PREFACE.

THIS volume, the forty-fourth number of the PROVIDENCE DIRECTORY AND RHODE ISLAND BUSINESS DIRECTORY, is in many respects superior to any of its predecessors. Certainly in the general appearance of its pages, and the scope of its information, it has taken a step in advance, and, although the book has not increased in size (owing to the lighter weight, though better quality, of paper used), it contains seventy more pages than the edition of 1883.

For many years this publication has contained a complete BUSINESS DIRECTORY OF THE STATE, but not until this year have we gone beyond the limits of Providence in gathering names for the General Directory. Being urged to do so, however, by residents of Johnston, and believing it would be for the benefit of our patrons, we have this year canvassed a large portion of that town, and have published in the general list over 1000 names which would otherwise not have appeared in this book. A revised map of Johnston has been engraved and is printed with the map of Providence.

The changes which have occurred among our citizens during the past year, as recorded on pages of this book, are as follows: Of those whose names appeared in the Directory of 1883, 1486 changed the location of their residences, 1486 their business location, 1483 the nature of their occupation, and in 202 firms changes have been made either in their names or membership. The whole number of men and women engaged in a business or a profession (counting firms as one) is 6045, a gain of 423 over last year. The Directory estimate of the population (based upon the number of names in this edition (excluding those registered in Johnston) is 127,000.

Just sixty years have elapsed since the publication of the first Directory for the "Town of Providence." The population then was estimated at about 15,000, and the names in the Directory of 1823 were 2958. Within the limits of the town there were, as recorded in that book, 143 streets, courts, and squares, and a larger part of the business of the town was located on South Main street, and Market Square. Out of 83 advertisers in the Directory of 1823, 60 per cent. were doing business on the "East Side," while in this directory 80 per cent. of our patrons are located on the west side, and these facts may be received as fairly representing the changes which have taken place in reference to the location of business interests in this city.

From 1824 to 1824 is a long step into the past, and marvellous have been the changes in the commercial world within that period. Railways were then unknown in this country, and it was not until 1824 that the first steps were taken toward the construction of the first road of any kind in England, which, when completed, inaugurated the great railway system of that country. The best thought of our citizens, and the freest discussion, are given to the question of the location of terminal facilities for great railroad lines running into this city; and this is, perhaps, one of the most important of the commercial growth and present importance of Providence as any one fact that is mentioned.

The Rhode Island Veteran Citizens' Historical Association, Hon. Elisha Dyer, Fresh Pond, has done much to revive the scenes and early history of this city and state, and their efforts can be seen in the healthful influence over the future of Providence. In this connection, and as a link in the chain of the present to the past, we give the following list of citizens whose names appear in the Directory of 1824, and are also recorded in the Directory of 1884. The year of birth is also given: Resolved Waterman, 1787; Anthony B. Arnold, 1791; George Burr, 1792; George Boston, 1794; Phillip W. Martin, 1795; William Andrews, 1798; John Wardwell, 1797; Thomas New York, 1799; Edwin Stayner, 1799; Simon H. Greene, 1799; Lucian Draper, 1800; Jonathan G. Draper, 1800; Chicago, 1801; James H. Read, 1801; David W. Pettay, 1801; R. H. N. Bates, 1801; Jonathan Louis, 1802; Edward Congdon, 1802; Thomas R. Briggs, 1807; John S. Harris, 1809; Jeremiah S. Barncisisco, 1809.

This practical and indispensable article—especially for wear where exposed to ice, snow, or slush—was first introduced by this company several years ago, and its real value is in being almost indestructible, when proper materials are used in its manufacture, whilst the cheap, inferior quality, forced on the public by reckless imitators of our patent goods, soon becomes brittle and crumbles to pieces. STEAM HEATING

— OF —

Public Buildings and Manufactories made a Specialty.

Where Manufactories are heated by *EXHAUST STEAM* a great saving in Fuel is effected where the Exhaust Steam is used without the excessive back pressure usually produced on the Engine. By our system we guarantee to *UTILIZE THE EXHAUST STEAM* with the highest degree of Economy, in a simple and inexpensive manner. *Abundant references given.*

GRINNELL SENSITIVE AUTOMATIC SPRINKLER.

The *AUTOMATIC SPRINKLER* has been practically proved to be the most efficient Fire Apparatus ever invented. The water is liberated by the effects of *Heat*. It concentrates all available water on the fire, thus securing *Greater Efficiency and Less Damage by Water* than any other apparatus. It has been subjected to *SIXTY* accidental fires, and worked with entire success, and is endorsed by all the Factory Mutual Insurance Companies of New England.

PROVIDENCE STEAM TRAP Co.,

— MANUFACTURERS OF —

NEWTON'S PATENT STEAM TRAP

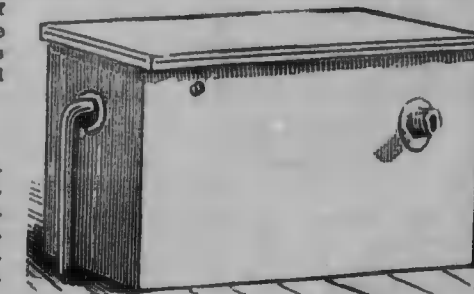

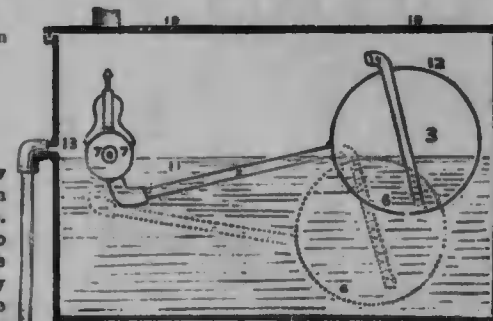

Newton's Patent Oscillating Fire Bars,

Newton's Patent Compensating Valve.

The attention of Manufacturers and Steam Users in general is called to our

STEAM TRAP

Which we claim to be superior to any other now in use, and to have a simplicity of construction which alone gives it an advantage over all others. It cannot get out of order as it always works to a face and will stand a pressure of 1 to 140 pounds and is adapted to conditions where much dry Steam is needed. We shall be glad to send one of these Traps to any one who may wish to try it, and it can be retained for thirty days and if not satisfactory, returned at our expense. We have sold our Traps to some of the largest mills in New England where they are working and giving perfect satisfaction.

The Best, Safest, Most Economical and Convenient Cook-Stove made. Non-Explosive. Thousands in use, and pronounced by all thoroughly reliable. We desire to have it understood that our Three-Burner Stove will do, quickly and perfectly, all the cooking, baking, washing and ironing for a family of ten to fifteen persons. This stove has no equal, and will do the work in half the time and with half the expense of all others.

No Odor imparted to anything either Cooked or Baked on our Stoves.

Particular attention is called to the fact that with over 500 of these stoves sold by me in the last two years, in the hands of inexperienced servants, as well as good, intelligent people, and in our first-class families and hotels, not a single fire has been caused by their use. For restaurants and sea-side resorts, they are unequalled. One hundred dollars reward will be paid to any one who can explode one of these stoves, even by surrounding it with fire.

MORE CAPITAL INVESTED, MORE PHYSICIANS EMPLOYED, MORE PATIENTS TREATED, MORE CURES MADE,

than by any institute in New England. For proof, look at article headed "One Year's Work," on page 7 of the famous POLYPATHIC JOURNAL, a copy of which will be mailed to any address upon application.

This is an unprecedented opportunity afforded the people of this city and vicinity for consulting in person two of the Greatest Living Authorities on Chronic Diseases, assisted by a corps of eminent physicians, all carefully selected for their extraordinary skill and ability. Our patrons will please pay particular attention to "office hours" given below, as the strain upon the doctors is so incessant they must have some hours for respite.

OBSERVE WELL THE HOURS: For Gentlemen alone, or accompanied by Ladies, from 10 A. M. till 1 P. M., and from 7 to 8 P. M. Special Ladies' Hours—2 to 4 P. M. Office opens and closes sharp on advertised time.

The AUTOMATIC SPRINKLER has been practically proved to be the most efficient Fire Apparatus ever invented. The water is liberated by the effects of HEAT. It concentrates all available water on the fire, thus securing GREATER EFFICIENCY AND LESS DAMAGE BY WATER than any other apparatus. It has been subjected to SIXTY accidental fires, and worked with entire success, and is endorsed by all the Factory Mutual Insurance Companies of New England.

Owners and Proprietors of the American Driven Well

Advantages of the Driven Well.

PERMANENCY.—This is the only system of Water Supply which insures permanency in all seasons. DROUGHT CANNOT AFFECT THE SUPPLY.

PURITY.—The Gang Well system is the only method of subterranean water supply known where surface impurities are avoided and where foreign impregnations can be eradicated. Where a water deposit is valueless by reason of the presence of iron, sulphur or other impurities, it can be purified by this system.

CHEAPNESS.—We defy competition with any known method of furnishing extensive and permanent water supplies for cities, towns or manufactories.

WHEN REQUESTED WE WILL GUARANTEE PERMANENCY UNDER
SPECIAL CONTRACT.

Experiments should be tried in all cases.
