GET THE NEW ENGLAND TRADE

Few salesmen realize the great number of possible customers they overlook in a hurried trip from city to city. In every town there is business which you might secure with profit by simply going after it. When on the road your salesmen have but little time to seek out these firms. Do this for them, check up their trade and secure lists of new prospects in your own office by the intelligent use of the New England Business Directory. This book, revised bi-annually, contains lists of all business establishments in New England, arranged by states, towns, and business classification, so as to be readily referred to at all times. It also contains state maps, a complete gazetteer of New England towns showing population and transportation facilities and an advertising section containing the cards of many progressive business houses of New England and New York State.

This book will be found invaluable as a basis for Mailing Lists, as a Buyers Guide, or for Statistical purposes.

PUBLICITY ENGINEERING

is practical application of correct theories IN BUSINESS.

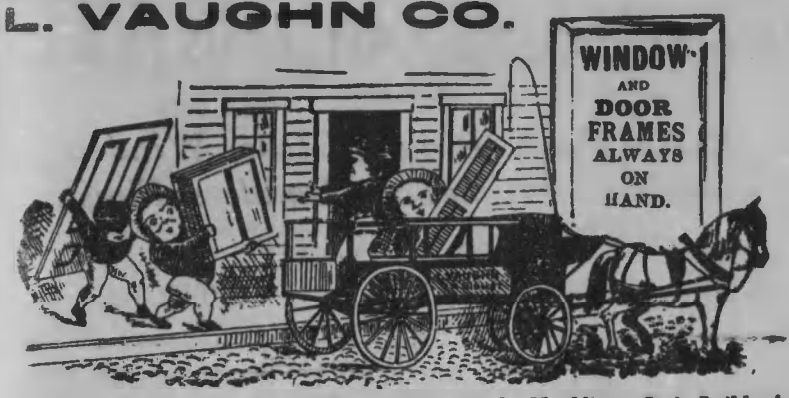
THE FIRST PRINCIPLE
is to get complete and accurate information about your

Customers; perhaps you might serve them in ways not thought of, if you knew more about them, and they about you.

Customers-to-be; but how can you get hold of them unless you look them up, and you might as well look them all up while you are doing it, for Directory lists make this easy.

Supply Men; Some are better than others, know about them all—and choose.

Competitors; they exist—let them and the public know you exist—for a purpose.



THE FIRST SOURCE of information about a business is ***The Directory.*** It is made from actual canvass and forms the basis of every kind of "mailing list", "trade directory", "reference book" or "buyers guide" in this territory. The original is best and you should study its pages, and be represented therein yourself, for

THAT IS WHERE PEOPLE LOOK FOR YOU

PUBLICITY ENGINEERING

is practical application of correct theories IN BUSINESS.

THE FIRST PRINCIPLE
is to get complete and accurate information about your

Customers; perhaps you might serve them in ways not thought of, if you knew more about them, and they about you.

Customers-to-be; but how can you get hold of them unless you look them up, and you might as well look them all up while you are doing it, for Directory lists make this easy.

Supply Men; Some are better than others, know about them all—and choose.

Competitors; they exist—let them and the public know you exist—for a purpose.

THE FIRST SOURCE of information about a business is ***The Directory.*** It is made from actual canvass and forms the basis of every kind of "mailing list", "trade directory", "reference book" or "buyers guide" in this territory. The original is best and you should study its pages, and be represented therein yourself, for

THAT IS WHERE PEOPLE LOOK FOR YOU

PUBLICITY ENGINEERING

Is the Systematic Science of Developing Business through

ADVERTISING

DISPLAY ADVERTISING depends on subconscious attention and retention. It is of value where a desire to purchase does not exist, and must be created.

DIRECTORY ADVERTISING recognizes conscious intention in most business, and places its story where keen minds seek information before buying.

Note the attempts to classify advertisers in newspapers and magazines under caption of "Business Directory" then compare with a Real Directory for completeness. Consider length of life of advertisement, and cost and form your own conclusions of relative value to your own business.

SAMPSON & MURDOCK COMPANY
Publishers of
New England Business Directory and Directories for thirty-three cities and towns
246 SUMMER STREET - - BOSTON, MASS.

A Public Service Publication

Few lines of Business have such a varied clientel as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business life and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and who's life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

GET THE NEW ENGLAND TRADE

Few salesmen realize the great number of possible customers they overlook in a hurried trip from city to city. In every town there is business which you might secure with profit by simply going after it. When on the road your salesmen have but little time to seek out these firms. Do this for them, check up their trade and secure lists of new prospects in your own office by the intelligent use of the New England Business Directory. This book, revised bi-annually, contains lists of all business establishments in New England, arranged by states, towns, and business classification, so as to be readily referred to at all times. It also contains state maps, a complete gazetteer of New England towns showing population and transportation facilities and an advertising section containing the cards of many progressive business houses of New England and New York State.

This book will be found invaluable as a basis for Mailing Lists, as a Buyers Guide, or for Statistical purposes.

FORTY FIRST YEAR

The Representative Paper of the Grocer and Marketman

17 EXCHANGE STREET PROVIDENCE, R. I.

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

If the results are not entirely satisfactory, it is up to you.

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost of an up-to-date mailing list and waste postage stamps by the gross.

Would you improve on old methods? Then phone or write at once for particulars to

"Letters?"

They do get in, oftentimes, where a salesman cannot. They have no expense accounts, and if the right kind, are sure to be read.

But they must be done right. They must make a personal appeal, and avoid the appearance of a "form" letter.

This can only be done on a typewriter, or a machine that faithfully reproduces the hammer blow of type through ribbon,-just as the typewriter does it.

Our mechanical equipment, and our peculiar facilities for compiling lists, mean unusual service in direct advertising.

A Public Service Publication

Few lines of Business have such a varied clientel as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business life and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and who's life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

To rely solely on personal knowledge

In doing business, is like groping with a lantern. A view of the whole field is given by the classified lists in this book.

Names in heavy type, under the headings, refering to a space in this section, make it possible to find quickly those who specialize in the line you are looking for.

Spaces in this section are devoted to more complete descriptions than possible under single headings, and save time and trouble in finding just what is wanted.

A New Convenience

Pawtucket people will find a new convenience in the 1915 Directory.

It will really be two books in one. In addition to the regular alphabetical and classified lists, there will be a complete House Directory

In the new book there will be three ways to look up a person

If the **NAME** is known, look in the **ALPHABETICAL** Section.
If the **BUSINESS** is known, look in the **BUSINESS** Directory.
If the **ADDRESS** is known, look in the **HOUSE** Directory.

Many times we know the address, but are not sure of the name or initials. We often want to know who our own or other folks' neighbors are, or who lives in a certain house or on a certain street. Sometimes we want to talk with a person not listed in the 'phone book, and would like to know who may be located nearby who might have a telephone.

The familiar "Street Directory" will be combined with this feature, with the addition of Ward and Precinct in the description of each street. As intersecting streets will be shown at their proper numbers, it will be possible to locate exactly in the block any given address, and the best way of reaching it. In these, and many other instances the new feature will prove of value.

***Business men** will find it of great value in making up mailing lists, routing deliveries, checking 'phone orders, or in finding who lives at any address.*

***Professional men** will find it an aid in getting and keeping acquainted with people in their vicinity.*

***Clergymen** will find it a vital help in parish work.*

***Real Estate and Insurance** men will welcome it.*

***Ladies** will find it useful in making calling and invitation lists.*

***Everybody** will find it a big help in avoiding inaccuracy and in answering questions of "Who" and "Where"*

The Directory is a Public Convenience

The Pawtucket business men who describe themselves fully in it, show they are progressive, and deserve your business.

PUBLICITY ENGINEERING

Is the Systematic Science of Developing Business through

ADVERTISING

DISPLAY ADVERTISING depends on subconscious attention and retention. It is of value where a desire to purchase does not exist, and must be created.

DIRECTORY ADVERTISING recognizes conscious intention in most business, and places its story where keen minds seek information before buying.

Note the attempts to classify advertisers in newspapers and magazines under caption of "Business Directory" then compare with a Real Directory for completeness. Consider length of life of advertisement, and cost and form your own conclusions of relative value to your own business.

The Value of Exact Knowledge

Is nowhere greater than in business. Know where your customers are located. Know who else is in the same line, and try to make them customers.

Know that you have no dead ones on your mailing-list, and know that you have the correct name and address of every one who might be made a customer.

It is easy with the Directory at hand.
