This is the second request for this issue. The DPW - Traffic Engineering Division provided a response on June 08, 2011 requesting the Councilman to contact us to provide more information so we can better evaluate the problem in this area and provide a viable solution. With this response we are still requesting that the Councilman contact us to provide that additional information needed so we can properly evaluate this issue.

In addition to this request, we require a signed petition signed by a majority of the residents in favor of the above resolution.
