The Corliss Steam Engine Co.

PROVIDENCE, R.I.

Incorporated June, 1856; Established by

GEORGE H. CORLISS,

INVENTOR OF THE CELEBRATED

"CORLISS ENGINE."

DESIGNER & BUILDER OF THE FAMOUS

"CENTENNIAL ENGINE,"

Exhibited at the Philadelphia Exposition, 1876.

DIRECTORS:

GEN. WM. F. DRAPER, Hopedale, Mass. Treasurer Hopedale Machine Co.
WM. H. BENT, Taunton, Mass. Treasurer Mason Machine Works.
STEPHEN A. JENKS, Central Falls, R. I. Treasurer Fales & Jenks Machine Co., Pawtucket, R. I.
HAVEN C. PERHAM, Lowell, Mass. Treasurer Kitson Machine Co.
P. W. FRENCH, Boston, Mass. New England Sales Manager National Tube Works.
DAVID M. THOMPSON, Providence, R. I. Formerly Gen'l Manager B. B. & R. Knight's Mills.
CHARLES E. GILES, Providence, R. I. Formerly with Corliss Steam Engine Co. as Superintendent and Agent.

OFFICERS:

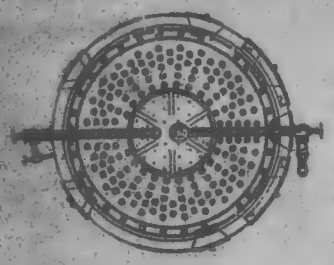
D. M. THOMPSON, President and Treasurer.
STEPHEN A. JENKS, Vice-President.
WILLIAM B. SHERMAN, Secretary.
CHARLES E. GILES, Agent.

THIS company, established in 1849, by Geo. H. Corliss, builds these engines in different styles, *i. e.*, condensing, non-condensing, single or in pairs, compound and triple expansion, in sizes from 75 to 8,000 horse power.

These works are fully equipped with heavy special tools of Mr. Corliss' invention, for the manufacture of these perfected engines. This guarantees a degree of precision in workmanship and consequent interchangeability of parts not hitherto attempted.

These Engines are in general and successful use for Manufacturing and Electric Lighting, and all other purposes requiring close regulation and economy in fuel.

The public will understand that we have no relations with American or European builders of so-called "Improved Corliss Engines," and that the final and perfected Engine of Mr. George H. Corliss, embodying his latest ideas, is to be obtained exclusively at our works.

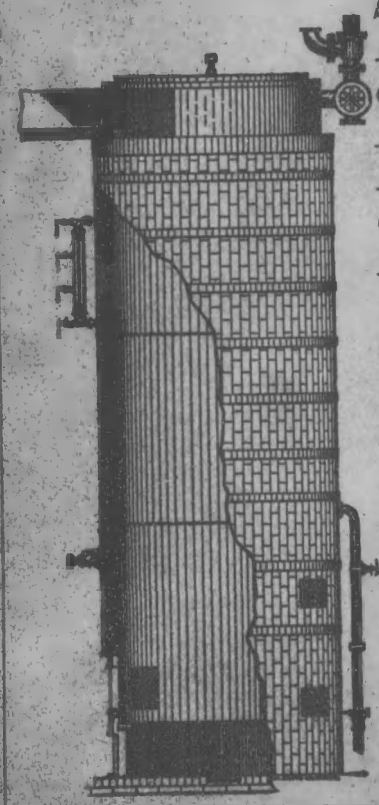


The Corliss Steam Engine Co.

PROVIDENCE, R. I.

SOLE MANUFACTURERS OF THE

CORLISS PATENT VERTICAL TUBULAR



Water Leg Boilers.

These Boilers invented by Geo. H. Corliss (inventor also of the Corliss Engine) as now built by this company, contain his latest designs and patented improvements.

Thirty years' actual use and operation of these Boilers have proved that they possess, in the highest degree, the following special

POOR PRINTING

Never pays either the producer or the consumer. It is all very well to get your work done at as low a price as you can, provided you get what you wish and need, but a poorly printed catalogue, report, note head, bill head, envelope, or even tag, is worse than useless, it is an actual detriment to any society, corporation, firm or individual who invests money in it. We are of those printers who confidently guarantee to do good work at a reasonable price, but make no claim to be working without profit.

If you feel disposed to favor us with an order, either from motives of curiosity, friendship, or because you wish to change, we will spare no effort to please you at all points.

To our long list of customers we would express our appreciation of their recognition of our efforts to give them good work, prompt work, and work at reasonable prices. As in the past so in the future we shall do all in our power to meet any demands which may be made, and guarantee satisfactory service.

PRACTICAL EDUCATION.

A BUSINESS COLLEGE WHICH IS A RARE AND MARKED EXCEPTION TO THE UNWORTHY CONCERNS WHICH AFFLICT THE COMMUNITY.

SCHOLFIELD'S COMMERCIAL COLLEGE, 224 WESTMINSTER STREET, PROVIDENCE, R. I.

Editorial Correspondence:

It is needless to say to the readers of this journal that our investigation of this business college we now review was conducted upon the lines laid down in the past by the management of this paper. In this case, as in all others, no charge was made, no gifts accepted, no advertisements solicited. The only interests consulted were those who ask honest, unprejudiced advice concerning the relative merits of the various commercial schools which seek the patronage of the people. This information cannot be obtained through college catalogues or paid write-ups. Devoid of all such features is the report herewith given. We single out and endorse this high-grade institution upon its own high merit alone. We recommend it unqualifiedly to those who would discriminate between a business college which really fits its graduates for the highest positions of trust and emolument in the business world, and the un-business-like affairs which almost cast discredit upon the very name of "business college." The latter are to be found in every city and upon every cross-road. Ignorance, incompetency and pretense characterize their management. They are a blot, a blight, a shadow upon the field of higher commercial instruction. The establishment we now review stands

out better and brighter by reason of the contrast it offers in superiority, genuine merit, and trustworthiness. It is ably conducted, splendidly equipped, and by all rights of supreme and inherent work takes front rank. In all essential features it is a leader. Its faculty is above criticism—the result accomplished speaks emphatically as to the fitness of each individual teacher. The courses of instruction are excellently arranged, and in all things thorough and complete. As a result of such excellence in all material details graduates come forth ready to take responsible places to which are attached high salaries which are willingly paid to the able and competent.

For some days past this college has been the subject of investigation by a trained and trusted editorial correspondent, and as a result of such unbiased examination, we do not hesitate to single it out as an example for all such institutions, and to heartily endorse it to every reader who either for himself or others desires the highest practical education at the lowest possible cost. We bestow upon it our approval and commendation. Would there were far more such institutions throughout the country to-day. It occupies the same relative position to the inferior business colleges which surround it as does our own great University of Chicago to the primary schools of the land. It is a grand, a noble, a beneficent institution, a business college par excellence. Those seeking the best will certainly find it here. We heartily endorse it all.

Newspaper Advertising

AND SUBSCRIPTION AGENT.

No. 96 Westminster St., Providence, R. I.

Judicious Advertising Promotes Trade.

Mr. Danielson, for more than twenty years connected with the "Providence Journal," established in 1886 a General Newspaper Advertising and Subscription Agency, in the Lyceum Building, No. 96 Westminster Street.

Ten Years' Experience as a General Newspaper Advertising Agent, has afforded him ample opportunities to observe the waste caused by injudicious methods of advertising, and enable him to suggest the best mediums and to offer practical advice and assistance in so placing advertisements that the Advertiser MAY REAP the best results from the money expended.

Advertisements and Subscriptions received for ALL THE LEADING Newspapers and Magazines at Low Rates. Special attention given to "locals" or reading notices in the Providence Papers.

Libraries, Societies or Individuals requiring any considerable number of Newspapers and Periodicals will find it to their advantage to send for terms.

Estimates for any amount of Advertising, and information as to the best mediums, cheerfully furnished

THOMAS EVANS,

Consulting and Constructing Steam Engineer.

Examination and Testing Steam Plants to ascertain the efficiency of the same, also general examinations with a view of improving the plant and for the economy of fuel. Agent for the best slide valve engine in the market.

Thomas Evans' Patent Grate Bar.

The above cut represents the **Thomas Evans Patent Grate Bar** as set in two lengths under the ordinary tubular boiler or a square furnace, showing also the method of supporting the same. This bar has been in the market some eight years and given universal satisfaction, and has received many flattering testimonials. As seen in the cut, the bar rests on bearing bars supported by cast iron pockets built in the walls.

The bearing bars are a loose fit allowing for expansion and contraction, without bringing undue strain on the walls and increasing the wear and tear of the same.

These cast iron pockets are built flush with the wall, and are large enough to allow of removing the bearing bars when necessary for repairing the walls or boilers.

These rest bars have a knife edge allowing the ashes to drop freely from the bars.

This bar is adapted for any kind of fuel or furnace, from the ordinary horizontal tubular boiler to the most intricate fire-box, including the vertical with brick furnaces or water leg.

The air space varies according to the fuel used from 45 to 65 per cent.

The iron used for these grates is of the best quality, no old iron being used.

Those in need of a durable grate at a reasonable price will find this bar all that can be desired. They are made in from one to three lengths according to the length of furnace.

The clearance of this bar is such that the fine ashes can be readily removed, enabling the fireman to have a clean fire with a minimum amount of labor. This is very desirable, especially during the summer months.

The free circulation of air through the bar prevents the forming of clinkers to a large extent; in fact, we have no hesitation in saying that the combustion of coal, where this bar is used with the proper air space, is as nearly perfect as can be, as the air flows through with the least possible resistance, diffusing itself through the whole furnace.

Steam Carpet Beating Company,

New Number, 151 Summer Street.

Telephone No. 1539.

Economy! Neatness!! Dispatch!!!

Old Carpets made to look nearly as good as new by use of the Patent Carpet Beating Machine. Grease removed by a new process. Special rates for renovating. By this method of cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, *yet thoroughly expel all the dust and moths.* The dust and dirt as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moths or lava which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

If it be found necessary we can apply our *heated steam process* in addition to the machine for removing dust and dirt; and this process will effectually relieve the carpet of all impurity, and in doing this bring the colors out almost like new. The moths and vermin are killed and not likely to trouble the fabric for a long time to come. Health and comfort are both promoted thereby. The carpets are not only beaten and cleaned, but are thoroughly aired, there being a constant supply of fresh air going through the machine at all times.

Orders sent by Mail or Telephone to the Factory will receive prompt attention. Open every working day of the year. ☞ ALL WORK GUARANTEED.

CARPETS, RUGS, BLANKETS, ETC., WASHED.

Carpets called for, cleaned and returned without regard to weather. Cartage Free. Carpets taken up and relaid when desired. Send for Circulars.
