These are some things that I would like to see occur during my new 3-year term:

1. a 5-year master plan for Providence Schools that is annually updated and revised

2. establish a format for greater parental and community participation. Right now there are several organizations that are uni-purpose in nature. There needs to be a city-wide parent advisory council that incorporates the various concerns of these different organizations.

3. a streamlining and redesign of the very costly programs such as Special Education and English as a Second Language / Bi-Lingual so they can be more cost efficient in these tough economic times

4. a long, hard look at streamlining the system's administrative structure

5. A call for <sup>greater</sup> accountability from

M. Batastini

everyone who works for the Prov. school system

6. The staff of our schools has demonstrated over the years that they are a truly caring, compassionate, and creative group. A forum <sup>for staff</sup> needs to be established so that their ideas can be heard.
