Honorable Vincent Vespia  
Providence City Clerk  
City Hall  
Providence, Rhode Island

Dear Mr. Vespia:

Enclosed are twenty-seven copies of the Recreation Department's annual report for the fiscal year October 1, 1968 through September 30, 1969

Respectfully yours,

  
John P. Cronin, Director  
Recreation Department

To The Honorable Joseph A. Doorley, Jr.  
Mayor of The City of Providence, and  
The Honorable City Council

Gentlemen:

In 1969, a great addition to our recreation facilities for older teenagers and adults was the erecting of floodlights at a softball field at Neutaconkanut Park. At present, it is operating very efficiently and should be a boon to the ever expanding night softball program in Providence.

This year, we continued our refurbishing and expansion of our physical plant. New play sculpture equipment was added to many existing playgrounds. Eleven new clay tennis courts were added to Roger Williams Park and a new doubles court was built at Richardson Park in South Providence. Two new softball fields were added to Obediah Brown Field, making a total of four 60 feet softball diamonds there now.

The school intra-mural program was expanded to include girls as well as boys. It is held on an average of four days a week in all the six junior high schools and two middle schools.

In a continuing effort to improve and expand our services to the inner-city youth, we added a year round afternoon recreation program from 3:00 p.m. to 6:00 p.m., five days a week, for boys and girls, in the Roger Williams Housing Project. This program began as soon as the adjoining playground closed for the season, and will continue right up until the 1970 playground season opens. The activities include ice skating at the Ice Bowl, Easter Hat Parade, field trips, arts and crafts, sewing, music, story-telling, holiday parties, and outdoor games at the adjoining playground such as volleyball, basketball, softball, and tennis.

The three month indoor program of weekly ice skating at the Ice Bowl was a huge success. This year, instruction to beginners was provided by recreation personnel. Each Monday afternoon for this twelve week period, a group of children was transported to the Ice Bowl by the Recreation Department. All at no charge. In addition, there was no admission fee as the recreation department rented the ice for these sessions. Also, skates were offered for rent at half price. Again, the ice skating at the Ice Bowl was especially well attended by inner city youth, many of whom were first introduced to this activity during this program. Often, community schools, the scouts, and other youth agencies took children ice skating each week.

The Recreation Department, through its director and staff, continues involvement with other youth and social agencies working in the community in a continuing effort to offer more and better recreation and overall services to youth.

Once again, I thank you, Mayor Doorley, you gentlemen of the Providence City Council, and the members of the Recreation Advisory Committee for your leadership and continued support as we strive to provide the best possible recreation program and facilities for our city.

Respectfully submitted,

*John P. Cronin*

John P. Cronin, Recreation Director

## Use of Schools for Recreation

The Recreation Department, through its close cooperation with the school department, which began in 1948, utilizes the facilities of three junior high schools, Gilbert Stuart, Oliver H. Perry, and Samuel W. Bridgham; Roger Williams Middle School, Mt. Pleasant High School, and three elementary schools, Broad St., Flynn, and Kenyon Street; for evening recreation programs, on a part-time basis.

Also, this year, the popular intramural afternoon programs were expanded to include girls as well as boys. They are held on an average of four days a week in all the six junior high schools and the two middle schools. This program proved to be very successful and very well attended with a total of 42,123 for the eight schools.

The programs, which are held outdoors as well as indoors, include basketball, softball, touch football, tennis, soccer, badminton, whiffleball, dancing, gymnastics, dramatics, swimming, trampolines, physical fitness, and tournaments. The activities vary according to the desires of the children in a particular neighborhood, availability of facilities, and special skills of the physical education instructors.

In addition, we also operate five full-time recreation centers--afternoons and evenings during the week, and mornings and afternoons on Saturdays, during the school year--in the following elementary schools: Fox Point, Danforth, Joslin, Martin Luther King, and Robert F. Kennedy.

We no longer construct separate buildings for indoor recreation. These five school-recreation centers are a result of cooperate planning by the recreation department and the school department before the schools are built; they are planned for multiple use as schools during the day, and for general community use after school hours. One school, Robert F. Kennedy, has an all purpose room used as a cafeteria, auditorium, and gymnasium with portable tables and chairs; another school, Martin Luther King, has a cafeteria-game room with moveable tables and chairs which fold up into the walls.

Two of the larger newer schools, Danforth and Joslin Elementary, are total recreation plants consisting of a recreation center, adjoining swimming pool-playground, and have another arrangement. There is one wing of the building used as the elementary school, and another separate wing used as the recreation center (with two floors); both are connected to a multiple-use gymnasium (one is a gymnasium-auditorium with removable chairs); both are used by the school and the recreation center. An olympic-sized outdoor swimming pool and a playfield adjoin these recreation centers.

In the Fox Point Elementary School, the last of these five school recreation centers, a wing of the school is closed off for use as a recreation center after school. This area consists of the gymnasium, auditorium, and cafeteria equipped with moveable chairs and tables which fold up into the walls. A long corridor space is easily utilized for television, office area, table games, and quiet activities. There is a separate 50' x 100' outdoor swimming pool and playground adjoining the school.

## Boys Camp Progress Report-1969

John P. Cronin, Providence Recreation Director, is the administrative director of the Boys Camp at Point Judith. There are 27 full time employees who are all summer workers for the camping season.

The camp owns a bus to transport campers to the camp. There is no bus service or any other public conveyances available. This camp bus takes campers swimming daily, to other camps, ball parks for program, field trips, and any place for special activities and educational trips.

Every Sunday there are visiting hours at camp at which time the campers are free to visit with friends and family, make use of camp picnicking facilities including tables, benches, and parking areas.

The area is being used as a boys resident camp. Approximately 400 boys were enrolled as campers during the regular season. The camping season is divided into four two-week periods at which 100 different boys are served as resident campers.

In 1967, one additional week was added in June to the regular program so that 20 retarded boys could spend a week at the camp.

In 1968, girls were included in this week at camp for retardates. For this week, 20 boys and 20 girls participated in a day camp program. They were transported back and forth to the camp by the recreation department bus.

In the summer of 1967, 1,200 disadvantaged Providence children were transported to the state's beach for swimming every afternoon and then to the camp for a hot dinner and supervised recreation until 9:00 p.m. This program was operated in cooperation with the city's anti-poverty agency, Progress for Providence.

In 1967, the camp and its program were included in a documentary film about the prevention of juvenile delinquency which was made by the Rhode Island Attorney General. The camp director, John P. Cronin, is a member of the Rhode Island Committee on Delinquency and Youth Crime, which is under the leadership of the Rhode Island Attorney General.

In 1968 and 1969, for ten weeks during the summer, approximately 50 disadvantaged city youths were transported daily, Monday through Friday, to the camp for recreation, swimming, and a hot meal.

These programs were all in addition to the regular boys camping program.

In 1967 and 1968, many improvements were made at the camp, especially in the kitchen. The kitchen was remodeled with new counters, light fixtures, tile flooring, ceiling, and more stainless steel added. The following new equipment was purchased: walk-in refrigerator, stove and grill, dishwasher, sink, and hot water heater.

Thirteen hundred and thirty-one dollars worth of new cooking ware and kitchen utensils were also purchased during the past two years. The recreation hall was newly paneled and the barracks windows have new frames. A new septic tank was also installed last year.
