Re: Resolution No. 659 - dated 9/24/93

On August 11, 1992, this Department requested that all four fixtures on Liege Street be upgraded to 4,000 HPS. According to the Narragansett Electric Street Light Directory, there is no Pole 5 on Liege Street and that is why that light was never changed. The request will be forwarded to Narragansett Electric as soon as possible. However, they probably will not finish the installation of these street lights until March of 1994.
