FOR THE YEAR COMMENCING MAY 1

VOLUME LXXXVI

Containing

Alphabetical Section (Page 437) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business, widows, and all business houses. Dates of deaths during the previous year are given, and where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Business Directory (Page 1277) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Advertising Department (Page 101) Where more information than is possible to give under the headings is placed on file for buyer's and seller's reference the value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Map (Opposite) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Street Directory (Page 53) A complete list of Streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there.

An alphabetical list of Halls, Blocks and Buildings from which street and number may be found for addresses which only give name of a certain building.

Miscellaneous Information (Page 13) Organization of City Departments, giving officers—Cemeteries—Post Office branches—Parcel Post zones and rates—Churches and ministers—Societies, Institutions, etc., with officers—State officers and departments—U. S. officers and departments—Courts—Population tables—Calendar, etc.

From this list, the location of any number on a street can be easily ascertained: as, for instance, wishing to know at what part of Westminster Street No. 1129 comes, you look at Westminster Street, and find that Knight Street runs from 1089 and Bridgham Street from 1191, showing that 1129 Westminster Street would come about half-way between Knight and Bridgham Street

COMPILING DEPARTMENT

The City Directory **has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Our experience of over seventy years—our reputation for accuracy, our large force of experienced help and our complete equipment for the work, all guarantee the best in directory compilation.**

ADVERTISING DEPARTMENT

Put—"We are listed in the Directory" **in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly registered in all branches of its industry is wise. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.**

LIST AND LETTER DEPARTMENT

Addressing the right people **in the search for new business means a saving of Time, Postage, Labor, Guess Work, Stationery; and results in more profits to you. You want your mailing lists accurate—That's the kind we make. We will also multigraph, address, stamp and mail your letters. All you need to do is to tell us your general plan. We will work out the details. Ask us to tell you about this branch of our business.**

Ask Sampson & Murdock Company

It is not so with Directory Ads

Why our Prices are Low

The value of a directory, like anything else, depends on the use made of it. The more people who use a directory the greater is the service it renders to the community, and the greater is its value as a co-operative reference advertising medium.

It has been our policy to keep our prices as low as possible for the high type of information service given, and even during the inflated war period we did not take advantage of conditions to make large increases as many did. That we were not obliged to do so proves that our previous policy was sound, also that as one of the oldest directory publishers, we have so served and educated the business men in our territory that the directory is generally used more widely than elsewhere, which is clearly shown by comparison with other cities.

A study of our prices will convince any business man that he is not being over-charged. An examination of any Sampson & Murdock Co. Directory will show the large value given, and after consideration of these two points no one should deny themselves a full year of directory usefulness on account of price.

The additional fact that there are over 14,000 individual advertisements in Sampson & Murdock Publications alone, shows to what extent they are accepted by progressive business men as the Catalog of their City, in which they naturally wish to be described.

How the City Directory will help you

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day they would use it in their personal as well as business affairs.

Well now—**doesn't it concern you?** It has your name, business and address correctly listed, where your friends looking for you will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, gives numbers at corners; the clearest map of the City; Buildings, Government, Societies, and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. **But be sure you use the latest,** as an old edition will mislead you.

Largest Job Dyers of Yarn In the United States

Classes of Color from Ordinary Direct to Best

WE RECEIVE yarn on bobbins, tubes, cones or cops, dye it on Universal wound parallel tubes and return it to you, ***without waste***, on these tubes or on cones.

We also receive worsted yarn on jackspools, dye it on our special perforated dyeing spools and return it to you on the original jackspools.

The Franklin Process eliminates skeins and long chains, thus reducing yarn waste to a negligible quantity. This saving is particularly important in the dyeing of fine count yarns. Here also we can probably save you considerable money in the cost of actual dyeing.

OUR YARN DEPARTMENT can afford you every facility for purchasing your gray yarn requirements through us if you so desire. This service saves you much book-keeping and substantially reduces transportation costs.
