STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

No. 536

Approved: Jan. 20, 1979

1. The first step is to identify the main topic of the document. The title "THE HISTORY OF THE UNITED STATES" is prominently displayed at the top center.

2. The second step is to identify the author. The name "BY JAMES M. SMITH" is printed below the title.

3. The third step is to identify the publisher. The text "PUBLISHED BY J. B. LIPPINCOTT & CO., 15 N. 2ND ST., PHILADELPHIA, PA." is located at the bottom of the page.

4. The fourth step is to identify the date of publication. The text "NEW YORK: 1854." is located at the bottom right of the page.

5. The fifth step is to identify the edition. The text "FIRST EDITION" is located at the bottom left of the page.

6. The sixth step is to identify the subject matter. The title "THE HISTORY OF THE UNITED STATES" indicates that the document is a historical work.

7. The seventh step is to identify the format. The document is a printed book, as evidenced by the title, author, publisher, and date information.

8. The eighth step is to identify the content. The text "THE HISTORY OF THE UNITED STATES" is the main title of the book.

9. The ninth step is to identify the format. The document is a printed book, as evidenced by the title, author, publisher, and date information.

10. The tenth step is to identify the content. The text "THE HISTORY OF THE UNITED STATES" is the main title of the book.

1. The first step in the process of the investigation is the identification of the problem. This is done by the investigator who is assigned to the case. The investigator must first determine the nature of the problem and the scope of the investigation. This is done by interviewing the parties involved and reviewing the relevant documents. The investigator must also determine the objectives of the investigation and the methods to be used. The next step is the collection of evidence. This is done by the investigator who is assigned to the case. The investigator must first determine the sources of evidence and the methods to be used. This is done by interviewing the parties involved and reviewing the relevant documents. The next step is the analysis of the evidence. This is done by the investigator who is assigned to the case. The investigator must first determine the facts of the case and the legal issues involved. This is done by interviewing the parties involved and reviewing the relevant documents. The next step is the preparation of the report. This is done by the investigator who is assigned to the case. The investigator must first determine the findings of the investigation and the conclusions to be drawn. This is done by interviewing the parties involved and reviewing the relevant documents. The final step is the presentation of the report. This is done by the investigator who is assigned to the case. The investigator must first determine the format of the report and the methods to be used. This is done by interviewing the parties involved and reviewing the relevant documents.

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971) using a Shimadzu 1601 UV-Visible Spectrophotometer.
