

## CITY OF PROVIDENCE

Jorge O. Elorza, Mayor

TO: Providence City Council Members

FROM: Heather Kilkenny, Board of License and Vital Statistics Administrator

DATE: March 29, 2018

SUBJECT: Board of Licenses Annual Report

---

In accordance with Section 1102, B4 of the Providence Home Rule Charter of 1980, transmitted here is a copy of the annual report submitted by the Chair of the Providence Board of Licenses. A copy is being sent to Mayor Elorza and to the City Clerk for official communication on behalf of the City Council.

DEPT. OF CITY CLERK  
PROVIDENCE, R.I.

In light of the Pine Report,<sup>1</sup> the Blum Shapiro Performance Review,<sup>2</sup> as well as the Blum Shapiro Audit and Management Response,<sup>3</sup> this annual report goes far beyond the standard requirements set forth under City of Providence Home Rule Charter ("Charter") §1102(b)(4)<sup>4</sup> as further delineated by City of Providence Code of Ordinances §14-316.<sup>5</sup> This past year was a year of immense transition for the Providence Board of Licenses. We have two new Commissioners, a new Licensing Director, and I am new to the position of Chair. That said, Mayor Elorza's administration ("Administration") and the Providence City Council ("Council") have continued to provide the Providence Board of Licenses ("Board") and Licensing Department Staff ("Staff") with a lot of analysis and goals for change. It is the Board's hope that this report outlines some of those goals and explains our progress towards achieving them.

Under the Charter, the Board of Licenses was created as independent corporate body with sole jurisdiction over the review and enforcement of licensing issues as prescribed by state law and municipal code. The Providence Department of Licensing has an inspector, and the Providence Police Department has three officers that perform licensing inspections. When a violation is alleged, the inspectors report the violation to the City Solicitor's office in the same way that a criminal allegation is brought to a prosecutor. The Solicitor's office, in effect, brings the issue before the Board of Licenses if a violation has been found. The Board of Licenses then sits in a quasi-judicial capacity and hears argument from the licensee alleged to have committed a violation and the Solicitor's office. In its presentation, the Solicitor's office generally relies on the Police Department as its key witness but may call upon other lay witnesses as necessary. The Board has its own attorney who represents the interests of the Board, as those interest and legal requirements as an independent body functioning in a quasi-judicial capacity are distinct from the interests of the City of Providence, which is acting in a prosecutorial capacity. The day to day operations for reviewing applications for completeness, preparing violations, notices and advertisement for hearings, or the actual granting of licenses, is handled by the Licensing Department. In brief, our team is comprised as follows. Dylan Conley is the Board Chairman, Charles Newton is the Vice Chairman, and then Delia Rodriguez-Masjoan, Peter Mancini, and Jose Batista are Commissioners and Lou DeSimone is the Board's attorney. The Police Department Licensing Division is comprised of Sergeant Tejada, Detective Creamer and Detective Shields. The City and accordingly the Police are represented by Solicitor Mario Martone. The Licensing Department is led by Director Kilkenny, Steven Giannini is the inspector in the field, and the Staff is comprised of Pat Zompa, Belkys Carvalho, and Anna DiSano. Together we all try to facilitate the economic growth and success of business within the City of Providence while mitigating the collateral nuisances that businesses may inadvertently impose on residential quality of life.

All of these interrelated parts and overlapping jurisdictions can create a complicated atmosphere. This complicated atmosphere has a history of scrutiny because of the sensitivity of fairly adjudicating the balance of business and residential interests. The following is an attempt to address the areas of the Board of Licenses' practices that have been scrutinized.

---

<sup>1</sup> attached hereto as Exhibit 1

<sup>2</sup> attached hereto as Exhibit 2

<sup>3</sup> attached hereto as Exhibit 3

<sup>4</sup> attached hereto as Exhibit 19

<sup>5</sup> For your information, this Ordinance is not presently included in the Providence, Rhode Island – Code of Ordinances as recorded online.

## PINE REPORT

In 2016, the Providence City Council commissioned the Law Offices of Lynch & Pine to perform an investigative report into the Board of Licenses ("Pine Report").<sup>6</sup> The following is an outline of the challenges and recommendations taken directly from the report and a corresponding description of our progress towards addressing each of the report's concerns.

### Challenges

1. Operations and Procedures Manual<sup>7</sup> – The Board adopted a series of revisions to the operations and procedures manual about a week or so into my tenure as Chair. The most important change included a new requirement that the Board hold an annual meeting that includes a review and revision of the Operations and Procedures Manual, therefore the Board will not stagnate and will make an affirmative effort to improve each year from here on out. We will begin another round of revisions as soon as all five (5) commissioners have had sufficient experience to provide valuable insight and commentary on Board Practices. Some other notable updates already implemented will be addressed later in this report in accordance with PVD Code §14-316(5).
2. Conduct of Adversarial Hearing – The Board of Licenses functions in a quasi-judicial capacity. This capacity is particularly prominent in "show-cause" hearings which are effectively an adjudication of instances where a licensee is alleged to have fallen short of their legal requirements or are otherwise alleged to have fallen short of what it means to be a good neighbor. Based on my understanding of the way the Board handled these hearings in the past, it is not clear to me that the Board fulfilled its obligation to be an impartial judge over alleged violations. Here are some of the things the Board is doing to address that:
  - a. In accordance with PVD Code §14-315 commissioners have been provided with training by the Mayor's administration.
  - b. Counsel to the Board has provided to the Board legal memoranda outlining the legal standards involved with the Board's review.
    - i. As an example, please find attached Exhibit 5.
  - c. The Administration has maintained contact with the Department of Business Regulation through their changes in leadership to improve our processes.
  - d. The Board has requested an Advisory Opinion from the Attorney General's Office regarding the best practices for discussion and debate of evidence.
    - i. Please find attached Exhibit 6.
  - e. A proposed template with sample questions for applicants is appended to the Policies and Procedures adopted by the Board.<sup>8</sup>
3. Lack of Consistency and Uniformity in Penalties and Manner in Which Violations are Handled – There is a perception that the Board has imposed penalties in an unjust manner. While that has not been the case in my experience, there are a few things the Board is doing to address that perception.

---

<sup>6</sup> Exhibit 1

<sup>7</sup> attached hereto as Exhibit 4

<sup>8</sup> attached hereto as Exhibit 8

- a. The Administration and the Licensing Director have been implementing new technology and software which will improve the Board's ability to make comparisons to other penalties and consider the full histories of comparable establishments. Historically these records were not maintained electronically, so uniform comparisons and searches were effectively impossible. This is an area that will continue to improve as Staff's comfort with the software improves and the reality that more data will inevitably be entered electronically over time.
  - b. The Board makes an effort on a regular basis to work with licensees who cooperate with the City and to clearly establish on the record the efforts the licensee has made toward cooperation. For example, if a similar incident were to occur to two (2) different licensees, and one licensee immediately cooperated with the police and their security staff handled the matter in a clear, honest, and straightforward manner, that cooperation would be noted on the record and that licensee would not be penalized to the same level that a licensee may be penalized for a similar incident if they obstructed the investigation, misrepresented the facts to the Board, or were otherwise uncooperative in the Board's attempt to ensure that the general welfare of the City was not improperly threatened or harmed. In effect, describing the mitigating factors on the record clarifies the elements of the penalty and addresses perceptions of inequity.
  - c. The Board also makes an effort on a regular basis to loosely define a class of issues and treat all parties that fall within that class in the exact same manner. Just as important however, is making the effort to define why two apparently similar cases are actually distinct. An example of each instance:
    - i. A series of Cease and Desist letters went out to all licensees who have been unresponsive to the Director's efforts to get non-compliant licensees back into compliance with all renewal requirements were given a shorter deadline than the licensees who had been responsive to the Director but were still not compliant. Two distinct classes were articulated, the classes were treated differently, but every member of each class was treated identically.
    - ii. Two businesses with outstanding municipal debts have recently come before the board. One was ordered to close while the other was allowed to remain open under a Memorandum of Understanding.<sup>9</sup> On the surface it might appear that businesses with similar issues were treated differently, however the solicitor's office and counsel to the Board explained clearly on the record that one business had agreed to terms with the City and had largely been out of compliance as a result of a failed bankruptcy suit while the other business was disputing the municipal debt and had been out of compliance for far longer. Before making the different decisions, the Board ensured that the record was clear as to their distinctions.
4. Record Keeping System Not Up to Date— In June 2017 the Administration and the Director began to implement Viewpoint, a cloud-based system for licensing applications. This system has been operational since September 2017 for all licenses. Periodically, the License Administrator works with the Innovation Team to revise the application based on

---

<sup>9</sup> a comparable template is attached hereto as Exhibit 16

applicant's feedback to ensure the system is user-friendly. As addressed in the Blum Shapiro audit, there are a minimum of four (4) different software systems for the applications process utilized by the Licensing staff. These software systems are not integrated and rely on staff's data input to function. A goal for the future would be to increase Staff training on software, and to whittle the software down from four (4) programs to a single universal interface.

5. Open Meetings Act Compliance – While I am not aware of a single violation of the Open Meetings Act during my tenure, the Board has made efforts on this front. Some examples include:

- a. Communication with the Attorney General's Office regarding best Practices.<sup>10</sup>
- b. New Agenda design and accompanying Agenda Guide<sup>11</sup>
- c. This is an area where businesses inadvertently impose challenges on the Board. Often businesses do not realize the necessity for lead time in applications, particularly for entertainment licenses. This is an area that the Board hopes to address in its upcoming review of policy.
- d. The Licensing Director is presently obligated to switch between at least four (4)<sup>12</sup> distinct sets of software and two separate sets of filings for each of our three (3) weekly public hearings. The Administration is presently researching ways to streamline this process.

6. Poor Website that is Not User Friendly – The City's website was historically over-burdensome with information that was not always relevant for customers. In June 2017, the City created an entire new website, which was an opportunity for all departments to revisit content on their respective web pages. Now, the Board of Licenses webpage has updated information regarding the board members, our new online license portal, how to report issues with a business, the Board of Licenses operations procedures, and more.

7. Resource Allocation – There have been historic inefficiencies regarding both enforcement and adjudication of licensing violations. Here are some things being done to address that concern:

- a. Pre-hearing conferences have become the norm. These conferences avoid unnecessary adversarial hearings which are costly to the City, the Licensee, and often times harm the relationships between the Board, the constituents, and the business community. The Board of Licenses is making strides toward minimizing appeals to DBR, which only result from matters that are not resolved at the pre-hearing level. The following is the number of cases we have had in front of DBR by year:

2014 – 13  
2015 – 8  
2016 – 8  
2017 – 7

---

<sup>10</sup> Exhibit 6

<sup>11</sup> Attached hereto as Exhibit 7; Note: This is only partially implemented at this time as a result of some software challenges.

<sup>12</sup> See Exhibit 2, p.8

- b. New software which allows GIS mapping will streamline the inspections process, allowing the inspector and police to identify licensing matters at different locations without required visits to the physical space.
- c. This is an area where the Board will be taking time to review our policies. The Board needs to take a serious look at our expenses and our fees so we can ensure that we are sufficiently funded to meet the performance standards expected by the people and businesses of the City of Providence.

### Recommendations

1. Qualifications of the Chair – The Pine Report recommends that the Chair and as least one other member of the Board be an attorney with experience in litigation, arbitration and administrative hearings. The Mayor, the Council, and the Board have each played a role in fulfilling this recommendation.<sup>14</sup>
2. Role of the Board Administrator – The suggested language was adopted in an Ordinance passed by the City Council last year. The language codified the duties of the License Administrator with respect to the Department and Board.<sup>15</sup>
3. Hearing Process – The Board has moved into the Probate Court in City Hall as recommended. The Board keeps a full and accurate record of minutes and audio recording of all meetings. They are posted to the City's Open Meetings Portal, MinuteTraQ. All records of the proceedings are accessible to the public either through the Office of the Board of Licenses or online immediately following the conclusion of a hearing. In addition, the Board has adopted the following policy regarding stenographers:
  - a. Stenographers shall be present at any new liquor license application hearing, transfer license hearing, show cause hearing, and renewal hearings.
    - i. These hearings are the most often appealed and a stenographic record is generally required expediently. The Board may also have stenographic transcripts created at its discretion for any other hearing including but not limited to entertainment license application and renewal hearings, tobacco license application hearings, food license application hearings. These hearing types do not generally give rise to an appeal and the transcript is only sometimes needed. A stenographer is not present at all meetings because of the budgetary strain it would create.
    - ii. Currently the Board uses Allied Court Reports. The cost varies from \$200 to \$600 per hearing depending on length of hearing and matter being recorded. Allied charges \$85 per appearance (half day) and \$4.25 for page. There is also an archiving fee \$8.50. Allied stores all transcripts digitally which allows for easy storage and retrieval.<sup>16</sup>

---

<sup>14</sup> In an effort to continue to build an open, honest, and candid relationship with the Mayor and the Council I feel obligated to include herein the fact that I have publically stated that I do not believe this is necessary, that I believe municipal boards can appropriately function in a quasi-judicial role without legal expertise so long as they are able to rely on their own independent counsel. That said, while I am not convinced this is necessary, I think it is a valuable luxury and I am thankful to the Council and the Mayor for fulfilling this recommendation.

<sup>15</sup> See §4 and §6 of Exhibit 4

<sup>16</sup> Please find attached Exhibit 17

- b. Rules of Evidence – This area of the Pine Report cannot be strictly complied with, as it is an impractical and arguably impermissible standard to impose on licensees and members of the public. The cost and time of hearings would soar and could so financially strain the business community that it could be a barrier to entry. That said, the Board's Legal Counsel and City Solicitor's Office worked with the Administration and Council to adopt language last year in an Ordinance about the Board using the Superior Rules of Evidence. That collaboration resulted in the Board formally adopting the procedure employed by the state reviewing body, the Department of Business Regulation, and was set forth in Rule 9 of the revisions to the Board's Operations and Procedures. The language adopted in that City Ordinance is as follows:

Sec. 14-318. Rules of Evidence

The Superior Court rules of evidence for civil cases, as interpreted and employed by the Department of Business Regulation in administrative hearings, shall be followed, and shall be implemented by the Chair of Board of Licenses in consultation with the Legal Counsel to the Board of Licenses, who shall be in attendance at all hearings to provide legal advice and guidance.

- c. Scheduling – The Pine Report recommended two nightly hearings per month as a means to address neighborhood concerns and increase the public's ability to participate. I am proud to inform the Council that the Board has met and exceeded this recommendation. The Board has done three critical things on this front:

- i. Regular meetings were changed from Tuesday, Wednesday Thursday at 1:00pm to Monday and Wednesday at 3:00 and Thursday at 5:00pm. This means there is a weekly evening meeting.
- ii. The Board has adopted a policy that organizes the type of matters heard on each day. Matters that do not require an appearance from an applicant are heard on Mondays and Wednesdays. If there is an issue or an objection they are rescheduled to a Thursday to allow for public comment. All matters that require a public hearing are held on Thursdays, so they are automatically placed at a time that allows for increased public participation. Specifically, our regular meetings generally conform to the following:
  1. Monday
    - a. Consent Calendar
      - i. Items not required either licensee appearance or public comment
    - b. Dispositions of Pre-Hearing Recommendations
    - c. Show Cause as Necessary
  2. Wednesday
    - a. Items not requiring a public hearing but still necessitating licensee appearance
    - b. Show Cause Hearings

3. Thursday
  - a. Everything that requires a Public Hearing.
    - i. New Licenses
    - ii. License Transfers
    - iii. License Renewals
  - b. Matters of Public Concern
- iii. New Agenda and Guide provides new detail and clarity for the benefit of the public.<sup>17</sup>
- d. Formalize the Process for New License Applications and Transfer of License Applications – The new Agenda Guide lays out guidelines for public participation and the Board's counsel has begun providing the Board with memoranda outlining the standards and elements at issue as suggested by the Pine Report. The new software and online application system is further streamlining and standardizing the process. In particular:
  - i. The Administration has made the application process easier for applicants by reducing the number of application types from forty-four (44) to three (3). This change was done with feedback from the law department and consequently batched license applications that were regularly required for establishments reducing the burdens imposed on licensees and Staff.
  - ii. While the Council did enact PVD Code §14-317 and Board did enact a policy change regarding decorum and professional conduct, it is my personal opinion that a change in the culture of the Board has been a huge driver in the greatly improved decorum and professionalism. To that end, I believe all parties, including licensees and their attorneys, deserve credit for this improvement.
  - iii. The Board has also adopted a standard series of questions posed to each licensee and these questions are being incorporated within the license application process.<sup>18</sup>
4. Schedule of Penalties – Consistent Discipline – This is an area addressed in some detail above, and it remains a work in progress. The Board has met with Councilmembers on this front and has had discussions about the best approach. This will be a continual subject of our annual policy review process. Perhaps most importantly, as indicated above, the introduction of electronic record keeping may over time provide a clear precedent for violations and organically solve the issue so that penalties are neither arbitrary nor inflexible statutorily imposed mandatory minimums.
5. Addition of a "Pre-hearing Officer" Position – This position has not yet been created. There are some legal concerns regarding the delegation of the Board's authority to a single person and if that creates an issue under the Charter. There are also some practical concerns regarding finances and efficiency. The Board understands the source of this recommendation, and the reintroduction of prehearing conferences has already been a success. Over time the Board will gain an improved understanding of the pros and cons

<sup>17</sup> See Exhibit 7; Note: This is only partially implemented at this time as a result of some software challenges.

<sup>18</sup> attached hereto as Exhibit 9.

of the relatively new pre-hearing conference procedure and electronic records will give insight into penalty precedent. Once the factual landscape of these two relatively new systems is better understood, the Board will review this recommendation.

6. Pre-Hearing Conferences – This recommendation has been implemented.<sup>20</sup>
7. Independent Audit – This recommendation was complied with and the results will be addressed below.<sup>21</sup>
8. Compliance with the Open Meetings Act – The Board is compliant with the Open Meetings Act, the issue is discussed in greater detail above in Challenge #5.
9. Establish and Information Technology Position – This position may be the greatest area of need for the Licensing Staff. The introduction of the new online licensing software is a step in the right direction, but there is presently a lack of support expertise available to Staff. It is my belief that a full time technology expert dedicated solely to the Licensing Department would be an immense asset. This may be addressed in the future as a result of new budgeting and fee structures, but it is not presently funded.<sup>22</sup>
10. Training Board Members – In addition to the Board's counsel providing supporting legal memoranda clarifying the legal issues at stake before the Board, the Administration has provided the following training to Board members:
  - a. City Ethics Training
  - b. City Diversity, Sensitivity and Sexual Harassment Training
  - c. Invitation to an Open Meetings Training, held by the Attorney General's Office annually
  - d. Training on Online Licensing Process
  - e. City Licensing staff attended the Attorney General's Open Meeting's summit<sup>24</sup>
11. Annual Report – I am writing it now, it will be presented to the Board later, and then it will be delivered to the Council and we will have complied with this recommendation.

---

<sup>20</sup> see Exhibit 4 p.5, Rules and Regulations §2

<sup>21</sup> see Exhibits 2-3.

<sup>22</sup> I had been told that this position was funded and not filled, at my request the Administration did some research and determined that this position is not yet funded. I have attached Exhibit 9 for the sake of clarity of the record.

<sup>24</sup> For what it may be worth, I also attended that meeting and I am the certified APRA officer for another municipality.

### BLUM SHAPIRO PERFORMANCE REVIEW

1. Technology – The Blum Shapiro Report, similar to the Pine Report, has recommended an investment in technology. As discussed in detail above, this is a work in progress. I think a fair end goal would be a scenario where the Licensing Staff only uses one (1) software program to perform all of its tasks and there is a full time member of the Staff dedicated solely to the maintenance and performance of this software as well as ad hoc support and training for other Staff. This could centralize and improve the following:
  - a. Licensing history
  - b. Violation history
  - c. Fine assessment and collection
  - d. Connecting the health department, legal, and licensing departments overlapping responsibilities
  - e. Complaint logs
  - f. Floor Host Licensing
  - g. Inspections
  - h. Status reminders and alerts

If this is successfully implemented it will increase efficiency and decrease the present unsustainable strain on present Staffing levels and capacity.

2. Physical Space – The Licensing office is routinely burdened with issues that do not fall within the scope of their responsibilities as a result of their location immediately adjacent to the entrance to City Hall and their shared space with vital statistics. The Director is presently in the process of reorganizing this layout to address these concerns and recommendations of the report. A description of the reorganization follows below:
  - a. With the adoption of online licensing, the Licensing Clerks have become less forward facing with the public. This means that predominately when customers walk into Office 104, they are inquiring about marriage, death or birth certificates. Because of the current layout, most customers seek guidance from the licensing staff, pulling them away from their workload. By May 2018, the license Administrator will reorganize the vitals and licensing staff placement to better accommodate customer needs and staff efficiency.
3. Team Coordination – The Director, Solicitor, Police Department, Board counsel, and Chairman routinely meet before hearings to address concerns and have long term structural conversations. The Deputy Chief of Staff and Public Safety Commissioner also occasionally meet with the aforementioned parties. This coordination and communication conforms to the report's recommendation and has proven to be a vital asset in the ongoing policy changes and development of the Board.
4. Vetting Process – One of the challenges presented to the Board is the fact that the Board is obligated to make a determination of an applicant's fitness to hold a license prior to the opening of the proposed business. This means that the Board has little evidence beyond verbal representations and a business plan to determine whether or not a license should be

granted. As a result the Board has adopted a policy, which has subsequently been upheld by the Department of Business Regulations, to grant temporary probationary licenses. This allows the Board to vet the fitness of the licensee based on an actual track record of their performance without fully granting the license and creating a vested property right that can only be removed for cause. In laymen's terms, this policy has completely changed the Board's ability to control poor performing licensees by shifting the legal leverage away from new businesses without a track record in favor of the City.

- a. The Board has also adopted a template of questions that are reviewed at each new license application and has begun to incorporate them into the online application process.<sup>25</sup>

5. Policy Changes – The Blum Shapiro report has raised some important questions about inspections, complaints, and violation procedures. Each of these areas of concern is an opportunity to make policy changes that address the issue in a systematic way. These areas will be focal points during our forthcoming annual policy update and review now that the Board has all five (5) members. Some examples of policy ideas at the conceptual level that may be considered over the next few years of annual policy reviews:

- a. Improve enforcement against material misrepresentations to the Board under R.I. Gen. Laws §3-5-21 (3).<sup>26</sup>
- b. Public tracking of violations on the Board Agenda to expedite review and provide the public with proof that their concerns are not being ignored.
- c. Acceptance of complaints into the record at public meetings and placement in the Licensee's file, not for the truth of its contents to be held against the licensee, but simply to begin tracking in case of a development of a problematic pattern that should be addressed by the Board.
- d. Increase the use of security plans.
- e. Implementing mandatory video recording equipment to allow for accurate review and adjudication of nuisances and aid in Police investigations.
- f. Improve the Floor Host licensing process and increase licensees' use of the program.
- g. Increase the Planning Department's role in vetting potential uses relative to cohesion with the City's Comprehensive Plan.
- h. Create a nuisance mitigation plan where necessary.
- i. Develop a waiver and policy for the use of interpreters.
- j. New deadlines for applications, in particular entertainment and renewal applications.
- k. Requiring complete applications prior to scheduling a hearing.
- l. Requiring complete municipal review before scheduling a hearing.
- m. Quarterly review of license status and pending matters.
- n. Soft closings to allow for safer and quieter end of night operations.
- o. Changing entertainment license requirements to allow for live music before 10:00pm on weekdays and 11:00pm on weeknights.
- p. Improved deadlines to correct issues with acquiring mandatory details.

---

<sup>25</sup> see Exhibit 8.

<sup>26</sup> Exhibit 18

- q. The creation of a manager license, because it is often the case that issues arise as a result of a particular person more so than any other factor.
- r. Improved coordination and reliance upon City Services.
- s. Improved deadlines for issues regarding remonstrance and zoning limitations.
- t. Implementation of a BYOB License.
- u. A review of remonstrance issues to deal with conflicts of interests and prevent the automatic prohibition of business when neighbors are not objectors.
- v. A review of Class P licenses to ensure that there is a fair and equal playing field for all competing licensees.

### BLUM SHAPIRO FINANCIAL AUDIT AND RESPONSE

As was previously provided to the Providence City Council in January, and attached hereto for your convenience, there have been historic issues with tracking fees, penalties etc. As noted in both the Audit and the Response, the City has implemented new tracking software and the new Director began to implement new controls and procedures this past autumn. 2018 will be the first full year that all of this type of information will be electronically maintained. Accordingly, it is my hope to address the qualitative changes between 2017 and 2018 in the Board of Licenses' next annual report. At this time, considering my short period as Chairman, the fact that the new electronic tracking systems and software were only introduced fully in September, and the reality that staff training and applicant exposure is still limited, it is difficult if not impossible to summarize the present status of this system without making educated guesses or assumptions. Accordingly this report will refrain from such commentary to avoid the risk of inadvertent inaccuracies and any potential unintended consequences. For what it is worth, anecdotally, I have personally been encouraged by the development this new technology has provided so far and the positive feedback we have received from customers. The next section of this report will detail by reference to source materials the vast improvements the use of electronic tracking has already begun to develop.

### PVD CODE §14-316, "ANNUAL REPORT"

One of my primary goals as chairman is to improve the quality of communication between the Providence City Council and the Board of Licenses. While the Board is routinely presented with information and concerns from the Licensing Director, the Solicitor's Office and the Police Department, the Board does not have a regular conduit to the Council. That is why the Board sent the Council the letter requesting insight into the Council's concerns regarding this report, attached hereto for your convenience.<sup>27</sup> In my mind, the dual purpose of the Board is to facilitate the growth and success of business in the City while mitigating any nuisances business operations may collaterally impose on residents. Each Councilmember is uniquely qualified to discover and articulate the externalities of business operations within their ward. It is this insight and expertise that I believe is invaluable to the Board. The first concrete example of the benefits that this sort of communication and relationship may have is this section of this report and the ongoing communications between the Council and the Board regarding changes in ordinances and policy coordination. At the Board's request the Council has graciously outlined its priorities and concerns regarding PVD Code §14-316, "Annual Report". In kind, the Board responds to each of the PVD Code §14-316 Subsections as follows:

1. License applications, approvals, transfers and revocations

- a. Two spreadsheets that outline all activity tracked by the Minute Traq System are attached hereto as Exhibit 11. The Minute Traq System tracks when an item was on an agenda and whether or not it was approved. While it does not define things in terms such as "applications, approvals, transfers" the "function column" is a close approximation to that information. It has tracked approximately 1,400 applications for relief so far this year.
- b. Specific to revocations, please refer to the "Outcome" Column of Exhibit 12.
- c. The Licensing Director is working with IT to build in a data capture system that will automatically track the information required by PVD Code §14-316 in the terms set forth by PVD Code §14-316. Until that technological update is complete, these exhibits are the closest approximation available. That said, for the first time, we have the technology in place necessary to begin such a data capture system.
  - i. Attached hereto as Exhibit 20 are examples of the new reports the Licensing Director is able to create as a result the new technology. These reports are based on a portion of 2017, as "Viewpoint" was only launched in a pilot or beta format halfway through the year and was not fully operational until approximately September.

2. Complaints, violations, fines and penalties

- a. A spreadsheet that outlines Each Violation of 2017 is attached hereto as Exhibit 12.
- b. This document was created by the Licensing Director and Staff with support from the Police Department and the Solicitor's office. The Licensing Director is working with IT to build in a data capture system that will automatically track the information required by PVD Code §14-316 in the terms set forth by PVD Code

---

<sup>27</sup> attached hereto as Exhibit 10.

§14-316. Until that technological update is complete, these exhibits are the closest approximation available. That said, for the first time, we have the technology in place necessary to begin such a data capture system.

- i. Attached hereto as Exhibit 20 are examples of the new reports the Licensing Director is able to create as a result the new technology. These reports are based on a portion of 2017, as "Viewpoint" was only launched in a pilot or beta format halfway through the year and was not fully operational until approximately September.

3. Appeals from the Board of Licenses

- a. Attached hereto as Exhibit 13 is a matrix that outlines all cases heard in their entirety by the Department of Business Regulations. Since 2014 appeals to DBR have decreased. This can be directly attributable to the number of matters being resolved at the pre-hearing level and the responsible penalties being imposed by the Board. Rather than immediately revoking licenses the Board has strived to craft penalties that are commensurate with the violations presented but also structured in a way that encourages the business to operate in a more responsible manner.

4. A copy of all Board of License agendas

- a. Attached hereto as Exhibit 14 is a copy of all Board of License Agendas. For additional similar information, including the minutes tracking how the Board acted relative to each agenda item, please refer to the online record keeping available at:

<http://providenceri.iqm2.com/Citizens/Board/1007-Board-of-Licenses>

5. Policy Changes – In the past year, the Board of Licenses has conducted a review of its policies and procedures in an attempt to improve and clarify the process for license applications and hearings. The amendments should also serve to address certain concerns raised by the reviews conducted on by both the administration and the city council. In addition to various grammatical changes made to the rules, the specific areas of modification are set forth as follows:

- a. SECTION 5 has been amended to include a review of the practices and procedures on an annual basis by the board in order to address any ongoing concern.
- b. Rule 2.2 establishes the parties required for an effective pre-hearing process. The administrator is no longer a party to the conferences, and the parties are established by the city solicitor and the board.
- c. Rule 8.8 has been modified to clarify the ability of the board to direct a party to enforce any of its subpoena powers in the Superior Court.
- d. Rule 10.1 provides for the chair to access legal counsel prior to his or her rulings on legal and evidentiary matters.
- e. Rule 11 establishes a requirement for a stenographic or recorded record of all proceedings before the board. Additionally, the rule provides for public access (through online availability) to the violation history of a licensee contemporaneously to the hearing process.

- f. Rule 22.3 codifies the process for removal of a chair by the membership of the board.
- g. Rule 23.8 reiterates the standard of evidence before the board and mirrors the standard set forth by the Department of Business Regulation. The board will continue to employ the same standard for admitting evidence to a proceeding as used by the state department responsible for review of the board's decisions.
- h. Rule 26 has been promulgated to address the concerns raised regarding annual reporting and training of members both upon qualification and on an ongoing annual basis.
- i. Rule 29 has been promulgated in order to clarify the remonstrance process and codify the responsibilities of an applicant in presenting a request for a new liquor license before the board.
- j. Rule 30 has been established to provide for a process to increase the scrutiny for issuance of a new BX (2:00 am license). A new applicant is required to have held a BX license for a one (1) year period prior to receiving said license. The process also provides for community notification and advertisement.

6. Accounting of all fees and fines

- a. A series of .pdfs that outline fees generally associated with the Board of Licenses is attached hereto as Exhibit 15.
- b. For information regarding fines resulting from violations, please refer to the "Outcome" column of Exhibit 12.

7. Suggested changes to controlling law

- a. The Board is in support of a bill which is currently pending at the state legislature. The bill would place limits upon the Class P (Caterer's License) with regard to the cessation of service and provide for increased oversight regarding permitted hours of alcohol service by caterers.
- b. The Board is in support of another bill which is currently pending at the state legislature. The bill would allow the Mayor and the Council to directly address remonstrance regulations via ordinance.
- c. The board would request consideration of a modification to the so-called "after hours" business license. Currently, the license provides for operation of a business between the hours of 1 am and 4 am. In practice, the license has become a 24 hour license for food, beverage and sundry sales. The current state law regarding food sales provides that the establishment may operate from 6 am to 2 am. In this regard, the municipal license (Providence City Code 14-1) could be amended to reference the hours from 2 am to 6 am. As a practical matter, the current 1 am to 4 am license once issued allows operation from 2 am to 6 am. Further, a review of the applicable ordinance would allow for a more detailed application process and could include restrictions (no sale of alcohol, video and security requirements, entertainment restrictions, etc.).
- d. The Board is also concerned that the present Class P catering license may create an unfair business advantage where Class P holders could legally circumvent municipal oversight and fees that are applied to other licensees without placing any restrictions on the locations and regular use of a Class P license.

- e. The Board would also request a change in law that any appeal of the Board's decision is not heard de novo but is instead a review of the record with deference to the Board's decision.
- f. The Board would also be interested in a regulatory scheme to deal with Bring Your Own Alcohol to eradicate the present ambiguities regarding liability and relationship to any other licenses.

## **Providence Board of Licenses Agenda Guide**

### **I. Public Comment**

All persons wishing to make public comment shall sign a public comment sheet stating their name, address, and the subject of their comments. This sheet shall be made a part of the minutes and shall be incorporated as part of the permanent public record. Said public comment sheet shall be available in the License Administrator's office and at the location of regular board of license meetings at the start of each meeting. Each speaker will be limited to three (3) minutes. Speakers should only give comment regarding things they have witnessed. If they wish to provide third party testimony, they should submit the third party's comments in writing to the Commission and the Commission will accept it into the record. The order of speakers will be on a first come, first serve basis and the maximum time for public comment shall be limited to thirty (30) minutes per meeting. Whenever the Commission believes that Public Comment is unreasonably duplicative or that Public Comments is interfering with the Commission's ability to perform the business of the City, the Commission may suspend or terminate Public Comment. Public Comment shall fall into one of the two following categories:

#### **a. Agenda Items**

In the discretion of the Chairman, Commissioners and Staff representatives may respond to questions or concerns relative to agenda items.

- i. Public Hearing - If the item is set for a Public Hearing, the Board of Licenses requests that the public comment be reserved until that agenda item is before the board. This helps develop a clear record and meeting minutes.
- ii. Show Cause Hearing - If the item is set for a Show Cause Hearing, the Board of licenses respectfully and regretfully must require that no member of the public addresses the matter because it may jeopardize the licensee's due process rights and infringe upon the Board of License's ability to meet its burdens as a quasi-judicial board.
- iii. Consent Calendar - If a member of the public wishes to request the Board of Licenses to remove an item from the Consent Calendar and place the matter in the regular course of business, they may do so at this time.

#### **b. Non Agenda Items**

If a member of the public wishes to speak about an issue under the Board of License's jurisdiction that is not on the agenda, they may do so here. Since it is not on the agenda, Board of License Commissioners and support staff may only respond to or address issues raised here with the unanimous consent of the Commissioners present. This limitation is in place because it is proper to give parties notice prior to addressing their interests before the Board of Licenses on the record. In the balance of the public interest and private parties, it is strongly preferable to only address matters after they have been placed on an agenda and all interested parties are duly noticed.

### **II. Written or Electronic Communications**

The Providence Board of Licenses respectfully requests that members of the public, whenever possible, present information to the entire Providence Board of Licenses by

written or electronic communication instead of verbal communications or communications directly to individual commissions. The Providence Board of Licenses makes this request solely because it aids in building a clear and complete record of matters and fully involves the entire board and support staff. A clear and complete record is a critical component of successful prosecution of licensees.

Public Communications shall be presented to the Providence Board of Licenses at the next regular meeting and the Board shall formally accept them into the record. Public Communication may be addressed to:

[email & address]

It is important to note that the Providence Board of Licenses has no interest in placing any burden on the public ability to inform the Board of matters under its jurisdiction and welcomes all public communication.

### III. Consent Calendar

All items under "CONSENT CALENDAR" are considered to be of a routine and noncontroversial nature by the Providence Board of Licenses and will be enacted by one motion. There will be no separate discussion on these items unless a Commission member so requests, in which event, the item will be removed from the "CONSENT CALENDAR" and will be considered in its normal sequence on the docket.

a. [List out type of licenses that will fall under this section]

### IV. Public Hearing

The Providence Board of Licenses operates under both State Law and City Code, and under State Law or City Code, certain matters require a public hearing prior to the Board of Licenses taking any action.

[List out type of licenses that will fall under this section]

a. Continued Business – These matters are Public Hearings that have been continued from previous meetings. Anything presented at any of the previous hearings is a part of the full record, and there is no need to duplicate testimony or resubmit communications.

b. New Business – These matters are Public Hearings that have not been previously discussed or reviewed by the Providence Board of Licenses.

### V. Show Cause Hearing

These matters are Public Hearings that, under the due process requirements of the Providence Board of Licenses' quasi-judicial authority, are closed from public comment. Members of the public may observe, but may not participate in the Show Cause hearing process.

a. Continued Business – These matters are Public Hearings that have been continued from previous meetings. Anything presented at any of the previous hearings is a part of the full record, and there is no need to duplicate testimony or resubmit communications.

- b. New Business – These matters are Public Hearings that have not been previously discussed or reviewed by the Providence Board of Licenses.

**VI. Emergency Items**

Under Rhode Island General Laws § 42-46-6, a public board, such as the Providence Board of Licenses, may only address an item with less than minimum of forty-eight (48) hours, excluding weekends and state holidays in the count of hours, before the date if there is an emergency.

An emergency requires an affirmative vote of the majority of the members of the body why the matter is necessary to address as an unexpected occurrence that requires immediate action to protect the public with less than the required notice.

**VII. Commission Concerns and Requests**

In this section of the meeting Commissioners may raise general concerns or questions. If a Commissioner wishes to address a concern relative to a specific licensee, the Commissioner may request that the matter be placed on the next regular Board of Licenses meeting agenda.

**VIII. License Administrator's Report**

In this section of the meeting the License Administrator may address any matters that should be discussed on the record for public consumption.

**IX. Solicitor's Report**

In this section of the meeting the Solicitor shall address any ongoing legal issues, including but not limited to all new violations, any ongoing pre-hearing meetings, and any ongoing litigation.

**X. Public Safety Report**

In this section of the meeting the Providence Police Department shall address any public safety concerns or licensing issues that the Board of Licenses may wish to be apprised of.

**XI. Board of License Counsel Report**

In this section of the meeting the Counsel to the Board of Licenses shall address the Providence Board of Licenses interest in any legal matters.

**XII. Executive Session**

Under Rhode Island General Laws §42-46-4, there are limited issues that may be closed to the public. These exceptions to the public meeting requirement are laid out in Rhode Island General Laws §42-46-5 (a).

**XIII. Adjournment**

This is the part of the meeting when the Providence Board of Licenses votes to end the meeting and the word "*Fin*" scrolls across the screen before the credits begin.

TEMPLATE FOR NEW APPLICANTS FITNESS:

1. What prior experience do you have in the service of alcoholic beverages?
  - a. When employed or operating similar business to the current application?
  - b. How long as server or operator?
  - c. Name and location of any businesses or employment?

# **TITLE 3**

## **Alcoholic Beverages**

### **CHAPTER 3-5**

#### **Licenses Generally**

#### **SECTION 3-5-21**

##### **§ 3-5-21. Revocation or suspension of licenses – Fines for violating conditions of license.**

(a) Every license is subject to revocation or suspension and a licensee is subject to fine by the board, body, or official issuing the license, or by the department or by the division of taxation, on its own motion, for:

(1) Breach by the holder of the license of the conditions on which it was issued; or

(2) Violation by the holder of the license of any rule or regulation applicable; or

(3) Any fraudulent act or "material misrepresentation" made by an applicant for a license or a licensee, including, but not limited to, any misrepresentation of information upon which the licensing board reasonably relies in rendering any decision concerning a license, licensee, or establishment; or

(4) Breach of any provisions of this chapter; or

(5) Operating in any manner inconsistent with the license, or in any manner consistent with another class license, without first coming before the board for a new license application.

(b) Any fine imposed pursuant to this section shall not exceed five hundred dollars (\$500) for the first offense and shall not exceed one thousand dollars (\$1,000) for each subsequent offense. For the purposes of this section, any offense committed by a licensee three (3) years after a previous offense shall be considered a first offense.

(c) In the event that a licensee is required to hire a police detail and the police refuse to place a detail at the location because a licensee has failed to pay outstanding police detail bills or to reach a payment plan agreement with the police department, the license board may prohibit the licensee from opening its place of business until such time as the police detail bills are paid or a payment plan agreement is reached.

(d) Upon any violation by a licensee under § 3-5-21, the local licensing board, at its sole discretion, may impose a limitation on the hours of operation of the licensee, regardless of the license type, and notwithstanding any prior approval of an application for a later closing time.

#### History of Section.

## 1102. - Board of licenses.

- (a) There shall be a board of licenses which shall have and exercise such power and duties relating to licenses as may be prescribed by law or ordinance. The board shall consist of five (5) members appointed by the mayor with the approval of the city council. Of the five (5) members first appointed, two (2) shall serve a term of one year, two (2) shall serve a term of two (2) years, and one shall serve a term of three (3) years. All subsequent appointments or reappointments shall be for a term of three (3) years. At its first meeting following qualification of the member appointed for that year, the board shall elect from among its membership a chairperson and secretary. In the event of a vacancy in the office of chairperson or secretary, the board shall fill the vacancy for the balance of the term. No member of the board shall continue in office after his or her term expires without being reappointed by the mayor with the approval of the city council.
- (b) The board of licenses, subject to such terms, limitations and conditions as prescribed by state law, this Charter or ordinance of the city council, shall:
- (1) Require an inspection, investigation and report by the police department on the application for any license and of the person making such application in all cases in which the police department has an interest or concern therein. Such board, in the same or other cases, may require a similar inspection, investigation and report to be made by said department or by any other officer, department or agency of the city.
  - (2) Receive from the police department notification of the violation of the terms of any license and any information concerning a person holding any such license which relates to the fitness of such person to be licensed. Similar information shall be furnished to the board of licenses by any officer, department or agency of the city as to matters within the officer's or agency's jurisdiction.
  - (3) Unless otherwise provided by state law, suspend, annul, rescind,

cancel or revoke any license issued by the board of licenses for any reason which the board may deem to be in the public interest; provided, however, that no license shall be suspended for more than seventy-two (72) hours or annulled, rescinded, cancelled or revoked unless the licensee shall have been given at least three (3) days' written notice of the action proposed to be taken and of the grounds therefor and the time and place of the hearing. The said licensee shall also be notified of the right to be represented at said hearing by legal counsel.

- (4) Submit an annual report to the mayor and city council.
- (c) In the discharge of its duties, the board of licenses shall have the following powers:
- (1) Members of the board are hereby severally authorized to administer oaths;
  - (2) To summon witnesses by subpoena signed by any member and to compel such witnesses to attend and testify;
  - (3) To compel the production of all papers, books, documents, records; certificates or other legal evidence that may be necessary or proper for the determination and decision of any question or for the discharge of any duty required by law of said board, by issuing subpoena duces tecum signed by any member;
  - (4) Any person disobeying any such subpoena shall be considered in contempt and said board may seek a citation in contempt from the superior court of Providence County.

**LYNCH & PINE**  
ATTORNEYS AT LAW

One Park Row  
Fifth Floor  
Providence, RI 02903

August 31, 2016

Council President Luis A. Aponte  
City of Providence  
City Hall  
25 Dorrance St.  
Providence, RI 02903

**In Re: Board of Licenses**

Dear Council President Aponte:

In March of this year the Providence City Council, through your Office, requested that the undersigned attorneys undertake a review of the Board of Licenses ["BOL" or "Board"] in order to identify any problems which might exist with regard to the policies and procedures of the BOL and, to the extent such issues were identified, propose systemic changes that can be implemented to improve the performance of the Board.

In order to accomplish these goals a thorough investigation of the current and past practices of the Board and a review of the policies and performance of the Board has been conducted. At this time we are prepared to recommend a number of significant changes in the manner in which the Board discharges its duties and obligations.

**Background/Executive Summary**

The importance of the City of Providence Board of Licenses to the economic and public safety climate of the city cannot be overstated. The Board is responsible for processing a broad range of license applications for the City of Providence as well as regulating the issuance, renewals, suspensions and revocations of a variety of licenses. The Board is charged with processing applications and renewals and is the sole authority charged with handling alleged violations of their rules and regulations.

This report has been requested in order to identify systemic problems that may exist with the BOL at present and to propose recommendations and solutions. It is abundantly clear that at present the Board is not serving the citizens of Providence at an acceptable or

required standard, and that significant changes are necessary in several areas. Those areas have been identified in this report and recommendations for improvement are contained herein.

It cannot be stressed enough how important it is that the Board function and perform its duties at the highest professional level, following its own rules consistently, removing politics from the equation, creating a public-friendly environment, and holding accountable those who violate any rules, regulations or laws.

### The Investigation

We have conducted an extensive investigation as part of this process. Meetings have been held with many of the interested parties and constituencies who are involved with the Board:

- Current Chair Juan Pichardo;
- former Chair, and current Board member, Johanna Harris; (three other Members of the Board were invited to speak with us, and did not reply);
- Legal counsel to the Board: Louis DeSimone Esq.;
- Board Administrator Serena Conley;
- Assistant City Solicitor Mario Martone Esq.;
- Sharon Steele, representing the Jewelry District Association;
- Anthony Santurri; a local club owner, who founded a group of nightclub owners called the Providence Responsible Nightlife Organization;
- Providence Police Chief: Col. Hugh Clements;
- City Council President Luis A. Aponte, City Council Majority Whip Jo-Ann Ryan, and City Council Chief of Staff Cyd McKenna.

In addition, among the documents reviewed have been the following:

1. Existing and Draft Operations and Procedure Manual for the Board of Licenses
2. BOL Cases Appealed to DBR 2015-2016
3. Decision and notes re: 101 North Main St. Condo Association DBR No. 16LQ003
4. Notes re: Tropicana hearing
5. Notes re: Rock & Rye Show Cause Hearing
6. Decision and materials re: Ice Lounge Hearing DBR No. 15LQ008
7. Notes/Articles re: Hookah Bars

8. Notes re: BOL Meeting with Mayor 2016
9. DBR Order re: Ocean State Hospitality Inc. d/b/a Fat Squirrel DBR No. 16LO002
10. Other Documents/Materials relating to Fat Squirrel
11. BOL Year in Review Reports 2014 and 2015
12. Decision Pasha Lounge d/b/a Pasha Hookah Bar DBR No. 15LO022
13. Decision The Rack Inc. d/b/a Smoke DBR No. 14LO0057
14. Misc. Docket Sheets and materials provided by the office of the Board of Licenses
15. City Council Resolutions, 2012-present
16. Municipal Operations and Oversight Committee Meeting, minutes/audio 1/6/16
17. Agenda and materials re: BOL Retreat 10/3/15
18. Numerous Media Reports regarding the Board
19. Miscellaneous documents were received and reviewed from persons interviewed

### Issues

During the course of this investigation a number of issues have been identified and will be addressed in this report. The following are the most significant issues that came up repeatedly during the course of this review. These issues require immediate attention, as the current status of the operation of this Board is substandard in many areas and the citizens of Providence deserve a substantially better performance from this important entity.

#### • OPERATIONS AND PROCEDURES MANUAL

The Board does have an "Operations and Procedures Manual," which is in the process of being updated by the legal counsel to the Board. In our opinion this is a good working document that requires several significant changes—the Board should officially adopt the changes and the key is for the Board and the License Office to live by the 'rules of the road' that the Operations and Procedures Manual directs, and update or modify as the Board determines to be necessary.

#### • CONDUCT OF ADVERSARIAL HEARINGS

Based on personal observation and experience, as well as the interviews conducted, the conduct of the hearings needs to be formalized and improved. The hearing process itself needs to be more structured and conducted in a setting that promotes public confidence in the process. There is no way that the public can have confidence given the present structure. Hearings are informal and often disorganized, the appropriate administrative hearing standards are not consistently met, Board members are not properly prepared for the issues that are being decided, and hearings often become unwieldy and unprofessional in both appearance and in substance.

- LACK OF CONSISTENCY AND UNIFORMITY IN PENALTIES AND MANNER IN WHICH VIOLATIONS ARE HANDLED

In order to have an accountable and respected administration, there must be uniformity and consistency in the administration of justice. The problem with a lack of uniformity is that members of the public correctly perceive that certain entities are treated differently depending on the circumstances and personalities, which completely erodes public confidence in the system. In any judicial or quasi-judicial setting, particularly those that address issues relating the economy of a city or the public safety climate, the administrative body must have the respect of the people they serve.

- RECORD KEEPING SYSTEM IS NOT UP TO DATE

The public is entitled to and deserves access to all important public records of the Board of Licenses. At present, the record keeping system is neither current nor accurate. An accurate and current system of keeping and recording data is an absolute necessity.

- OPEN MEETINGS ACT COMPLIANCE

It was noted during our interviews that the requirements of the Open Meetings Act RIGL § 42-46-1 et. seq. are not always met, and that violations occur with regard to proper notice, details in the agendas, and the timely and accurate posting of the minutes of the Board.

- POOR WEBSITE THAT IS NOT USER FRIENDLY

Both from personal observation and usage, as well as comments during this review, the website for the Board of Licenses needs to be improved, upgraded and made much more user-friendly. In today's day and age, a website is often the first contact that the public has with any entity, public or private. It is imperative that the BOL website reflect an organized, accurate, efficient, and well-run public entity.

• **RESOURCE ALLOCATION**

The police are responsible for bringing violators to the attention of the Board and then testifying if necessary. The law enforcement commitment to keeping Providence safe is never in doubt. However due to the inefficiency of the process, both at a prehearing stage and at the hearings themselves, the result is that police officers waste valuable time and resources at the Board on matters that do not necessarily require adversarial hearings.

**Recommendations**

1. **Qualifications of the Board Chair**

- a. The Chair of the Board and at least one other Member of the Board should be required to have a legal background with experience in litigation, as well as experience in the arbitration process and/or administrative hearing process.
- b. The Chair and other members of the Board should not be currently elected officials, as that creates an appearance of a conflict of interest (and potentially an actual conflict), which detracts from the impartiality and professionalism of the Board.
- c. The Chair should be responsible for the overall operation of the License Office, with oversight responsibilities for the License Administrator and staff; the Chair should also have supervisory responsibility over the Board.

2. **Role of the Board Administrator**

It is our recommendation that the Board Administrator responsibilities be as stated in Section 4 (G) of the Licensing Rules be modified, with the following changes:

"...to manage the Office of the Board of Licenses, direct licensing staff in their day-to-day duties, ensure that license application procedures maintain compliance with applicable laws, maintain a record of license violations, facilitate schedule prehearing conferences and make sanction recommendations to the Board in connection therewith, coordinate the operation of the office of the Board of Licenses with other city departments, fully prepare the Board for all matters which appear on the agenda, consult with the pre-hearing officer, oversee the enforcement of penalties and collection of fines, implement all changes to city ordinances and/or regulations, and perform any other duty which may from time to time be delegated to the License Administrator by the Board."

Additionally, the Board Administrator should devote all of his/her time to carrying out the responsibilities of the Board.

3.

### The Hearing Process

#### a. Change in Location for Board Meetings

It is the opinion of the undersigned that it is absolutely imperative for the Board to conduct its business in a room or location befitting the importance of the responsibilities which the Board is carrying out. Whether it is the Probate Courtroom located in City Hall, or another courtroom-type setting, the public cannot possibly be expected to have respect or confidence in a Board that meets in the current "room." It is a totally inadequate venue which does not provide enough room for the litigants, their counsel, members of the public and other interested parties. The current location is so sub-standard that it is a wonder that the hearings are not more chaotic. Public perception is important, and the conduct and forum of the hearings themselves is central to that perception and confidence in the Board.

#### b. Record of Proceedings

All hearings should have a full and accurate record of the proceedings, whether by stenographic means or recording. All records of the proceedings shall be accessible to the public either through the Licensing Office or online, and this should be done immediately following a hearing.

c. Rules of Evidence

In conjunction with our recommendation regarding the qualifications of the Chair of the Board, it is also our recommendation that Rule 9 should state that:

"the rules of evidence as applied in civil cases in the Superior Courts of this state shall be followed to the every extent possible, the Board shall not be bound by the technical evidentiary rules, and shall be implemented by the Chairman in consultation with the Legal Counsel to the Board, who shall be in attendance at all hearings to provide legal advice and guidance."

The Rules of Evidence are used and followed in the appeals before DBR; they are regularly used in administrative hearings throughout the State. In conjunction with our recommendation regarding the qualifications of the Chair to preside over contested hearings, the Rules of Evidence should be applied by the Board, and a Chair with the necessary qualifications will be in a position to make the necessary rulings during the hearing process. This will not only make the hearings more professional and efficient, but it will reduce the number of appeals to DBR that have merit.

d. Scheduling

The Board should also schedule hearings once or twice a month at night. When a licensing matter directly impacts a residential neighborhood it is critical that the hearing be scheduled at night, in order to allow the appropriate public participation. This will promote greater convenience for the public, more neighborhood input, and in turn greater transparency for the system and how the Board performs its job. We heard from a number of the constituency groups on this point. Many people have commented to us, both informally and formally, about the difficulty of attending a hearing in the afternoon, being forced to take time from work and other responsibilities. Just as many Municipal Courts hold night sessions, it is our recommendation that, in conjunction with a new location, a more public-friendly schedule can only add to the professionalism and respect which the Board has.

e. Formalize the Process for New License Applications and Transfer of License Applications

New license applications and applications for the transfer of licenses properly go before the Board for consideration and decision. Based on our review this process should be made more formal and structured. We therefore recommend:

1. Witnesses who appear before the Board in these hearings should be sworn in, so that there is accountability for the representations and statements that are made by an applicant and/or witnesses;
2. Legal Counsel to the Board should develop standardized questions and areas of inquiry for the Board's use in making their decision on an application;
3. Establish and adopt formal guidelines for public comment on an application in order to promote consistency in the hearing process. These guidelines should be incorporated into the Operations and Procedures Manual.

f. Professional Conduct

In accordance with the above, all licensees and attorneys who appear before the Board shall be expected to conduct themselves with proper decorum appropriate to a quasi-judicial/judicial forum, and be subject to the discipline of the Board for the failure to do so.

4. Schedule of Penalties-- Consistent discipline

In order to promote public confidence, penalties must be administered in a fair and consistent manner, with respect to all methods of discipline including fines, suspension, and revocation. The Board should:

- a. Develop and promulgate "Guidelines" for the imposition of penalties, and these should be published; these Guidelines should be updated and revised

as necessary every two years if in the discretion of the Board, such revisions are necessary; there should be contained within these Guidelines a clear and decisive path to the revocation of a license, with due process protections afforded to the licensee through this process;

- b. In addition, a complete, accurate and current record of the licensee's history should be available for the Board and for public inspection.

5. Addition of a "Pre-hearing Officer" Position

It is our recommendation that a position titled "Pre-Hearing Officer" be established. This could be accomplished by amending the Definitions in Section 4, as well as Section 6, Rules 2, 2.2 and 2.2.1 of the Operations and Procedures.

The responsibility of this position would be to adjudicate matters that do not require a full hearing before the Board and to perform his/her responsibilities in conformity with the penalty Guidelines established by the Board. As we have stated in Recommendation # 6, prehearing conferences should be the rule, not the exception, and working with the License Administrator, the police, the City Solicitor's office, the responsibility of the prehearing officer will be to handle and adjudicate matters that do not require an adversarial hearing.

This recommendation is in complement to Recommendation #3 wherein we have stated that the Administrator should administrate and insure that the office runs efficiently for the public, but the Administrator should not get into substantive decision-making.

The Rules provide for pre-hearing conferences in Rule 2.2 of Section 6, wherein it states:

"The Board may schedule a prehearing conference prior to a Show Cause Hearing."

In our view, this should be amended to read:

"The prehearing officer shall schedule a prehearing conference prior to a Show Cause Hearing, unless good cause exists or unless it is impractical to schedule a prehearing conference prior to the Show Cause Hearing."

6. Pre-Hearing Conferences

Rule 2.2 provides for the scheduling of "prehearing conferences." For the Board not to regularly conduct pre-hearing conferences is an inefficient use of resources. Given the number of cases the Board has to deal with annually it is a completely unrealistic manner of conducting the Board's business. A significant percentage of cases can be resolved at this level, allowing the Board to conduct hearings on the important cases that affect the citizens of Providence.

With respect to the rules contained in the Operations and Procedures the following changes are recommended:

Participation in Prehearing Conference

- a. In Rule 2.2.3, strike the language that "The licensee may refuse to participate" ... and require that the licensee be required to participate in the prehearing conference, if in the opinion of the Pre-Hearing Officer, a prehearing conference is required.
- b. In Rule 2.2.4, it should read "The Board Pre-Hearing Officer ~~may~~ shall order the licensee to appear at a Show Cause Hearing without first permitting a prehearing conference, unless good cause exists or unless it is impractical to schedule a prehearing conference prior to the Show Cause Hearing."
- c. In Rule 2.2 it should read: "The Pre-Hearing Officer ~~Board~~ shall whenever practical or unless good cause exists to bypass a prehearing conference, schedule a prehearing conference prior to a Show Cause Hearing"...

7. Independent Audit

An independent audit should be conducted immediately; this should cover the collection of fines/penalties, and all other records and statistics of the License Office, including applications, letters of notification, license transfers, communications to licensees, agendas, minutes of meetings, records regarding violations, and online postings. A list of those licensees who are not in good fiscal standing shall be published so that a renewal does not occur for any licensee unless outstanding fiscal issues are addressed. In the course of our interviews it became apparent that the

"system" for the collection of fines/penalties really doesn't exist; the lack of enforcement of penalties with any degree of regularity is totally substandard, and this not only creates an accountability issue with the Board, but a fiscal issue for the City.

8. Compliance with Rhode Island's Open Meetings Act

It was noted from a variety of individuals interviewed that the following goals must be met:

- a. Accurate Scheduling of all Board Meetings
- b. Timely Public Notice of Board's Agenda
- c. Accurate Minutes of Meetings
- d. Improvements to the Board's Website
- e. Accurate and Up to Date Database of All Board Records
- f. Annual Audit/Report to the Public of Compliance with the Open Meetings Act
- g. Yearly Training for the License Office Staff on Open Meetings Issues

In order for the public to have confidence in the workings of the Board, it is imperative that the Open Meetings Act be complied with all the time, and that there be accurate and accessible agendas, minutes, and records of the Board. All boards, agencies and public bodies are required to follow the law as stated in the Open Meetings Act.

9. Establish an "Information Technology" Position

In order to achieve the goals described herein, we are also recommending that an "Information Technology" position be created within the License Office. The primary responsibilities of the IT Specialist would be to oversee and be responsible for all website, database and public information issues within the License Office. This should include but not be limited to making the website customer-friendly and easy to navigate. The responsibilities should also include a section for public education on the website, wherein 'fact sheets' about the various licenses which the Board approves would be explained to the public. The public information section should also include a description of the responsibilities of the Board and the Operations and Procedures which govern the Board's actions.

This IT position would report to the License Administrator, but working with the License Administrator and office staff, would have responsibility for ensuring that the goals cited above are achieved.

**10. Training of Board Members**

Interviews with interested parties revealed a concerning absence of formal, certified training given to the members of the Board and its full time staff.

We propose that the Board receive a full range of training on all the issues relevant to the efficient and professional operation of the Board, including but not limited to:

- Professional certified training on the relevant state statutes, city ordinances, and relevant rules and regulations; this should be undertaken immediately for Board members and staff;
- Training on the Operations and Procedures of the Board per the 'manual';
- Ethics training, which should be mandatory for all Board members and the entire staff;
- Any new member of the Board should receive training immediately upon their appointment to the Board;
- All the members of the Board and its paid staff should receive mandatory annual training in all relevant policies, procedures, laws and ordinances.

**11. Annual Report**

The City Charter requires that the Board present an Annual Report which covers all activities that the Board engaged in during the calendar year. The Board must adhere to the mandates of the Charter.

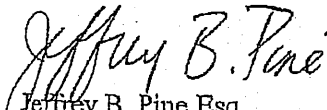

### Conclusion

We are available to discuss, comment and answer questions on these recommendations.

It is clear that the Board of Licenses is an extremely important decision-making body within city government. The issues that the Board addresses on a weekly basis are relevant to the business climate in the City of Providence, as well as the public safety climate. **It cannot be emphasized enough that the success of any city is dependent on the economic vitality of the business districts and the livability of its neighborhoods.**

These eleven recommendations which we are proposing are the most significant proposals that we believe will improve the operation, efficiency and accountability of the Board, as well as the public perception of the Board. It is our opinion that these proposals should be implemented as soon as possible, with the goal of restoring public confidence in the Board, and improving the operation of the Board in these many areas.

Respectfully submitted,

  
Jeffrey B. Pine Esq.  
Matthew Dawson Esq.

cc: Cyd McKenna, City Council Chief of Staff

## **I. Project Overview**

### **A. Background**

The City of Providence (hereinafter, also referred to as the “City”) engaged BlumShapiro Consulting to review and assess the processes and operational practices within the Board of Licensing and Licensing Department. Our project approach included the following objectives:

- Review current processes, operations, and controls of the Board of Licensing and Licensing Department
- Interview key management personnel, Board members, and staff to identify control issues, process concerns, and perspectives on relevant issues
- Review relevant documentation including policies, procedures, protocols, and other related documents used to manage operations
- Review existing management systems and technologies used to manage information for the Licensing Board and Department
- Map (at a high-level) the current information and process flows of critical Licensing operations
- Identify areas of strength and weakness within the aforementioned processes, controls, and technologies
- Assess roles, responsibilities and organizational structure of the Licensing positions
- Identify gaps and confirm best practices to introduce into the Licensing operations
- Identify streamlining opportunities and recommendations to improve the effectiveness of the Licensing Board and Department
- Provide concrete recommendations for improvements that will lead to more efficient operations for the City

BlumShapiro interviewed management and personnel from the Licensing Department, as well as City management and personnel, City Police, and all members of the Board of Licenses. In addition, BlumShapiro interviewed a Providence Councilwoman and the author of the Pine report, the City Council’s 2016 review of the Board of Licenses. In total, BlumShapiro interviewed 22 individuals associated with the City Licensing operations.

## I. City of Providence Licensing Board & Department – Performance Assessment – Project Overview

### B. Acknowledgements

BlumShapiro would like to thank the Licensing Board, Department, and other City staff for their participation, support, on-going dialogue, and feedback during this project.

The following individuals were directly involved in providing information for the performance review. The BlumShapiro team thanks all who participated for their time, knowledge and efforts. The individuals that participated included:

#### *City of Providence*

<i>Licensing Department Staff</i>	
• Serena Conley, Licensing Administrator, Registrar of Vital Statistics	• Patricia Zompa, Chief Clerk
• Belkys Carvalho, Senior License Board Clerk	• Anna Disano, Senior License Board Clerk
• Steve Giannini, License Inspector	

<i>Board of Licenses</i>	
• Juan Pichardo, Chairman of the Board	• Charles Newton, Vice Chairman of the Board
• Dylan Conley, Commissioner	• Delia Rodriguez-Masjoan, Commissioner
• Luis Peralta, Commissioner	

<i>Other City Staff, Attorneys, Police</i>	
• Theresa Agonia, Deputy Chief of Staff	• Jeffrey Dana, City Solicitor
• Mario Martone, Assistant City Solicitor	• Emmanuel Echevarria, Director of Innovation
• Louis Desimone, Legal Counsel for the Board	• Jeffrey Pine, Author of Pine Report (2016)
• David Tejada, Licensing Unit Police Sergeant	• Jo-Ann Ryan, City Councilwoman
• Cyd McKenna, City Council Chief of Staff	• Nick Freeman, Manager of Policy and Research
• Matthew Clarkin, Jr., City Internal Auditor	• Ellen Cynar, Director of Healthy Communities

## II. Licensing Board/Department Overview

### A. The Board of Licenses consists of five (5) Mayor-appointed individuals:

1. Board Chairman
2. Vice Chairman
3. Three (3) Commissioners
  - a. Mayoral appointments are for a three (3) year term

### B. The Licensing Department consists of five (5) individuals

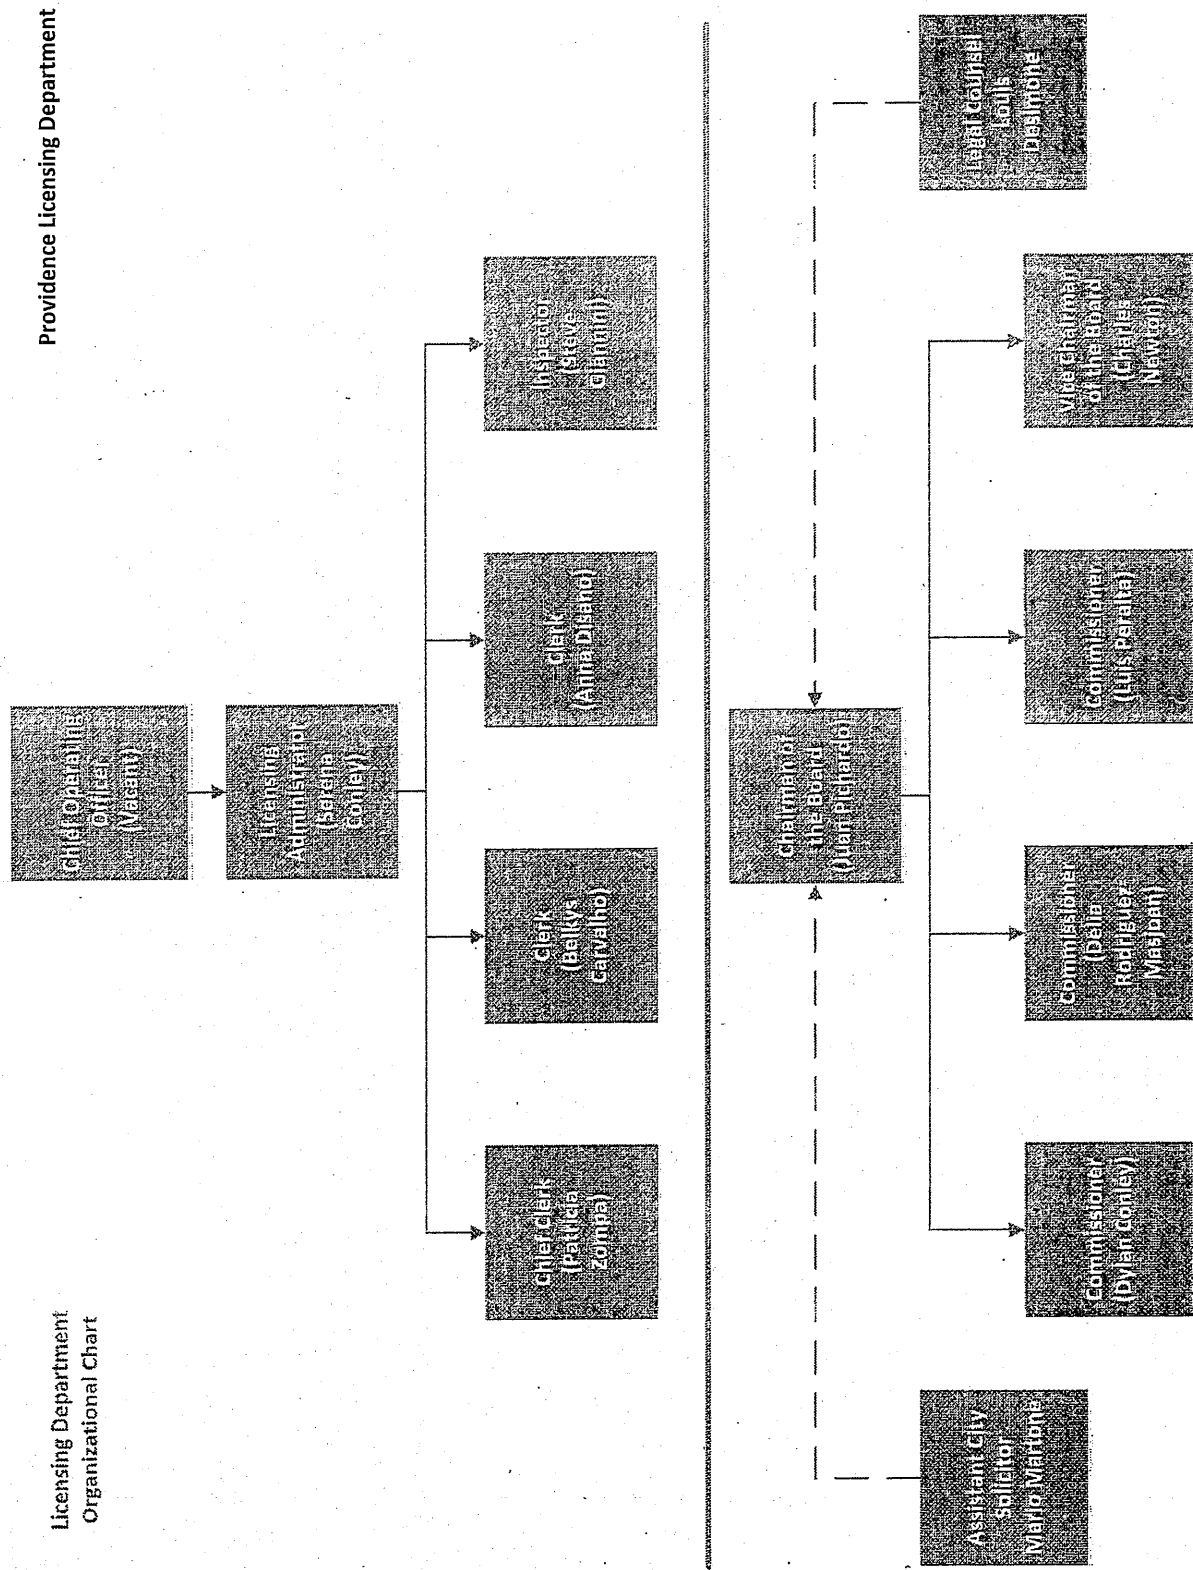

1. Licensing Administrator
  - a. This person also serves as Registrar of Vital Statistics and oversees both departments
    - i. Vital Statistics has a staff of four (4)
  - b. The two (2) departments are co-located in room 104 of City Hall
2. Chief Clerk
3. Two (2) additional Clerks
4. Inspector
  - a. The City has two (2) Inspectors but only one (1) is currently working

### C. The Licensing Administrator reports to the Chief Operating Officer (COO)

1. At the time of this report, the COO position is vacant and as such, the Licensing Administrator was reporting to the Deputy Chief of Staff

### D. The diagram on the following page depicts the Licensing Department and Licensing Board's current organizational structure:

## II. City of Providence Licensing Board & Department – Performance Assessment – Department/Board Overview

## II. City of Providence Licensing Board & Department – Performance Assessment – Department/Board Overview

E. The primary responsibility of the Department and Board is to issue and manage all Licenses within the City of Providence

1. The Board is responsible for approving/denying and monitoring all licenses in the City as well as administering fines and penalties in the instances of violations
2. The Department staff are responsible for the Administrative support functions including application and renewal processing, scheduling hearings, handling complaints and investigations and processing payments
3. The Licensing Department is a customer-facing customer-service organization

F. The Licensing Department offers 38 different license combinations across nine (9) categories:

Liquor & Entertainment	Restaurant & Food	Goods & Services	Individual Licenses	Services	Body Works Business	Body Works Personnel	Entertainment	Expansion of Premises
Class N	Food	Second Hand Auto	Hackney Driver	Employment			Entertainment	Expansion of Premises
Class F	Holiday	Second Hand Store	Hackney Cab	Laundry			Raffle	
All other liquor	Peddler	Pawnbroker	Pedicab	Parking Garage			Mechanical	
Valet	1 to 4	Junk Shop	Private Detective	Holiday				
Holiday	Frozen Desserts	Vehicle Repair	Floor Host					
Tobacco	Petroleum	Holiday	Promoter					
Food	Tobacco	Yard Sale						
		Peddler						

## II. City of Providence Licensing Board & Department – Performance Assessment – Department/Board Overview

### G. The City Licensing Department uses multiple software systems and technologies to manage operations

1. MS Govern
  - a. MS Govern holds all licenses (by address)
  - b. This system is used to print the physical licenses
2. MinuteTraq
  - a. This system is used to construct meeting minutes, the docket, as well as manage applicants/licenses
    - i. It automatically notifies Building, Fire, and the Health Department that a new applicant has been entered and that upcoming inspections are to be scheduled
3. Microsoft Access Database
  - a. MS Access is used as a database to manage and report on violations pertaining to liquor permits in the City
    - i. This system does not include tobacco-related or other City licensing violations
4. Microsoft Excel
  - a. At this time, Excel is used for a variety of purposes in the Licensing Department including:
    - i. Violations/Fine payments
    - ii. Incoming Check Log/Record

### III. City of Providence Licensing Board & Department – Performance Assessment – Notable Strengths

#### III. Notable Strengths

##### A. The Licensing Department provides exceptional customer service

1. During the course of this project, BlumShapiro was onsite numerous times within the Licensing Department. It was evident that the staff take pride in providing quality, friendly service to the residents and business owners of Providence
2. Quality service consisted of:
  - a. Promptly answering phone calls and acknowledgment/greeting of walk-in patrons
  - b. Friendly assistance both on the phone and in person
  - c. Teamwork among all clerks
  - d. Ability to stay task-focused and patient in a busy, often loud and distracting, work environment

##### B. The Department has recently streamlined the application process for businesses

- a. The Department has made the application process easier for applicants by reducing the number of application types from 44 to nine (9)
- b. In addition, the Innovation Officer was assigned to the Licensing Department as the first Department to address for growth and streamlining opportunities

##### C. Since 2015, the Licensing Department has been an area of focus for the Mayoral administration

- a. Enhancements have taken place for this Department since 2015 including:
  - i. Staff training for process improvement tools and customer service
  - ii. New wayfinding bilingual signage to assist customers and walk-in visitors
  - iii. Licensing Team Retreat – October 2015
- b. Outreach to Providence business owners including focus groups with 50+ business owners

##### D. The Department will soon be offering online license applications, renewals and payments

1. Per interview with the City Innovation staff, the State of Rhode Island has rolled out an e-Permitting software system for the State (ViewPoint Cloud)
  - a. Providence served as a “pilot” city for this software

### III. City of Providence Licensing Board & Department – Performance Assessment – Notable Strengths

---

- b. The Innovation Office is currently implementing this software for the Licensing Department
  - c. The e-Permitting software system functionality will include:
    - i. Launching an application for license online
    - ii. Online renewal processing
    - iii. Online payment processing
    - iv. Online reporting
  - d. Per interview with the Innovation staff, the goal is for ViewPoint to populate the docket with data as well to cut down on manual entry
  - 2. In addition, edits and modifications have been made to the City licensing webpage to make it more user-friendly
  - 3. License applications and guidance on requirements may be obtained online
- E. The Board of Licenses has made several enhancements since the 2016 Pine Report
- 1. Since the 2016 review of Board Operations and Practices (via the Pine Report), the Board of Licenses has implemented several beneficial changes, including, but not limited to:
    - a. Continuing the Pre-Hearing Conferences for incident violations and penalties (started August 2016)
      - i. This has greatly reduced the hearing procedure and streamlined the overall violations process
  - 2. The Board has added night meetings to enhance transparency
    - a. As of October 2016, the Board has added night hearings
  - 3. The Board has changed the location of meetings to a larger, more formal and more accessible location
    - a. In November of 2016, Board meetings were moved to now take place in the Probate Courtroom at City Hall
    - b. This room provides adequate space for interested attendees from the public, business owners, and other interested parties
    - c. In addition, the setup of this room increases the professionalism and business atmosphere for the Board
  - 4. The Board has implemented some training measures since the completion of the Pine Report
    - a. In January 2017, the Board underwent ethics training
    - b. Revised department procedures have been drafted and are expected to be implemented in the near future

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

##### IV. Findings and Recommendations

###### A. There is a lack of readily available historical license/licensee information

1. For both the Department staff and Board members, a lack of historical information pertaining to licensees, complaints and violations, and business owners as well as individual businesses has been problematic
2. Current technology and systems are incapable of informing the Department of how many licenses currently exist
  - a. When asked this question, staff were unable to provide BlumShapiro with a number of licenses
3. With current technologies, the Department cannot quickly and easily obtain basic information including:
  - a. Total number of licenses in Providence
  - b. Total number of licenses by type (i.e. Tobacco, Liquor)
  - c. History of a particular business or license (by location)
  - d. History of a particular business owner or licensee
  - e. History of license violations other than liquor (managed in Access database)
  - f. Outstanding fine balances owed by a licensee
  - g. Renewal status
4. Therefore, the Board members are unable to obtain this information via a simple lookup, inquiry, and/or request of the Licensing staff
5. As a result, the annual summary report generally does not include details and/or “meaningful” data (i.e. violation specifics per each license with unique and clear descriptions)

###### RECOMMENDATION: Perform a technology review/software selection process and invest in software improvements

1. The Innovation Department, City IT, and the Department should take a closer look at the system capabilities of existing software programs (Govern, MinuteTraq) in case additional functional capabilities exist but are not being currently utilized
  - a. Based upon BlumShapiro’s review of existing programs, it appears that they do not offer the full suite of capabilities that the Department and Board are ultimately seeking, however, training may enhance the use of the current system capabilities
  - b. The Department may have the capacity to scan paper applications and should consider it in the future

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

2. A thorough review of the software systems may result in the City completing a Request for Proposal (RFP) for an integrated Licensing Management system
  - a. Since the City may need to invest in additional software modules or programs, added financial costs should be planned for and considered
- B. The history of tobacco violations is not centrally managed within a computer system
  1. Currently an Access database is used to manage violations pertaining only to liquor licenses
  2. Many license violations pertain to tobacco, not alcohol, but there is no electronic system in place to currently track, manage, store and report on this information
    - b. Therefore, the Department cannot easily extract information or historical data pertaining to a licensee or business that has associated tobacco fines (This would currently have to be accomplished manually by accessing paper files not organized by licensee/business)

#### **RECOMMENDATION: Manage all violations (including tobacco) within a software application**

1. As an immediate resolution, the Department should extend the existing Access database used for liquor violations to include violations that pertain to tobacco
  - a. A second alternative would be to copy the format of the Access database and create a new one (1) to manage tobacco violations only
    - i. This is less ideal as the ability to see one (1) licensee who has both, liquor and tobacco violations, from a single lookup would not be possible
2. For long-term operations, the Department and Innovation Team should consider an integrated licensing system that could also manage all violations and fines (regardless of type)
  - a. Ideally, the system will have sort and lookup capabilities that can be filtered by violation type
  - b. The system should also provide electronic images/copies of any decision letters associated with a violation and show-cause hearing
3. This system should be accessible to all Licensing staff as well as Board members (with read-only access) so that timely information can be provided for more informed decisions

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

##### C. The fines collection process is informal

1. At this time, the Licensing Administrator will work with licensees to collect their fines over time, rather than one (1) lump sum payment if the licensee expresses an inability to pay a fine in one lump sum
  - a. The intent is to maintain good, supportive relationships with business owners of Providence. Many business owners have expressed appreciation for this flexibility and understanding
2. However, there are no formal payment plans put into place
  - a. No promissory agreement is established
  - b. No interest is charged
  - c. No clear-cut payment schedule is outlined
  - d. No late fees or penalties are assessed for not paying “on time”
3. In this format, the Licensing Administrator must act as a “bill collector,” calling licensees who do not pay on a regular basis to request that they make payments and keep them on track
4. The Licensing Administrator manages the payments, dates, and outstanding balances in an Excel spreadsheet on her workstation
  - a. It is not maintained in a centralized system and is not utilized by (or accessible to) other Department staff
5. Department staff will collect payments during the workday and record them on a sheet of paper posted in the office
  - a. The Licensing Administrator reviews and validates the collections each day (and updates her spreadsheet)
6. All penalties/fines must be paid in full in order for the license to be renewed
  - a. Although this process has been informal, the Department seems to be collecting all fines and penalties in totality prior to renewing a license

##### **RECOMMENDATION: Formalize the collections process for licensee fines**

1. The City should align the Licensing Department’s collection of fines with the collections process of the City’s finance office
  - a. Under this model, interest rates are applied and penalties exist for not maintaining timely payments in accordance with City/payee payment terms

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

- b. In addition, the Finance and Legal Department will be better able to assist in monitoring these incoming payments for the Licensing Department
- c. By centrally managing the receivables for the City, Finance will be better able to sort by payee (i.e. a business owner who is delinquent on taxes and licensing fines)
2. This will allow the Department to extend some courtesy/flexibility to business owners by accepting fees over time rather than one (1) lump sum, but will also formalize and standardize the process
  - a. This alleviates the need for the Licensing Administrator to act in a “bill collector” capacity
  - b. This will eliminate the scrutiny the Department may face by not uniformly collecting fines/fees for violations in a consistent, equitable manner
3. Accept credit card payments for fines which would reduce the need for tracking time payments by the City

#### D. The License Renewal process is labor intensive

1. At this time, there is no centralized system to manage the license renewal process for the Department
  - a. There are no automated tools that inform the Department of which licenses are coming up for renewal
2. The Department must create labels for renewal applications/payments and mail out paper renewal forms to licensees
  - a. This is a time consuming process. For example, in October nearly 380 forms are mailed out to liquor license holders to notify them that their December renewal is approaching
  - b. The licensee must pay and resubmit an application at each renewal; there is no online form prefilled with essential information, or scanned application, that a licensee can simply update each year
  - c. As renewal payments come into the office, the Department manually crosses off the business name on the manual list of labels for all required renewals
    - i. There is no system that tracks and updates this information electronically

#### **RECOMMENDATION: Better utilize, or invest in, a License Renewal software management system**

1. The Department should determine if any existing systems (i.e. Govern) have the capability to manage license renewals
  - a. The ViewPoint system (which is not fully implemented at this time) should be able to handle online renewals; other capabilities of ViewPoint should also be assessed

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

2. Having one (1), centralized system that can manage applications, renewals, and penalties should be the goal
3. The Innovation Department should work in conjunction with the Licensing Department to determine if a new software solution should be sought after or if existing tools (i.e. ViewPoint) can be better utilized
  - a. Additional training will likely be necessary

#### E. Current office space is not conducive to a business-professional environment

1. Currently both the Licensing Department and Vital Statistics Department share office space
2. The City has done its best to distinguish the Licensing Department from the Vital Statistics' office by adding signage, etc. but the shared space remains confusing to walk-in patrons.
3. While on site numerous times, BlumShapiro observed walk-ins asking Licensing staff for assistance when they were there for the Vital Statistics office.
  - a. This detracts from their ability to stay focused on the tasks they are completing
  - b. Often the clerks are on the telephone as customers are walking in which causes additional distractions
4. Under the current office setup, the Vital Records staff (4) sit farther away from the door and counter than the Licensing staff, therefore, Licensing staff are the first contact that Vital Records customers encounter when entering the office.
5. The office can get extremely noisy and crowded any time during the day making it difficult for Licensing staff to communicate with applicants and business owners
  - a. The application and licensing process can be stressful and overwhelming for a person. Adding a crowded room, numerous ongoing conversations, interruptions, and a line of customers can make it difficult for a person to obtain the assistance and information license applicants need

#### **RECOMMENDATION: Physically separate the Licensing Department from the Vital Statistics Department**

1. Although this may be challenging for the City, it is imperative that the City segregate the Licensing Department from Vital Statistics to provide for an optimal business environment for both
2. This will cut down on noise, the number of people in the office and number of interruptions
3. This will also increase customer satisfaction as Vital Statistics walk-ins will no longer think they are being neglected or ignored by Licensing staff who cannot assist them

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

4. The Licensing Administrator does not need to be physically located in the Licensing Department in order to manage it
    - a. He/she can oversee staff that exist in two (2) locations situated near each other
- F. Disconnection exists between the Health Department, Legal, and the Licensing Department
1. At this time, there is a lack of integration and communication between the Health Department, Legal Department, and Licensing Department
    - a. Coordination is missing among these Departments as it relates to violations/penalties and inspections
  2. There is no joint-effort to pair violators with mandatory training measures from the Health Department and/or to inform the Health Department of where violations are occurring
    - a. There is also no centralized system where the Health Department can look up particular violation types or businesses
    - b. This makes it more difficult for the Health Department to plan training endeavors around the types of violations that are commonly occurring in the City
  3. It was noted that there is no pamphlet or educational informational packet given to new licensees that informs them of proper Health Department compliance procedures

#### **RECOMMENDATION: Implement regular meetings between Licensing Administrator, Assistant City Solicitor, and Health Department**

1. On a regular (e.g. quarterly) basis, these parties should meet to assess opportunities for improving integration and collaboration
2. Regular communication will improve transparency among Departments and serve as an opportunity to develop new initiatives to better serve City business owners
  - a. e.g. Awareness programs, online training for applicants and violators
3. These meetings will also help uncover where violations and health risks are occurring (e.g. specific violation types or particular businesses) so that the Inspector's and Health Department can better coordinate their inspections
  - a. For example, if the Health Department is seeing a spike in underage tobacco use, the Inspector can pay closer attention to businesses who engage in the sale of tobacco

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

##### G. License applications are in need of an initial vetting process

1. Current applications do not undergo an initial vetting or quality-assurance review process prior to going before the Board. As a result, the Board is sometimes presented with applications that are clearly insufficient and inadequate to proceed through the licensing process which can waste both the Board's and applicant's time
2. Nearly all interviewees expressed that a quality assurance process or more formalized process for checking the application for completeness prior to Board review would be a great improvement

##### **RECOMMENDATION: Develop basic application "minimum" standards and have an initial screening or review prior to**

###### **Board assessment**

1. The Board of Licenses should develop a checklist for minimum acceptable standards as it pertains to business plans, application forms, and other applicant documents associated with a license application
2. If desired, a sample acceptable license application could be published on the Licensing webpage so that applicants can use it as a model/guide when completing their business plan and other documentation
  - a. As the Department adopts further online licensing procedures, built-in eligibility requirements could be established so that applicants cannot proceed through the online application process if certain parameters are missing or inadequate
  - b. Based upon our interviews, the system that the City is looking at, ViewPoint, will allow for some built-in controls/data entry components requiring the completion of application steps online
3. The Licensing Administrator (and Department staff) should be trained on what the acceptable standards are in order to serve as the initial reviewers of applications
  - a. The intent is not to have reviewers outright "deny" an applicant, but rather to better assist and prepare the applicant for success when going before the Board
4. As a result, applicants will be better prepared and in turn will feel more confident when appearing before the Board for license approval. In addition, Board members and applicants will no longer be wasting time reviewing applications that are clearly incomplete

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

##### H. The complaints process needs improvement

1. Currently, complaints are logged in an Excel spreadsheet on the License Administrator's workstation
2. Staff does not currently follow up with the complainants after they have contacted the office
3. The Inspector enters complaints into License Tracker (his own system) which does not feed into any other programs
4. There is no electronic connection between the Excel Spreadsheet in the License Administrator's office and the Inspector's License Tracker which makes entry of the same data redundant

##### **RECOMMENDATION: Strengthen the overall complaints process**

1. Complaints should (ideally) be logged in a centralized licensing system (see recommendation A)
  - a. In the meantime, the Excel spreadsheet should be centrally saved and accessible to the entire Licensing Department including Inspectors and the Board
2. As an improvement to resident relations, the Department should consider a simple email or phone call or acknowledgement letter back to the complainant notifying them that the issue is being addressed and/or evaluated by the Department and that their concerns are of importance to the City

##### I. Inspectors procedures need enhancement

1. Under current operations, the Inspector generally chooses what businesses/streets he will cover in any particular day based on experience and intuition; there is no formal strategy for efficiently routing of his assessments throughout the City
2. Current procedures include the Inspector citing a business or licensee for a compliance issue (e.g. out of date license, operating without a license, etc.) and issuing a yellow slip to the business owner
  - a. The slip informs the violator that they are to go to the City Licensing Department to fill out appropriate applications, etc.
    - i. There is no penalty for not contacting the Licensing Department within a pre-determined timeframe
    - ii. The Inspector will revisit a business that he has cited if they have not contacted the Licensing Department but there is no particular timeframe identified here
3. The City may be missing an opportunity to collect additional revenue by charging violators with a fee when they do not contact the Licensing Department in a timely (preset) amount of time since receiving the yellow slip

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

##### **RECOMMENDATION: Formalize the Inspection procedures**

1. The Department should put more strategy behind the daily or weekly route of inspections to better ensure the City is being completely covered and fairly inspected
  - a. Routes should be discussed with the Licensing Administrator, City Police, the Assistant City Solicitor, and Health to better target “riskier” areas and those where complaints are frequently focused but also to provide for city-wide coverage
2. The Board and Department should consider issuing fines for cited businesses who have not contacted the Licensing Department within a designated period of time (i.e. 10 business days)
  - a. The first citation may be a “warning” with no accompanied charge, the second could result in financial penalties
  - b. Progressive fines could be implemented for the longer a cited business/individual waits to contact to the Licensing Department

##### **J. Pre-hearing process not currently timely**

1. Based upon our interviews, the pre-hearing conferences are not occurring in close proximity to the date of the incident/violation
2. The License Administrator currently receives the licensees who will require pre-hearing conferences in batches

##### **RECOMMENDATION: Decrease the time between violation and pre-hearing**

1. The Licensing Board/Department and Legal should strive to have pre-hearings occur within 60 days of the cited violation
2. The Assistant City Solicitor should stop batching violations and forward violations to the Licensing Administrator as they occur so that preparation and the drafting of Pre-Hearing notices and formal documents can begin immediately

##### **K. The Board does not have a standard list of fines/penalties from which to make decisions/administer fines**

1. The Board currently rules based on precedence. There are no documented fee/violation parameters from which to assist commissioners in making decisions
  - a. This leaves the Board susceptible to scrutiny for lack of impartiality, etc. when issuing fines and/or revoking a license

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

2. Some commissioners expressed interest in having a documented list/established parameters to remove the appearance of impartiality from Board decisions
3. The Board also offers reduced fines for cooperation with the City, but this reduction is not standardized
  - a. Currently, the reasoning behind not having a standard list is because penalty recommendations are based on the three year violation history of each establishment and pre-hearings are largely subjective

**RECOMMENDATION: Develop and document standard fee rate ranges for violations and standard terms for license revocations**

1. The Board of Licenses should review historical fines and penalties that have been administered to assist them in developing a standard list of fines and penalties for assorted violations
2. The list could be developed with “fee ranges” for each violation type (e.g. underage liquor sales, flavored tobacco, etc.) rather than specific dollar amounts to maintain the Board’s ability to make decisions and administer fines on a case-by-case basis accounting for unique circumstances of any violation
  - a. The document should also include a disclaimer that all violations are subject to Board discretion and rulings that may exceed documented fines as listed based on severity of violation, risk, and individual scenario. The list is merely a “guide” and baseline
3. The list may also include general descriptions of violations and associated fines so that the Board could combine penalties and fees when a licensee is in violation of multiple regulations
4. The fee/penalty parameters should include procedures and increased fines (progressive penalties) for repeat violators as well as applicable discounts for cooperation with the City
5. Once agreed upon and documented, the Board may opt to publish the fees on the Licensing webpage so that licensees are aware of the penalties they may face for non-compliance
  - a. This will eliminate the “shock” and/or likelihood of pushback and disagreement over fines/penalties when a clear violation has occurred
  - b. The Licensing Department could also provide newly approved licensees with this violation rate list so they are aware of what fees they may encounter in the future if violations were to occur

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

6. On an a regular basis, (e.g., bi-annually) the Board should determine if the fines are still appropriate or if rates should be increased
  - a. This will eliminate the “shock” and/or likelihood of pushback and disagreement over fines/penalties when a clear violation has occurred
7. Having a documented baseline will help the Board to make more impartial decisions in a timelier manner and will also lessen the scrutiny the Board currently faces for a lack of uniformity in penalty issuance
  - a. Per interview with City Police, public safety officers do not necessarily have expertise in business security plans and they should not be sought out as the reviewers
3. Should an incident occur, it is not evaluated against the business owner’s security plan
4. Therefore, the purpose or value of this requirement is unclear

#### **RECOMMENDATION: Asses the need for Security Plans**

1. The Board of Licenses should assess whether or not required Security Plans are offering any value / protection to citizens at this time
2. It is possible that security plans are valuable, and the requirement needs to be revamped
  - a. All security plans are reviewed by an outside “security professional”
  - b. Businesses could be evaluated/audited for compliance with their documented security plans and fines may be applicable where inconsistencies are found
3. It is also possible that the Security Plan requirement should be abandoned if it does not have any intrinsic value and is not something the Board of Licenses considers when making license decisions

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

##### M. Floor Host licensing process is currently managed jointly by the Licensing Department and City Police

1. The City requires all Floor Hosts (Bouncers) to be licensed
  - a. Applicants begin the licensing process in the Licensing Department but the application is then handed over to the Police Department for background checks and ID badge creation and delivery
  - b. Floor Host applicants are not tracked within MinuteTraq; they are maintained outside of the system by the Licensing Administrator
2. The Police create the badges and deliver them to the applicant (at their place of business)
3. Other than completing background checks, it is unclear why Police should be managing other portions of this license process
4. Lastly, Floor Host license approvals do not go on the docket for board meetings, even though Board approval is obtained

##### **RECOMMENDATION: Centralize the entire Floor Host licensing process through the Licensing Department**

1. If the Licensing Department enters the applicant information into MinuteTraq, Police can look up the applicant and perform the background check with the information available from the system
  - a. This eliminates the need to manually pass copies of the application over to Police
  - b. Police can simply complete the background check and notify the Licensing staff of results (if they cannot electronically update within MinuteTraq directly)
2. A second option would be to require applicants to obtain their own background check from the Attorney General's office and provide the results along with their application to be a Floor Host
  - a. This would require a change to current regulations
3. The Licensing Department already prints ID and licenses for other applicant types; they should be the issuers of the Floor Host license
  - a. Police should no longer be hand-delivering the licenses
4. Floor Host license applications and forms should be retained centrally in the Licensing Department
5. Floor Host applicants should be recorded on the docket for both records and documentation purposes but also to align the approval process with all other City license types

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

N. There is a lack of clarity for allowable public interactions during meetings

1. Based on our interviews, the public is often displeased when not allowed to speak during Board Meetings. Being a public meeting, there is confusion as to why they cannot ask questions, offer opinions, etc.
2. The Board members are well-aware that it is legal standard that public comment is not allowed during show cause hearings, however, the public is not aware of this
3. Per our interview with Legal, the public may comment on license renewals and pending application transfers
  - a. There is no formal announcement made or written disclaimer on meeting agendas (or public handouts) that informs the public and meeting attendees of City policy regarding meeting protocols

**RECOMMENDATION: Document the meeting protocols including public participation and post (or distribute) at Board meetings**

1. The Board should document Board meeting protocols including parameters for when the public can and cannot participate during meetings
  - a. This could be posted on signage during the meeting or printed on each meeting minute document that public attendees are provided
  - b. The Board may also consider posting the protocols on the City Licensing webpage so that attendees know what the expectations are prior to their attendance
  - c. Another option is for the Chairman of the Board to make a brief announcement to the attendees prior to the start of each hearing
2. Per interview with Legal, current policies regarding the disallowance of public comment during show cause hearings it not codified, but it should be
  - a. This is something the Board may consider
3. By making the public more aware of Board protocols, a greater public understanding will result and make it less likely that the Board would appear to be “disinterested” in public comment and more likely to appear more professional in their following of documented protocols

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

O. Language barriers between business owners and the Board and Licensees have proven to be troublesome for the hearing process

1. Several interviewees expressed that many licensees and applicants do not speak English as their primary language
  - a. As such, fully understanding the procedures and Board communications is difficult

#### **RECOMMENDATION: Implement qualified interpreters for hearings**

1. The Board should consider hiring qualified interpreters for board hearings
  - a. The cost of the interpreter can be relayed to the applicant or business owner who requires the service
2. The Department should develop a standard interpreter waiver for licensees/applicants who do not wish to utilize the Board's interpreter
  - a. The current Board document "Standards for Interpreters" could be used in conjunction with the waiver for those who opt out of using the City's hired interpreter and rather, use a personal friend/family member

#### P. Check / Money Order processing procedures are currently paper intensive

1. At this time, the Licensing Department makes numerous copies of physical checks each time a renewal, application, or fee is paid to the Department
2. Checks/Money Orders are managed and recorded in an electronic spreadsheet and one copy is physically stored in a file cabinet, while other copies are used and discarded later in the process
3. The spreadsheet has columns of every type of license and the clerk has to find the correct column to record the applicable amount
4. Single checks covering several fees must be parsed out to the correct columns for various City Accounts
5. Incoming checks for violations also require updating a paper list of violations posted in the department and updating by the administrator in the Access database for liquor violations

#### **RECOMMENDATION: Cease the photocopying of paper checks and utilize scanning/online payments**

1. The Licensing Department should continue to move toward online payment capabilities to decrease the amount of checks they receive
2. The Department should consider accepting credit card payments to add more options/flexibility for applicants/licensees

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

- a. The software the City is rolling out for online Licensing, ViewPoint, was selected in part for its ability to handle online card processing and electronic check processing
  - b. An option for the City would be to collect the administrative fees from customers as part of the credit card use
  3. Incorporate direct deposit via check scanning if available from the City's bank
  4. Revise the spreadsheet to reduce the number of columns and qualify each amount by a type code which would serve the same purpose as the multiple columns but be more efficient
- Q. Training and Cross-training efforts are needed within the Licensing Department**
1. A major risk within the Licensing Department at this time is a lack of cross-trained backups for key functions
    - a. Some processes can only be performed by the Chief Clerk (e.g. preparing meeting agendas, sending out advertisements)
    - i. If she is unavailable, the outgoing Licensing Administrator would be the only staff who is capable of completing these procedures
    - ii. As many of the Department procedures are time-sensitive and state-mandated, the City cannot afford to be late in accomplishing these tasks
  2. Nearly all interviewees expressed that they would benefit from basic computer training as well as on the systems they have in place (Govern, MinuteTraq)

**RECOMMENDATION: Implement training and cross training within the Department**

1. The department should determine appropriate backups for each office procedure/process and fully train designated backups
  - a. This will allow the Department to offer "full service" 5 days a week
  - b. This also requires procedures to be documented and kept up-to-date so that another person could follow them if needed
2. All clerks should be capable of setting up meeting minutes, managing advertisements, processing payments, running basic reports and pulling historical information for Board members, and assisting City business professionals with the licensing process
  - a. This will allow the Licensing Administrator the ability to delegate his/her basic office duties to the clerks so he/she can focus on more managerial-level issues

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

3. With the use of documented Department policies and procedures, any clerk should be able to “look up” how to perform day-to-day tasks and functions in the absence of the clerk who “regularly” does this task

#### R. The Licensing Department operating manual is outdated

1. An operating manual was located during BlumShapiro’s review. However, this manual has not been updated since 2011
  - a. It includes rules, regulations, and procedures for filing applications, descriptions and definitions of various terms and procedures of the Board (i.e. Show cause hearing), license fees, and some step-by-step process instructions (i.e. “instructions to create an ad” that are out of date

#### **RECOMMENDATION: Update the Licensing Department manual with current policies and procedures**

1. The Department should utilize the existing manual as a solid foundation for operating procedures. The manual should be updated with screen shots to better guide backups who would fill in for the regular person responsible for a given procedure. Updates should be made to reflect current operations and systems so that employees can utilize this when cross-training and learning new tasks
2. On an annual basis, the Licensing Administrator should validate that the manual is still accurate and if not, make any necessary changes or updates
  - a. Annual signoff of this evaluation/review should be documented and dated

#### S. The Board Commissioners require (and are seeking) further training

1. Several of the interviewees commented that there is little to no formal training for newly appointed Commissioners on the Board of Licenses
2. It was noted during interviews that not all Commissioners are clear on the full application process and departmental functions of the Licensing Department
  - a. This illustrates a disconnect between the Board of Licenses and the Licensing Department
3. In order to “keep up” with attorneys that represent licensees at show-cause hearings, it is imperative that Board members are adequately competent in basic legal terms, procedures, and actions
4. iPads have been provided to Commissioners but training on how to use them and what to use them for, is needed

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

##### **RECOMMENDATION: Implement thorough training for all board members**

1. Training should include both on-boarding training for newly appointed members as well as on-going training for existing commissioners
2. The Board should formally document a training program which covers timeliness of training, what types of training programs are to be implemented (e.g. “The Basics of Board Operations,” “the Hearing Process,” etc.)
3. Commissioners should have at least an initial overview/meeting with the Licensing Administrator after being appointed to learn the basic operations of the Department
4. Training programs should include fundamental legal procedures to better equip the commissioners for show-cause hearings
5. Basic technical training on the use of the iPads to maximize information availability during meetings and hearings should be provided to Commissioners

##### **T. The Board of Licenses lacks updated, documented comprehensive policies and procedures**

1. A proposed update to the Board policies manual has been under review for nearly a year. It is unclear why these policies have not yet been formally implemented and why review has not been completed
2. The Board of Licenses does not have a standard set of questions or a checklist for new business hearings
  - a. Without uniformity and standard questions asked to all applicants, bias and favoritism may be implied or assumed by the public
3. Interviewed Board members expressed the desire for documentation pertaining to standards on what types of approvals must go before the Board and which do not (e.g. entertainment licenses)
4. Board members seem to have had difficulty coordinating their schedules and all being consistently on time for all meetings
  - a. Basic conduct standards are needed

##### **RECOMMENDATION: Complete the review process and implement the updated Board policies and procedures**

1. The Department needs to immediately formalize, publish, and indoctrinate its policies and procedures
  - a. They have been in “draft” circulation for an extensive amount of time (nearly a year)
  - b. According to our interviews, the Board was given the date of May 19, 2017 to complete their review but new policies have been drafted by the Legal Counsel for the Board of Licenses for nearly 10 months

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

- c. Per interview with Legal Counsel, the new policies include the suggestion that the Board have a standard question checklist that is used with all new license applicants
  - i. These questions could even be posted online and included in the application package to help applicants prepare their applications improving their chances for success
2. Updated policies should include the parameters for what necessitates Board approval and what does not
3. Board policies should include basic conduct policies including scheduling and informing other Board members when one cannot attend, timeliness for meetings and hearings, etc.

#### U. All Licensing files are not centrally stored electronically

1. Some files (e.g. the violations workbook) are stored and saved locally on one (1) PC in the Licensing office
  - a. Therefore, City IT is likely not backing up this file, making it susceptible to loss
2. It is unknown if all files are backed up centrally via network drives and folders

#### **RECOMMENDATION: Ensure all Department files are centrally located/stored and backed up**

1. As an immediate remedy, the Violations Excel workbook should be moved to a shared network drive/folder to ensure that it is backed up along with other Department files
2. IT should ensure that the Department is utilizing a shared network drive for the saving of all Licensing workbooks, files, and documents
  - a. Under a shared network configuration, employees can access each other's files (including the Licensing Violations workbook) and documents in order to fill in or share information across the Department
    - i. This should also eliminate the need for the Department staff to manually photocopy or print multiple copies of documents and pass them out to Department staff
3. IT may consider providing the Health Department, Police, and Licensing Board members limited access to particular folders and files of the Department for greater sharing of information

#### IV. City of Providence Licensing Board & Department – Performance Assessment – Findings & Recommendations

---

##### V. Technology tools available to Licensing Department staff could be improved

1. The Licensing Department staff do not have dual monitors and therefore have to constantly open, close, and toggle between multiple windows and systems (i.e. Excel, Govern, MinuteTraq)
2. The Licensing Department staff do not have hands-free headsets for phone calls
  - a. This makes multi-tasking difficult. Many times, staff will manually write notes during a call, only to later key them into the computer

##### **RECOMMENDATION: Purchase and install hands-free headsets and dual monitors for licensing staff**

1. Additional monitors and wireless phone headsets are relatively inexpensive purchases that the City can make to immediately improve productivity within the Licensing Department

## V. City of Providence Licensing Board & Department – Performance Assessment – Recommendations Priority List

---

### V. Recommendations Priority List

We recommend that the Board of Licenses and Licensing Department implement the above recommendations and best practices in the following order:

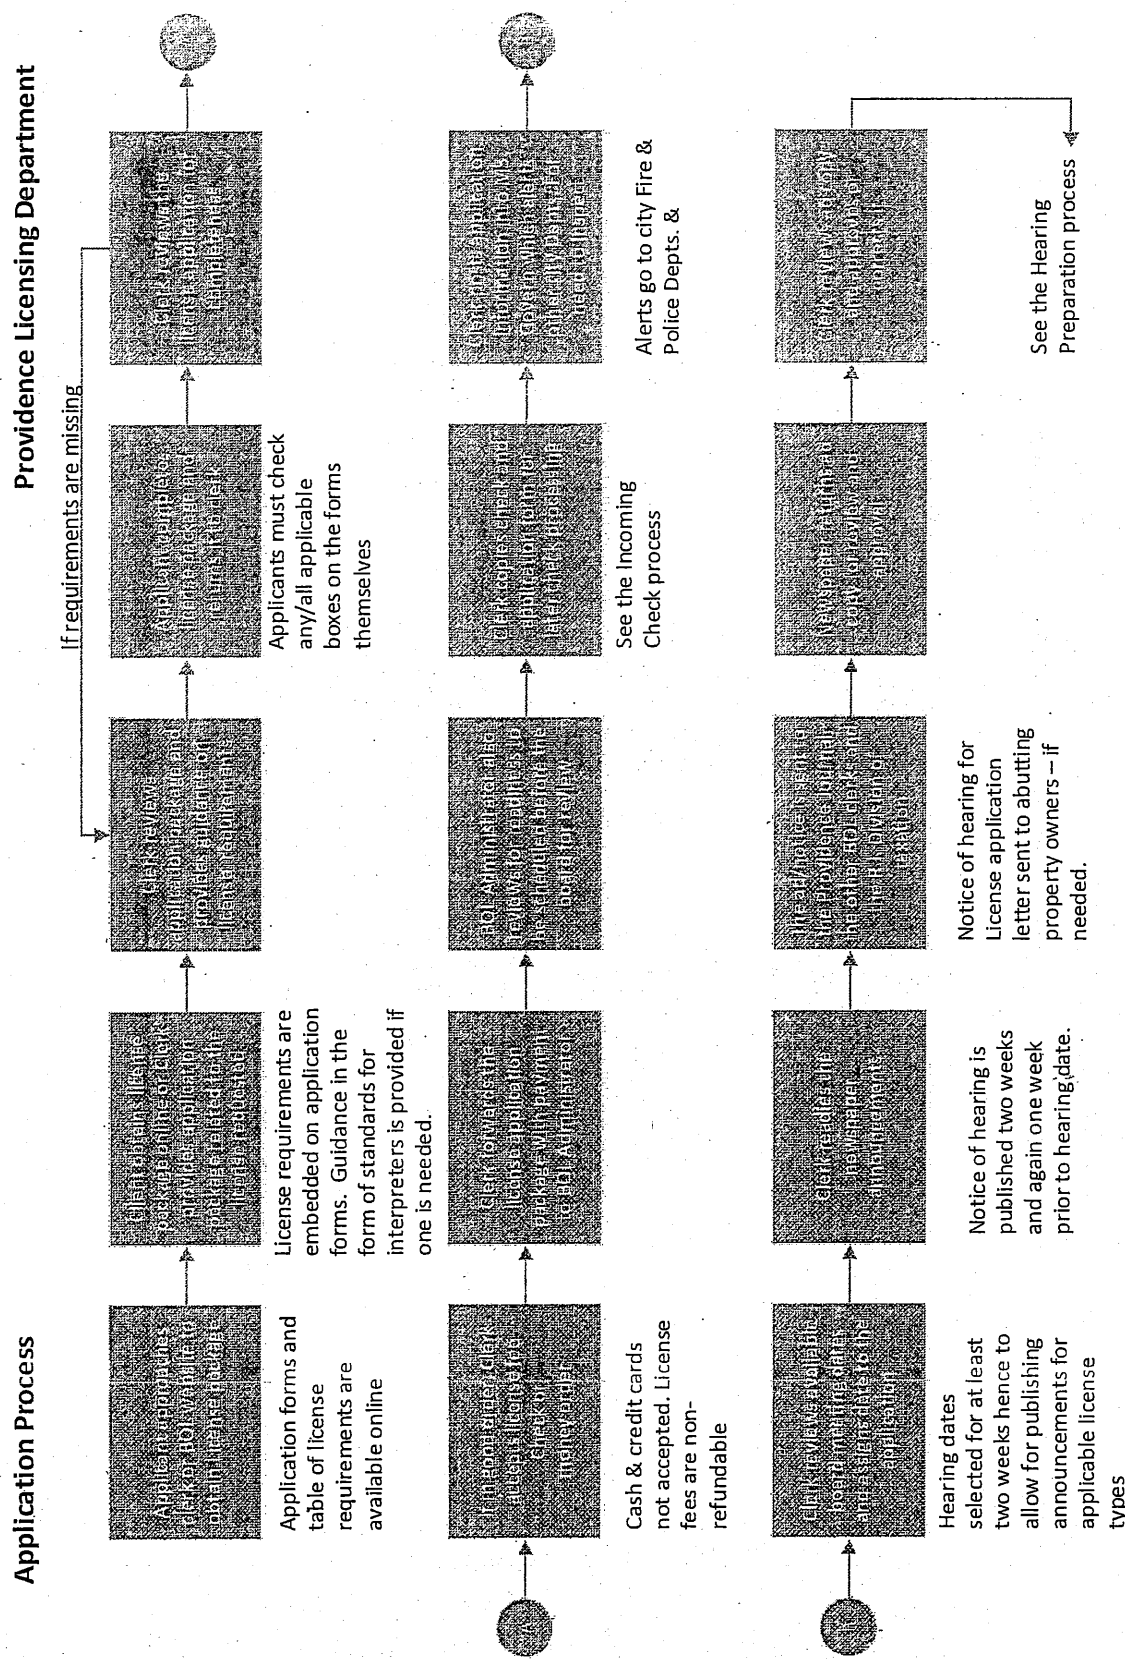

1. Ensure all electronic Department files are centrally located/stored and backed up
2. Complete the review process and implement the updated Board policies and procedures
  - a. Document the meeting protocols including public participation and post (or distribute) at Board meetings
  - b. Develop and document standard fee ranges for violations and standard criteria for license revocations
  - c. Implement thorough training for all board members
  - d. Update the Licensing Department manual with current policies and procedures
  - e. Implement training and cross training within the Department
3. Develop “minimum” standards for license applications to be considered by the Board and have an initial screening or review prior to Board assessment
  - a. Assess the need for Security Plans
  - b. Implement qualified interpreters for hearings
  - c. Obtain an electronic table of City Addresses and related council members for ease of lookup
4. Decrease the time between violations and pre-hearing
5. Formalize the collections process for licensee fines – when not paid in full
6. Perform a technology review/software selection process and invest in software improvements
7. Better utilize, or invest in, a License Renewal software management system
8. Cease the photocopying of paper checks and utilize scanning/online payments
9. Purchase and install hands-free headsets and dual monitors for licensing staff
10. Centralize the entire Floor Host licensing process through the Licensing Department
11. Manage all violations (including tobacco) electronically
12. Implement regular meetings between Licensing Administrator, Assistant City Solicitor, and Health Department
13. Formalize the Inspection procedures
14. Strengthen the overall complaints process – associate complaints to License files
15. Physically separate the Licensing Department from the Vital Statistics Office

## **VI. Workflow Analysis**

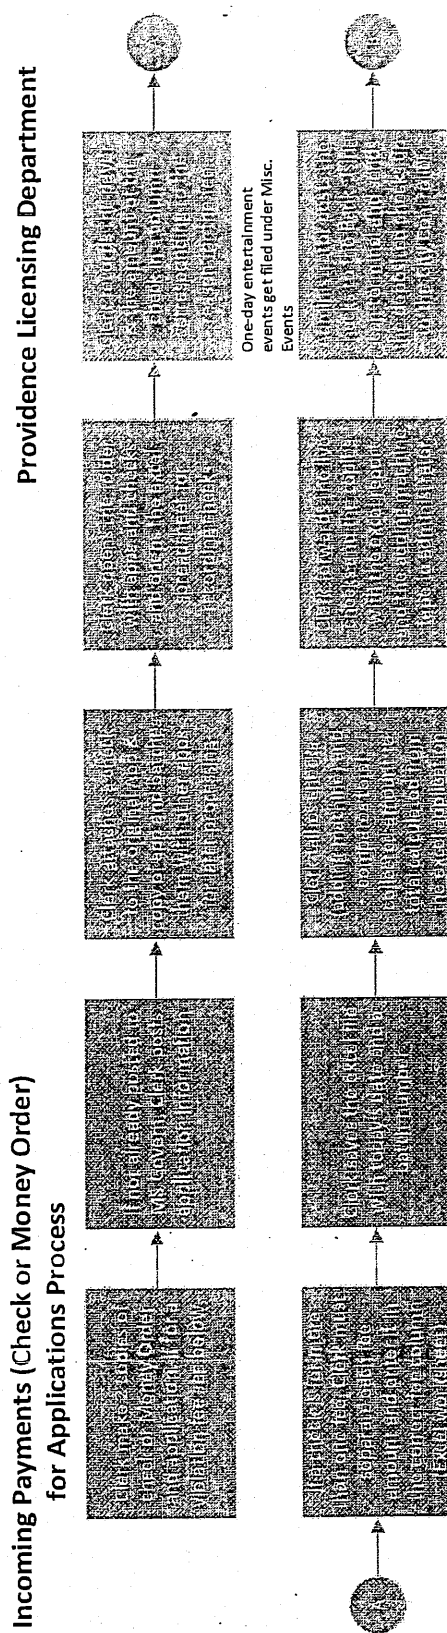

As part of the assessment, BlumShapiro documented high-level process workflows for the various functions of the Licensing Board and Department. Note: these are basic diagrams of key steps involved in major Licensing processes as observed by our onsite visits and discussions with staff and not every detail/process step is documented here. The following processes were observed and documented:

- Application process
- Incoming Payment process
- License Renewal process
- Handling Complaints process
- Violations/Fines process
- Pre-Hearing process
- Hearing Preparation process
- Board Meeting process
- Emergency Meeting process

## Independent Auditors' Report

Honorable Mayor Jorge O. Elorza  
City of Providence, Rhode Island

We have audited the accompanying statements of revenues, expenses and change in net position of the Department of Licenses of the City of Providence, Rhode Island (the Department) for the six months ended December 31, 2016 and the year ended June 30, 2016, and the related notes.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

### **Basis for Qualified Opinion**

Because of the inadequacy of accounting records supporting revenue transactions, we were unable to obtain sufficient appropriate audit evidence regarding the amounts that were recorded as operating revenues in the accompanying statements of revenues, expenses and change in net position for the six months ended December 31, 2016 and the year ended June 30, 2016.

### **Qualified Opinion**

In our opinion, except for the possible effects on operating revenues of the matter discussed in Basis for Qualified Opinion paragraph, the statements of revenues, expenditures and change in net position of Department of Licenses of the City of Providence, Rhode Island, present fairly, in all material respects, the results of its operations for the six months ended December 31, 2016 and the year ended June 30, 2016, in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Note 1, the financial statements of the Department of Licenses of the City of Providence, Rhode Island, are intended to present the results of operations of only that portion of the governmental activities of the City of Providence, Rhode Island, that is attributable to the transactions of the Department of Licenses. They do not purport to, and do not present fairly the changes in financial position for the City of Providence, Rhode Island, for the six months ended December 31, 2016 and the year ended June 30, 2016 in accordance with accounting principles generally accepted in the United States of America. Our qualified opinion is not modified with respect to this matter.

The accompanying notes are an integral part of the financial statements

**DEPARTMENT OF LICENSES OF THE CITY OF PROVIDENCE, RHODE ISLAND**  
**NOTES TO FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Department of Licenses of the City of Providence, Rhode Island (the Department) is a department within the City of Providence, Rhode Island (the City).

**A. REPORTING ENTITY**

These financial statements present only the Department's results of operations.

The Department is responsible for processing a broad range of license applications for the City as well as regulating licenses. Over 8,000 licenses and over 400 liquor licenses are issued per year in eight different categories, including Body Works Services, Entertainment Amusement, Expansion of Premises, Individual Service, Liquor, Restaurants and Food, Service, and Auto Sales and Auto Licenses.

**B. BASIC FINANCIAL STATEMENTS - DEPARTMENT FINANCIAL STATEMENTS**

The Department's financial statements are reported using the "current financial resources" measurement focus and the modified accrual basis of accounting. Their operating statements present sources and uses of available spendable financial resources during a given period. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Department considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred as under accrual accounting.

**C. SUBSEQUENT EVENTS**

Subsequent events have been evaluated through January 17, 2018, the date the financial statements are available for issuance.

**2. PENSION PLAN**

The Department incurred pension expense of \$51,436 and \$111,117 for the six months ended December 31, 2016 and the year ended June 30, 2016.

# BlumShapiro

Accounting | Tax | Business Consulting

To Honorable Mayor Jorge O. Elorza  
City of Providence, Rhode Island  
Providence, Rhode Island

In planning and performing our audits of the statements of revenues, expenses and change in net position of the Department of Licenses of the City of Providence, Rhode Island (the Department) for the six months ended December 31, 2016 and year ended June 30, 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the Department's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the following deficiencies in the Department's internal control to be material weaknesses.

## Accounts Receivable

The Department does not maintain detailed accounts receivable records relative to assessed penalties, fines or licenses and supporting data was not available for our audit. Because of this we were unable to determine if revenue sources were being billed and/or collected properly. We recommend that the Department implement procedures to allow the recording and tracking of accounts receivable from initiation of the receivable through collection. Further, the records maintained should be permanent so as to allow for an audit trail of the individual transactions.

## Supporting Documentation

During our testing of revenues and expenses, we noted several instances where the Department was unable to provide supporting documentation for amounts recorded in the general ledger. In numerous instances, the Department was unable to provide an application related to issued licenses that were selected for testing. We recommend that the Department implement procedures to ensure that all transactions recorded in the general ledger are adequately supported by documentation.

This communication is intended solely for the information and use of the Mayor, City Council and management of the City of Providence, Rhode Island, and is not intended to be, and should not be, used by anyone other than these specified parties.

*Blum, Shapiro & Company, P.C.*

Cranston, Rhode Island  
January 17, 2018

## Management's Response to Blum Shapiro Financial Audit

The Licensing Office transitioned a new License Administrator in June 2017. The new Administrator was tasked with collecting the transactions that occurred in 2016 for the audit. These transactions predated the current Administrator. The outline below lists completed and pending action steps and future initiatives to continue process improvement. Management agrees with the recommended actions as stated below and identifies three areas that capture our commitment to continual improvement – process, technology and personnel.

**Recommendation 1 – Implement procedures to allow permanent recording and tracking of accounts receivable from initiation of the receivable through collection.**  
**Recommendation 2 – Implement procedures to ensure all transactions recorded in general ledger are adequately supported by documentation.**

PROCESS – COMMITTED TO CONTINUAL IMPROVEMENT				
Management recognizes that Standard Operating Procedures (SOP) are critical to best practices in the Department and is committed to drafting, implementing and training staff in various office procedures that achieve efficiency, uniformity and quality control.				
Key action(s)	Time frame	City Departments	Tracking* Comments	Status
1.1 Develop and document new accounting process.	Initiated in Oct 2017	License Administrator	Created and distributed check processing procedure to employees.	Completed.
1.2 Conduct 30-60-90 day assessment of new accounting process. If revisions are necessary, communicate to personnel.	3 months. Initiated in Nov 2017	License Administrator Partnering with IT (Innovation) and Controller's Office	30 day assessment was conducted on Dec 11. Next assessment scheduled for week of Jan 8.	In progress. On target to be completed in 1 <sup>st</sup> week Feb
1.3 Make available new process and train all personnel.	3 months Initiated in Oct 2017	License Administrator Partnering with IT (Innovation)	Training efforts revealed a deficit in computer literacy skills that needs to be addressed.	In progress. Management is working with Local 1033 regarding revised job descriptions to incorporate computer literacy and cross training employees.
1.4 Improve coordination across City departments regarding outstanding balances for City services to enforce City Ordinance 16-27.	2 months	License Administrator Partnering with Controller, Law Department and Police	Ordinance states any balance past 60 days due shall be paid to the City before a license is issued.	Completed.
1.5 Develop and implement policy/procedure for fines and collections.	3 to 6 months Initiated in Jan 2018	License Administrator Partnering with Law Finance, IT (Innovation) Departments	Considerations include: accounting for: late fees; interest; and online payment options.	In progress.

TECHNOLOGY – EMBRACING DIGITAL TRANSFORMATION				
In July 2017 management replaced paper applications and launched online licensing application via Viewpoint software. Results of new platform include: reduced returned checks, increased accountability; automated coding of payment for Controller's Office report; ease of report generation; and more accurate tracking of payments.				
Key action(s)	Time frame	City departments	Tracking*	Status
2.1 Utilize Viewpoint for most license applications.	Initiated in July 2017	License Administrator Partnering with IT (Innovation)		Completed.
2.2 Utilize Viewpoint for centralized record keeping.	3 months Initiated in Nov 2017	License Administrator Partnering with IT (Innovation)	Some license applications remain in paper form for various reasons. Hosting these paper applications within Viewpoint will allow dept to utilize payment features and ensure consistent, centralized record keeping.	In progress but delayed. Scheduled to be completed by February 15, 2018.
2.3 Equip License Inspector with smart device that has a camera and GPS. Integrate GIS mapping to inspection process.	3 months Initiated in Jan 2018	License Administrator Partnering with Telecommunications and IT (Innovation)	Collaborating with Local 1033 regarding job description	In progress.
2.4 Track license violations and assess fines/penalties in Viewpoint.	6 months Initiated in Jan. 2018	License Administrator Partnering with IT (Innovation) and Viewpoint developers	A suite within Viewpoint is in development that will track violations in a similar fashion to license applications. Anticipated date of completion is 3 – 6 months.	In progress. While development proceeds, spreadsheets are being used for tracking violations.
2.5 Enhance License website to improve customer experience.	6 – 12 months Initiated in July 2017	License Administrator Partnering with IT	As department continues to improve and develop more resources for applicants, these processes will be added to website.	In progress. Upon completion department will continue to monitor website for accuracy and ease of use and will solicit feedback from users.
2.6 Integrate all systems to have functionality covered under one platform	1-2 years Initiated in Sept 2017	License Administrator Partner with IT/Innovation	Currently, licensing depends on 4 different software programs for various steps within the license lifecycle. The systems need to communicate with each other to improve efficiency and reduce errors.	In progress. Will require assessment of Viewpoint expansion of features.
2.7 Organize and digitize past records.	1 – 2 years	License Administrator Partner with IT (Innovation)	Licensing was heavily paper-based prior to Sept 2017. Files need to be organized and digitized to help ensure efficient and accurate responses.	Planning. Currently developing and considering resources and options, including employee job descriptions.

PERSONNEL – PROFESSIONAL DEVELOPMENT				
To fully utilize the resources available within the Department's digital transformation, personnel's computer literacy skills must be upgraded, and corresponding job descriptions revised. A plan to cross train Vital Records and Board of Licenses personnel must be completed along with a physical modification of the current office space.				
Key action(s)	Time frame	Responsible unit(s)	Tracking* Comments	Status
3.1 Increasing employee computer literacy	6 months Initiated in Nov 2017	License Administrator Partnering with IT (Innovation) & Human Resources	Management is collaborating with Local 1033 on training opportunities.	In progress.
3.2 Revise job descriptions to reflect upgraded computer literacy requirement.	3 months Initiated January 2018	License Administrator Partner with Human Resources	All job descriptions revisions must be bilaterally negotiated with 1033. This is critical to long-term operational success, especially with current terms of promotion and seniority for 1033 employees.	In progress. Currently working on proposed job descriptions revisions.
3.3 Reconfigure shared office suite.	6 - 12 months Initiated in Aug 2017	License Administrator Partnering with Public Property	New office configuration will support efficiency and provide licensing staff with less disruption.	In progress. Received quote from WB Mason on furniture, discussed with Public Prop Dir.
3.4 Cross train Vital Records and Licensing staff.	6 months Initiated Nov 2017	License Administrator	Cross training provides employees with new skills and fluidity as volumes increase and decrease at various times of the year within Vital Records and Licensing.	In progress.

City of Providence  
Board of Licenses  
Providence City Hall  
Providence, Rhode Island 02903  
LICENSING RULES

**OPERATIONS AND PROCEDURE**

**Table of Contents**

- Section 1. Authority
- Section 2. Purpose
- Section 3. Severability Provisions
- Section 4. Definitions
- Section 5. Effective Date
- Section 6. Rules Governing Operation and Procedure

**Section 1 Authority**

These operational and procedural rules are promulgated by the Board of Licenses of the City of Providence pursuant to Rhode Island General Law § 3-5-20, *et seq.* All statutory reference herein shall be Rhode Island General Laws.

**Section 2 Purpose**

These procedures (hereinafter "Rules") are adopted for the purpose of assisting in carrying out the functions, powers and duties assigned to the Board of Licenses of the City of Providence (hereinafter the "Board"), whether in effect prior to or subsequent to the adoption of these Rules.

These Rules shall govern the conduct of adjudicatory proceedings commenced before the Board after their effective date. These Rules shall be liberally construed to further the fair, prompt and orderly administration and determination of adjudicatory proceedings in conjunction with the Department of Business Regulation rules of Procedure for Administrative hearings. to the extent that any part of these Rules are inconsistent with applicable law or the terms of any other rule promulgated by the Board prior to the promulgation of these Rules, the applicable law and/or the terms of such other rule shall be deemed to apply.

### Section 3 Severability Provisions

If any provision of these Rules or the application thereof to any person or circumstances is held invalid or unconstitutional, the invalidity or unconstitutionality shall not affect other provisions or applications of these Rules which can be given effect without the invalid or unconstitutional provision or application, and to this end the provision of these Rules are severable.

### Section 4 Definitions

When used in these Rules, the following words, except as otherwise required by the context, shall have the following meaning:

- (A) **"Show Cause Hearing"** means an adjudicatory proceeding affording the opportunity for a Licensee to appear before the Board and show cause why its license should not be revoked, suspended, or why any other sanction should not be otherwise imposed for violating one or more terms or conditions of its license.
- (B) **"Board"** means the Board of Licenses of the City of Providence.
- (C) **"Board Counsel"** means the legal representative of the Board.
- (D) **"City Solicitor"** means the duly appointed attorney for the City pursuant to Section 603 of the Providence Home rule charter of 1980 or his/her representative.
- (E) **"Chairperson"** means the Chairperson of the Board.
- (F) **"Commissioner"** means a member of the Board other than the Chairperson.
- (G) **"License Administrator"** means the individual(s) authorized by law or duly designated by the Board to manage the Office of the Board, direct licensing staff in their day-to-day duties, ensure that license application procedures maintain compliance with applicable laws, maintain a record of license violations, facilitate prehearing conferences and report sanction recommendations from conferences to the Board in connection therewith, and perform any other duty which may from time to time be delegated to the License Administrator by the Board.
- (H) **"License"** means a document issued by the Board (sometimes referred to as a license, permit, certificate, approval, registration, and/or charter) granting permission required by law in order to engage in certain enumerated activities.
- (I) **"Licensee"** means any holder of a License.
- (J) **"Party" or "Parties"** means each Person named or admitted as a Party, or properly seeking and entitled as of right to be admitted as a Party in connection with an

adjudicatory proceeding, including but not limited to the Licensee, or made a Party by operation of law in connection with a license application.

(K) **"Person"** means any individual, partnership, corporation, limited liability company, association, governmental subdivision, public or private organization or any other entity however formed.

(L) **"Police"** means the Providence Police Department or any internal department, branch, unit, officer, or agent thereof including but not limited to the License Enforcement Unit.

(M) **"Reasonable Cause"** means there exists a set of facts of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs which would induce a reasonably intelligent and prudent person to believe that a violation(s) of law, rule, or regulation has occurred.

(N) **"Notice of Violation"** means the notice delivered to a Licensee notifying said Licensee of the Board's receipt and acceptance of a Notification of Violation by the Police, a description of the violations alleged, and the date on which the Licensee is to appear for the Show Cause Hearing. If prehearing conference is permitted by the Board, the proposed date for the prehearing conference shall also be included in the Notice.

(O) **"Regular Business Hours"** means the regular business hours of the Board of 8:30 a.m. to 4:30 p.m. Monday through Friday (or any seasonal hours officially established) except for holidays observed by the City of Providence and State of Rhode Island.

## **Section 5 Effective Date.**

These Rules shall become effective immediately upon adoption and promulgation by the Board. Subsequent to the initial adoption and promulgation, the Board will schedule an annual review for discussion and/or modification of these the Operations and Procedures set forth herein. Said discussion and review will be scheduled annually on the earliest practicable date subsequent to the first meeting following qualification of a member of the board appointed in accordance with Section 1102 (a) of the Providence City Charter.

## **Section 6 Rules Governing Operation and Procedure**

### **RULE 1 NOTIFICATION OF VIOLATION AND BOARD INVESTIGATION.**

#### **1.1 Notification of Violation.**

The Police shall provide the Board and the Office of City Solicitor with notification of the violation of the terms or conditions of any license. After review by the office of the City Solicitor and submission to the Board, the Board shall make an initial determination as to whether or not the notification of violation is within the Board's jurisdiction and

whether or not the notification of violation establishes Reasonable Cause. If the Board determines that the notification of violation fails to establish Reasonable Cause, the Board shall take no action on the notification of violation. If the Board determines that the notification of violation establishes Reasonable Cause, the Board shall cause a Show Cause Hearing to be scheduled and shall cause the Licensee to be notified thereof.

#### 1.2 Third-Party Complaints.

A complaint may be made by any Person against any Licensee or any Person who is required to be licensed but is not licensed. The License Administrator shall make an initial written determination as to whether or not the complaint is within the Board's jurisdiction, and is to be submitted to the Board ten (10) days after complaint. If jurisdiction exists, the Board shall conduct whatever investigation it deems appropriate, including forwarding a copy of the complaint to Police for further investigation. Upon completion, the Police shall report to the Board, and the Board shall take one of the following actions:

- (1) If the Board determines that the complaint fails to establish Reasonable Cause, the Board shall take no action on the complaint; or
- (2) If the Board determines that the complaint establishes Reasonable Cause, the Board shall cause a Show Cause Hearing to be scheduled and shall cause the Licensee to be notified thereof or shall take such other action as it deems appropriate under applicable law and these Rules.

#### 1.3 Board Investigations.

The Board on its own authority may initiate an investigation and take action (i) against a Licensee, (ii) against an applicant for a License or for renewal of a License, (iii) against any Person who is required to be licensed but is not licensed, and (iv) against any Person who is subject to the regulatory authority of the Board. All such actions shall be upon such terms and conditions as are permitted under applicable law and these Rules.

### RULE 2 ADJUDICATORY ACTION.

#### 2.1 Show Cause Hearing.

The Show Cause Hearing shall follow an adversarial procedure whereby the City shall present evidence to the Board of the Licensee's violation of law or one or more terms or conditions of its license and the Licensee shall be given an opportunity to present evidence in support of its defense(s) to the allegations. The Board shall also receive into evidence from the Police, and from any officer, department or agency of the city as to matters within the officer's or agency's jurisdiction, any information the alleged violation. The Board may, sua sponte, make inquiry of the Licensee concerning any violation which has been presented to the Board or concerning any other matter or violation which the Board, in its discretion, considers to be relevant to the proceeding before it. Once all evidence has been entered into the record and all Parties have rested, the Board will review and deliberate upon the evidence and render a decision within ten (10) business days from the close of the hearing. Nothing herein contained shall be construed so as to prevent the Board from making an immediate determination or decision at the close of the hearing.

## 2.2 Pre-hearing Conferences.

The Board may schedule a prehearing conference prior to a Show Cause Hearing. The prehearing conference shall afford the Licensee an opportunity to meet informally with the City Solicitor, or his or her designee and/or a representative from the Providence Police as well as any other pertinent individuals as determined by the Board, through its chairperson, in order to address the violation. Upon reviewing the facts and circumstances surrounding the violation and the Licensee's violation history, and after consultation with the Police and License Administrator, and in consideration of the Board's policy of Progressive Discipline, the City Solicitor shall determine and recommend a sanction which may be conceded to by the Licensee in lieu of appearing at a Show Cause Hearing, subject to the Board's approval and acceptance thereof.

2.2.1 If the Licensee admits to the violation and concedes to the recommended sanction, the License Administrator shall recommend the sanction to the Board at its next regularly scheduled meeting following the prehearing conference. The Board may accept or reject the recommended sanction. If the Board accepts the recommended sanction, the Licensee's admission to the violation shall be entered on the record and the sanction shall be imposed with no further show Cause Hearing required. If the Board rejects the recommended sanction, the Board shall require the Licensee to appear and the Show Cause Hearing to proceed.

2.2.2 If the Licensee does not admit to the violation and concede to the recommended sanction, and at the conclusion of the Show Cause Hearing the Board determines that the Licensee did violate one or more terms or conditions of its license, the Board may impose any sanction or sanctions as it deems fit.

2.2.3 The Licensee may refuse to participate in a prehearing conference and opt to proceed directly to a Show Cause hearing upon notifying the License Administrator not less than one (1) business day prior to the scheduled prehearing conference.

2.2.4 The scheduling of prehearing conferences is at the Board's discretion. The Board may order the Licensee to appear at a Show Cause Hearing without first permitting a prehearing conference.

2.2.5 If the Licensee is offered an opportunity to resolve the matter at a prehearing conference in lieu of a Show Cause Hearing and the Licensee, or the Licensee's duly authorized representative is unable to attend the conference, and the License Administrator is notified of this inability to attend in advance, the prehearing conference shall be continued to another date not more than five (5) business days from the date of the initial conference. No prehearing conference shall be continued more than one (1) time for the Licensee's inability to attend. The Licensee's inability to appear at a continued prehearing conference, or the Licensee's failure to appear at a prehearing conference without prior notice being given to the License Administrator, shall result in immediate advancement to a Show Cause Hearing.

2.2.6 At any Show Cause Hearing set forth herein, the Party(ies) (i.e. the Police and the Licensee) may agree to stipulate to any or all of true facts alleged which have given rise to the Show Cause pre-hearing. The parties may agree as to any pertinent facts, violations or penalties prior to any hearing subject to review and acceptance by the Board.

### RULE 3 REPRESENTATION.

The Board shall notify the Licensee that the Licensee may retain legal counsel admitted in the State of Rhode Island. Said notification shall be set forth in the Board's Notice of Violation to the Licensee.

3.1 Individuals, and partners of partnerships, may appear pro se if they choose, however, corporations may not appear pro se.

3.2 If a Party is not appearing pro se he, she, or it must be represented by a member in good standing of the Bar of the State of Rhode Island or by out of state attorneys admitted pro hoc vice by the Superior Court or by the appropriate court unless exempted pursuant to R.I. Gen. Laws § 11-27-11. All attorneys must conform to all standards of legal ethics required of practitioners before the courts of the State of Rhode Island.

### RULE 4 FILING OF PLEADINGS AND OTHER DOCUMENTS.

#### 4.1 Title.

All pleadings and other documents filed with the Board in any Show Cause Hearing shall, whenever possible, state the title of the proceeding and the name of the Person on whose behalf the filing is made. A decision may be rendered by the board as to any action upon said agreement or stipulation, the City Solicitor shall present a brief statement of pertinent facts on which sanctions are appropriate.

#### 4.2 Form and Size.

All pleadings and other documents filed with the board, except those documents which are kept in a smaller or larger format during the ordinary course of business, are to be submitted on 8 1/2 by 11 inch paper.

#### 4.3 Electronic Filing.

At the discretion of the Board, filings may be made by telecopier, facsimile, or by electronic mail or any other manner or means approved by the Board. If filings are made electronically, the filing party shall also file a hard copy of any such electronic filing. All documents must include, if applicable, the Rhode Island Bar number, address, telephone number, facsimile number and e-mail address of each attorney and pro se litigant. All papers shall be filed during Regular Business Hours. The board's date stamp shall be presumptive of the actual date of filing.

4.4 Signature.

The original copy of each document shall be signed and dated by the party on whose behalf the pleading is made or by the party's authorized representative. This signature shall constitute a certification that the individual has read the document, knows the contents thereof and to the best of his/her knowledge believes that such statements are true, that it is not interposed for delay and that if the document has been signed by an authorized representative, he/she has full power and authority to do so.

4.5 Construction.

All documents shall be liberally construed and errors or defects therein which do not mislead or affect the substantial rights of the parties involved may be disregarded.

RULE 5 SERVICE.

A copy of all documents filed in any proceeding governed by these Rules shall be served upon all other parties.

5.1 Manner of Service.

Unless otherwise ordered or authorized by the Board, service under these Rules shall be made upon a Party or upon the Party's attorney, if an appearance has been entered, by first class mail postage prepaid, certified mail or hand delivery to his or her place of business, home address or other address supplied by the Party. Service upon persons who have not yet made an appearance shall be at the last address on file with the Board for any licensee. For non-licensees, service shall be at the last known address which the Board reasonably believes will result in actual delivery to the non-licensee. Service by mail is complete upon mailing.

5.2 Certificate of Service.

There shall accompany and be included in the original of each paper filed with the Board a certificate of service showing service on all parties.

5.3 Date of Certificate to Govern.

In addition to the provisions of Rule 6 *et seq.* of these Rules, the time for response to all papers shall commence as of the date of the certificate of service. However, if service is made by mail, then one (1) day shall be added to the prescribed period.

RULE 6 TIME.

6.1 Computation.

Unless otherwise specifically provided by law, computation of any time period referred to in these Rules shall begin with the first day following the act which initiates the running of the time period (including Saturday, Sunday and legal holidays). The last day of the time period so computed is to be included unless it is a Saturday, Sunday or legal holiday or any other day on which the Board is closed, in which case the period shall run until the end of Regular Business Hours of the next following business day.

6.2           Extensions of Time.

It shall be within the discretion of the Board, for good cause shown, to extend any time limit. All requests for extensions of time shall be made by written motion filed with the Board before the expiration of the applicable time period unless waived by the Board.

6.3           Continuances.

Except as otherwise provided by law, the Board may, at any time, with or without request, continue or adjourn a prehearing conference or a hearing. If a Party requests a continuance, the Board may direct the party to seek the assent of the other Party(ies) prior to deciding whether to grant such request. If the Board grants a continuance at the request of a Party(ies), the Board may direct the Party(ies) requesting the continuance to immediately notify all other parties of record and if deemed necessary to prepare an order. If such an order is made, the continuance will only be effective when the notification to all other parties of record has been made.

RULE 7       MOTIONS.

Any Party may request that the Board enter any order or action not inconsistent with law, rules promulgated by the Department of Business Regulation, or these Rules. The types of motions made shall be those which are permissible under these Rules and the Rhode Island Superior Court Rules of Civil Procedure ("Super. R. Civ. P."). (Ref. 10.1 for ruling.)

7.1           Presentation/Objections to Motions.

Motions may be made in writing at any time before or after the commencement of a prehearing conference or Show Cause Hearing, and/or they may be made orally during a Show Cause Hearing. Each motion shall set forth and/or state the grounds for the desired order or action and state whether oral argument is requested. Within ten (10) days after a written motion is filed with the Board and served on the opposing Party(ies), a Party opposing said motion must file a written objection to the granting of the motion, and shall, if desired, request oral argument. All written motions and objections shall be accompanied by a written memorandum specifying the legal and factual basis for the Party's position.

7.2           Action on Motion.

The Board shall, if it determines oral argument on the motion is warranted, give notice of the time and place for such argument. The Board may rule on a motion without argument if the motion involves a matter as to which the presentation of testimony or oral argument would not advance the Board's understanding of the issues involved or if disposition without argument would best serve the public interest. The Board may act on a motion when all Parties have responded thereto, or the deadline for response has passed, whichever comes first.

RULE 8       DISCOVERY.

The Board favors prompt and complete disclosure and exchange of information and encourages informal arrangements among the Parties for this exchange. It is the Board's

policy to encourage the timely use of discovery as a means toward effective presentations at hearing and avoidance of the use of cross-examination at hearing for discovery purposes.

8.1 Procedure.

Any Party, by written request served upon all other Parties, may request the other Party to produce for inspection, copying or photocopying document, object or tangible things which are relevant to the subject matter of the hearing. Written requests for discovery submitted to the Board shall be considered requests made pursuant to the Access to Public Records Act and shall be fulfilled in accordance with the procedure set forth therein.

8.2 Hearing Delay.

No hearing shall be continued to permit the completion of discovery unless due diligence is shown.

8.3 Discovery Schedule.

At the discretion of the Board, the discovery schedule shall be set at the prehearing conference or by agreement of the Parties prior to the Show Cause Hearing. The Board may amend such discovery schedule at the request of a Party or on its own volition.

8.4 Written Discovery.

Written discovery as set forth in Super. R. Civ. P. 26, *et seq.* is allowed but may be limited by the Board.

8.5 Types of Discovery.

Any other types of discovery as set forth in Super. R. civ. P. 26, *et seq.* may be allowed in the discretion of the Board.

8.6 Discovery Disputes.

Objections to discovery requests shall be made pursuant to Super. R. Civ. P. 26, *et seq.* If there is a dispute between the Parties relating to a Party's failure to respond to discovery, the Party requesting the discovery shall comply with Super. R. Civ. P. 37(a)(2) prior to filing a Motion to Compel Discovery with the Board.

8.7 A Party is not required to file discovery responses with the Board unless otherwise ordered by the Board.

8.8 Subpoenas.

Requests for discovery in any proceeding before the Board to a Party shall be in the form of a subpoena or subpoena duces tecum pursuant to the Board's subpoena authority as set forth in Providence Home Rule Charter § 1102. The Board may require the attendance and testimony of witnesses and compel the production and examination of papers, books,

accounts, documents, records, certificates and other evidence that may be necessary or proper for the determination and decision of any question before the Board. Except as may be otherwise provided by law, in cases where a subpoena or subpoena duces tecum is not honored, the Board may direct the party requesting said subpoena to make said application to the State of Rhode Island Superior Court or an order to show cause why the party who failed to honor the subpoena shall not be held in contempt and for such further relief as may be appropriate.

Where the Board elects to direct a party to initiate contempt proceedings with the Court, the Board shall stay the adjudicatory proceeding pending before it and may suspend all licenses held by the licensed Party until such time as the person who failed to honor the subpoena honors the subpoena or is found to be in contempt by the Court and ordered to honor the subpoena or the subpoena is quashed, whichever occurs first. The Board may, sua sponte, or on motion of any of the Parties or witnesses, issue such protective orders, grant such motions to quash and grant other motions as justice or fairness may require.

## RULE 9 EVIDENCE.

### 9.1 Rules of Evidence.

Irrelevant, immaterial or unduly repetitious evidence shall be excluded in all proceedings wherein evidence is taken. While the rules of evidence as applied in civil cases in the Superior courts of this state shall be followed to the extent practicable, the Board shall not be bound by the technical evidentiary rules. Evidence not otherwise admissible may be admitted, unless expressly precluded by statute, when necessary to ascertain facts not reasonably susceptible of proof under the rules, if it is of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs. The rules of privilege recognized by law shall apply. Objections to evidentiary offers may be made and shall be noted in the record.

### 9.2 Exhibits, Copies.

In all cases wherein evidence is taken, exhibits may be introduced in the form of copies or excerpts, if the original is not readily available. Upon request, a Party shall be given an opportunity to compare the copy with the original.

### 9.3 Administrative Notice.

In all proceedings wherein evidence is taken, notice may be taken of judicially cognizable facts. In addition, notice may be taken of generally recognized technical or scientific facts within the Board's specialized knowledge; but Parties shall be notified either before or during the hearing, or by reference in preliminary reports or otherwise, of the material noticed, including any report or data required by law or regulation to be filed with the Board, and they shall be afforded an opportunity to contest the material so noticed. The Chairperson's and Commissioners' experience, technical competence and specialized knowledge may be utilized in the evaluation of the evidence. The burden is on the Party requesting the Board's notice to produce the documents or other matter for the Board's review. In all proceedings, the Board may take administrative notice of its records as to the violation listing of the license.

9.4 Municipal Employees, Agents and Consultants.

The Board may employ the use of employees, agents and consultants of the City of Providence to assist it in the evaluation of any evidence introduced at the hearing. In the Board's discretion, it may allow the presence of these persons at the hearing.

9.5 Oath.

All testimony shall be under oath or by affirmation.

9.6 Testimony.

A Show Cause Hearing or other adjudicatory proceeding before the Board is an administrative hearing. Notwithstanding whether or not the Person is a Party to the proceeding, no Person called to appear before the Board, or compelled by subpoena to do so, may refuse to appear and provide testimony in response to examination by the Board, Police, or any Party. At the discretion of the Board, an adverse inference may be drawn by an assertion by a witness or a Party of his/her Fifth Amendment rights under the U.S. Constitution.

9.6.1 Witness Sequestration.

Witnesses may not be sequestered from adjudicatory proceedings unless so ordered by the Board.

RULE 10 CONDUCT OF HEARINGS.

Hearings shall be as informal as may be reasonable and appropriate under the circumstances. All Parties, witnesses and other Persons at a hearing shall conduct themselves in a manner consistent with the standards of decorum commonly observed in any courtroom. Where such decorum is not observed, the Board may take appropriate action including ejectment or adjournment, if necessary.

10.1 Duties of Chairperson.

The Chairperson shall conduct the hearing, make all decisions regarding admission or exclusion of evidence or any other procedural matters and either administer oaths to all witnesses or ask the stenographer to do so. The Chair, in his or her discretion, may direct any question of procedure or law to board counsel to assist in evidentiary and legal matters which may arise during the course of proceedings.

10.2 Order of Proceedings.

Except as otherwise required by law, it shall be the usual practice that the Board or the Police or the complainant shall open. Where evidence is peculiarly within the knowledge of one Party, or in cases in which Notifications of Violation have been consolidated or where there are multiple Parties, the Chairperson may, in his/her discretion, direct who shall open and shall further designate the order of presentation.

10.3 Rights of Parties.

Parties shall have the right to present evidence, cross-examine witnesses, object, and make motions and present arguments.

RULE 11 RECORD OF PROCEEDINGS.

All Board of Licenses hearings shall have a full and accurate record of the proceedings, whether by stenographic means or recording. All records of the proceedings shall be accessible to the public either through the Office of the Board of Licenses or online immediately following the conclusion of a hearing. Additionally, a complete, accurate, and up-to-date record of the history of a licensee's violations, fines, penalties, and decisions before the Board of Licenses and Department of Business Regulation shall be available to the Board of Licenses and the public prior to any hearing or meeting in which said licensee appears on the agenda.

The Board shall be provided with the original of the stenographic record and Board counsel, upon request, shall be provided with a copy at no cost. Any Party may on his, her or its own initiative order a stenographic record made of the proceedings. The requesting Party shall incur all costs associated therewith.

11.1 If a Party chooses to appeal a final Board decision to the Department of Business Regulation, in connection with liquor licensing pursuant to R.I. Gen. Laws § 3-7-21, *et seq.*, or if a Party chooses to challenge a final Board decision by writ of certiorari to the Supreme Court of the State of Rhode Island, and the Department of Business Regulation or Supreme Court requires a transcript of the hearing, where the hearing was recorded by stenographic record, said Party shall be responsible for ordering the stenographic record made of the proceedings at his, her, its expense, and where the hearing was recorded by audio or video record, said Party shall be responsible for having the transcript prepared by an independent person or company at his, her or its expense within twenty (20) days of filing the appeal or request for writ.

RULE 12 PUBLIC HEARINGS.

Except as required by law, all hearings are to be open to the public. In general, any Person who is not a Party to a proceeding may, in the discretion of the Chairperson, be permitted to make oral or submit written statements on any issues relevant to the proceeding, limited within discretion.

RULE 13 CLOSE OF PROCEEDINGS.

At the conclusion of the evidence, the Chairperson may, in his/her discretion, permit the Parties and, in the case of Show Cause Hearings, the Police, to argue orally and/or to submit written briefs. The record in the proceeding shall close after oral argument, the deadline for the filing of the briefs or upon such date as may be set by the Chairperson. No evidence shall be admitted thereafter, unless otherwise ordered by the Board.

#### RULE 14 WAIVER OF HEARING.

In any proceeding, if the Parties agree to waive the hearing, the Board may dispose of the matter upon the pleadings and other submittals of the Parties.

#### RULE 15 DISPOSITIONS.

Unless otherwise precluded by law, disposition may be made of any Show Cause Hearing or other adjudicatory proceeding at any time by stipulation, consent agreement, consent settlement, consent order, default or dismissal by the board.

##### 15.1 Consent Agreements and Consent Orders.

The board may enter into a consent agreement with a Party(ies) at any time. A consent agreement is valid if approved by order of the Board and signed by the Chairperson or his/her duly designated agent. Both consent agreements and consent orders are considered public records pursuant to the Access to Public Records Act, R.I. Gen. Laws § 38-2-1 *et seq.*

#### RULE 16 PENALTIES.

In determining the appropriate penalty to impose on a Party found to be in violation of a statute(s), ordinance(s), rule(s) or regulation(s), the Board shall look to its past precedence as well as the past precedence of the courts, and, in matters concerning liquor licensing, of the Department of Business Regulation for guidance and may consider any mitigating or aggravating circumstances. The Board embraces a policy of progressive discipline generally. However, this policy in no way restricts the Board from imposing more or less stringent or even the maximum penalties permissible by law for any violation at any time. The Board retains complete discretion in determining appropriate penalties and while it is guided by past precedence and a policy of progressive discipline, penalties imposed in the Party's prior disciplinary history, or the disciplinary history of other holders of the same license as the Party, are in no way predictive or determinative of future penalties.

16.1 Mitigating circumstances may include, but shall not be limited to the following:

- The Party's licensing history, i.e. the absence of prior disciplinary actions;
- The Party's cooperation with Police and the Board; and
- The Party's willingness to give a full, trustworthy, honest explanation of the matter at issue.

16.2 Aggravating circumstances may include, but shall not be limited to, the following:

- The Party's prior disciplinary history;
- The Party's lack of cooperation and/or candor with Police and the Board;
- The seriousness of the violation;

Whether the Party's act(s) undermines the regulatory scheme at issue;  
Whether there has been harm to the public or a threat to public health, safety or welfare; and  
Whether the Party's act(s) demonstrates dishonesty, untrustworthiness, incompetency, or disregard for the law or public health, safety or welfare.

16.3 The finding of mitigating factors will not necessarily lead to a reduction in the penalty imposed if the circumstances of the violations found by the Board are such that they do not warrant a reduction in penalty.

16.4 Renewal of licenses after effective date.

Any license issued by this board which has not been renewed by the license holder for a period of twelve (12) months following the expiration date of the license under the applicable statutory or municipal law associated with said license, shall be subject to nonrenewal. In the event of nonrenewal, the applicant may file a new application for the license at issue subject to any new license requirements.

RULE 17 DECISIONS.

All decisions rendered and orders issued by the Board in open forum at the conclusion of a hearing shall be provided to the Parties in writing within three (3) business days thereof. The decision and order shall be delivered to the Parties with a notice indicating the right to take an appeal of the decision and order to the Department of Business Regulation, in matters concerning liquor licensing pursuant to R.I. Gen. Laws § 3-7-21, or the right to challenge the decision and order by request for writ of certiorari to the Supreme Court of the State of Rhode Island in matters concerning all other licensing within the jurisdiction of the board.

RULE 18 PUBLICATION OF LICENSE SUSPENSIONS AND REVOCATIONS.

Any final decision and order of the Board which results in the imposition of a sanction of suspension or revocation of a License, may be published as many times and in whatever manner as the Chairperson, in his/her sole discretion, deems necessary to adequately inform the public of the action taken. The intent to publish a sanction shall be contained in the final decision, final order, consent agreement, or consent order. The License Administrator may require the Licensee to bear the cost of the publication.

RULE 19 RECONSIDERATION.

At any time after the issuance of a final order of the Board, any Party may, for good cause shown, by motion petition the Board to reconsider the final order. The petitioner shall file his/her motion within twenty (20) days of the issuance of the final order and shall set forth the grounds upon which he/she relies. The Board may grant the motion for reconsideration within its discretion and shall order such relief as it deems appropriate under the circumstances.

19.1 The Board shall not entertain a motion for reconsideration filed more than 20 days after entry of the final decision, unless the Chairperson finds good cause to entertain said motion.

19.2 Notwithstanding the provisions of this Rule, the Board may, within its own discretion, on its own motion, reconsider the final order and affirm, reverse, amend, modify, or supplement the order or order such other relief as it deems appropriate under the circumstances.

## RULE 20 JUDICIAL REVIEW.

Except in connection with matters concerning liquor licensing, any Party aggrieved by a final written order of the Board may file a request for writ of certiorari with the Supreme Court of the State of Rhode Island. In the absence of a timely request for writ, the order or decision of the Board shall become final and no further administrative challenge may be taken.

### 20.1 Liquor Licensing Exception.

Notwithstanding any other provisions of this Rule, any Party aggrieved by a final written order of the Board in connection with a liquor license may file an appeal with the Department of Business Regulation pursuant to R.I. Gen. Laws § 3-7-21. In the absence of a timely appeal, the order or decision of the Board shall become final and no further administrative appeal may be taken.

## RULE 21 DEFAULT.

If any Party to a proceeding fails to answer a complaint, plead, appear at a prehearing conference or Show Cause Hearing or other adjudicatory proceeding or otherwise fails to prosecute or defend an action as provided by these Rules, the Board may enter a default judgment against the defaulting Party, take such action based on the pleadings and/or other evidence submitted by the non-defaulting Party as the Board deems appropriate in its sole discretion or take such other action as the Board deems appropriate in its sole discretion. Challenge to such an order shall be made as a motion for reconsideration per Rule 19 above.

## RULE 22 DISQUALIFICATION; RECUSAL; INCAPACITY OF CHAIRPERSON AND/OR COMMISSIONER(S).

### 22.1 Disqualification.

Any Party may make a motion to the Board requesting that it disqualify or remove the Chairperson or one or more Commissioner(s) from the proceeding. The motion shall be accompanied by an affidavit setting forth the reasons for the disqualification. In the

event that the motion to disqualify is granted, the remaining members of the Board shall adjudicate the matter.

22.2 Incapacity or Recusal.

When a member of the Board becomes incapacitated or unavailable to complete a hearing and/or render a decision, or when a member of the Board recuses him/herself from the hearing due to a perceived conflict of interest, the hearing shall be conducted and/or the decision shall be rendered by the remaining members of the Board so long as said remaining members are of a sufficient number to reach a quorum. If any Party objects to the completion of the proceeding absent the incapacitated Board member, that Party must prove prejudice by presentation of argument and evidence to the remaining Board members. If the remaining Board members find that the objecting Party will be prejudiced, the remaining Board members will issue an order making such findings and will hear the matter de novo.

22.3 Changes or removal of chair or other officers of board.

- a. In accordance with the provisions of the City of Providence Home Rule Charter, a chairperson shall be chosen at the first meeting following qualification of the member appointed for that year. In the event of a vacancy in the office of chairperson or secretary, the board shall fill the vacancy for the balance of the term. Said election is in the ordinary course of business and shall be chosen by a simple majority vote.
- b. Notwithstanding the foregoing, in the event that a member or members of the board seek to change or remove the chair or any officers of the board as a result of a vote of no confidence or otherwise, a motion may be made by said member or members which shall set forth the reasons for said change in officers and upon second by another member, a vote to appoint a successor officer shall be held. A majority vote by four (4) members of the board is required to change or replace the existing chair or officer.
- c. No chairperson or officer may be removed pursuant to subsection b.hereof prior to completion of six (6) months service as chairperson.

RULE 23 MISCELLANEOUS

23.1 Intervention.

Any Person claiming a right to intervene or an interest of such a nature that intervention is necessary or appropriate to the administration of the law, rule or regulation under which the proceeding is brought may seek to intervene in any proceeding. Intervention may be initiated by filing a motion to intervene with the Board. The motion shall set out clearly and concisely the facts from which the nature of the movant's alleged right of interest can be determined, the grounds for the proposed intervention and the position of the movant in the proceeding.

23.2 Consolidation.

The Chairperson may, in his/her discretion, consolidate or combine two (2) or more matters for purposes of hearing or other proceedings, when he/she finds that sufficient common issues of fact or law or both are involved or that administrative efficiency is best served by such consolidation.

23.3 Plural.

Words in the singular number include the plural, and vice-versa, except where the context otherwise requires or where a contrary result appears from necessary implication.

23.4 Board Counsel.

The City Solicitor of the City of Providence and/or his designee shall facilitate the Board's investigation in connection with Show Cause Hearings and prosecute the cases on behalf of the Police. The City Solicitor shall also represent the Board before the Department of Business Regulation and in all litigation to which the Board may be a party. The Board, in conjunction with the City Solicitor, may appoint outside counsel as legal advisor, to hold office at the pleasure of the Board, for the purpose of advising the Board upon all questions involving its official actions and business. Said legal advisor may also appear before the Department of Business Regulation and in litigation in which the Board is a party. In all such instances, said legal advisor shall be subordinate to the City Solicitor of the City of Providence and in all litigation to which the Board may be a party, said legal advisor shall be under the direction of the City Solicitor.

23.5 Statutes, Ordinances, and Charter Provisions.

If any statute, ordinance, or provision of the Home Rule Charter of the City of Providence has different requirements than those contained these Rules, the statute, ordinance or charter provision shall be controlling.

23.6 Public Documents.

The board reserves the right to publish in any form any public document.

23.7 Decorum and Professional Conduct

All parties, attorneys, witnesses, and other persons at a hearing shall conduct themselves in a manner consistent with the standards of decorum commonly observed in any courtroom. Where such decorum is not observed, the Board Chair may take appropriate action, including ejectment or adjournment, if necessary.

23.8 Rules of Evidence

Irrelevant, immaterial or unduly repetitious evidence shall be excluded in all proceedings wherein evidence is taken. While the rules of evidence as applied in civil cases in the Superior Courts of this state shall be followed to the extent practicable, the Hearing Officer shall not be bound by the technical evidentiary rules. Evidence not otherwise admissible may be admitted, unless precluded by statute, when necessary to ascertain facts not reasonably susceptible of proof under the rules, if it is of a type

commonly relied upon by reasonably prudent persons in the conduct of their affairs. The rules of privilege recognized by law shall apply. Objections to evidentiary offers may be made and shall be noted in the record. The chairperson or presiding commissioner may request an evidentiary or legal ruling from board counsel at any time during the course of a proceeding.

## RULE 24 CONSENT ORDERS.

At any time after the issuance of the Notice of Violation and prior to the close of the record of a Board hearing, the Parties may attempt to dispose of the matter by entering into a consent order as provided in Rule 15.1 of these Rules.

### 24.1 Minimum Requirements.

Every consent order shall contain, at a minimum, an admission of all jurisdictional facts and express waivers of further procedural steps before the Board, including the right to appeal or otherwise challenge the Board's action.

### 24.2 Action on Consent Order.

Upon receiving a proposed consent order, the Board may accept and adopt the consent order as the full and final disposition of the matter or reject the consent order. In the event that the Board rejects the consent order, the matter shall continue through the administrative hearing process. Nothing herein shall prevent the Parties from subsequently entering into and presenting to the Board a new consent order for consideration.

## RULE 25 ADMINISTRATIVE HEARING SETTLEMENTS.

The Parties may enter into a settlement at any time prior to the close of the record of an administrative hearing. The Parties shall put the settlement on the record. If the Parties settle the matter, the Parties shall present the Board with a stipulation of settlement asking that the settlement be accepted and adopted by the board as the full and final disposition of the matter. Settlements shall adhere to the same minimum requirements as pertain to consent orders pursuant to Rule 24.1 of these Rules.

## RULE 26 REQUIREMENTS OF COMMISSIONERS

### 25.1 Required Training of Board Members and Staff

1. New members of the board. Any new member of the Board of Licenses shall be required to receive professional certified training on all relevant State statutes, City ordinances, and relevant rules and regulations, as well as ethics training and training on the Board of Licenses' Operations and Procedures Manual prior to their first meeting as a member of the board.

2. Mandatory annual training. All members of the Board of Licenses and all paid staff of the Office of the Board of Licenses shall be required to receive annual training in ethics and all relevant policies, procedures, laws, and ordinances.

25.2 It shall be the duty of the Chair of the Board of Licenses to submit an annual report to the Mayor and the City Council no later than January 31<sup>st</sup> of each calendar year. The annual report shall include, but shall not be limited to:

1. A breakdown of all licenses applications, approvals, transfers, and revocations from the past calendar year.
2. A breakdown of all complaints, violations, fines, and penalties issued in the past calendar year by licensee.
3. A breakdown of all appeals of Board of Licenses decisions, including outcomes.
4. All agendas from Board of Licenses meetings and hearings from the past calendar year.
5. A breakdown of any changes made to the Board of Licenses' Operations and Procedures Manual, with explanations, during the last calendar year.
6. An accounting of all fees and fines collected in the past calendar year, including any outstanding or unpaid fees and fines.
7. Any suggested changes to State statutes or City ordinances the members of the Board feel would improve the operations of the Board of Licenses or the Office of the Board of Licenses.

#### RULE 27 PUBLIC INFORMATION.

Access to public records shall be governed in accordance with R.I. Gen. Laws § 38-2-1 *et seq.*

#### RULE 28 OPEN MEETINGS.

All meetings by the Board shall be subject to and governed in accordance with R.I. Gen. Laws § 42-46-1, *et seq.*

#### RULE 29 LIQUOR LICENSE REMONSTRANCE PROCESS

Any and all applications for licenses subject to the provisions of R.I.G.L. §3-7-19 shall include the following:

Two 200' radius plans drawn to a scale of 1"= 50' from all corners of the lot or lots in question.

Show all lot numbers, owners' names, street numbers and buildings (if any) on each lot within the radius, present use (example: parking lot, vacant lot, gas station, number of families, etc.) zone boundaries (including overlay districts), tax assessor's plat boundaries and indicate new construction and additions.

If the 200' radius line intersects any lot(s) such lot(s) must be included fully within the radius.

Two (2) copies of a list containing the following information, consistent with the latest data available in the office of the Providence Tax Assessor:

- a. Each plat and lot number that appears within the 200 foot radius plan

b. The corresponding names and MAILING addresses, including zip codes, of all property owners of each plat and lot number listed.

c. Two (2) sets of mailing labels with names and full mailing addresses of each property owner within the 200 foot radius

All said plans should be properly drawn with a designated scale contained therein and stamped or certified by the preparer who should be a licensed architect, surveyor, draftsman or like individual.

*(All plans should be signed by the author and must contain the author's full name, address and telephone number.)*

### RULE 30 BX APPLICATION PROCESS

In accordance with R.I.G.L. §3-7-7(a)(4), a holder of a B License may file application to open for business at twelve o'clock (12:00) p.m. and on Fridays and Saturdays and the night before legal state holidays may close at two o'clock (2:00) a.m. Said application will be permitted only by a licensee (or principal owner of a licensee) that has held the aforesaid B license within the City of Providence for a period of twelve (12) months prior to the date of application. Further, in addition to the advertising requirement contained in R.I.G.L. §3-7-7, any such application shall be subject to the notice requirements and procedure set forth in in Rule 29 herein.

## APPENDIX

### A. ISSUES FOR EXAMINATION BY THE BOARD FOR NEW APPLICANTS RELATED TO FITNESS OF THE LICENSEE

1. What prior experience do you have in the service of alcoholic beverages?
  - a. When was the applicant employed or operating similar business to the current application?
  - b. How long as server or operator?
  - c. Name and location of any businesses or employment?
2. Certifications or training in service of alcoholic beverages?
  - a. When and where received?
  - b. Provide written documentation.
3. If applying as a corporation what is the type of business entity?
  - a. For corporation, who are the shareholders?
  - b. For limited liability companies, who are members?
    - i. Names and addresses.
  - c. For partnerships, who are all partners?
    - i. Names and addresses.
4. Is the enterprise being run by a manager(s) or employee(s)?
  - a. Name and address of manager
  - b. Experience of manager?
  - c. Hours of work at establishment?
  - d. Is there a management agreement? If so, it should be provided.

- e. Amount of time owners will spend at establishment on a daily basis?
5. Are you familiar with the business plan submitted?
    - a. What are the projected hours of operation?
    - b. General character of business?
    - c. If required, type of security to be used?
  6. Any discussions with neighborhood residents or businesses?
    - a. When did they take place?
    - b. What was the substance/result of the meetings?
  7. (With regard to transfers) Are you aware of the violation history associated with this license?
    - a. Do you acknowledge that there are prior penalties which were imposed on this license?
    - b. Are you aware of those prior penalties?
    - c. Do you acknowledge that in the event of a new violation, you will may receive a more stringent penalty in accordance with progressive discipline?

Confidential Memorandum

**To:** Dylan Conley, Chairman—Providence Board of Licenses  
**From:** Louis A. DeSimone  
**cc:** Charles Newton, Luis Peralta, Delia Rodriguez-Masjoan,  
Heather Kilkenny, Mario Martone, Theresa Agonia  
**Date:** December 11, 2017  
**Re:** License renewal guidelines

---

**MEMORANDUM FOR RENEWAL OF LIQUOR LICENSES**

In considering renewal of liquor licenses the Board is governed by statutory and case law which has provided for the appropriate considerations in license renewal matters. The within memorandum provides an overview of the subject matter and concerns in renewing liquor licenses.

**I. License renewal for Liquor Licenses—factors and legal issues**

Each of the liquor licenses issued by the Providence Board of Licenses are subject to renewal on a yearly basis prior to December 1. In reviewing the licenses for renewal, the legislature and the judiciary have provided some guidance in determining the standard of review imposed upon local boards in their analysis.

With regard to the renewal of licenses, Rhode Island General Laws § 3-7-6, provides in pertinent part as follows:

"[t]he holder of a Class A, Class B . . . license **who applies before October 1 in any licensing period is prima facie entitled to renewal** to the extent that the license is issuable under § 3-7-21. A person whose application has been rejected by the local licensing authorities shall, for the purpose of license quotas under § 3-5-16, be deemed to have been granted a license until the period for appeal has been dismissed . . . ." (Emphasis added.)

In considering the matter of renewal, the Rhode Island Supreme Court determined that that **"a cause, to justify action, must be legally sufficient, that is to say, it must be bottomed upon substantial grounds and be established by legally competent evidence."** See *Chernov Enterprises, Inc. v. Sarkas*, 109 R.I. 283, 284 A.2d 61 (1971). (Emphasis supplied.)

The essential issue in matters of renewal is the determination of legally sufficient cause. The standard for establishing legally sufficient cause has also been addressed by the courts in the following cases:

a. Manuel J. Furtado, Inc. v. Sarkas, 118 R.I. 218, 373 A.2d 169 (1977)

In considering whether there was any legal evidence or reasonable inference therefrom to support the findings of the Superior Court, the court determined that the cause was legally sufficient based upon police testimony of fights outside the establishment which also included instances of fights inside and spilling outside on the sidewalk. Further, the court determined that telephone complaints to the police from a neighboring resident were indicative of the caller's state of mind (i.e. that the caller was disturbed) and found the admission of such a statement from the police as being outside of the hearsay rule.

b. Edge-January, Inc. v. Pastore, 430 A.2d 1063 (1981)

In this matter, the court reviewed the fact that the neighbors testified that there was excessive noise in the area, that young people urinated on their property, that people drank beer in cars that were parked illegally in front of said property, and that people smashed bottles and generally littered the neighborhood. Some neighbors testified that they were often awakened by the loud yelling and the tooting of automobile horns that occurred around closing time at petitioner's establishments. All of the neighbors testified that the problems outlined had been going on for a number of years. After reviewing the evidence, the Liquor Control Administrator found that from the evidence presented, one could reasonably infer that the repeated disorderly incidents that occurred just outside petitioner's licensed establishments had their origin within. Accordingly, the Liquor Control Administrator affirmed the board's decision to deny petitioner's applications for the liquor-license renewals. In affirming the decision for non-renewal, the Court stated as follows:

"Upon review of the testimony presented, the trial justice determined that there was legal, competent evidence from which it could be reasonably inferred that "The Edge" and "January's" were the catalysts that brought about the disruptive incidents in the neighborhood and, further, that the series of disorderly activities in the neighborhood generated from the establishments in

question. In applying the appropriate standard of review in the instant case, we find no error in the trial justice's decision."

c. A.J.C. Enterprises, Inc. v. Pastore, 473 A.2d 269 (1984)

The Court reviewed the denial of a license renewal and reviewed testimony which it summarized as over a dozen witnesses testified in opposition to the renewal. The gist of their testimony was that there were problems with excessive noise, parking congestion, public urination, unruly customers, and litter; they linked these problems to Back Street's patrons. The licensee claimed that the problems resulted from the fact that there were twenty-three establishments licensed to sell liquor in the neighborhood.

The Court upheld the denial with the following rationale:

"We have said at least twice recently that there need not be a direct causational link between incidents occurring outside or nearby a drinking establishment and its patrons. Such a link is established when it can be reasonably inferred from the evidence that the incidents occurred outside a particular establishment and had their origins within. *The Edge-January, Inc. v. Pastore, Manuel J. Furtado, Inc. v. Sarkas, both supra*.

In this case several witnesses testified that they watched people urinate on private property after leaving Back Street and that when the establishment closed at night there was a great deal of noise because people were yelling, screaming, slamming car doors, and revving engines. These occurrences did not take place before Back Street opened. We feel it is reasonable to infer from the evidence that the undesirable activities that occurred outside and around Back Street had their origin within. Consequently, we shall not disturb the conclusions and the actions of the trial justice.

Finally, we would again emphasize that once a licensee such as Back Street receives a liquor license, it assumes an obligation to supervise the conduct of its clientele so as to preclude the creation of conditions within the surrounding neighborhood which would amount to a nuisance to those who reside in the area. This burden, we have said, is "onerous," but it is part of the continuing responsibility assumed by the licensee upon receipt or renewal of a license. *Cesaroni v. Smith, 98 R.I. 377, 383, 202 A.2d 292, 296 (1964)*. Here, there is evidence that indicates that the licensee did not discharge its onerous burden."

d. J. Aliosio Enterprises, Inc. v. Department of Business Regulation, PC 01-0574

The Providence Superior Court upheld a denial of renewal in considering the evidence in the record. The evidence is characterized as establishing that the licensee maintained security personnel and hired six detail police officers

and additional staff on Friday and Saturday nights to attempt to prevent disorderly conduct among the patrons inside and outside Confetti in response to complaints by the neighborhood residents. The record contains undisputed testimony that the managers of Confetti worked with the police when a fight or disturbance occurred among the patrons and that their security personnel and managers were cooperative with the police officers and open to suggestions on how to address the problems of fighting and disorderly conduct.

Despite the efforts of the licensee, the court reviewed the findings and determined that despite Confetti's efforts, the DBR record is supported with credible testimony concerning the resulting disorderly conduct among the patrons of Confetti outside the licensed premises. The DBR concluded that although Confetti diligently addressed the fights and disorderly conduct among patrons, Confetti has neither maintained order among the patrons nor solved the disturbance problem, despite its good faith efforts to control the behavior of its patrons. DBR concluded that the record contains sufficient evidence to support the DBR's finding that Confetti failed to control the fighting and disorderly conduct. This conduct, the DBR found, created a disturbance and annoyance to the neighborhood residents, which rose to the level of the "just cause" standard in violation of G.L. § 3-7-6.

Even after considering the efforts made by the licensee to maintain discipline and proper conduct by its patrons, the court held that, "After review of the entire record, this Court finds that the DBR had before it substantial, probative, and reliable evidence to uphold the non-renewal of Confetti's license. The DBR had substantial evidence before it to satisfy the "for cause" standard warranting the non-renewal of Confetti' Class B alcoholic beverage license as required by R.I.G.L. § 3-7-6."

## II. Summary—factors and issues in determining renewal.

In accordance with the above principles, the significant items for the hearing on renewal which may be considered by a licensing board are:

1. Essentially, the licensee is entitled to renew a license without making any showing before the board with the exception of filing the application. *(If the qualifying terms of RIGL §3-7-6 have been satisfied. See discussion below.)*
2. The burden is shifted to any party or parties objecting to the license. *(Provided that the terms of the statute have been met. See discussion below.)*
3. The objector(s) must show that the license should not be renewed by providing "legally competent evidence" to prove that the establishment has so negatively impacted the quality of life in the area so as to require non-renewal.
4. In the relevant court cases, disorderly conduct in and outside the establishment has been considered by the authority conducting license renewal hearings, *(See J. Aliosio Enterprises d/b/a Club Confetti v. Department of Business Regulation.)*
5. Disruptive incidents of a legally significant nature during the last year of operation are most appropriately given the greatest weight. The conduct complained of should avoid references to a prior year or years since these may not be probative given prior renewals.
6. While the board may note an event which resulted in a show cause hearing, the ensuing violation should not be considered as part of the renewal since the determination was made that it did not result in revocation at that time.
7. There must be a showing that the licensee was the cause or catalyst (as the court references) which brings disruptive influences into the neighborhood.
8. The court has required a series of disruptive influences in the neighborhood caused by the licensee.
9. The incidents or undesirable activities do not need to be directly caused by the licensee but there must be enough evidence to show that the origin of the problem is the licensee's establishment.
10. An inference can be drawn from the testimony or evidence provided. Again, the cases involve a series of incidents over a consistent period in order to

support a refusal to renew a license. There should be a nexus or connection between the events complained of and the licensee.

11. Police may provide testimony of calls to the area directly related to conduct at the establishment of the licensee but significant evidence has been provided by the residents of the neighborhood in the court cases related to license renewal.
12. Procedurally, the board may allow testimony of specific events and then allow a response by the licensee or its representative but all questioning or issues should be raised through the board rather than allowing direct conversation or examination between the objectors and the licensee. The process would be similar to the handling of a new license application by the board.

### **III. Additional legal issues to be considered.**

It is significant that the applicable statute, RIGL §3-7-6 provides that the licensee is entitled to renewal on a prima facie basis for those applications made prior to October 1. The court has not considered the implication of an application for renewal made after October 1. It is reasonable for the licensing authority to conclude that the prima facie right to renewal does not attach to "late or untimely" applicants. This view would place more of a burden upon the licensee to establish its "right" to renewal and require a substantial showing of cause for renewal particularly in view of any neighborhood problems or concerns by the police.

ADV OM 13-01

Mr. Neil P. Galvin

Re: In Re: Board of Regents for Elementary and Secondary Education Appeals Committee

Dear Mr. Galvin:

You represent the Board of Regents for Elementary and Secondary Education, and in that capacity, are requesting an Open Meetings Act ("OMA") advisory opinion. You relate the following:

"the Board of Regents for Elementary and Secondary Education \* \* \* has a sub-committee, its Appeals Committee, which reviews all appeals from the decisions of the Commissioner of Education.

The Appeals Committee acts in a quasi-judicial role and reviews the record from the hearing before the Commissioner's designated hearing officer, which record typically includes sworn testimony. The parties are permitted to have oral argument before the Appeals Committee and to submit written memoranda. Legal rights of the parties are determined in those proceedings from which certain appeal rights exist.

My question \* \* \* is this: Can the Appeals Committee deliberate in executive session at the conclusion of the presentation by the parties. It would be expected that discussion would occur with its legal counsel relating to the legal ramifications of their decision. It is also expected that any vote on a recommended decision would take place in open session."

We initially observe that:

“[i]t is essential to the maintenance of a democratic society that public business be performed in an open and public manner and that the citizens be advised of and aware of the performance of public officials and the deliberations and decisions that go into the making of public policy.” R.I. Gen. Laws 42-46-1.

In order for the provisions of the OMA to apply a “quorum” of a “public body” must convene for a “meeting.” See Fischer v. Zoning Board for the Town of Charlestown, 723 A.2d 294 (R.I. 1999). A “meeting” is defined as “the convening of a public body to discuss and/or act upon a matter over which the public body has supervision, control, jurisdiction, or advisory power.” R.I. Gen. Laws § 42-46-2(a).

In Fischer, a justice of the Rhode Island Superior Court rendered a decision affecting the Zoning Board of Review for the Town of Charlestown. As a result of this decision, the Charlestown Solicitor prepared and distributed a memorandum to the Zoning Board of Review members, and subsequently, met with one or two Zoning Board of Review members to discuss the memorandum and to answer questions. Based upon legal counsel’s consultations with the one or two Board members outside the public’s purview, an OMA complaint was filed in the Rhode Island Superior Court.

In a written decision delivered by the Honorable Frank J. Williams, the OMA complaint was dismissed. Of particular significance to the instant request, Justice Williams stated that:

“this Court does not believe that such discussions fall within the spirit or requirements of our Open Meetings Act. There was neither a convening of a public body nor a quorum. More importantly, this Court believes in the free and unhindered discussions between lawyer and client. Quite simply, that is what occurred in this case, and such discussions should not be, nor are they, subject to the requirements of the Open Meetings Act, especially where there is no meeting of a public body.” Fischer v. Zoning Board for the Town of Charlestown, WC No. 93-0624, aff’d on other grounds, 723 A.2d 294 (R.I. 1999) (Emphasis added).

Consistent with Justice Williams’ holding in Fischer, we believe that under limited circumstances a “meeting,” as defined by the OMA, will not convene when members of a public body address questions to legal counsel. Indeed, this Department has previously issued findings consistent with this principle. See Bozyan v. Middletown Town Council, OM 11-17.

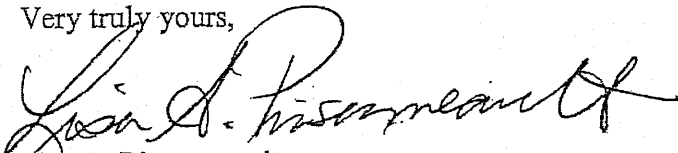

While the foregoing may allow members of a public body to address questions to legal counsel, we view your advisory request differently. Specifically, according to your advisory request, you question whether the “Appeals Committee [can] deliberate in executive session at the conclusion of the presentation by the parties.” According to the Miriam-Webster’s Online Dictionary, “deliberate” is defined as “to think about or discuss issues and decisions carefully.” Accordingly, inherent in your question is that the Appeals Committee will “deliberate,” or in other words, “collectively discuss,” in contrast to one or more members seeking advice from

legal counsel in a manner that does constitute a "deliberation" or a "collective discussion." Consistent with R.I. Gen. Laws § 42-46-5 and this Department's findings, we believe that if a quorum of the Appeals Committee "deliberates" or "collectively discusses" matters over which it has supervision, control, jurisdiction, or advisory power, as your request implies, these deliberations must be held in open session unless otherwise exempt pursuant to R.I. Gen. Laws § 42-46-5. We similarly caution the Appeals Committee that if its members engage in a collective discussion, vote, or take other action under the guise of asking questions to legal counsel, a "meeting," as defined by the OMA, will convene and the requirements of the OMA will apply.

This advisory opinion is based upon the specific facts as you related. If the facts should differ in any respect, it may affect this Department's interpretation and ultimate opinion regarding whether such action would result in a violation of the OMA. This advisory opinion does not abrogate any rights that the Department of the Attorney General is vested with pursuant to R.I. Gen. Laws § 42-46-8, and is strictly limited to this Department's interpretation of the OMA. This opinion does not address the Appeals Committee's responsibilities under any other state law, rule, regulation, or ordinance, nor does it shield the Appeals Committee or its members from a complaint filed in the Superior Court by a citizen or entity pursuant to R.I. Gen. Laws § 42-46-8.

We hope that this advisory opinion is of assistance to the Board of Regents for Elementary and Secondary Education Appeals Committee, as this Department is committed to ensuring that public bodies comply with the Open Meetings Act.

Very truly yours,

Michael Field, Esq.  
Office of the Attorney General  
150 South Main Street  
Providence, RI 02903

Dear Attorney Field:

In my capacity as legal counsel to the Providence Board of Licenses, I have been directed to request a formal opinion from your office with regard to Board deliberations and the applicability of the Open Meetings Law as referenced in Title 42, Chapter 46 of the Rhode Island General Laws.

As you may be aware, the Providence Board of Licenses is an entity established by Section 1102 of the Home Rule Charter for the City of Providence. The function of the Board is to preside over all licensing matters within the city. In this regard, the Board often functions in a quasi-judiciary capacity in conducting hearings, determining license violations and imposing sanctions upon licensees. The decisions of the Board are subject to appeal before the Department of Business Regulation. As such, the Board is requesting an opinion on its ability to meet in executive session for deliberation during or at the conclusion of the presentation of evidence in a show-cause hearing. The executive session would be an opportunity to discuss the merits of the evidence and any imposition of penalties among members and legal counsel to the Board.

Further, in many of the show-cause matters, attorneys for the licensee have referenced a potential appeal on litigation regarding the pending hearing. At present, the deliberations of the Board are held in public session the Board would benefit from a discussion in executive session to clarify evidentiary and legal issues material to its deliberation.

Please contact me should you have any questions or require further information in this regard.

Very truly yours,

  
Louis A. DeSimone

## Providence Board of Licenses Agenda Template

### **I. Public Comment**

All persons wishing to make public comment shall sign a public comment sheet stating their name, address, and the subject of their comments. This sheet shall be made a part of the minutes and shall be incorporated as part of the permanent public record. Public Comment shall fall into one of the two following categories:

1. Agenda Items
2. Non Agenda Items

### **II. Written or Electronic Communications**

1. [Listed Communications]

Motion to Accept Communications as Presented

### **III. Consent Calendar**

1. [Listed Items]

Motion to approve all items on the Consent Calendar pending any outstanding and required administrative review. There will be no separate discussion on these items unless a Commission Member or a member of the public requests that the item be removed from the Consent Calendar.

### **IV. Public Hearings**

1. [Listed Items]

### **V. Show Cause Hearings**

1. [Listed Items]

### **VI. Emergency Items**

Motion that, in accordance with Rhode Island General Laws § 42-46-6(c), the below agenda item is necessary to address as an unexpected occurrence that requires immediate action to protect the public with less than the required notice because [stated reason].

1. [Listed Items]

### **VII. Commission Concerns and Requests**

1. Commissioner Peralta
2. Commissioner Rodriguez-Masjoan
3. Vice Chairman Newton
4. Chairman Conley

### **VIII. License Administrator's Report**

**Re:** License renewal guidelines

---

**MEMORANDUM FOR RENEWAL OF LIQUOR LICENSES**

In considering renewal of liquor licenses the Board is governed by statutory and case law which has provided for the appropriate considerations in license renewal matters. The within memorandum provides an overview of the subject matter and concerns in renewing liquor licenses.

**I. License renewal for Liquor Licenses—factors and legal issues**

Each of the liquor licenses issued by the Providence Board of Licenses are subject to renewal on a yearly basis prior to December 1. In reviewing the licenses for renewal, the legislature and the judiciary have provided some guidance in determining the standard of review imposed upon local boards in their analysis.

With regard to the renewal of licenses, Rhode Island General Laws § 3-7-6, provides in pertinent part as follows:

"[t]he holder of a Class A, Class B . . . license **who applies before October 1 in any licensing period is prima facie entitled to renewal** to the extent that the license is issuable under § 3-7-21. A person whose application has been rejected by the local licensing authorities shall, for the purpose of license quotas under § 3-5-16, be deemed to have been granted a license until the period for appeal has been dismissed . . . ." (Emphasis added.)

In considering the matter of renewal, the Rhode Island Supreme Court determined that that **"a cause, to justify action, must be legally sufficient, that is to say, it must be bottomed upon substantial grounds and be established by legally competent evidence."** See *Chernov Enterprises, Inc. v. Sarkas*, 109 R.I. 283, 284 A.2d 61 (1971). (Emphasis supplied.)

The essential issue in matters of renewal is the determination of legally sufficient cause. The standard for establishing legally sufficient cause has also been addressed by the courts in the following cases:

a. Manuel J. Furtado, Inc. v. Sarkas, 118 R.I. 218, 373 A.2d 169 (1977)

In considering whether there was any legal evidence or reasonable inference therefrom to support the findings of the Superior Court, the court determined that the cause was legally sufficient based upon police testimony of fights outside the establishment which also included instances of fights inside and spilling outside on the sidewalk. Further, the court determined that telephone complaints to the police from a neighboring resident were indicative of the caller's state of mind (i.e. that the caller was disturbed) and found the admission of such a statement from the police as being outside of the hearsay rule.

b. Edge-January, Inc. v. Pastore, 430 A.2d 1063 (1981)

In this matter, the court reviewed the fact that the neighbors testified that there was excessive noise in the area, that young people urinated on their property, that people drank beer in cars that were parked illegally in front of said property, and that people smashed bottles and generally littered the neighborhood. Some neighbors testified that they were often awakened by the loud yelling and the tooting of automobile horns that occurred around closing time at petitioner's establishments. All of the neighbors testified that the problems outlined had been going on for a number of years. After reviewing the evidence, the Liquor Control Administrator found that from the evidence presented, one could reasonably infer that the repeated disorderly incidents that occurred just outside petitioner's licensed establishments had their origin within. Accordingly, the Liquor Control Administrator affirmed the board's decision to deny petitioner's applications for the liquor-license renewals. In affirming the decision for non-renewal, the Court stated as follows:

"Upon review of the testimony presented, the trial justice determined that there was legal, competent evidence from which it could be reasonably inferred that "The Edge" and "January's" were the catalysts that brought about the disruptive incidents in the neighborhood and, further, that the series of disorderly activities in the neighborhood generated from the establishments in

question. In applying the appropriate standard of review in the instant case, we find no error in the trial justice's decision."

c. A.J.C. Enterprises, Inc. v. Pastore, 473 A.2d 269 (1984)

The Court reviewed the denial of a license renewal and reviewed testimony which it summarized as over a dozen witnesses testified in opposition to the renewal.

The gist of their testimony was that there were problems with excessive noise, parking congestion, public urination, unruly customers, and litter; they linked these problems to Back Street's patrons. The licensee claimed that the problems resulted from the fact that there were twenty-three establishments licensed to sell liquor in the neighborhood.

The Court upheld the denial with the following rationale:

"We have said at least twice recently that there need not be a direct causal link between incidents occurring outside or nearby a drinking establishment and its patrons. Such a link is established when it can be reasonably inferred from the evidence that the incidents occurred outside a particular establishment and had their origins within. *The Edge-January, Inc. v. Pastore, Manuel J. Furtado, Inc. v. Sarkas, both supra.*

In this case several witnesses testified that they watched people urinate on private property after leaving Back Street and that when the establishment closed at night there was a great deal of noise because people were yelling, screaming, slamming car doors, and revving engines. These occurrences did not take place before Back Street opened. We feel it is reasonable to infer from the evidence that the undesirable activities that occurred outside and around Back Street had their origin within. Consequently, we shall not disturb the conclusions and the actions of the trial justice.

Finally, we would again emphasize that once a licensee such as Back Street receives a liquor license, it assumes an obligation to supervise the conduct of its clientele so as to preclude the creation of conditions within the surrounding neighborhood which would amount to a nuisance to those who reside in the area. This burden, we have said, is "onerous," but it is part of the continuing responsibility assumed by the licensee upon receipt or renewal of a license. *Cesaroni v. Smith, 98 R.I. 377, 383, 202 A.2d 292, 296 (1964)*. Here, there is evidence that indicates that the licensee did not discharge its onerous burden."

d. J. Aliosio Enterprises, Inc. v. Department of Business Regulation, PC 01-0574

The Providence Superior Court upheld a denial of renewal in considering the evidence in the record. The evidence is characterized as establishing that the licensee maintained security personnel and hired six detail police officers

and additional staff on Friday and Saturday nights to attempt to prevent disorderly conduct among the patrons inside and outside Confetti in response to complaints by the neighborhood residents. The record contains undisputed testimony that the managers of Confetti worked with the police when a fight or disturbance occurred among the patrons and that their security personnel and managers were cooperative with the police officers and open to suggestions on how to address the problems of fighting and disorderly conduct.

Despite the efforts of the licensee, the court reviewed the findings and determined that despite Confetti's efforts, the DBR record is supported with credible testimony concerning the resulting disorderly conduct among the patrons of Confetti outside the licensed premises. The DBR concluded that although Confetti diligently addressed the fights and disorderly conduct among patrons, Confetti has neither maintained order among the patrons nor solved the disturbance problem, despite its good faith efforts to control the behavior of its patrons. DBR concluded that the record contains sufficient evidence to support the DBR's finding that Confetti failed to control the fighting and disorderly conduct. This conduct, the DBR found, created a disturbance and annoyance to the neighborhood residents, which rose to the level of the "just cause" standard in violation of G.L. § 3-7-6.

Even after considering the efforts made by the licensee to maintain discipline and proper conduct by its patrons, the court held that, "After review of the entire record, this Court finds that the DBR had before it substantial, probative, and reliable evidence to uphold the non-renewal of Confetti's license. The DBR had substantial evidence before it to satisfy the "for cause" standard warranting the non-renewal of Confetti' Class B alcoholic beverage license as required by R.I.G.L. § 3-7-6."

## II. Summary—factors and issues in determining renewal.

In accordance with the above principles, the significant items for the hearing on renewal which may be considered by a licensing board are:

1. Essentially, the licensee is entitled to renew a license without making any showing before the board with the exception of filing the application. *(If the qualifying terms of RIGL §3-7-6 have been satisfied. See discussion below.)*
2. The burden is shifted to any party or parties objecting to the license. *(Provided that the terms of the statute have been met. See discussion below.)*
3. The objector(s) must show that the license should not be renewed by providing "legally competent evidence" to prove that the establishment has so negatively impacted the quality of life in the area so as to require non-renewal.
4. In the relevant court cases, disorderly conduct in and outside the establishment has been considered by the authority conducting license renewal hearings, *(See J. Aliosio Enterprises d/b/a Club Confetti v. Department of Business Regulation.)*
5. Disruptive incidents of a legally significant nature during the last year of operation are most appropriately given the greatest weight. The conduct complained of should avoid references to a prior year or years since these may not be probative given prior renewals.
6. While the board may note an event which resulted in a show cause hearing, the ensuing violation should not be considered as part of the renewal since the determination was made that it did not result in revocation at that time.
7. There must be a showing that the licensee was the cause or catalyst (as the court references) which brings disruptive influences into the neighborhood.
8. The court has required a series of disruptive influences in the neighborhood caused by the licensee.
9. The incidents or undesirable activities do not need to be directly caused by the licensee but there must be enough evidence to show that the origin of the problem is the licensee's establishment.
10. An inference can be drawn from the testimony or evidence provided. Again, the cases involve a series of incidents over a consistent period in order to

support a refusal to renew a license. There should be a nexus or connection between the events complained of and the licensee.

11. Police may provide testimony of calls to the area directly related to conduct at the establishment of the licensee but significant evidence has been provided by the residents of the neighborhood in the court cases related to license renewal.
12. Procedurally, the board may allow testimony of specific events and then allow a response by the licensee or its representative but all questioning or issues should be raised through the board rather than allowing direct conversation or examination between the objectors and the licensee. The process would be similar to the handling of a new license application by the board.

### **III. Additional legal issues to be considered.**

It is significant that the applicable statute, RIGL §3-7-6 provides that the licensee is entitled to renewal on a prima facie basis for those applications made prior to October 1. The court has not considered the implication of an application for renewal made after October 1. It is reasonable for the licensing authority to conclude that the prima facie right to renewal does not attach to "late or untimely" applicants. This view would place more of a burden upon the licensee to establish its "right" to renewal and require a substantial showing of cause for renewal particularly in view of any neighborhood problems or concerns by the police.
