RE: Desegregation Plan - Providence School Department

Dear Dr. Roberti:

It is my understanding that the Providence School Department is in the Task Force process to develop a desegregation plan for the City of Providence that will ultimately effect our entire student population from elementary to high school.

I have been told that approximately thirty school department officials which include teachers, administrators and members of the public sector have been involved in an ongoing dialogue as to a desegregation plan which will be presented by April and instituted in September of this year. I understand the importance and urgency of this matter due to forthcoming federal mandate. I also fully understand the demand because presently the majority of our schools are not in compliance with current desegregation guidelines.

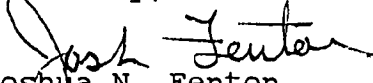

Due to the importance of this matter, I have a grave and urgent concern regarding the notification and discussion of any forthcoming plan in regard to public notification. It is my strong feeling and that of many of my constituents that the public be apprised of the content of this plan before it is approved by the School Committee.

(continued)

My suggestion is twofold, first that a survey be generated so that parents will have significant input into the process, and secondly that at least three public hearings be held throughout the city to enable discussion and dissemination of the task force's presentation.

In closing, I am quite confident, considering the importance and urgency of this plan, that a great deal of deliberation and consideration has been given regarding this matter, but I would also urge, with a great deal of concern, that this plan not be rushed in anticipation of imminent federal mandate. I would ask that you keep me apprised of any forthcoming task force deliberations and decisions in regard to this plan. Please feel free to contact me at any time concerning this matter. With best regards, I remain

Sincerely,
