CERTIFIED PUBLIC ACCOUNTANTS

40 WESTMINSTER STREET

PROVIDENCE, RHODE ISLAND 02903

Honorable Mayor and
Members of the City Council
Providence, Rhode Island:

We have examined the financial statements of the various funds of the City of Providence, Rhode Island, as of June 30, 1978 and for the year then ended, as listed in the accompanying index. Except as explained in paragraphs three and four below, our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As more fully described in Note 1 to the financial statements, the City's policy is to prepare its financial statements on a different basis than that of generally accepted accounting principles. Consequently, the financial statements do not include certain assets, liabilities, revenues and expenses nor are the financial statements of certain funds and account groups presented. Accordingly, the financial statements are not intended to present financial position and results of operations in accordance with generally accepted accounting principles.

As more fully described in Note 2 to the financial statements, the City does not have a current actuarial valuation of its pension plan and is unable to determine the extent of any liability that may exist with respect to past, current, and future contributions to the pension plan. The above uncertainties may have a material effect on the financial statements of the General Fund and, accordingly, we are unable to express an opinion on the accompanying financial statements of the General Fund.

The records of the Revolving Funds were incomplete as to inventory and fixed assets. Because we were unable to satisfy ourselves by appropriate audit tests or by other means, we are unable to express an opinion on the accompanying financial statements of the Revolving Funds.

Federal Program Funds are not included in the accompanying financial statements because they are subject to separate audits by various Federal and State agencies.

In our opinion, the financial statements listed in the accompanying index, other than the General Fund and Revolving Funds, present fairly the assets, liabilities, and fund balances of the various funds of the City of Providence, Rhode Island, at June 30, 1978, and the revenues and expenditures and application thereof for the year then ended on the basis indicated in Note 1 to the financial statements, applied on a basis consistent with that of the preceding year.

The examination referred to above was directed primarily toward formulating an opinion on the financial statements of the various funds of the City of Providence, Rhode Island, taken as a whole. The supplementary data included in pages 37 to 61 are presented for supplementary analysis purposes and are not necessary for a fair presentation of the assets, liabilities, fund balances, and revenues and expenditures of the City of Providence, Rhode Island. The supplementary data have been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, other than the supplementary data pertaining to the General Fund and Revolving Funds upon which we express no opinion, are stated fairly in all material respects only when considered in conjunction with the financial statements taken as a whole.

CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements

June 30, 1978

(1) Summary of Significant Accounting PoliciesBasis of Presentation

The accounts of the City are organized on the basis of funds, prescribed by City ordinances, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balances, revenues and expenditures.

The presentation of such funds, and the accounting principles they employ, differ in certain respects, which may be material, from those accounting principles and fund presentations required by generally accepted accounting principles for reporting financial position and results of operations. These policies are as follows:

- (a) The City does not maintain a record of general fixed assets, and accordingly a general fixed asset group of accounts required by generally accepted accounting principles is not presented.
- (b) The Capital Fund is used to record the acquisition or construction of capital expenditures and the receipt of proceeds from bond and note obligations. Thus, this Fund combines many of the attributes of a Capital Projects Fund and a long-term debt group of accounts. The carrying value of such assets is recorded at the unamortized value of the bonds or notes issued to finance their acquisition as opposed to recording such assets at cost.
- (c) The accounts and transactions of the Water Department are combined with those of the General Fund instead of being presented in a separate Enterprise Fund.
- (d) The General Fund accounts for all revenues and expenditures of the City not accounted for in other funds specifically mandated by City ordinances. All General Fund revenues are recognized when cash is received, as it is the policy to establish a reserve for all uncollected accounts at June 30. This method of revenue recognition differs from generally accepted accounting principles, which state that revenues considered to be both measurable and available to finance current year appropriations be recognized when earned. The effect on the General Fund accumulated deficit is not presently determinable.

Expenditures, which are accounted for on a generally accepted basis, are recorded at the time liabilities are incurred, except for interest on long-term debt which is considered an expenditure when due and accrued annual leave which is considered an expenditure when paid. In addition, an encumbrance system is employed in the General Fund to account for expenditure commitments resulting from approved purchase orders and contracts.

Notes to Financial Statements, Continued

- (e) School Funds are established to account for school operations. The unrestricted school fund revenues are recorded on a cash basis in compliance with the City's legal budgetary process. This method of revenue recognition differs from generally accepted accounting principles, which state that revenues considered to be both measurable and available to finance current year's appropriations be recognized when earned.

Expenditures, which are accounted for on a generally accepted basis, are recorded at the time liabilities are incurred. In addition, an encumbrance system is employed in the unrestricted school fund to account for expenditure commitments resulting from approved purchase orders and contracts.

- (f) Trust and Special Funds are set up for the purpose of accounting for assets received from various sources and held by the City in the capacity of trustee, agent, or custodian. Investments are stated at cost and adjusted for amortization of premium or accretion of discount. Interest and dividend income is recorded when received.
- (g) The Revolving Funds serve as the central procurement and disbursing agent to other City funds. The cost of inventories reported by the several Revolving Funds is valued at the cost (first-in, first-out) of acquiring such assets. Revenues and expenditures are recorded on an accrual basis in accordance with generally accepted accounting principles.

The fixed assets of the Revolving Funds are recorded at cost less periodic write-offs in lieu of depreciation. The amount of accumulated write-offs relating to these assets cannot be determined without reconstructing the records since inception, which was not deemed to be practicable.

- (h) The City has a contributory pension plan covering substantially all employees. The City's contribution to the plan is an amount sufficient to maintain funding at 70% of the actuarially determined liabilities of the plan. See Note 2 for deviations from generally accepted accounting principles.

(2) Pension Plan

As mentioned above, it is the policy of the City to record as pension cost an amount which is sufficient to maintain funding at 70% of the actuarially determined liabilities of the plan. This method of recording pension cost is at variance with generally accepted accounting principles since such cost is less than normal cost of the plan plus interest on the unfunded past service liability. Since the City has not had an actuarial valuation of its plan since June 30, 1976, the effect of the 70% funding policy on pension cost in 1978 is not determinable. In addition, the City is unable to determine the extent of any liability that may exist with respect to past, current, and future contributions to the pension plan.

CITY OF PROVIDENCE, RHODE ISLAND

Notes to Financial Statements, Continued

As of June 30, 1976, the date of the latest actuarial report, the unfunded past service liability amounted to \$93,677,474. The City believes this unfunded past service liability has increased since 1976 due to the City's 70% funding policy. The June 30, 1976 actuarial valuation, based on 1976 plan members and salary ranges, recommended a \$9,651,714 contribution be made during the fiscal year beginning on July 1, 1977. Of the approximate \$9,000,000 recommended (\$9,651,714 less \$717,111 paid over by the Providence School Department), \$4,113,013 was budgeted and \$1,350,000 actually paid; the balance of the budgeted amount was encumbered at June 30, 1978. In addition, the City is unaware of the amount, if any, that the present value of vested benefits might exceed the value of fund assets.

The City is also required to make contributions to the National Pension Plan of the Laborers' International Union of North America and to the Rhode Island Legal Service Trust for those employees in the Laborers' International Union.

(3) Due from Other Funds

Under the Charter of the City, the School Fund is set up as a separate fund accountable for appropriations disbursed to it by the General Fund and revenue receipts specifically pertaining to school activities. Under this system certain accounts payable, amounting to \$1,830,789.80 at June 30, 1978, are recorded twice, once in each Fund.

(4) Notes and Bonds Payable

Notes payable at June 30, 1978 amounting to \$18,243,000.00 are due on August 31, 1978 and bear interest at the rate of 4.2%. On August 31, 1978 these notes were renewed to August 31, 1979 at 5.1%.

Bonds outstanding at June 30, 1978 totaling \$55,096,000.00 are due in varying amounts through 2001 and bear interest at rates ranging from 2% to 6.60%. The following is a schedule of maturities of serial bonds outstanding at June 30, 1978:

(5) Contingencies

At June 30, 1978, the City had several lawsuits pending, the outcome of which cannot be determined. However, in the opinion of the City Solicitor, the ultimate outcome of the suits will not have a material effect on the financial statements of the City.

(6) Fire Insurance

The City follows the policy of self insuring its real estate property against possible casualty losses caused by fire. As of June 30, 1978 the total funds available for this purpose totaled \$116,227.81 and is carried in the Trust and Special Funds group of accounts.
