing fire doors at Parenti Villa, Carroll Towers , and Kilmartin Plaza.

- (v) The contract for roofing at Valley View was awarded to Calcagni Construction Company after processing through the Board of Contract and Supply. The roofing work has been completed. A contract for rekeying all the locks in Valley View was awarded to B & H Locksmith; the work on the locks has been completed. Bids for the boilers at Valley View have been received and are being reviewed to ensure conformity with the specifications.

- (vi) Chad/Ad/Sun--A consolidated contract has been signed between the Public Housing Authority and the Mayor's Office of Community Development for electrical renovations, and another for heating renovations.

- b). A problem with the Valley View boilers has been encountered. The contract is in litigation over which bid would be honored by the Board of Contract and Supply.

- c). Of the total \$5,991 cost of the Kilmartin Plaza fencing, \$2,882 was provided by the Providence Housing Authority

B. City-Wide Security Program

- a). A contract between the Mayor's Office of Community Development was signed on November 14, 1975. The police department was authorized to recruit, train and employ security officers to patrol four public housing projects.

The positions were advertised in the local papers. In addition, letters were sent to inner city agencies notifying them of the employment opportunity, and requested them to submit names of inner city residents who would be interested in applying for the positions.

The former Community Protection Officers were evaluated and eleven were rehired to become officers in the new program.

Patrolling has been on-going at Hartford Park, Manton Heights, Roger Williams and Chad/Ad/Sun Housing Project.

- b). No problems have been encountered.
- c). No other funds are involved.

4. Progress on Planned Activities--Narrative

First Year Neighborhood Parks

Ascham Playground

- a). This project is presently under construction and is scheduled to be completed by April 1978.
- b). No problems have been encountered.
- c). BOR \$20,000

Garibaldi Park

- a). The park was constructed during September 1975. Game tables, benches and various plantings for approximately \$10,000 are scheduled to be included in the completion of the park in the Spring 1978.
- b). No problems have been encountered.
- c). BOR \$5,436

Prairie Avenue Head Start Playground

- a). This project was completed in the Spring 1977. The park is now serving the needs of the Head Start program for inner city children.
- b). No problems have been encountered.
- c). No other funds are involved.

Discovery Network

- a). Feasibility of this project is still being studied. There is a possibility that this project will be incorporated in fifth year construction and downtown improvement program.
- b). Location of land.
- c). No other funds are involved.

Gesler Street Playground

- a). Dedication, renaming this playground to Pastore Park, is scheduled for Winter 1978. Work is 98% complete, with finish-up landscaping planned for Spring 1978.
- b). No problems have been encountered.
- c). \$15,000 have been allocated from City Services program area.

Bucklin Playground

- a). Project has been cancelled.
- b). The playground would have interfered with a community facility in the same location.
- c). No other funds are involved.

Flynn Playfield

- a). Contract with Salo Construction Company completed.
- b). No problems have been encountered.
- c). No other funds are involved.

Gano Street Park

- a). Bidding for construction is scheduled for Spring 1978. Additional planning is now under consideration for the inclusion of a little league baseball field in the final design.
- b). No problems have been encountered.
- c). BOR \$27,500

Laurel Hill Playground

- a). Construction is presently underway. Completion by Spring 1978.
- b). No problems have been encountered.
- c). No other funds are involved.

Codding Court

- a). Construction work is 90% complete; the balance to be completed in Spring 1978.
- b). No problems have been encountered.
- c). BOR \$4,812

Harbor View Trail

- a). Construction commenced March 1, 1976. End of construction period 1977 represented 85% completion balance to completion June 15, 1977.
- b). No problems have been encountered.
- c). BOR \$258,000

Prospect Terrace

- a). Project has been completed.
- b). No problems have been encountered.
- c). No other funds are involved.

India Point Berthing Dock

- a). Project completed to accommodate the "Tall Ships" docking in July 1976.
- b). No problems have been encountered.
- c). No other funds are involved.

5. Roger Williams Park

- a). Projects in Phase I include renovations at Benedict Memorial Temple of Music, Museum of Natural History and Dalrymple Boathouse. Contract signed with Gilbane Building Company for work at the Zoo Entrance, Children's Nature Center, Bird Refuge and North America Mammal Area. Work is presently on-going; scheduled completion by July 1978. All first year monies have been contracted.
- b). No problems have been encountered.
- c). BOR \$700,000
Green Acres \$90,000

Progress on Planned Activities -- Narrative

6. Neighborhood Facilities

i. DaVinci Center

- a). Architectural drawings are in the Bid Phase. S & R Construction Company has completed transfer of landfill to Da Vinci site. Project out to bid.
- b). No problems have been encountered.
- c). No other funds are involved.

ii. East Side Community Center

- a). Bacon Construction Company awarded bid by MOCD for \$220,800 for renovation of Jenkins Street School. Work is on-going.
- b). No problems have been encountered.
- c). No other funds are involved.

iii. Federal Hill Community Center

- a). Title conveyance completed; project is completed.
- b). No problems have been encountered.
- c). No other funds are involved.

iv. Joslin (Amherst Street) Community Center

- a). Calcagni Construction Company awarded bid by MOCD for \$101,230. Construction work is on-going.
- b). No problems have been encountered.
- c). No other funds are involved.

vi. South Providence Cultural/Recreational Center

- a). Resolution of City Council pending approval for use of Dudley Street Recreation Center for project site. Architect working on designs and specifications (cannot proceed beyond preliminary).
- b). No problems have been encountered.
- c). No other funds are involved.

vii. Washington Park Community Center

- a). Contract signed between C & D Construction Company and MOCD for \$221,300 to build neighborhood community center. Construction work presently underway; expected completion June - July 1978.
- b). No problems have been encountered.
- c). No other funds are involved.

viii. West End Community Center

- a). Architect's plans are at 35% design development stage. Revised plans submitted to HUD for approval.
- b). Design pending HUD approval.
- c). No other funds are involved.

ix. Joslin - Sisson Street Center

- a). Located at former Putnam Street School, now project entitled Joslin Community Center Extension. Pending City Council resolution. Environmental Assessment Review in process. Architect under contract; preliminary designs in process.
- b). Pending City Council approval.
- c). No other funds are involved.

x. Valley View Multi-Purpose Center

- a). Contract signed between Fairlawn Construction Co. and MOCD for \$82,610 to renovate old Valley View Administrative building. Construction work is presently underway, 85% complete.
- b). No problems have been encountered.
- c). No other funds are involved.

xi. Providence/Talbot Non-Hospital Detoxification Center

- a). Contract awarded to Calcagni Construction Co. for \$81,075. Construction underway.
- b). No problems have been encountered.
- c). No other funds are involved.

Progress On Planned Activities--Narrative

7. City Services

Barrier Removal

Buildings

- a). City Hall--Architect Irving B. Haynes is drawing up barrier removal plans as part of the City Hall Master Plan. Police/Fire Station--The Safety Commissioner and RIPA are reviewing MOCD developed plans prior to completion of construction documents. Exterior ramp has been designed and construction will begin in the Spring.

Curbs

- a). MOCD staff has completed conducting a complete survey of all existing curb conditions and other barriers in Downtown area. Construction to begin in the Spring.
- b). No problems have been encountered.
- c). City Hall Restoration funds

Neighborhood Based Public Improvement

- a). The Elderly and Handicapped Paint program has painted 325 homes with first year painting assistance funds. Second year monies are now being used to continue program. The tree Planting program has planted 636 trees in Mt. Pleasant, Elmhurst, Charles, Hope, Fox Point, Washington Park, West End, Silver Lake, Elmwood, Smith Hill, Federal Hill and South Providence neighborhoods.

Sidewalks will be installed this Spring at Oxford Place in the South Providence neighborhood.

- b). No problems have been encountered.
- c). No other funds are involved.

Accelerated Building Demolition

- a). Total of 42 structures have been demolished under this program. The balance of funds will be used to supplement the third year "Building Boarding-Up Demolition Program".
- b). No problems have been encountered.
- c). No other funds are involved.

City-Wide Historic Survey Team

- a). Contract with Historic Survey Team for survey work on historic buildings in the City of Providence is completed.
- b). No problems have been encountered.
- c). RIHC Title X \$20,880

Waterfront Planning

- a). Basic drawings for the 875 acre waterfront area were completed. Then an inventory of all facilities including property tax, ownership, evaluation, building condition and use was taken in first year.
- b). No problems have been encountered.
- c). No other funds were involved.

New Homes for Federal Hill/Administration

- a) Funds were allocated for an administrative staff. An executive director, a rehabilitation officer and a secretary were hired to administer the program.
- b) No problems have been encountered.
- c) No other funds were involved.

Downtown Development Team

- a) The team has provided staffing and coordination for all downtown-based MOCD programs, and coordinating team between MOCD and other agencies working on downtown-based projects.
- b) No problems have been encountered.
- c) Title X \$40,200

Krasnoff Associates

- a) Two contracts were signed with Krasnoff Associates for consultant engineering services on all neighborhoods facilities projects funded by MOCD. Services are presently ongoing.
- b) No problems have been encountered.
- c) No other funds are involved.

Providence Athenaeum

- a) Contract signed with the Athenaeum for construction work. Gustafson Construction Company is presently working on site.
- b) No problems have been encountered.
- c) Kresge Foundation \$50,000

Roger Williams Park Museum Restoration

- a) Contract has been signed between the department of Public Works and MOCD. Work has been completed in the Planetarium, carpeting, and wall, and ceiling painting is completed in the Geology Room. Work is continuing in other projects in the Museum of Natural History.
- b) No problems have been encountered.
- c) No other funds are involved.

Union Station Feasibility Study

- a) A preliminary report was presented; physical reuse and development options with financial feasibility

concepts were therein identified. The publication on findings was submitted to appropriate agencies.

- b) No problems have been encountered.
- c) No other sources are involved.

Neighborhood Preservation Conference

- a) National Endowment for the Arts Conference scheduling of neighborhood meetings has been completed.
- b) No problems have been encountered.
- c) Title X \$1,000

Senior Citizens Transportation Minibus

- a) Contract between Senior Citizens Transportation and MOCD for purchase of two vans and operational costs is completed.
- b) No problems have been encountered.
- c) No other funds were involved.

Union Station: Interface

- a) Contract with Interface: Providence and MOCD for a study which concerned itself with the vehicular traffic movements in and around Union Station is completed. A report has been submitted to MOCD.
- b) No problems were encountered.
- c) No other funds were involved.

Telemetry Equipment

- a) The two Motorola Telemetry units are in use by the Providence Fire Department. This program is completed, and all funds have been used as provided.
- b) No problems were encountered.
- c) No other funds are involved.

Neighborhood Storefront Improvement Program

- a) Contract has been signed between MOCD and Providence Business Development Organization on April 12, 1976 to administer the Storefront Improvement Program on Atwells Avenue. MOCD has received 77 applications from ten neighborhoods, 7 have been completed, 66 are in the process or consideration and 4 have withdrawn.

- b) No problems have been encountered.
- c) No other funds are involved.

Westminster Mall Refurbishment/Extension

- a) The Department of Planning and Urban Development with assistance of Malcolm Grear Associates have completed Concept and Design Plans, and Final Design and Cost Estimates on both the Existing Mall area and the Extension area. Phase I is complete, Phase II funded entirely with EDA Title I. Public works to commence in the Spring.
- b) No problems have been encountered.
- c) EDA Title I, Public Works Act \$4.9 million.

Westminster Mall Lights

- a) On December 1975, a contractor was chosen for the installation of sixteen 1,000 watt lamps and one 400 watt lamp on Westminster Mall. Work was begun on December 11th, and completed on December 16, 1975.
- b) No problems have been encountered.
- c) No other funds were involved.

Storefront Improvement: Downtown

- a) Total of \$34,000 of the \$38,362 first year allocation has been committed or contracted. Approximately seven more applications are being processed for an average grant of \$10,000 for each storefront.
- b) No problems have been encountered.
- c) In conjunction with Building Recycling Program (Second Year project).

Urban Walls Project

- a) Project at a standstill. Money being reprogrammed.
- b) RISCA rules and regulations limited selection of an artist to carry out the work. Providence Preservation Society has withdrawn sponsorship. MOCD will reorganize project.
- c) No other funds are involved.

Traffic Study

- a) Contract signed with MOCD and Wilbur Smith & Associates. Work is presently ongoing.
- b) No problems have been encountered.
- c) FHWA, RIDOT \$120,000. Second year funds are supplementing

the study.

Historic Preservation

Historic Survey

- a) The research work for the citywide "broadbrush" survey and the intensive South Providence survey are complete, and the written report has been drafted.
- b) No problems have been encountered.
- c) No other funds are involved

Historic Preservation Building Fund

- a) Eleven buildings have been completed, and twelve other structures are in the process of restoration. These are expected to be done before June 30, 1978. All \$120,000 first year funds have been committed, and \$57,368 has actually been contracted.
- b) No problems have been encountered.
- c) No other funds are involved.

Historic Neighborhood Support Fund

- a) \$43,171 has been earmarked for Columbus Square, of which a \$13,000 contract has been signed with Moliterno Stone Sales, work is ongoing. A feasibility report is in progress for the Princeton Avenue project, a feasibility study has been completed on a Rhode Island Center for Performing Arts, an access road was constructed on Halsey Street in the Historic College Hill District, and a total of \$6,500 has been used to purchase special markers designating refurbished historic buildings in the city.
- b) No problems have been encountered.
- c) No other funds are involved.

Social Program Development

South Providence Senior Citizens Center

[illegible]

II. Recipient Assessment
24 CFR 570.906(b)(2)

I. Statutory National Objectives

The following constitute the general objectives established by Congress for the national program of Community Development Block Grants. It is not anticipated that any one community's CD program, in any one year, will deal with each objective.

(The local program, of course, remains subject to the assurance, required by law, concerning giving maximum feasible priority to activities which will benefit low- or moderate-income families or aid in the prevention of elimination of slums or blight). For each of the following general objectives, check the appropriate box to indicate whether the current program year's activities do or do not contribute to that objective. Briefly explain, on a separate sheet of paper, all affirmative responses, indicating how the current program year's activities have contributed to each objective.

	CD Program	
	Does Contribute	Does Not Contribute
(1) Elimination of slums and blight and prevention of blighting influences.	<u> X </u>	<u> </u>

II. Short-Term Objectives

Using a separate sheet of paper, list all short-term objectives which are being addressed by this year's CD program. (Use the numbers from the previous Community Development Plan Summary: C-1, C-2, etc.). Briefly explain how the current program year's activities have contributed to each objective. For each objective list the numbers of the activities listed on the Progress on Planned Activities (HUD-4070) that contribute to that objective.

STATUTORY NATIONAL OBJECTIVES

1. Elimination of slums and blight and prevention of blighting influences.

The Home Improvements for Providence Program, by providing to homeowners a combination of loans and/or grants, has helped eliminate slums and blight by rehabilitating substandard dwellings.

Public Housing: The physical rehabilitation program has provided funds for the Valley View Public Housing Project for remodeling of kitchens for 256 apartments, new bathrooms for 256 apartments, exterior painting, and new wiring. Projects such as this are invaluable in preventing further regression of public housing conditions and eliminating blighting influences.

Citywide Storefront Improvements Program will help to prevent blight in selected commercial areas in the city by providing an interest reduction subsidy to storeowners who wish to improve the facade of their commercial property.

Historic Building Renovation Program will operate on a city-wide basis in conjunction with the HIP Program. This will enable homeowners of buildings cited by the Rhode Island Historical Preservation Commission as "historically significant" to rehabilitate their homes with a full or partial loan.

Historic Neighborhood Support Fund: This fund will arrest the spread of blight in historically valuable areas by providing funds to restore a neighborhood's architectural and historic qualities through the provision of city services and public improvements.

SWAP The Stop Wasting Abandoned Property Program is designed to help eliminate blighting influences in neighborhoods throughout the city by providing low interest loans or grants to prospective homebuyers of abandoned houses for revitalization and re-establishment into neighborhood communities, in addition to demolition of abandoned structures judged to be unsafe for occupancy and incapable of rehabilitation at a reasonable cost.

The Building Recycling Program is designed to encourage economic investment and prevent blighting influences by providing assistance for recycling economically obsolete and vacant buildings. Priority will be given to building renovations which, by reason of health and safety code violations, fire or other damage, are totally, or partially, unoccupied.

The Neighborhood Housing Services Program is designed to assist low to moderate income persons in the Elmwood neighborhood. The program objective is to assist homeowners in bringing all structures up to the City of Providence Minimum Code Standards, thus eliminating blighting influences by rehabilitating substandard dwellings.

2. Elimination of conditions detrimental to health, safety, and public welfare through code enforcement, demolition, interim rehabilitation assistance, and related activities.

The Public Housing Security Program has continued the police patrols at the Hartford, the Chad/Ad/Sun, the Manton-Heights, and the Roger Williams Public Housing projects. The continued patrolling at these four projects should help control vandalism of buildings and apartments.

The Accelerated Building Demolition Program is providing funding for the demolition of hazardous structures, primarily in low and moderate income areas.

The Barrier Removal: Curb Ramping Program will allow for free access throughout the entire CBD by ramping all curbs at intersections throughout the CBD. It is estimated that approximately 275 curb ramps will be done.

The Stop Wasting Abandoned Property Program will eliminate conditions detrimental to health, safety and public welfare, through demolition of abandoned structures throughout the city judged to be unsafe for occupancy and incapable of rehabilitation.

The Tenants Emergency Relief Fund is a program in conjunction with the Planning and Urban Development Department, financing renovations of primary code enforcement violations in tenants units where the owner is reluctant to make such repairs.

3. Conservation and expansion of the nation's housing stock.

The Home Improvements for Providence Program, by rehabilitating structurally sound homes through a combination of loans and/or grants, will increase the number of standard housing units in Providence.

The Historic Survey will aid in the conservation of the city's housing stock by identifying "historically significant" structures worthy of preservation.

The Historic Building Renovation Program will operate on a city-wide basis in conjunction with the HIP Program. This will enable homeowners of buildings cited by the Rhode Island Historical Preservation Commission as "historically significant" to rehabilitate their homes with a full or partial loan.

The Stop Wasting Abandoned Property Program (SWAP) is designed to help ease the transfer of abandoned properties to enthusiastic owners for rehabilitation by providing low interest loans or grants, thus improving and expanding the city's housing stock, and avoiding the negative effects of demolition.

4. Expansion and improvement of the quantity and quality of community services.

Telemetry Equipment. With the purchase of two telemetry units for use by its fire department rescue units, the city will be able to provide prompt treatment to cardiac arrest patients by providing the equipment for communications between the hospital and the rescue unit.

The City Services Program is working toward the expansion and improvement of community services through establishment of programs and appropriation of funds designed to respond to segments of the population with special needs, as well as providing effective and efficient services on a citywide basis, which will reinforce other elements of the Community Development programs. Current programs include an Elderly and Handicapped Home Painting Program, a Tree Planting Program, a New Sidewalk Program, and a Building Boarding Up/Demolition Program.

The Social Service Program is designed for implementation of programs suitable to serve the needs of segments of the population requiring specialized facilities or programs with emphasis on handicapped persons, the elderly, youth and tenants in public housing projects. The program has funded four senior citizens programs for additional staff and expanded program services. Various recreation activities, medical and general health services, personal counselling, meals program, transportation and social events are the major kinds of services offered by these programs. Four youth programs have also been funded which will provide recreation activities, personal counselling and educational programs. A senior citizens van has been purchased to provide transportation for shopping, medical and other necessary trips.

5. More rational utilization of land and other natural resources and better arrangement of needed activity centers.

Within the Neighborhood Facilities program the city will construct or rehabilitate, over a two year period, twelve multi-use centers located throughout the city in areas with a demonstrated need for a center to house community activities.

The Neighborhood Parks and Open Space Program will undertake new construction or major reconstruction of neighborhood parks and open spaces. There are approximately fifteen projects under this program to redesign, refurbish or build new facilities. The projects will result in an increased use of natural resources and the greater availability of green space throughout the city.

The Roger Williams Park Program will upgrade the city's largest park area. A master plan for restoring the park to its former beauty has been designed with emphasis on utilizing the park's own natural resources--green spaces, waterways, animals, and streets more extensively and aesthetically.

Q The Union Station Redevelopment Plan: A study is underway which will propose alternate uses for Union Station and its surrounding area. The plan will be an action plan which will chart the course that such redevelopment efforts in the project area should take, and will detail a work program to be undertaken to bring about greater utilization and more efficient arrangement of activities related to transportation.

Waterfront Planning. The Office of Community Development is funding a long-range planning study of the 875 acre waterfront area. The study, which will encompass an analysis of feasible industrial, commercial, residential and recreational uses of the area, will lead to greater and more efficient utilization of this valuable natural resource.

6. Reduction of the isolation of income groups within communities and promotion of an increase in the diversity and vitality of neighborhoods.

The Home Improvements for Providence Program, by rehabilitating both occupied and vacant dwelling units throughout the city and placing restrictions on rent increases should enhance the housing opportunities for low and moderate income families.

Q The Neighborhood Facilities Program will construct or rehabilitate twelve centers over a two year period, providing for a broad range of activities involving community participation. Community involvement in various activities and educational programs will increase the diversity and vitality of neighborhoods.

The Social Programs will fund four senior citizens and four youth programs providing a broad range of activities and social services such as counselling, health, transportation and education, thus contributing to this objective.

7. Restoration and preservation of properties of special value for historic, architectural, or aesthetic reasons.

The Historic Survey will provide the base data essential for a systematic approach to the preservation and restoration of historically significant houses throughout the city.

The Historic Building Renovation Program will operate on a citywide basis, in conjunction with the HIP program, to provide full and partial loans for the rehabilitation of historically valuable homes.

The Historic Neighborhood Support Fund Program will supply funds to neighborhood groups to enable them to restore their neighborhood's architectural and historical qualities through the provision of appropriate city services and public improvements.

Q The Building Recycling Program is working toward the preservation, and restoration of historically and architecturally significant buildings in the Downtown area, in order to enhance the visual and aesthetic quality and/or historic character of the structure and its surroundings.

CITY OF PROVIDENCE
ANNUAL PERFORMANCE REPORT

III. Recipient Assessment

Third Year Local Objectives

- C-1 Continue the operation of the Home Improvements for Providence Program at a level that will provide for the upgrading of a total of at least 1,300 structures through the end of the third program year. Since 503 structures were upgraded the first year, and it is anticipated that some 300 houses will be rehabilitated in the second year, the target for the third year is 500 additional structures. Funds will be allocated to the target neighborhood on the basis of need as determined by income and housing condition. Continued reassessment of guidelines will take place to insure that limited resources are used as effectively as possible, and to maximize the impact of Community Development funds. There will be a \$3,500 limit per applicant as a general rule with any exceptions presented to the Housing Subcommittee for approval. Target neighborhoods cover Census Tracts 1-14, 16, 19, 20, 22, 25-30, 32, 33, 35 and 37.

The Home Improvements for Providence Program has been allocated \$1,642,944 for a grant and 3% loan program directed to low and moderate income homeowners. The target areas include census tracts 18, 21 and 31 in addition to those stated in Objective C-1. To date, the HIP Program has contracted with homeowners to rehabilitate dwelling units.

- C-2 In conjunction with the above program (C-1), which provides aid to homeowners, we hope to address the needs of tenants by enforcing minimum housing code standards. An escrow fund instituted in the second program year, to cover emergency repairs for non-owner occupied homes where the landlord would not make necessary repairs of code violations, will be continued.

The Tenants Emergency Repair Program has been allocated a total of \$100,000, \$50,000 each from the second year and the third year programs. To date, \$750.00 has been contracted to cover emergency repairs.

- C-3 In conjunction with the above program (C-1) respond to the need to preserve the existing housing stock. Institute a program which will provide incentives for responsible applicants to acquire and repair abandoned housing. The effort will be directed toward the HIP target areas previously defined. Some 58 homes will be salvaged in this abandoned house program.

The SWAP (Stop Wasting Abandoned Property) Program has been allocated \$200,000 from Third Year Program to provide incentives for responsible applicants to acquire and repair, abandoned housing. To date, SWAP program has contracted with 15 assistees to repair 15 abandoned houses.

- C-4 In conjunction with the above program (C-1), to institute a community-oriented revitalization effort as a pilot project in a specific neighborhood of the city. With technical assistance provided by the Urban Reinvestment Task Force, a community board will operate in conjunction with banks and businesses to provide rehabilitation monies and assistance to homeowners.

The Neighborhood Housing Service Program has been allocated a total of \$100,000, \$30,000 from second year, and \$70,000 from third year to operate a community-oriented revitalization effort.

- C-5 Provide monies for continuation of the renovation and modernization of public housing projects and housing units; priorities set in conjunction with the Board of Tenant Affairs for Public Housing. Third Year monies will be directed exclusively toward the city-owned Valley View project.

The Valley View Public Housing project has been allocated \$400,000 to continue the renovation and modernization program of public housing projects. Kitchens, bathrooms, exterior painting, parking areas and electric work are projects in planning development stage.

- C-6 Continue the program for improved security in four public housing projects where the need is greatest. Some fifteen community protection officers will serve in these projects.

The Public Housing Security Program has been allocated \$187,500 to continue the security patrolling at Chad/Ad/Sun, Manton-Heights, Hartford Park and Roger Williams Public Housing Projects.

- C-7 Continue the comprehensive program for the upgrading of historic Roger Williams Park, based on the detailed three year development program issued in February 1976. Funds are to be matched with BOR funds and Historic Grant-in-Aid funds to maximize impact. Specific projects to be addressed in the third program year are the Lakes Clean-Up, the Building Restoration, and the Construction of a Parking Facility.

The Roger Williams Park Program has been allocated \$530,211 in the third year program. Of this amount \$162,134 has been contracted to complete projects initiated in the second year. The remaining \$368,077 will be used to complete the Building Restoration, the Casino, Dalrymple Boathouse Docks and the Construction of a Parking Facility.

- C-8 Continue the program to reconstruct and redesign thirteen new neighborhood parks and open space facilities with further implementation of the program to be based on the Recreation Master Plan completed as part of the first year planning activities. Fifteen projects will be completed using First Year funds, and twelve using Second Year funds, based on the results of the Recreation Master Plan as well as input from the Parks and Open Spaces Subcommittee and Citizens Participation Groups. Funding will be extended by matching Community Development funds with funding from the Bureau of Outdoor Recreation.

The Parks and Open Spaces program has been allocated \$325,211 to reconstruct and redesign thirteen new neighborhood parks and open spaces. Fifteen projects are being completed using first year funds, and twelve projects are underway with second year funds. Third year parks will begin construction this Spring.

- C-9 Continue the program to place multi-purpose activity centers in all neighborhoods with a demonstrated need, with specific functions of each to be derived through analysis and close consultation with community sponsors. Third year funds will be used to supplement first and second year funds to produce a system of neighborhood facilities located throughout the city in areas of greatest need. A review of the First Year Plan to produce twelve neighborhood centers calls for some selection among planned centers in order to ensure that only centers with strong community support and clearly apparent needs are constructed. With eight centers in advanced planning stages, or in one case, in actual construction, the focus of the Third Year Program will be to determine how best to complete a citywide network of

neighborhood centers with the available funds.

The Neighborhood Facilities Program has been allocated \$670,211 third year funds to supplement first and second year funds. An additional three community centers are under planning stages to extend the citywide network of neighborhood centers at Silver Lake, Smith Hill, and Elmwood neighborhoods.

- C-10 Continue the program to provide public works and services beyond that possible through normal city activities, as a means of protecting and reinforcing the investment made with Community Development funds through other elements of the program. Projects will include a home painting program for the elderly and the handicapped in which nearly 170 homes will be painted, the planting of 1,500 to 1,800 trees, and the improvement of sidewalks in target areas where other Community Development funds have been spent to show the maximum impact on those areas.

The City Services Program has allocated \$500,211 third year funds to continue the program to provide a home painting program for the elderly and the handicapped; other programs include Tree Planting, New Sidewalks, and Central Business District Signage.

- C-11 Continue safety programs on a citywide basis that are directed towards emergency help for victims of cardiac arrest or are auto accident victims. Provide a telemetry unit to save lives of persons on way to hospitals and provide Jaws of Life extraction tools to help remove accident victims from cars.

The City Services Program has allocated \$20,000 to provide purchase of telemetry equipment and \$12,000 for the Jaws of Life extraction tools.

- C-12 Continue the program to preserve for rehabilitation of the city's housing stock by boarding up salvable abandoned houses and help eliminate the danger to personal health and safety posed by vacant structures.

The City Services Program has allocated \$48,211 to continue the Building Boarding Up Program. The program will work in conjunction with the Building Inspector's Office.

- C-13 Continue the development plan and implementation of the overall action plan for the revitalization of the downtown area. Complete restoration of the City Hall and the Recycling of some dozen commercial buildings. Continue storefront improvements, upgrading of occupied spaces to productive use, exterior restoration, and the upgrading of building services. Emphasis placed on projects which stimulate private investment and provide supportive public amenities and improvements.

The Downtown Improvement Support Program has allocated \$650,212 to continue the development and implementation plan with a Storefront Improvement Program, Building Recycling Program.

Applications are being accepted. The City Hall Restoration Program is continuing with preparation of a Master Plan.

- C-14 Continue the assistance program for the upgrading of storefronts and facades as a complete revitalization approach for neighborhood commercial establishments in HIP targeted areas. The project serves as a focal point for renewal of some smaller commercial areas and neighborhoods through completing some 40 storefronts in addition to some 23 already planned.

The Storefront Improvement Program has been allocated \$110,000 third year funds to continue the assistance program in HIP targeted areas. Presently, accepting applications.

- C-15 Continue the comprehensive inventory of historically significant structures throughout the city. First Year survey completed in South Providence, as well as citywide broad brush survey. Second Year survey conducted in three major areas. Third Year survey to be completed in two or three important areas. Results to be published.

The Historic Survey program has contracted with the Providence Preservation Society for \$30,212 to continue the survey work in the West End, Smith Hill, Elmwood neighborhoods, and to undertake a survey in the Downtown area.

- C-16 Continue the revolving fund to provide loans for the renovation of historically significant structures. Program implementation is to be carried out in conjunction with the Home Improvements for Providence Program, thus making it responsive to low and moderate income households. Thirty houses to be restored or rehabilitated.

The Historic Building Restoration Program has been allocated \$120,000 third year funds to continue to provide loans for the renovation of historically significant structures. Presently working on second year funds, and accepting new applications.

- C-17 Continue the program providing historic neighborhood support whereby a number of improvements including sidewalks, home renovations, signs, tree planting and storefront restorations will be made to support the activities of the Historic Preservation Loan Program in at least four areas.

The Historic Neighborhood Support Program has been allocated \$50,000 third year funds to continue providing neighborhood improvements. Project in planning development stage.

- C-18 Provide funds to support the start-up costs of operating social service programs in neighborhood facilities constructed with Community Development funds. The objective is to make possible the opening and use of such facilities concurrent with the search for more permanent sources of funds for operating costs.

The Social Programs has allocated \$794,977 to support start-up costs of operating social service programs in neighborhood facilities, and three planning studies to develop a more comprehensive planning program to deliver social services in the City.

- C-19 Provide for the refunding of programs which will move into new or rehabilitated centers or fund programs that are well supported and on-going and can operate in their current locations.

The Social Programs has provided funds to continue ten programs from first and second year which will move into new or rehabilitation centers as they are completed. A total of \$273,976 has been contracted to date on these programs.

III-A HOUSING ASSISTANCE PROVIDED

NARRATIVE REPORT

(See Instructions)

1. Steps to Meet HAP Goals

- A. The HIP Program, funded by the CD Block Grant, has identified Target Areas of need in the City. These areas are being directly assisted through local outreach centers which mitigate problems encountered when trying to reach target populations. The HIP Program has assisted in rehabilitating 612 units during the last year and has proved to be one of the most effective federally sponsored housing programs for rehabilitating properties.
- B. A Land Use Survey of the entire city has been completed, which surveyed all residential structures and evaluated their conditions. The results of the survey provide a data base from which housing assistance is targeted to areas of greatest need.
- C. Several proposals for Section 8 Assisted New Construction units are in various stages of administrative review. These proposals represent approximately 526 elderly units and 150 family units.
- D. A program to rehabilitate abandoned housing structures has received financial and professional support from the Mayor's Office of Community Development during the last year. The Stop Wasting Abandoned Properties (SWAP) Program incorporates CD Block Grant funds from the Housing Improvements Program allocation to supplement private funds in order to ease the transfer of abandoned properties to enthusiastic owners. This process not only relieves the city of demolition responsibilities but also provides housing assistance to needy families, and encourages the stabilizing influence of owner-occupancy in areas with significant housing problems.
- E. A Housing-Social Services Study has been completed. This investigation helped uncover inadequacies in the provision of housing counseling services so that consideration can be directed toward providing effective counseling. The practices of local financial institutions in dispersing mortgage funds will be illuminated to allow for a more effective relationship between the supply of Block Grant monies and private funds in the provision of housing assistance.
- F. Support and encouragement has been lent to finalize plans from several neighborhood groups in order to more effectively deal with housing problems. These proposals include targeted rehabilitation projects from the People's Redevelopment Corporation (PRC) and New Homes for Federal Hill, as well as tenant counseling and support through the Tenants Emergency Repair Program. These programs will become operational during the coming year with the assistance of Community Development Block Grant funding.
- G. Administrative funds have been allocated again this year for the Section 312 program so that low cost loans can be extended adequately and professionally. With increased funding and administrative reorganization, this program can contribute significantly toward reaching the HAP goals.

2. Steps Taken to Improve Ability to Meet HAP Goals

- A. The City Department of Planning and Urban Development has completed key sections of Neighborhood Profile Studies which provide in-depth social, physical and economic profiles of transitional or deteriorating neighborhoods. The profiles provide both objective evaluations of the area and the subjective feelings and needs voiced by neighborhood residents. This comprehensive picture of neighborhoods identifies the unique needs of different types of areas and what residents perceive as the obstacles which will be encountered when trying to meet the needs. Thus, realistic goals for Housing Assistance may be defined, and achieved. During the coming year, comprehensive revitalization areas will be designated for targeted activity.

III-A HOUSING ASSISTANCE PROVIDED

NARRATIVE REPORT

(See Instructions)

- B. The Mayor's Office of Community Development has completed a statistical profile of every neighborhood in the City in a common format with maps locating MOCD activities, historic districts, public housing, community facilities, etc. This publication should prove to be of great value in judging projects and assessing need.
- C. A Training Program for the HIP staff has been organized to teach staff members more effective operation practices. Topics will include specification writing, homeowner counseling, inspection, monitoring and reporting. These areas have been the most troublesome obstacles to the smooth operation of the HIP Program.

3. Problems Encountered

- A. Section 8 New Construction and Rehabilitation. A major portion of the discrepancy between the number of units in the goals and committed columns reflects the fluidity of the allocation process for funds under Section 8. Additionally, the administrative review processes create a long lag time between the projects' proposal and final acceptance.

Problems persist in constructing family units as developers have on the most part been reluctant to repossess family residence. This occurrence has necessitated the stringent observance of HAP distributional proportionality requirements and has led to the disapproval of several elderly oriented projects because of the potential for distorting the proportionality of assistance. It is difficult to account for the standing of projects after they have been reviewed by this office because of the confusion of allocating the supply of Section 8 units at the FHA and State level. The Mayor's Office of Community Development is greatly hindered by its constant lack of accurate information pertaining to the specifics of the construction and subsidizing of the proposed projects.

Section 8 Existing. Several problems have been identified which hinder the progress of this program. The administrators of the program have found a great deal of discrimination against families, especially larger families. Landlords are partial towards elderly households and small family households without younger children. This problem is exacerbated by the inadequacy of the fair market rents (even with the recent raise) for units of three or more bedrooms.

The Section 8 Existing Program continues to have great success, however, in surmounting these problems. A full-time code inspector has been employed by the Public Housing Authority to expedite the placement process. The potential effectiveness of this program is now fairly good in spite of the difficulties hindering its implementation.

- B. The HIP program has recently sustained serious difficulties in locating an adequate number of qualified contractors willing to bid on home improvement jobs. It is felt that the extra administrative burden engendered by HIP requirements may be discouraging contractors. Also, the recent upturn in the local economy may have reduced the labor market and many of our contractors have found more lucrative and longer termed employment opportunities. This issue may continue to prove problematic in the coming years and proposals are under consideration to make the bidding process more efficient.

* General Comments. Although the CD office is attempting to fulfill its full responsibility towards the HAP, it is impossible to accomplish the full intent of the legislation without some established mechanisms for information gathering and implementation of the priorities and goals defined in the HAP.

The legislation for the CD Program placed the function of coordination and evaluation of all assisted housing activity into the HAP. Unfortunately, no mechanisms were established to: Inform all administering agencies of the responsibility now held by CD program; provide the type of data keeping required of the HAP and the Performance Report and to introduce the HAP as a tool which defines the direction of housing efforts and which has to be taken into account when establishing policies and making decisions within each administering agency.

III-A HOUSING ASSISTANCE PROVIDED

NARRATIVE REPORT

(See Instructions)

This office has already taken steps to open lines of communication with all administering agencies and to insure that the HAP is directly tied into the A-95 Review Process. However, it is essential that some type of formal process be established to insure adequate data keeping and coordination between the individual decisions of housing administering agencies and the policies and priorities defined in the HAP.

The HIP Program has also faced internal monitoring and administrative problems, specification writing has proved troublesome because the staff is generally inexperienced and this has hindered seriously progress significantly.

FOOTNOTES

TABLE III-A

¹ The distribution of Community Development goals in Section D reflects goals for both owner and renter assisted units. No distribution was made between owners and renters in the first year HAP.

²For HLP Assisteers:

Elderly female headed households counted as Elderly households.

Minority female headed households counted as Minority households.

Elderly handicapped households are counted as handicapped households.

Female headed handicapped households are counted as handicapped households.

V-A. Equal Opportunity in CDBG Programs or Activities

24 CFR 570.900(c)(1)

1. Indicate the person who can best answer questions regarding this section.

NAME Randy S. Komisar

(Phone) _____

TITLE Director of Evaluation

ADDRESS 44 Washington Street, Providence, RI

(Room #) _____

2. For each program area (e.g., parks, public works, water and sewer) in which there are activities funded by CD Block Grants, summarize on a separate sheet of paper:
- (a) the steps that have been taken to identify low- and moderate-income minority needs as they may be greater than those of the low- and moderate-income population in general, and
 - (b) the actions that have been taken to correct conditions which may have limited minority participation or benefits in the past.

For example, if CDBG funds are used for the development of neighborhood parks and playgrounds, the recipient shall summarize the steps that have been taken to identify the extent to which minority households have access to parks/playgrounds compared to non-minority households (comparing persons per acre, extent and condition of facilities, etc.) and if disparities are found, a summary of the efforts underway to correct these conditions and assure equal opportunity for minorities to enjoy the benefits of that program area.

3. On a separate sheet of paper, list and very briefly summarize each study funded under Section 570.200 (a)(12). For each study: (1) describe how the activities under consideration relate to the provision of equal opportunities in the delivery of facilities and services for minorities and women, (2) describe any actions recommended to correct effects of conditions which may have resulted in limited opportunities for minorities or women in the subject area and, (3) describe actions needed to assure equal opportunity in the future.

V-A Equal Opportunity In CDBG Program:

a. For each program area in which there are activities funded by CDBG summary:

a. The steps taken by the City of Providence to identify low and moderate income minority needs are: The holding of thirty-nine neighborhood block meetings to hear citizens needs and suggestions in the first year of the CDBG program in 1975. Twenty-four of those were held with low and moderate income minority groups. Again in 1976 and 1977 block meetings were held in South Providence, Smith Hill, Broadway, West End, Federal Hill and Manton neighborhoods. The department of Planning and Urban Development initiated a Community Profile Survey, in conjunction with the State Department of Community Affairs and the Public Housing Authority, in an attempt to update 1970 Census data concerning low-moderate income population in the Washington Park, Elmwood and West End neighborhoods (census tracts 1,2,3,12,13,14). Attempts were also made to ascertain an Hispanic community profile, but no accurate figures on Hispanic residency were available. The Citizens Advisory Committee and its subcommittees analyze and approve the various proposals received from community groups at large.

Proceeding from these initial steps, the MOCD staff in each program area is additionally taking steps to identify minority needs.

A study in the "Parks and Open Spaces" program area of the recreational facilities of the City of Providence, was completed in 1976. This study, called the "Master Plan for Recreation" identified the extent, condition and availability of all parks and open spaces. The report provides information as to the needy areas and the ethnic groups therein. This report serves much of the basis for planning activities by the Parks and Open Spaces division staff. This conclusion and priorities reached as a result of this study, create basic guidelines for recreational development in the city. Third year projects include Parks and Open Spaces development and rehabilitation in eleven census tracts of the city (1,2,8,14,18,23,29,30,33), one of which is located in the ten lowest income, minority areas (ct 14), and two which are located in low to moderate income areas (ct 17,18), as well as continuing rehabilitation, design and development of parks and opens spaces under first and second year funding. The involvement of local residents in the planning and implementation process of the recreational master plan, as well as the ability to respond to their need and interests, specifically low to moderate income, minority populations is vital to the success of the "Parks and Open Spaces" program area.

A study was prepared in the "Neighborhood Facilities and Multi-Use Center's" program area by the Department of Planning and Urban Development, called the "Neighborhood Facilities Studies". According to adjusted 1970 Census figures reflecting the present economic situation, 22 census tracts have a moderate or greater need than the rest of the city. These areas were cited by PUD as deficient in facilities for the provision of neighborhood based social and leisure-time services. Graph Map Census Tracts 3,4,5,6,7,9,10,11,12,13, 14,16,17,18,19,20,22,25,26,27,31,37.

A list called "Existing Neighborhood Facilities" was put together by PUD, describing all the existing neighborhood facilities and programs in 1975-1976. This was presented to the CAC before any proposals were received in the "Social Programs" area; the Community Development staff gathered information from the four pilot senior citizens programs for evaluation for later senior citizens programs, which will be housed in the completed neighborhood facilities centers. Most proposals received by the CAC were accompanied by support letter from various community organizations expressed needs, assessments and studies. The Neighborhood Facilities Program Area concentrated on three neighborhoods in the third year - Smith Hill (ct 16,17), Elmwood (ct 2, part of 3) and Silver Lake (ct 16,17). These areas were identified as having no to limited services or facilities available, and as having a high incidence of a low income, minority population. Programs currently underway are concentrating on three areas of development youth, educational facilities, recreational facilities and senior citizens facilities, as identified as high priority needs through public meetings held in 1977 in all three neighborhoods. Programs being development in other areas of the city include Counseling Outreach Programs, Youth Programs (educational, recreational, cultural) and after school day care programs.

A study, divided into two areas, called the "Historic Survey", was conducted in the Historical Preservation program area; one part is a city-wide broadbrush survey, the other a South Providence survey, which is low income minority area of the city. The 1976 survey concerned itself with the Smith Hill, Broadway, and West End neighborhoods. The presentation of the study to the city of Providence enabled the housing program staff at Community Development to identify the needy households of each area, who need housing improvements and who do not know of other means to receive aid.

Several studies have been initiated, designed for the implementation of a policy and program providing for the delivery of effective and efficient housing and social services on a comprehensive city-wide basis, to adequately meet the needs of the city's low and moderate income population. The Housing-Social Services Planning Grant analyzed needs and reported on delivery of services city-wide, particularly the needs of low minority income groups. Meetings were held with neighborhood community groups, PACE, the People's Redevelopment Corporation and the West End and Elmwood organizations representing low minority income areas, to determine needs and prioritize objectives, for focusing activities in targeted areas with special needs.

The Resource Library" has been designed and continually updated by the Community Development staff as to existing programs in the social services area.

b. The actions that have been taken to correct conditions which have limited minority participation or benefits in the past are:

The extent of activities or programs underway from first year funding list 7.10 program/activities per census tract in the ten lowest income, minority areas. All these programs were still in progress the second year with an additional four

programs proposed in low income areas from second year funding. The rest of the City of Providence averaged 6.96 programs/activities per census tract. An additional seven projects were proposed from second year funding in census tracts in the rest of the city.

The extent of activities or programs underway from third year funding lists 8.70 programs/activities per census tract in the ten lowest income, minority areas (1970 census figures adjusted to reflect the current economic situation). The rest of the City of Providence averages 8.10 programs/activities per census tract. The impact of the programs selected for low and moderate income minority areas are directed to improve the city's capacity to provide effective and efficient services to neighborhoods with a demonstrated need and to develop the capability to respond to those needs.

Thirteen multi-purpose centers (either existent or proposed) are being funded in the "Neighborhood Facilities and Multi-Use Center" program area. Ten of thirteen are located in areas designated as having a modest or greater need for a center to house community activities, providing for a broad range of activities, and encouraging community involvement in various activities and educational programs, which will increase the diversity and vitality of the neighborhoods. Five of these ten designated areas are low income, minority areas.

The average population is 4,383 people per census tract in the low income, minority areas for the five proposed community centers. The average population in the non-minority areas for the five other proposed community center is 3,841 people per census tract. Thus, people in the areas of the city have equal access to enjoying the benefits of this neighborhood facilities program.

Of the seven proposals approved for funded in the "Social Programs" program area in the first year funding, five are located in low income, minority areas. These five programs will serve 4,905 families in the minority areas, while the other two programs will serve 2,778 families in non-minority areas.

Six proposals were approved for second year funding. Three are located in low income, minority areas. These programs will serve 4,049 families in minority areas, while the other three programs will serve 3,460 families in non-minority areas.

Ten proposals were approved for third year funding in the "Social Programs" program area. Of the ten, four are located in the ten lowest income minority areas of the city (census tracts 4, 6, 27) and four are located in low and moderate income, areas (census tracts 17, 18, 26, 31,) These programs will serve 726 individuals in the lowest income, minority areas and 1,144 individuals in the low and moderate income areas, in addition to 1,425 individuals under the Public Housing Security Program. These programs, four senior citizens programs and four youth programs, will provide a broad range of activities and social services such as counseling, medical and general health services, transportation and educational programs. This insures

that needy areas of the city will continue to enjoy access to receiving the benefits of this program area.

Section V-A

Part III.

1. The Traffic Study Will be concerned with vehicular and pedestrian traffic flow in the downtown and Central Business District of the City of Providence. The beneficiaries will include all visitors to the city.
2. The Historic Survey study concerned itself with the South Providence area in depth, and the entire city in "broadbrush" survey. The survey was designed to identify areas and structures of historical significance throughout the City and to that end, does not specifically address the lack of equal opportunity problem to minorities and women.
3. The Economic Plan is an economic assessment of the neighborhoods in the city. The results of the study will be used in conjunction with a comprehensive neighborhood analysis to be undertaken this year and as supporting data for the housing strategy in the City of Providence. In both of these uses, the Economic Plan should serve to reveal areas in which there may be a lack of equal opportunity for women and minorities. Steps to correct this deficiency may then be formulated.
4. Air Conditioning Feasibility Study for the Roger Williams Day Care Center did concern itself with alleviating a serious ventilation problem in a minority area day care center. The study has proposed alternative methods for temperature control in order to meet the needs of mothers in the housing project, who need a day care service which frees them to join the labor force.
5. Union Station Feasibility Study is a study which looks at the possible refurbishment and revitalization of the City's Union Station. The beneficiaries will include anyone who uses the station; also the central locality of the station affords equal opportunity to minorities and non-minorities in its usage.
6. Union Station Redevelopment Plan is a study which concerns itself with the vehicular traffic movements in and around the station. Beneficiaries will include anyone who uses station; also the central locality of the station affords equal opportunity to minorities and non-minorities in its usage.
7. A Land Use Survey was conducted throughout the City of Providence in which information was collected on housing conditions for an assessment of Providence's housing stock. The results of this survey should be most useful in both locating concentrated areas of substandard housing and serving as a guide for the high correlation funds. Because of the high correlation between the variables of low income and minority status, this study should eventually serve to alleviate the lack of equal opportunity in housing for minorities. To the extent that female heads of households are residing in substandard housing, this survey will indirectly benefit them.

8. Kennedy Plaza Program is a study which concerns itself with the vehicular traffic movement, the pedestrian flow, the open space beautification, and land use around Kennedy Plaza. Beneficiaries will include anyone who visits the downtown area because of the central locality of the plaza and it affords equal opportunity to minorities and non-minorities in its usage.
9. The Jaclyn project was a study conducted by Jaclyn, Inc. to review the Affirmative Action Plan of the Mayor's Office of Community Development. When the results of the report are reviewed, then steps may be taken to rectify any deficiencies in the plan.
10. The South Providence Credit Union has been employed to undertake a study of the supply of housing services to city residents. This information will be used by the Mayor's Office of Community Development to aid in the consideration of a housing/social services program. Beneficiaries include all prospective homeowners in the City.
11. The Comprehensive Neighborhood Analysis constitutes an attempt to align the 1970 census statistics with the neighborhood solidarity exhibited throughout the city. This study includes the 1975-1976 Land Use Survey and a complete social services inventory compiled by MOCD staff. Beneficiaries include all neighborhoods in the city.
12. The Waterfront Planning Study is a long-range planning study of the 875 acre waterfront area, encompassing an analysis of feasible industrial, commercial, residential and recreational uses of the area. Future development will afford equal opportunity in the delivery of facilities and services for minorities and women in its usage.
13. The Capital Improvement program is a study of plans to revitalize historic areas of the city, taking the needs of low-moderate income areas and incorporating them into the redevelopment design. Beneficiaries include all visitors to the City.
14. Fair Housing Opportunities is concerned with equal opportunity and housing as it relates to tenants homeowners and homebuyers specifically in low moderate income, minority areas, and issues concerning women and housing. Its impact is directed toward resolving complaints as they pertain to Fair Housing, and coordinating city programs with community organizations to observe Fair Housing Compliance requirements.

V-B. Fair Housing (24 CFR 570.900(c)(2))

1. By executing the Certificate of Assurance for Title VIII of the Civil Rights Act of 1968, the recipient has agreed to administer its programs relating to housing and urban development in a manner to affirmatively further fair housing. (Activities under this category need not be limited to those funded under CD Block Grants.) Listed below are areas of particular concern in which specific actions can be taken to provide for greater housing opportunities throughout the locality for minorities and women. For the areas of concern listed below:

- a. Check those in which studies or actions have been undertaken during the program year.
- b. On a separate sheet of paper, summarize the specific study or activity and briefly describe the results and recommendations of the study or the effects of the action.

As an example, a locality might examine the pattern of multi-family zoning to determine its effect on minorities. The recipient would check "zoning", and note on the separate sheet that a study was undertaken to determine the effects of current multi-family zoning on minorities. The results of the study could be summarized, for example, "the pattern of zoning tends to further the concentration of minorities in the locality because the bulk of the multi-family zoning is in, or adjacent to, minority communities, rather than located throughout the locality." If the study recommends actions, such as dispersing multi-family housing, these recommendations must be summarized.

- ☐ Zoning
- ☒ Building Codes
- ☒ Housing Codes
- ☒ Land Use Planning, Policy and Implementation
- ☒ Development Program Planning, Policy (including Site Selection Policies), and Implementation
- ☐ Public Facilities
- ☐ Housing
- ☐ Other (Specify _____)

2. Complete Form V-C, "Action to Prevent Discrimination in the Sale, Rental and Financing of Housing," (HUD-4072).

V-B Fair Housing

Building Codes:

1. HIP

The Home Improvements for Providence Program is continuing a cooperative effort with the City of Providence Department of Building Inspection insuring the conformance of rehabilitation work funded by HIP with local building codes. This action guarantees that assistees will be treated fairly by all contractors and that the work performed will be of a quality standard consistent with all private construction work contracted. A more lasting improvement in the housing stock for all assistees should result.

Housing Codes:

2. Escrow Fund Tenants Emergency Repair Fund (TERF)

A contract has been signed with the City Department of Code Enforcement to supply monies to establish an Escrow Fund. The Escrow Fund is used to perform work to bring rental units to code standards when landlords are reluctant to perform such work. The fund is designed to be self-sustaining with payments by assisted renters in lieu of rent. This program will improve the housing stock and benefit the living situation of renters previously impotent to effect such changes.

Land Use Planning, Policy and Implementation:

3. The City has completed a land use survey of all residential structures in Providence. The results of the survey have identified areas of the City where the housing stock is inadequate. This will allow future housing development and rehabilitation activities to be directed at areas of greatest need. The City will then be able to insure that minority areas with inadequate housing can be identified and addressed.

Development Program Planning, Policy (Including Site Selection Policies) and Implementation

4. Housing and Community Development

The Home Improvements for Providence Program under the Mayor's Office of Community Development, has established target areas of greatest need in the City. In these target areas the incidence of low income, housing in need of repair and minority status is often high. Consequently, it is probable to assume that a significant portion of need which is being responded to is minority.

Additionally, in the localized target areas HIP has established outreach centers which mitigates the problems in reaching the target population.

5. SWAP

A program has been designed to assist eligible applicants to obtain abandoned property and renovate the structures. The Stop Wasting Abandoned Property (SWAP) Program locates abandoned structures, helps

the prospective buyer negotiate with present owners and banks and attempts to secure financial assistance for the buyer when possible. Enthusiastic lower income residents are thereby given the opportunity to own their own home anywhere in the city with the added benefit that city demolition orders are reduced and the housing stock is improved.

6. Housing Social Services Study

The Mayor's Office of Community Development has contracted with a minority thrift institution, the South Providence Credit Union, and has completed a study of citywide housing services. The investigation also involved a study of the extension of mortgages in Providence. The project will be used to formulate a proposal for a housing counseling program, and it should also assist in creating a more effective relationship between local, private banking institutions and the City. It is hoped that such a relationship will lead to the obtaining of more mortgage funds for residents of neighborhoods presently on the decline, most of whom are minority or low income individuals.

1.F. The Home Improvements for Providence Program assists all eligible city residents with housing problems as they pertain to an existing self-owned structure. Counselling and financial assistance in the form of grants are available to assistees. Eligibility is determined by lower income status and consequently a large percentage of the assistees are minority homeowners located in the deteriorating areas of the city. Approximately 28% of the assistees to date have been female or minority headed households.

2.F. The People's Redevelopment Corporation (PRC South Providence) program is designed to assist the community of South Providence which is approximately 70% minority of low to moderate income persons. Program funds are used to assist tenants of occupied homes to purchase their rental properties. The program will assist in inspecting the property, specification writing, mortgage subsidization at a maximum of \$3,500 per applicant, selecting a suitable financial institution for rehab loan and mortgages and any additional requirements that may become apparent or necessary.

3.F. In order to recycle abandoned structures and aid to enthusiastic, lower income individuals, the Stop Wasting Abandoned Property program was developed. Again, a large portion of these assistees are minority individuals (approximately 60%). This program enables lower income individuals to purchase their own homes anywhere in the city.

4.G. A local minority thrift institution, the South Providence Credit Union, was contracted to undertake a study of citywide housing services and also to investigate the mortgaging practices of the area financial institutions. The study was used to plan a more thorough delivery of housing services and also to alleviate any of the problems in mortgaging structures for lower income homeowners in the deteriorating areas of the City. A closer relationship between the financial institutions and the city will hopefully result from the increased insight afforded by this study.

5.E. The Comprehensive Neighborhood Analysis is a plan now completed by the Department of Planning and Urban Development and the Mayor's Office of Community Development. The plan basically compiled information pertinent to the alignment of neighborhoods throughout Providence. The information derives both from published statistics and personal, neighborhood surveys of local attitudes and volition. The analysis has been used to assist neighborhoods in preparing long range area goals and in reviewing proposed projects. Such a free interaction between city planners and neighborhood residents acts to prepare neighborhood character.

6.A. Providence Equal Opportunity Activities

The Providence Human Relations Commission (PHRC), a city agency created by ordinance in 1963, is the principal agent for equal opportunity activities in the City. PHRC is assigned a major coordinating role in the City's affirmative action program. In private sector employment, PHRC works in cooperation with the State Human Rights Commission in conducting preliminary investigations, including testing. In cooperation with the National Committee Against Discrimination in Housing, PHRC has sponsored a series of fair housing radio and television public service announcements. The agency also assists low income persons with assistance and referrals in cases of code violations and other emergency housing situations.

7.B. The Fair Housing Opportunities Program was developed to achieve integrated housing and stable neighborhoods throughout the City of Providence. It is designed to combine voluntary compliance, educational and enforcement efforts in a comprehensive program for equal opportunity in housing. Emphasis is on education, research and the encouragement of multi-sector action (combining city government, real estate industry and citizens' group resources), to clarify problem areas, acquaint all parties with relevant law and develop meaningful responses, in addition to the enforcement effort of the Providence Human Relations Commission under open housing laws.

8.A. Urban League of Rhode Island

Addresses itself to minority problems and assists individuals in all cases of possible conflict, including health, education, welfare, research and planning, transportation and relocation, housing and employment.

This agency basically provides help to all minorities in these categories by making them aware of federal projects that might benefit their specific problems, providing specific information to the individuals that may assist them in conquering their problem, referring all possible cases of discrimination to the Providence Human Relation Commission of Human Rights, who in turn investigate each case thoroughly and follow it through the courts if necessary.

The Urban League has its own housing and counseling center located at 205 Cranston Street, Providence Rhode Island. This office deals exclusively with housing assistance, providing services such as home and apartment referrals and investigating discrimination complaints.

9.A. Rhode Island Commission for Human Rights

This commission investigates discrimination cases in employment, housing, and public accommodations. Their function is to prevent discrimination because of: Race, color, religion, country, physical, handicap, sex or marital status.

10.F. Redlining Appeals Board

The Home Mortgages Opportunity Committee is a combination of bankers and neighborhood residents, realtors and government officials who review home mortgage applications from persons who think they have been unfairly treated. The committee will attempt to determine if any discrimination has occurred and suggest possible solutions to the problem.

The Mayor of Providence's Office of Community Development has promoted the observation of the Fair Housing Regulations in an effort to extend their applicability and effectiveness. Due to the yet unfinished status of the Section 8 New Construction Projects, only an account of the approved Affirmative Fair Housing Marketing Plans can be related. This office is cognizant of its responsibilities under the Fair Housing Regulations to insure that unbiased advertising and solicitation of minorities is actively practiced by the project managers. Included is a copy of the approved Affirmative Fair Housing Marketing Plan for the Section 8 New Construction Project, "Metcalf Court". The plan is stringently required to account for the particulars of all proposed advertising to note all anticipated minorities solicitation needs and to report the briefing procedure used to acquaint the management staff with their responsibilities under the Fair Housing Regulations. These marketing plans are reviewed by the FHA Area Office to determine their compliance with Federal Regulations. When the rental operations begin, the marketing procedure will be monitored to guarantee its compliance with the previously submitted marketing plan.

Various means have been used to insure the observation of Federal Fair Housing Regulations in the many other programs initiated by this office. Though Providence includes no specific fair housing conditions, it does enforce the State Fair Housing Laws. These laws compare directly with the Federal Legislations except that sex discrimination is not specifically noted and landlords are more stringently restricted from discriminating even as it may apply to a structure which the landlord inhabits. All complaints pertaining to alleged violations are referred to the City Human Relations Commission for processing.

A portion of the Community Development funds has been pledged to the Housing Subcommittee of the Citizens Advisory Committee. Such aid is designed to promote conscientious community input and observation of the programs operating throughout the area.

All the programs have extended their impact through expansive advertising and community solicitation of participants. The Section 8 existing program has endeavored to broaden its reach through the television appearances of its representatives on local public information programs, by contacting the Urban League and the Council of Churches, and by utilizing a Spanish interpreter to contact those minority organizations that might be interested but otherwise overlooked. Of course, the Section 8 existing program, like the Section 8 New Construction Program and the Home Improvements Program all advertise their activities through appropriate advertisements in the local newspapers. All such advertisements are observed to be free of any discriminatory innuendos or nuances, and they include the Fair Housing Logo where required.

The Home Improvement Program itself includes six outreach offices to contact those eligible parties that might otherwise be unapproached. Seven areas are designated as "Target Areas" because of their inclusion of large numbers of eligible program participants. The focus lies on these areas while the entire city is invited to participate.

Through this web of information, minority groups are informed of housing opportunities in neighborhoods that traditionally exclude minorities.

Recently a land use survey was completed under the direction of the Providence Office of Urban Development. The land use survey in conjunction with the indices extracted from 1970 United States Census material and the local 1973 to 1974 Polk Survey have been utilized to examine land use policies and also to aid in formulating construction site priorities. Needy areas are determined by comparing relative numbers of eligible elderly, family, and minority families. Areas are screened to insure that an over concentration of minorities or public projects does not occur. Neighborhoods are reviewed to determine the relative status and subsequently the relative needs of the local housing stock. All of these factors are used in reviewing Section 8 new construction project proposals as they enter the A-95 clearing process.

Of the projects already approved, eight have been proposed for construction in areas of low minority concentration, of which four are planned to be built in areas of relatively high minority concentration. All proposed sites have been determined to have the necessary commercial services to serve the expected tenants. Surrounding area needs have been considered in reviewing the sites. Elderly oriented projects were judged partly on their ability to serve localized elderly housing needs without requiring extensive relocation of participants. The family oriented projects were considered for their ability to allow an adequate array of neighborhood living areas for future occupants, both within and outside noted traditionally minority concentrated neighborhoods. An integrated housing situation with adequate living alternatives is the prescribed goal. In keeping with this policy, the Section 8 existing program has located 72.2% of its participants in areas of relatively low minority concentration.

AFFIRMATIVE FAIR HOUSING MARKETING PLAN

APPLICANT'S NAME, ADDRESS AND ZIP CODE GILBANE PROPERTIES, INC. 90 Calverley Street Providence, Rhode Island 02940	PROJECT OR APPLICATION NUMBER RI-43-H023-008	
NAME AND LOCATION OF PROPOSED HOUSING. METCALF COURTS - Veazie Street, Providence, R.I.	SECTION OF ACT Section 8	
	CENSUS TRACT 28	NUMBER OF UNITS 60

1. DIRECTION OF MARKETING ACTIVITY

The affirmative Fair Housing Marketing Regulations require that each applicant carry out an affirmative program to attract prospective buyers or tenants of all minority and majority groups to the housing. State which group(s), in your judgment, are normally not likely to apply for the housing without special outreach because of factors such as existing neighborhood racial or ethnic patterns, price, and other factors.

Minority groups not likely to apply for the housing without a special outreach program are blacks which comprise 9% of the population of Providence and Spanish surname and

* 2. MARKETING PROGRAM Asian which comprise another 1%

Newspapers (Approximate frequency and description of use) We will advertise at least 90 days prior to occupancy in the Prov. Journal as this is the major source of information on rentals for all groups in the State of Rhode Island. The ads will include size of units, rents and income ceilings. The Equal Housing Opportunity logo will be used and the Equal Opportunity slogan will be used in all display ads in at least 8 point bold face type. All ads will conform to the HUD guidelines for fair housing.

* Radio and TV (Approximate frequency and description of use) We plan 8 radio spot ads over WICE on a weekly basis prior to and during our rent-up effort. WICE has a representative audience of minority and majority groups. No TV ads are planned because this media is not customarily for rent-up purposes in this area and the cost would not be justified. There are no plans to appear on any community service programs. There will be a general press release announcing the start of construction and identifying the program, the financing

* Brochures and Signs (Enclose description or, where possible, copies, drafts or pictures.) From the start of construction until all units are completed and rented, there will be signs prominently located on the site displaying the "Equal Housing Opportunity" logo and instructions on whom to contact for further information. The signs will be approximately 3 feet by 5 feet with appropriate letter. The sign will also state that financing is by RIHMF.

* Community Contacts (List organizations to be contacted and describe method of contact.) We will make personal contacts with the Urban League, the Woman's Intergroup Conference, the Department of Social Welfare, etc. showing the housing and speaking before their groups, if they so wish. Details and written information will be given for posting at their offices or in other places of their choice. Churches and church groups in the area will also be approached in the same manner. Roger Williams Baptist Church, opposite the project.

State what results applicant reasonably expects in terms of occupancy from special outreach efforts. We are hopeful that our special outreach efforts will produce minority occupancy commensurate with the percentage of minority population in Prov. or 8% to 10%. Our efforts to achieve this goal will be sincerely and energetically pursued.

Describe the marketing program you intend to use in filling vacancies (in multifamily projects) as they occur after the project has been fully occupied. Vacancies will be filled by maintaining a continuing waiting list for the project, by community contacts and by spot ads in the Prov. Journal when needed to maintain full occupancy.

ajfe 6/4/76

* 3. STAFFING

What company will be responsible for the marketing program? Gilbane Properties, Inc.

What is its experience in marketing successfully to a racially and ethnically varied population? None

What company will be responsible for sales or initial and continuing rental? Gilbane Properties, Inc.

Describe nondiscrimination hiring policy applicable to staff engaged in sale or rental of properties and indicate present racial composition of sales/rental staff. We are an equal opportunity employer and as such will not discriminate in the hiring of our rental staff. Our current staff engaged in sales/rentals of properties consists of:

one (1) white male (development director) one(1) white male (properties manager)
one(1) black female (administrative assistant) one(1) white female (leasing manager)

Indicate number of additional positions to be filled in sales/rental staff, and describe steps which have been or will be taken to recruit from both majority and minority groups.

None to be filled.

Enclose a copy of instructions given to all employees regarding compliance with local, State and Federal fair housing laws.

* Describe training given to all employees regarding implementation of fair housing laws and this affirmative fair housing marketing plan: We have attached copies of Fair Housing USA; Civil Rights Act of 1968 Title VIII, HUD Equal Opportunity, What it is. What it does; Executive order 11063 Excerpts from the Rhode Island Fair Housing Practices Act of 1965 as amended, and Gilbane Building Company Affirmative Action Program.

All employees have been advised and will continue to be advised of fair housing requirement through brochures and appropriate orientation sessions.

4. Solicitation of those referred by HUD. Solicitation will be ☒ DIRECT MAIL ☒ TELEPHONE CONTACT
☐ OTHER (Specify): _____

5. Please describe other efforts planned as part of your outreach program not adequately covered by this form: Personal contact will be made with representatives of community action groups in an attempt to identify potential residents from minority groups. It is believed that there are few readily identifiable potential minority residents in the local area and that personal contact is perhaps the most likely way to yield any significant results.

6. The applicant agrees to make any changes in a plan covering a multifamily project which may reasonably be required after initial rent-up to assure continued compliance with Section 200.620 of HUD's Affirmative Fair Housing Marketing Regulations

GILBANE PROPERTIES, INC.

90 CALVERLEY STREET, PROVIDENCE, R.I. 02940/PHONE 401-751

Dear Mr. Jimenez:

Gilbane Properties, Inc. is happy to announce that our sixty units of elderly housing, Metcalf Courts, with Section 8 housing assistance, should be ready for occupancy about _____

Enclosed is a supply of brochures which contain basic information on our project. We also wish to emphasize that this is equal opportunity housing where all people who qualify under the regulations of the HUD program will be welcome regardless of race, creed, color, national origin or sex.

We will be ready to accept applications starting _____ and our first newspaper ad will be in the _____ issue of the Providence Sunday Journal.

Similar notifications are being sent to other minority groups and if you know of any other minority persons or groups whom we may have overlooked, please feel free to pass the word or call them to our attention.

We are designating Mr. Paul J. Choquette, President of Gilbane Properties, our equal opportunity officer, as the official contact for further information and he will be available at your convenience to appear before your group or any group meetings to elaborate on our housing and programs and to answer questions.

Gilbane Properties is pleased for this opportunity to contribute to a better way of life for our senior citizens by providing a more meaningful housing and social environment. It is our hope that some of your group and their friends will consider coming to live in our housing and share in the benefits and services that we offer.

Sincerely,

Robert V. Gilbane

PURPOSE OF COMPANY

To assist companies and organizations committed to the principles and goals of delivering Equal Opportunities. All services are to be related to the practical aspects of achieving a client's Equal Opportunity goals with emphasis upon permanently effecting institutional changes within the personnel of the company or organization. The main areas of involvement are employment, housing, education, job training and community relations.

BACKGROUND

The significance of race relations to a democratic society has long been recognized by social scientists. Yet, among literally thousands of books, monographs, and articles devoted to problems of race relations, there have been very few studies focused on changing prejudices. Most have been oriented toward the present or the past rather than toward the future? they have been concerned with finding out what exists and how it has come to exist rather than with uncovering techniques for social change.

The pervasiveness of discrimination and prejudice suggests that social and psychological barriers to democratic race relations are too strong to give way to anything but strong counterinfluences. To date little has been accomplished in providing these strong counterinfluences.

The present system of dealing with race relations in commerce and industry has not been effective in arranging the attitudinal changes necessary for companies and organizations to realize significantly their Equal Opportunity goals. New approaches are needed as evidenced by the apparent lack of success of existing programs to serve as meaningful liaisons between companies and the people they reach out to.

McClain, McDaniel, Sullivan and Fowler, Inc. is an integrated, predominantly black company committed to dealing with the problems of race relations through a comprehensive approach.

SERVICES OFFERED:

- 1 — Analysis and Planning — which relates to the identification and isolation of the problem areas of concern, with specific proposals for effective implementation.
- 2 — Personnel — employee recruiting and assisting client's personnel staff in anticipating and resolving racial conflicts within the company and its area of operation.
- 3 — Counseling — counseling management in the area of employee recruiting, employee retention and problem anticipation. Also, employee counseling, as it relates to pre-employment and post-hiring, can be provided as needed.
- 4 — Training — designing and conducting training programs to specifically meet the needs of management and employees, which can include human relations seminars and workshops.
- 5 — Public Relations — assist in interpreting a company's policy to local, state and federal authorities as well as to community groups and organizations.
- 6 — Continuous Evaluation — to provide these services on an individual contract basis as well as on an annual retainer basis.

V-D. Entrepreneurship & Employment

1. The grantee is required in the Section 3 Regulations (24 CFR 135 Subparts B and C) to utilize lower income area residents to the greatest extent feasible as trainees and employees and to require contractors and subcontractors to do likewise.
 - a. Is there a method for assuring that the contractors and sub-contractors are meeting the requirements of Subparts B and C, above? x Yes No
 - b. Summarize on a separate sheet, the results of contractors' and subcontractors' efforts to utilize project area residents. (Results of recipient efforts are included in WG-Form 4074.)
2. The grantee is required in the Section 3 Regulations (24 CFR 135 Subpart D) to award, to the greatest extent feasible, contracts for work in connection with CDBG funded projects to business concerns located within the Section 3 covered project area or business concerns owned in substantial part by persons residing in the Section 3 covered area; and to require contractors and subcontractors to do likewise. Grantees, recipients, contractors and subcontractors are required to develop an Affirmative Action Plan (AAP) for utilization of eligible Section 3 businesses.
 - a. Has an affirmative action plan for the utilization of Section 3 businesses been developed? x Yes No
 - b. Does the plan include a method for assuring that each Contractor and Subcontractor has developed and is implementing any AAP for the utilization of Section 3 businesses?
 x Yes No
 - c. Summarize on a separate sheet, the results of contractors' and subcontractors' progress in utilizing Section 3 businesses, i.e., number and dollar amount in relation to total amount. (Results of grantee efforts are included in V-G Form 4074.)
3. The grantee is encouraged in Federal Management Circular 74-7, Attachment A, to utilize minority banks for demand and/or time accounts. Are there any minority owned commercial banks in the locality? No Minority savings and thrift institutions? Yes . If yes, have grantee accounts been opened in any of these institutions? yes Describe briefly.

VD Entrepreneurship & Employment

1. a. Yes (See below)

b. All contractors and subcontractors are notified and given a thorough explanation of all Section 3 requirements. The initial contact period is the Pre-bid conference where all potential bidders are made aware of the EEO requirements, along with their Section 3 responsibilities. The successful bidder (low bidder) is then given an indepth session at the preconstruction conference. At this time along with the order EEO requirements (Executive Order 11246, Federal Labor Standards) the contractor is given a copy of the Section 3 portion of Housing and Urban Development Act of 1968. Secondly, a copy of the Mayor's Office of Community Development Section 3 Affirmative Action Plan to use as a guide in drawing up their own plan; Thirdly, guidelines for utilizing area business concerns. Fourthly, guidelines for utilizing area residents as trainees. Fifthly, guidelines for utilizing area residents as employees. Sixthly, a copy of area low-income levels for New England. Lastly, Section 3 reporting forms: A. Section 3 Permanent Employment of Lower Income Area Residents, B. Section 3 Utilization of Area Business Concerns.

2. a. & b The grantee has developed an Affirmative Action Plan which encompasses all facets of the Section 3 requirements, including the utilization of local area business concerns. As stated above, all contractors and subcontractors are given a copy of this plan to use as a guideline in producing their own.

c. The total amount of monies released, as of 1-31-78 for construction contracts exceeding \$10,000 is approximately \$4,308,814. Many of these contracts are in the early stages of construction.

3. There are no minority owned commercial banks in the locality.

There is only one minority thrift institution in the locality.

The grantee does have an account in the one minority run thrift institution (the South Providence Federal Credit Union, 950 Broad Street, Providence, RI). All direct loans awarded through the Home Improvements for Providence Program, a division of the Mayor's Office of Community Development, are held and dispersed at this institution.

HUD FORM 4242-10-76

VI. CITIZEN PARTICIPATION

Except where indicated your responses should reflect experience during the past program year rather than the one for which you are applying.

- A. As a contact point, identify the city department, organization, agency, or individual responsible for developing and implementing the Citizen Participation Plan and maintaining the records required by 24 CFR 570.907(b).

Name	Louise Dumont
Title	Citizens Coordinator
Organization	Mayor's Office of Community Development
Address	44 Washington Street Providence, RI 02903

- B. 1. At what point in the development of the application were citizens likely to be affected by community development and housing activities, including low income persons: (a) provided information on the community development and housing programs including the amount of funds available (24 CFR 570.900(d)(1)(i)); (b) afforded an opportunity to articulate needs, express preferences about program activities, assist in the selection of priorities and participate in the development of the application (24 CFR 570.900(d)(2)); (c) provided information on other important program requirements such as Davis-Bacon, environment, equal opportunity, and relocation (24 CFR 570.900(d)(1)(iv)); and (d) provided bi-lingual opportunities, when appropriate (24 CFR 570.900(d)(2))?

(a) (b) See Attached plan and information sheet.

(c) Most of the information relating to the above-mentioned program requirements has been provided to citizens subsequent to the development of the application.

(d) In the development of the application it was not deemed appropriate to provide bi-lingual opportunities.

2. Were meetings, other than formal hearings, utilized? Yes X No
If yes, for what purposes?

To solicit ideas and proposals from various interested citizen groups and neighborhood organizations. To obtain information on their needs, such as housing priorities and proposed projects.

3. In what ways, if any, are the activities described in 1 and 2 above being changed for the next program year?

See attached list of the citizen participation events in the development of the Third Year Application.

- C. 1. When during the planning process, and how often, were public hearings held (24 CFR 570.900(d)(1)(ii))?

- a. February 22, 1977
- b. February 24, 1977

2. For each hearing held, indicate the purpose.

- a. To explain the Community Development Block Grant and its requirements.
- b. To obtain information of the needs, priorities, and suggestions for program projects.
- c. To encourage participation in developing the application.

3. Describe any changes planned or actions taken to modify the hearing process for subsequent years' activities and the desired results.

See list attached to (B) (3).

- D. What provisions have been made for citizen participation in budget and/or program revisions, changes, or amendments (24 CFR 570.900(d)(1)(v))?

The established Citizens Advisory Committee process in which program revisions and changes are reviewed in subcommittees provides a regular framework for citizen participation. There was no program amendment in this past year for which 24 CFR 570.900(d)(1)(v) would have been applicable.

- E. When were citizens advised of HUD's acceptance of your application for processing and of the availability of the application to interested parties (24 CFR 570.300(b))?

March 10, 1977

March 11, 1977

April 28, 1977

- F. Cite any key issues relating to your Community Development Program, including the Housing Assistance Plan, where you feel citizen participation was a significant element in the outcome.

Citizen participation continues to play a major role in the development of programs and projects in the Community Development Program and to determine the expenditure of program monies in the Seven Program areas.

The Home Rehabilitation Program and the Citizens Advisory Committee through its Housing Subcommittee and the approval of the full CAC continues to play a major role in the implementation of this program.

CITY OF PROVIDENCE

Citizen Participation Plan

January, 1975

A Citizens Participation Plan is a prerequisite to the filing of an application for Community Development Block Grants under the Housing and Community Development Act of 1974. The rules and regulations therefore are set forth in Section 570.900 (d) (1) and (2) of the Federal Register, Volume 39, No. 220 dated November 13, 1974, and is the basis of the Citizen Participation Plan, which follows:

The City of Providence's Department of Planning and Urban Development, prior to the submission of an application for block funds under the Housing and Community Development Act of 1974, will hold City wide and neighborhood public hearings to inform all City residents of all elements of the Community Development Act of 1974, the funds available to the City, the range of eligible activities, and will solicit formal and informal proposals.

At least two (2) City wide public hearings will be held in an easily accessible central location. Neighborhood meetings will be held without limitation on request throughout the City and in the office of the Department of Planning and Urban Development.

The staff of the Department of Planning and Urban Development shall provide bilingual opportunities for citizen participation, where required, and shall in any event offer its assistance in articulating proposed programs and estimated costs.

An updated synopsis of all proposals shall be aired at all Public Hearings so that citizen preferences and priorities can be constantly evaluated.

Additionally, the Department of Planning and Urban Development intends to satisfy City participation requirements by media coverage in the form of press releases, television appearances and radio announcements.

A citizens advisory committee will be formed primarily from a list of representatives of private and public organizations and groups. It will review all proposed activities with staff of the Department of Planning and Urban Development and the Mayor's Office, and advise those offices of its recommendations of program activities.

During the program year the citizens advisory committee will be apprised on a periodic basis of the status of funded activities.

Amendments to the Community Development Program during the program year consisting in part with the reallocation of funds on designation of new activities shall be subject to at least one Public Hearing and review by the Citizens Advisory Committee.

CITY OF PROVIDENCE

CITIZEN PARTICIPATION PLAN

Second Year 1976-77

A Citizens Participation Plan is a prerequisite to the filing of an application for Community Development Block Grants under the Housing and Community Development Act of 1974. The rules and regulations therefore are set forth in Section 570.900 (d) (1) and (2) of the Federal Register, Volume 39, No. 220 dated November 13, 1974, and is the basis of the Citizen Participation Plan, which follows:

The City of Providence's Mayor's Office of Community Development prior to the submission of an application for block funds under the Housing and Community Development Act of 1974, will hold city-wide and neighborhood public hearings beginning in November to inform all City residents of all elements of the Community Development Act of 1974, the funds available to the City, the range of eligible activities, and will solicit formal and informal proposals from the citizens on Community Development and housing needs.

At least two (2) city-wide public hearings will be held, one in January and one or more in February, at easily accessible central locations. Neighborhood meetings will be held throughout the City without limitations on requests.

The staff of the Mayor's Office of Community Development shall provide bilingual translation services where required, and shall in any event offer its assistance in articulating proposed programs and estimated costs.

An updated synopsis of all proposals shall be aired at all Public Hearings so that citizen preferences and priorities can be constantly evaluated.

Additionally, the Mayor's Office of Community Development intends to satisfy City participation requirements through media coverage in the form of press releases, television appearances and radio announcements.

The Citizens' Advisory Committee on Community Development consisting of 100 members representing private and public organizations and neighborhood groups, will continue to meet on a regular basis as stated in the official By-Laws of the CAC. It will review all proposed activities with the staff of the Mayor's Office of Community Development and the Mayor's Administrative Office, and it will advise those offices of its recommendation for program activities and other program requirements. During the program year the Citizens' Advisory Committee will be apprised on a periodic basis of the status of funded activities and it will subsequently review and make recommendations on program evaluation.

The Citizens' Advisory Committee shall have adequate support staff to meet their needs. Adequate funds will be available to the Citizens' Advisory Committee for preparing and distributing informational materials on the Community Development Program. To further enhance the citizens participation process, special training and technical assistance activities will be provided, such as the provision of local training and travel allowances to training conferences.

Amendments to the Community Development Program during the program year consisting in part of the reallocation of funds and the designation of new activities shall be subject to at least one Public Hearing and review by the Citizens' Advisory Committee.

CITIZEN PARTICIPATION PLAN

1977- 1978

a A Citizens Participation Plan is a prerequisite to the filing of an application for Community Development Block Grants under the Housing and Community Development Act of 1974. The rules and regulations therefore are set forth in Section 570.900(d)(1) and (2) of the Federal Register, Volume 39, No. 220 dated November 13, 1974, and is the basis of the Citizen Participation Plan, which follows:

The City of Providence's Mayor's Office of Community Development prior to the submission of an application for block funds under the Housing and Community Development Act of 1974, will hold city-wide, and neighborhood public hearings as requested, beginning in November to inform all City residents of all elements of the Community Development Act of 1974, of the funds available to the City, of the range of eligible activities; and will solicit formal and informal proposals from the citizens on Community Development and Housing needs.

At least two (2) city-wide public hearings will be held, one in January and one in February prior to submission of the Plan to the A-95 Clearinghouse, at easily accessible central locations. Neighborhood meetings will be held throughout the City on request.

a The staff of the Mayor's Office of Community Development shall provide bilingual translation services where required, and shall in any event offer its assistance in articulating proposed programs and estimated costs.

An updated synopsis of all proposals shall be aired at the Public Hearings so that citizen preferences and priorities can be evaluated.

Additionally, the Mayor's Office of Community Development intends to satisfy City participation requirements through media coverage in the form of press releases.

The Citizens' Advisory Committee on Community Development consisting of 100 members representing private and public organizations and neighborhood groups, will continue to meet on a regular basis as stated in the official By-Laws of the CAC. It will review all proposed activities with the staff of the Mayor's Office of Community Development. And it will advise that Office of its recommendation for program activities and other program requirements. During the program year the Citizens' Advisory Committee will be apprised on a periodic basis of the status of funded activities and it will subsequently make recommendations based on program evaluation.

a The Citizens' Advisory Committee shall have adequate support staff to meet their needs. Adequate funds will be available to the Citizens' Advisory Committee for preparing and distributing informational materials on the Community Development Program. To further enhance the citizens participation process, special training and technical assistance opportunities will be provided.

Amendments to the Community Program during the Program Year that reprogram more than 10% of the entitlement grant will be subject to at least 2 Public Hearings and review by the Citizens' Advisory Committee.

INFORMATION REGARDING ASSURANCE NO. 3, CITIZENS PARTICIPATION

The Mayor's Office of Community Development advertise for and held two public hearings. The first, on March 10, 1976 and the second on March 11, 1976, at which it described the Community Development Program to the citizens and asked for formal or informal proposes between November 4, 1975 and March 14, 1976, department staff members met on 35 occasions or more with citizens group which asked for time to discuss the program.

On February 27, 1975, the Mayor sent letters of appointment to a Mayor's Citizens Advisory Committee for Community Development to 63 persons. Additional appointments, bringing the total membership to 75 by March 12, 1975 were made. In general, members were appointed as representatives of interested groups or organizations.

On February 24, 1976, the full Citizens Advisory Committee met to receive its charge and to formulate working committees. On March 2nd, the working committees met to receive proposals and formulate recommendations.

The full committee met on March 9, 1976 to receive reports of its committees and to approve a recommended program for submission to the Mayor.

On March 16th, the Housing Assistance Plan Committee met to review the proposed Housing Assistance Plan.

The CAC will continue to meet on a regular basis prior to the start of the program year on July 1, 1976. Priority items to be considered will include definition of the CAC's role as a starting point for neighborhood based planning, organizational structure for implementing the program and detailed consideration of second year programs.

INFORMATION REGARDING ASURANCE NO. 3
CITIZEN'S PARTICIPATION

The Mayor's Office of Community Development advertised and held two (2) Public Hearings, the first February 22, 1977 and the second February 24, 1977. The Community Development Program and eligible activities for the forth coming year was explained to the citizens. They were asked to present formal/informal proposals within to the scope of activities relating to their group interests. Long and short term objectives of the Housing Assistance Plan and how it is designed to meet the needs of low to moderate income persons was also explained.

In addition, staff members met regularly with neighborhood business men's associations, church groups, social agencies, and block clubs to explain to them the importance of the Community Development Programs such as the Neighborhood Storefront Improvement Program, the elderly Paint Program, Historic Building Improvement Program, Social Program and Neighborhood Facilities Program, Home Improvement Program etc. and how all these programs would provide not only neighborhood economic revitalization to these neighborhoods, but would benefit the entire city.

On November 15, 1976 the Citizen's Advisory Committee began planning for the Third Year Application and continued to meet regularly with subcommittees to formulate recommendations for Third Year Program Recommendations.

On January 17, 1977 the full CAC met and approved the Third Year budget for submission to the Mayor for approval.

The CAC did continue to meet on a regular monthly basis prior to to the start of the program year, July 1, 1977, to define and set priorities for neighborhood based programs and other projects; to monitor the implementation of the program and its goals.

Q The CAC and community at large will continue to receive program and project status reports, the CAC subcommittee reports presented to the CAC at their regular meetings.

MAYOR'S OFFICE OF COMMUNITY DEVELOPMENT

BY - LAWS

Of the Citizens Advisory Committee of the City of Providence Community Development Program

ARTICLE I. C A C

1. The name of this organization shall be the Mayor's Citizens Advisory Committee on Community Development hereinafter referred to as CAC. It was established to advise the Mayor of the City of Providence and the staff of the Mayor's Office of Community Development, hereinafter referred to as OCD, with regard to the planning and execution of its community development program authorized under the Housing and Community Development Act of 1974. The CAC is located in the Office of Community Development, 44 Washington Street, Providence, Rhode Island.

ARTICLE II. PURPOSES

1. The CAC's basic purpose is to assure effective citizen participation in the preparation and implementation of the Community Development Program consistent with the standards set forth in Section 104 (a)(6) of the Act. This section requires that citizens be provided with adequate information with regard to proposed activities under the Act and the funds available for these activities, that at least two public hearings be held to obtain the views of citizens on housing and community development needs, and that citizens be provided an adequate opportunity to participate in the development of the program application and any further changes in the application.
2. The CAC will provide overall recommendations to the Office of Community Development and the Mayor in the setting of goals and priorities for the City's Community Development program and shall serve at his pleasure.
3. The CAC will review each element of the program application and its budget as it is developed each year, and will make recommendations to any program amendment submitted to HUD during a program year.

ARTICLE III. MEMBERS

1. Appointment and Term of Office. All members of the CAC shall be appointed by the Mayor and shall serve at his pleasure.
2. Number. There shall be at least 50 members of the CAC and no more than 100. Members may be appointed by the Mayor during the program year in order to maintain the stated membership level.
3. Recommendations. Recommendations for prospective members are welcome and may be submitted to the Chairperson of the CAC (via the CAC Liaison Officer) or directly to the Mayor.
4. Qualifications.
 - a) There shall be at least three members and no more than ten from each of the target area neighborhoods.
 - b) The point of view of the various organizations and groups in the city is of great value to the program. Consideration will be given to the appointment of representatives of organizations of citizens such as Elderly, Youth (13 through 17), Handicapped, Racial and Ethnic groups, and Language Minorities.
5. Resignation and Replacement. A member wishing to resign may submit his or her written resignation to the Chairperson of the CAC (via the CAC Liaison Officer) who will forward it to the Mayor.
6. Conflict of Interest. A member may serve even though he/she or the group he/she represents submits a proposal for programs. However, it is expected that such member shall abstain from voting on all matters bearing on that program element in which he/she may have a direct personal or finan-

ARTICLE IV. CAC MEETINGS

1. Regular Meetings. Unless otherwise notified, the CAC shall meet monthly on the first Monday of each month at 7:30 p.m. at the City Hall Council Chambers. If said Monday is a generally recognized holiday, the meeting shall be held the following day, Tuesday. An agenda, the minutes of the previous meeting, and notice of the time and place of the meeting shall be mailed to each member at his or her regular mailing address no less than six days before the scheduled meeting.
2. Attendance. Members are expected to attend all CAC meetings. A member may petition the chair for an excused absence by writing to the Chairperson via the CAC Liaison Officer. Any member missing three regular CAC meetings in the program year without being excused will be removed from the membership list.
3. Special Meetings. A special meeting may be called by the Chairperson, by any three members of the Executive committee, or by formal petition of 1/3 of the CAC regular membership. Notice of such a special meeting must be mailed to CAC members not less than four days prior to the meeting and shall include the time, place and purposes of such meeting.
4. Conduct of Meetings. Meetings will be conducted according to Roberts Rules of Order, unless otherwise specified in these By-laws.
5. Minutes. Accurate and complete written minutes shall be kept of all meetings and shall be distributed to members in advance of the next meeting in accordance with Article IV, Paragraph 1.
6. Quorum; Voting. The presence of one third (1/3) of the CAC members at either a regular or special meeting shall constitute a quorum for the com-

ARTICLE IV. CONTINUED

mencement of business. Only CAC members may vote at a CAC meeting and there shall be no proxies.

7. Open Meeting. All CAC meetings shall be open to the public. The Chairperson shall designate a portion(s) of every meeting for non-member participation. The Chairperson shall send copies of the notice and agenda to the local news media.

ARTICLE V. OFFICERS

1. The officers of the CAC shall be a Chairperson, a Vice-Chairperson, and a Secretary. Officers shall be appointed by the Mayor and serve at his pleasure. In the event of a vacancy in any office, appointment by the Mayor to fill that vacancy shall occur at the next regular meeting of the CAC.

2. Chairperson. The Chairperson presides over all meetings of the CAC. He or she is responsible for maintaining communication on behalf of the CAC with the Mayor and the Office of Community Development.

3. Vice-Chairperson. The Vice-Chairperson carries out all functions of the Chairperson in the absence or inability of the Chairperson.

4. Secretary. The Secretary is responsible for the written record of CAC meetings and shall maintain adequate minutes including a record of all votes taken. The Secretary shall keep those minutes of all subcommittee meetings submitted to him or her in the same manner as minutes of CAC meetings.

5. Resignation. An officer may resign by submitting a written resignation to the Chairperson of the CAC (via the CAC Liaison Officer) who shall submit it to the Mayor. The vacant office shall be filled in accordance with the provisions of Article V Section I.

ARTICLE VI. SUBCOMMITTEES

1. Subcommittees of the CAC shall be the Executive Committee, Environmental Assessment Subcommittee, and seven program subcommittees: Housing, Neighborhood Facilities and Services, Social Services, Parks and Open Spaces, City Services, Downtown, and Historic Preservation. A majority of all members of a subcommittee shall constitute a quorum for the commencement of business. Additional subcommittees may be formed and/or disbanded at the recommendation of the Executive Committee and passed by a majority of the CAC.

2. The Executive Committee.

- a) Composition. The Executive Committee shall consist of the three officers of CAC and the Chairperson of each program subcommittee.
- b) Meetings. The Executive Committee shall meet no less than once a month in addition to the monthly CAC meetings.
- c) Functions. The Executive Committee shall:
 - 1. Prepare and submit to the Chairperson for consideration the agenda for all CAC meetings.
 - 2. Advise the OCD on the preparation of the annual program application and any program amendment submitted to H.U.D., subject to CAC approval.
 - 3. The Executive Committee shall maintain an on going review of subcommittee activities for the purpose of providing coordination and communication among the subcommittees and between the subcommittees and the CAC membership.

3. Program Committees.

- a) Membership. The Mayor shall appoint no less than six members to each program subcommittee to serve at his pleasure and shall designate one member the Chairperson of each subcommittee. Any CAC member who

ARTICLE VI. CONTINUED

wishes to serve on a program committee may submit his or her name to the Chairperson via the CAC Liaison Officer at any time.

- b) CAC Non-members. Non-members of CAC are welcome to attend committee meetings and may participate at the pleasure of the committee chairperson but may not vote.
- c) Meetings. Program subcommittees shall meet no less than once a month.
- d) Officers. Each program subcommittee shall have a chairperson and a secretary. The Mayor, in communication with each subcommittee, shall designate a Chairperson who shall be responsible for the agenda of his/her committee. The secretary shall be elected by the subcommittee.
- e) Functions. Each program subcommittee shall:
 - i) Advise OCD on the preparation of the annual program application and any program amendment submitted to HUD, subject to CAC approval.
 - ii) Receive and review reports from OCD on the progress of projects in its category on no less than a quarterly basis.
 - iii) Submit, via its Chairperson, a report to the CAC at each regular meeting.
- f) Committee Minutes. Accurate records of subcommittee meetings shall be kept by the secretary elected by the subcommittee. These minutes should include all minority positions, and all votes. The subcommittee secretary shall be responsible for submitting such records to the CAC Secretary as part of the written CAC record.
- g) Any member of a program subcommittee who fails to attend three (3) regularly scheduled meetings be informed by the subcommittee chairperson that his membership is revoked.

ARTICLE VII. AMENDMENTS

1. These By-laws may be amended by 2/3 (two thirds) of the members present at a regular or special meeting of the CAC. The text of the amendment and notice of the time and place of the meeting to consider said amendment shall be sent to all members, no less than 7 (seven) days prior to such meeting.
2. Proposed amendments to the By-laws may be presented to the CAC by the Chairperson, by any three members of the Executive Committee, by formal petition of 1/3 of the CAC membership, or by a 2/3 (two thirds) vote of the CAC members present by a motion made by a member from the floor, in accordance with the notice provision in Article VII of Paragraph I.

ARTICLE VIII. ADOPTION

1. These By-laws shall be adopted by a majority vote of the CAC at a meeting called for this purpose. The text of these By-laws and notice of the time and place of the meeting to consider said amendment and it's adoption shall be sent to all members no less than seven (7) days prior to such meeting.

MAYOR'S OFFICE OF COMMUNITY DEVELOPMENT

CITIZEN'S ADVISORY COMMITTEE ON COMMUNITY DEVELOPMENT

REPORT FROM LOUISE DUMONT OF MEETING ACTIVITIES

MAYOR'S OFFICE OF COMMUNITY DEVELOPMENT
44 WASHINGTON STREET
PROVIDENCE, RHODE ISLAND

EVALUATION DIVISION AND THE CAC

The Evaluation Division of the Providence Mayor's Office of Community Development (MOCD) has worked very closely with the Citizens Advisory Committee (CAC) to form a consolidated approach to Community Development in the City of Providence. The Citizens Advisory Committee is very often asked to contribute input into program planning and their decisions are made in accordance with information provided by various sources including the Evaluation Division of the MOCD. The community frequently requests information or alternative approaches to the problems it is considering. The Evaluation Division reports the requested information also being sure to convey the rationale behind each approach. The CAC then decides which strategy they favor and the suggestions are forwarded to the appropriate MOCD staff. The Evaluation Division has never been compelled to monitor the CAC because of its neighborhood representative composition and its advisory capacity. The relationship between the Evaluation Division and the CAC has always been highly mutualistic.

CITY OF PROVIDENCE

Citizen Participation Plan

A Citizens Participation Plan is a prerequisite to the filing of an application for Community Development Block Grants under the Housing and Community Development Act of 1974. The regulations are set forth in Section 570.900(d)(i) and (ii) of the Federal Register, Volume 40, No. 11 dated June 9, 1975, and are the basis of the Citizen Participation Plan.

The Citizen Participation Plan filed with the first year application focused exclusively on the process related to the preparation of the first year application. As part of that process, the Mayor's Citizens Advisory Committee for Community Development was established as the primary vehicle for obtaining broad and continuing participation in the planning and implementation of the Community Development Program.

Following the completion of the process for filing the first year application, the Mayor's Office of Community Development and the Citizens Advisory Committee turned to matters related to the definition of the Citizens Advisory Committee's on-going role in the execution of the program. Citizen participation focused on two specific areas:

- (1) meetings of program subcommittees to undertake detailed review and discussion of individual elements of the total program, and
- (2) meetings of a bylaws committee charged with the preparation of a set of bylaws to be adopted by the full CAC.

In addition, a special subcommittee was established for the purpose of acting on behalf of the full CAC to approve the results of environmental assessments. Finally, the full CAC met periodically to deal with matters of concern to the entire body and to hear reports from the subcommittees. In some instances, subcommittees had deliberately elected not to make detailed project funding

decisions on the basis of the information available at the time of review of the first year application. The six subcommittees of the CAC participate in the development of detailed information about proposed projects as a basis for preparing more detailed budgets and implementation schedules.

From the submission of the first year application through March 1, 1976, the program subcommittees held approximately 57 meetings, special committees concerned with bylaws and environmental assessments have met 13 times and the full CAC has had 10 meetings.

The completion and adoption of the bylaws is a first order of business following the submission of the second year application.

With respect to the second year planning process, all of the requirements of the assurances have been met. The above information indicates the continuing on-going role of the CAC prior to the actual development of the second year plan. While all of the CAC meetings on the plan have been open to the public, two public hearings were duly advertised and held as required on March 10th and 11th, 1976. Preceding those hearings the CAC met as a body three times, and through its subcommittees several more times, to review the proposed second year program and develop recommendations to the Mayor and his staff.

The staff of the Mayor's Office of Community Development has provided assistance in articulating proposed programs and estimated costs.

All public hearings were properly advertised in the major newspaper and CAC members notified by mail and phone of pending meetings to more than adequately fulfill stated H.U.D. requirements.

The Mayor's Office of Community Development will continue to encourage participation of the City's citizens by public announcements and open public meetings.

THE MAYOR'S OFFICE OF COMMUNITY DEVELOPMENT

CITY OF PROVIDENCE

announces

PUBLIC HEARINGS

on the

Third Year Application to the
Department of Housing and Urban Development
for funding under the

Housing and Community Development Act of 1974

(P.L. 93-383)

TUESDAY, FEBRUARY 22, 1977 AT 7:30 P.M.

BISHOP McVINNEY AUDITORIUM

Corner of Franklin and Westminster Streets

Providence, Rhode Island

and

THURSDAY, FEBRUARY 24, 1977 AT 7:30 P.M.

CLASSICAL HIGH SCHOOL AUDITORIUM

Broad Street, Providence, Rhode Island

Pursuant to the provisions of the Housing and Community Development Act of 1974 all interested citizens, groups and / or organizations are invited to express their views on the Draft Third Year Application for \$8,275,000 of Community Development funds.

The Application, which is being prepared by the Mayor's Office of Community Development with participation by the Citizens Advisory Committee and its subcommittees, sets forth a strategy for meeting the long and short-term objectives of the Community Development Program. The Application includes the Housing Assistance Plan which surveys the condition of the housing stock in the city, estimates the housing assistance needs of lower-income persons, sets forth a realistic goal for the number of dwelling units to be assisted and indicates priority areas for new construction and rehabilitation projects.

A draft copy of the Third Year Application may be reviewed at the Mayor's Office of Community Development, 44 Washington Street, Providence, Rhode Island during the week of February 21-25, 1977, between 8:30 A.M. and 4:30 P.M.

MEMORANDUM

TO : Community Organizations
FROM : Louise Dumont, Citizens Coordinator
RE : Public Hearing - December 6, 1977
DATE : December 1, 1977

The Honorable Vincent A. Cianci, Jr., Mayor of the City of Providence, has requested that your organization be contacted because he wants to be assured that your group or organization has made or will make an input into the City's Fourth Year Planning for the Community Development Program.

On Tuesday evening, December 6, 1977, a Public Hearing will be held in the City Council Chambers, Third Floor of City Hall, Providence, Rhode Island, at 7:30 p.m.

To successfully implement the planning of the Fourth Year Program, we would appreciate your input and ideas for the Community Development Block Grant Program.
