*Be It Ordained By The City of Providence:*

*Section 1.* Article IX½ of the Code of Ordinances of the City of Providence, entitled: "Department of Planning and Urban Development" is hereby amended by adding the following:

*Section 2-169.* Official Capital Improvement Program 1983-1988:

A.) Objectives of the Capital Improvement Program:

I. To improve financial management of the City's Capital Resources,

II. To maintain a high credit rating for Providence, thereby lowering interest costs,

III. To continue stimulation of private investment,

IV. To insure that Capital projects and comprehensive planning are based on Providence's long-range fiscal potential.

V. To advocate a regular preventive maintenance program that would result in tax savings and lower capital improvement costs,

VI. Guide implementation of Providence's development programs.

## B.) Purpose.

The Capital Improvement Program is the primary management guide for allocation of limited city resources for physical improvements over the next five years. It helps use those resources to achieve overall goals in providing City services and in developing neighborhoods, the Downtown, and the City's economy in general.

The Capital Improvement Program outlines costs and funding alternatives involved in implementing the City's on-going comprehensive plan. It thereby insures that the comprehensive plan reflects financial realities.

... this entire planning process must be closely based on, supported by, and tied to the economic realities of Providence and to the financial abilities of the City. All too often the comprehensive planning process omits or slights the economic and financial elements and its validity is thereby subject to question. (*The Comprehensive Planning Process*, City of Providence, April 1976, p. 10).

As the comprehensive plan takes form, the Capital Improvement Program will relate the otherwise uncoordinated construction and acquisition programs of various City Departments to the City's overall programs and goals.

Other purposes of the Capital Improvement Program are:

1. *Annual Review of Priorities.*

At both department and city-wide levels, yearly review of priorities ensures that funding decisions adjust to changing circumstances.

2. *Joint Project Coordination.*

Savings, in time or money, or increased project impact can result from coordinating projects of different agencies with respect to location, function and timing.

3. *Stimulation of Private Investment.*

A readily available schedule of future public improvements encourages private residential, commercial and industrial investments.

4. *Lower Cost Credit.*

Evidence of prudent, long-range financial planning is important to credit rating services. Better knowledge of needs and resources will improve Providence's flexibility during money market fluctuations.

5. *Neighborhood Participation.*

By opening capital improvement funding decisions to continuous public debate, on a city-side basis, the Capital Improvement Program limits the influence of pressure groups that might otherwise obtain commitments for a disproportionate share of city resources. At the same time, neighborhood groups have the opportunity to react to City Departments proposals, submit their own projects for review, or identify gaps in service or development plans.

## C. Definition of Capital Improvements:

1. New construction, reconstruction, substantial alterations and extraordinary repairs;

2. Acquisition of real property or interest therein;

3. Designs or preliminary studies or surveys relative to Nos. 1 and 2 above;

4. Acquisition and installation of equipment and furnishings relative to Nos. 1 and 2 above.

Sec. 2. The plan attached hereto shall constitute the official Capital Improvement Program for the years 1983-1988 which official copy shall be maintained and safeguarded in the Department of the City Clerk. No amendments or additions to said plan shall be approved or undertaken without the express review and

approval, by Ordinance, of the City Council. No funds shall be expended nor any commitments to expend funds given for Capital Improvements unless they are a part of the Official Plan as approved.

Sec. 3. This Ordinance shall take effect upon its Passage.

**The motion for Passage the Second Time is thereupon Put to Vote and Passed by the following Roll Call Vote:**

**Ayes: Council President Paolino and Councilman Annaldo, Councilwoman Brassil, Councilmen Cola, Dillon, Councilwoman DiRuzzo, Councilman Easton, Councilwoman Fagnoli, Councilmen Farmer, Glavin, Griffin, O'Connor, Petrosinelli, Pitts and Stravato—15.**

**The motion for Passage the Second Time is Sustained.**

## **COUNCILMAN JAMES A. PETROSINELLI, Chairman COMMITTEE ON PUBLIC WORKS**
