June 26, 1958

Honorable Walter H. Reynolds, Mayor
The Honorable City Council
of the City of Providence
City Hall
Providence, Rhode Island

Gentlemen:

In compliance with Chapter 8, Section 9 of the Revised Ordinances of 1946 and Section 108.15, Subsection (d) of the Charter of 1941, the City Plan Commission and Finance Director submit herewith our report on the Capital Improvement Program for the City of Providence for 1958-1964. This ninth annual report further supplements and amends the City Plan Commission's Publication Number Eight of August, 1950, which presented the first Capital Improvement Program for the City.

This report is in keeping with the recommendations contained in the former documents that the program be reviewed and revised annually. The program submitted consists of capital projects and expenditures for each of the six fiscal years between October 1, 1958, and September 30, 1964. The first year of the Program is designated as the Capital Budget for 1958-1959.

That part of the Capital Budget to be financed from current revenues is being incorporated by the Budget Officer into the Operating Budget for the coming fiscal year.

The remainder of the Program for 1959-1964 is necessarily flexible in nature. In each succeeding year recommendations will be revised and extended each year in the light of future needs and future ability to pay.

Honorable Walter H. Reynolds, Mayor
The Honorable City Council
of the City of Providence

June 26, 1958

The Finance Director and the City Plan Commission
wish to express their appreciation of the cooperation ex-
tended by all agencies represented in the report.

Very truly yours,

Edward Winsor

EDWARD WINSOR
CHAIRMAN
CITY PLAN COMMISSION

John J. Cashman

JOHN J. CASHMAN
FINANCE DIRECTOR

IN CITY COUNCIL

JUL 3 - 1958

READ:

WHEREUPON IT IS ORDERED THAT
THE SAME BE RECEIVED.

D. Everett Whelan
CLERK

I. INTRODUCTION

The City Plan Commission and Finance Director present herewith the eighth revision of the Capital Improvement Program for Providence. The report is the ninth of what is planned to be a continuing series with publications issued annually. Each year some proposals are abandoned, others added, the work of the past year is reviewed, and the program is projected one more year into the future.

In this Capital Improvement Program city departments join together in presenting their proposals for construction projects and land purchases and detailed plans for development of the City during the next six years. They give special attention to projects to be underway in the fiscal year beginning October 1, 1958, and these are carefully reviewed by the City Plan Commission and Finance Director to make sure that they do not conflict one with another or with general and long-term plans for the City's development. Projects comprising the Capital Improvement Program are arranged in a priority order of scheduling according to relative urgency and merit.

This recommended \$22,385,995 Capital Program (including the Water Supply Board) for the fiscal years 1958 through 1964 schedules, by years, projects felt to be essential to the City's proper development and is related closely to the several Master Plans prepared by the City Plan Commission.

II. THE FINANCIAL SITUATION OF THE CITY

Since the city began to operate under its new charter in 1941, it has made significant progress in its financial practices. It has been able to abandon borrowing to meet operating expenses, it has reduced its floating debt, it has abandoned tax anticipation borrowing, and it has ceased to issue refunding bonds. This has been accomplished with a tax rate that is very low for cities of the size of Providence. It is especially low in consideration of the amount and quality of public services. In addition, in spite of a considerable program of public works, the net general long-term debt has shown a net increase of only \$1,899,000 during the postwar years. The city's net general long-term debt was about \$42,204,000 at the end of 1957 compared with about \$40,305,000 at the end of 1945.

Beginning in 1950, the city established a Capital Improvement Program and Capital Budget as a part of its general program of financial planning. The Capital Improvement Program is for a six-year period, the first year of which is the capital budget for the next fiscal year. Each year the program is re-examined, amended, and extended another year.

The purpose of capital planning is generally to facilitate and coordinate future capital projects within the city's current and future financial ability. The Capital Improvement Program is essentially a procedure for centralizing and coordinating all the various departmental requests with the hope of reducing delays, eliminating duplication of effort, and generally improving efficiency. The various projects are scheduled according to two basic criteria, (which in turn affect and are affected by many other factors), the relative urgencies of the requests and the amount of funds that can be devoted

to capital projects. Given the second, (the amount that can be spent), projects are scheduled according to their relative urgency considering the many and varied needs of the community. This procedure obviously can never be perfect with a large variety of operations and considerable differences of opinion concerning the relative merits of projects. Nevertheless, this scheduling represents a reliable and orderly way of administering a continuing program of capital expenditures.

The second part, how much can be spent, is rather involved. There are, or should be, some funds available for capital expenditures out of current revenue each year. This amount is determined by the size of predicted receipts and future operating budgets. To this item can be added the amount of borrowing the city can afford. Even if there were no legal and procedural limits on a city's use of bonds, there are some very real economic limits. If the existing level of debt and debt service is manageable, there can be additional borrowing each year at the same rate as old debt is being retired without increasing the debt. At present Providence is retiring about two and one half million dollars of old bonded debt per year.

As frequently is the case, the funds presently available from current revenue and from borrowing at a rate that will not raise the debt are not sufficient to meet even the most urgent project needs. As a part of the capital programming, estimates are made of future debt service resulting from scheduled borrowing.

At the time the Capital Improvement Program was concluded, it appeared that the local share of the Fox Point Hurricane Barrier will amount to 30 percent of the estimated \$16,500,000 construction cost, or \$4,950,000. It is understood that the local share will be

met upon a basis to be agreed upon among the local interests, namely, the State of Rhode Island, the City of Providence and property owners within the district to be benefited. Because it has not been possible to schedule this project specifically in the recommended six-year program, it will be included in the Capital Improvement Program to be prepared next year.

Applications for advanced planning funds in the amounts specified have been submitted to the Housing and Home Finance Agency, Community Facilities Administration under the provisions of Public Law 560, 83rd Congress, as amended covering the three following projects:

40 Million Gallon Underground Concrete Distribution Reservoir with appurtenant Aqueduct Connections ---- \$80,000.

Additions, Alterations and Improvements in accordance with master plan of the Water Purification Works for the Water Supply Board of the City of Providence, Rhode Island, located in Scituate, Rhode Island ---- \$39,000.

New Facilities for Highway Section of Public Works Department ---- \$60,000.

Several other projects are under study for early applications including:

School -----	Lippitt Hill - Constitution Hill Area
Fire -----	Fire Station - Vicinity of Mt. Pleasant and Chalkstone Avenues
Recreation -----	Smith Hill Pool and Gymnasium
Park -----	Garage to house equipment, Menagerie Building, Pony Barn, Roger Williams Park Comfort Station
Traffic -----	Parking Structure - north side of Broadway, opposite Jackson Street

The advance preparation of plans for the above projects will make possible an accelerated Public Works Program as stated on Page 14.

III. DEPARTMENTAL REQUESTS AND RECOMMENDATIONS

Listed in the left-hand column below are the Capital Improvement Projects requested by the various city departments and agencies. Those departments and agencies not presently concerned with building or land acquisition programs are omitted from this list. The recommendations of the City Plan Commission and the Finance Director are shown in the right-hand column for each requested project.

FIRE DEPARTMENT

Project FD3 - Apparatus Replacement

\$40,000 has been requested for each year of the Capital Improvement Program. This is a continuing program of replacing the oldest equipment.

It is recommended that \$40,000 be scheduled from current revenue for each fiscal year 1959-1960 through 1963-1964 for this project.

Project FD4 - Station Replacement

\$200,000 has been requested to construct a new fire station in the vicinity of Chalkstone and Mount Pleasant Avenues replacing two other stations.

It is recommended that \$20,000 be scheduled for 1959-1960 to start the project and \$180,000 for 1960-1961 to complete the project. Financing will be from current revenue.

PARK DEPARTMENT

Project PK1 - Roger Williams Park Comfort Station

\$40,000 has been requested for fiscal year 1958-1959 for the construction of a modern comfort station at Roger Williams Park.

It is recommended that \$40,000 be scheduled from current revenue for 1959-1960 to accomplish this project.

Project PK16 - Dual Road-Betsey Williams Hill

\$10,000 has been requested for fiscal year 1959-1960 for a dual road on Betsey Williams Hill in Roger Williams Park. This road would facilitate the flow of traffic through Roger Williams Park.

It is recommended that \$10,000 be scheduled from current revenue for 1960-1961 to complete this project.

Project PK6 - Menagerie Building

\$140,000 has been requested for fiscal year 1961-1962 to construct

It is recommended that \$140,000 be scheduled from current revenue

a new menagerie building in Roger Williams Park.

for 1962-1963 to complete the project.

Project PK7 - Park Garage

\$30,000 has been requested for fiscal year 1961-1962 to construct a garage to house trucks and equipment in Roger Williams Park. Much of this equipment is now scattered in various buildings about the park.

It is recommended that \$30,000 be scheduled from current revenue to accomplish this project in 1962-1963.

Project PK9 - Pony Barn

\$50,000 has been requested for a new pony barn in Roger Williams Park, to be built during 1961-1962.

It is recommended that \$50,000 be scheduled from current revenue to accomplish this project in 1962-1963.

POLICE DEPARTMENT

Project PD1 - Central Station Parking Lot

\$50,000 has been requested for 1958-1959 to acquire properties near the Central Police Station to be developed for short-term parking use by persons visiting the police station and for storage of impounded vehicles.

It is recommended that \$50,000 be scheduled from current revenue to accomplish this project in 1959-1960.

PUBLIC LIBRARY

The Providence Public Library is not a city department, but rather a private library, the free use of which is available to its public. The city does, however, make a substantial contribution to the operating expenses of the library.

Project PL4 - Bookmobile

\$35,000 has been requested for fiscal year 1960-1961 for a bookmobile to serve areas of Providence inaccessible to existing branches. It would also serve playgrounds, housing projects, shopping centers, etc.

It is recommended that \$35,000 be scheduled in 1960-1961 for this project.

PUBLIC WORKS DEPARTMENT

Project PW3 - Sewer Construction in Unimproved Streets

\$200,000 has been requested for

It is recommended that \$200,000

the fiscal years 1958-1959, 1959-1960, 1960-1961, and \$150,000 for 1961-1962, 1962-1963, and \$100,000 for 1963-1964.

be scheduled in the fiscal years 1958-1959, 1959-1960, 1960-1961, and \$150,000 for 1961-1962, 1962-1963, and \$100,000 for 1963-1964. Bond funds will be required.

Project PW4 - Highway Construction in Unimproved Streets

\$250,000 has been requested for 1958-1959 and \$250,000 for 1959-1960 and \$200,000 for each succeeding year of the Capital Improvement Program.

It is recommended that \$250,000 be scheduled in 1958-1959 and 1959-1960, and \$200,000 in each succeeding year of the Capital Improvement Program. Bond funds will be required.

Project PW 25 - Traffic-Transit Construction Program

The Traffic Engineering Department has requested \$20,000 for each year of the Capital Improvement Program to accomplish projects to expedite traffic flow.

It is recommended that \$20,000 for this project be included in the funds designated for the Highway Reconstruction, Project PW5.

Project PW5 - Highway Reconstruction

\$200,000 is requested in 1958-1959 and 1959-1960, and \$100,000 in each succeeding year of the 1958-1964 Capital Improvement Program.

It is recommended that \$200,000 (to include \$20,000 for the Traffic Transit Construction Program) be scheduled for the two-year period 1958-1959, 1959-1960, and \$100,000 be scheduled for each succeeding year of the 1958-1964 Capital Improvement Program. Bond funds will be required.

Project PW 27 - Huntington-Niantic Expressway

\$500,000 has been requested for 1958-1959 to complete the city's share (\$1,000,000) of this local, state, and federal project.

It is recommended that this request be granted. Financing will be from existing bond authority.

Project PW 28 - Supporting Facilities in the West River Redevelopment Project

\$200,000 has been requested for the fiscal year 1958-1959 for the construction of Supporting Facilities in conjunction with the West River Redevelopment Project.

It is recommended that \$200,000 be scheduled in 1958-1959 for this project. Financing will be from existing bond authority.

Project PW 26 - Dock Extension and New Building at Fields Point

\$2,000,000 has been requested for an expansion of the dock and facilities at Fields Point. Bond

This project has not been scheduled in the 1958-1964 Capital Improvement Program. In the event

authority for this amount has been approved. This project is contingent upon the McLean Company's being able to begin operations. the McLean Company is allowed to begin operations, the project will be scheduled as soon as possible.

Project PW 29 - Highway Equipment Building

\$500,000 has been requested for the fiscal year 1959-1960 and \$500,000 in 1960-1961 to construct a new Highway Building. This project provides for the replacement of the present Highway Buildings, whose site is to be condemned by the State for the construction of the North-South Freeway. It is recommended that this request be granted. Bond authority will be required.

The following projects requested by the Public Works Department have been placed on the deferred list.

Project PW10 - Redecking of Acorn Street Bridge
Project PW14 - Leland Street Foot Bridge Reconstruction
Project PW15 - Reconstruction of Smith Street Bridge
Project PW16 - New Bridge near Bath Street
Project PW18 - North Main Street District Storm Sewers
Project PW21 - Construction of Woonasquatucket River Walls
Project PW30 - Merino Foot Bridge Reconstruction

RECREATION DEPARTMENT

Project RD2 - Smith Hill Swimming Pool and Gymnasium

\$225,000 has been requested for 1958-1959 and \$225,000 for 1959-1960. It is recommended that \$225,000 be scheduled in 1958-1959 and \$225,000 in 1959-1960. Financing will be from existing bond authority.

Project RD6 - Playground Improvement Program

\$35,000 has been requested for each year of this Capital Improvement Program. It is recommended that this request be granted. Financing will be from current revenue.

REDEVELOPMENT AGENCY

Six projects have been submitted by the Providence Redevelopment Agency to be scheduled during the 1958-1964 Capital Improvement Program. Since these projects are financed jointly by the City and the Federal Government (Federal contribution is currently 2/3 of the net project cost, which is the cost of planning, purchasing the land and preparing the land for new uses less the price received for

the land), the future of these projects and their ultimate cost to the City depend on the willingness of the Federal Government to maintain the program on the current basis. Should the program be abandoned by the Federal Government or should the Federal contribution be significantly reduced, some of these projects would have to be deferred or perhaps even abandoned. Conversely, should Federal funds be made available in increased amounts, perhaps as an expanded program of "public works" designed to help fight unemployment, it might well be possible to reschedule some projects for an earlier date. In all seven projects listed below the cost represented is the City's one third of the estimated net project cost.

Project D2-R - Point Street

\$85,800 has been requested for 1958-1959 and \$27,700 for 1959-1960 as the City's share of the cost of redeveloping this site for industrial use.

It is recommended that \$85,800 be scheduled in 1958-1959 and \$27,700 in 1959-1960 with financing from existing bond authority.

Project D7-R - Lippitt Hill

\$75,000 has been requested for 1958-1959; \$675,000 for 1959-1960; \$225,000 for 1960-1961; \$165,000 for 1961-1962; and \$60,000 for 1962-1963 as the City's share for residential rehabilitation and development of this project area.

It is recommended that this total be approved and funds be made available from existing bond authority.

Project D3-A - Central-Classical

\$1,467,000 has been requested for 1960-1961; \$195,000 for 1961-1962; and \$294,000 for 1962-1963 as the City's share for redevelopment of this project area.

It is recommended that \$1,467,000 be scheduled in 1960-1961; \$195,000 in 1961-1962; \$294,000 in 1962-1963. This project will be started with funds from existing bond authority. New Bond authority will be required to complete the project.

Project D7-S - Randall Square

\$750,000 has been requested for

It is recommended that this total

1960-1961; \$375,000 for 1961-1962; be approved. Bond authority will
\$375,000 for 1962-1963; \$200,000 be required.
for 1963-1964; and \$300,000 after
1964 as the City's share for in-
dustrial redevelopment.

Project D7-A - Constitution Hill

\$469,000 has been requested for 1962-1963; \$235,000 for 1963-1964; and \$548,000 after 1964 as the City's share for residential rehabilitation of this project area. It is recommended that this project be approved. Bond authority will be required.

Project D7-R - West River

\$232,000 has been requested for 1958-1959 and \$92,495 for 1959-1960 to complete this project. It is recommended that this request be granted. Financing will be from existing bond authority.

The following project has been deferred until after the fiscal year 1963-1964.

Project A-1 - Mashapaug Pond

SCHOOL DEPARTMENT

Project SD10 - Joslin Street School

\$750,000 has been requested in 1958-1959 to complete work on this school. It is recommended that \$750,000 be scheduled in 1958-1959 to complete this school with financing from existing bond authority.

Project SD5 - Danforth Street (Smith Hill) Elementary School

\$200,000 has been requested in 1958-1959 to start work on this school; and \$800,000 in 1959-1960 to complete this project. It is recommended that \$200,000 be scheduled in 1958-1959 and \$800,000 in 1959-1960 for this project. Financing will be from existing bond authority.

Project SD3 - Lower South Providence Elementary School

\$200,000 has been requested in 1958-1959 and \$800,000 in 1959-1960 to construct this school. It is recommended that \$200,000 be scheduled in 1958-1959 and \$800,000 in 1959-1960 for this project. Financing will be from existing bond authority.

Project SD9 - Classical High School

\$500,000 has been requested in each of the two fiscal years 1960-1961 and 1961-1962 to construct this school. This project to be coordinated with the It is recommended that \$500,000 be scheduled in each of the two fiscal years 1960-1961 and 1961-1962 to construct this school. Financing will be from existing bond authority. This

Central-Classical Redevelopment Project.

project will be started with advanced Federal funds received for surveying and planning.

Project SD4 - Lippitt Hill Elementary School

\$200,000 has been requested in the fiscal year 1962-1963 and \$800,000 in 1963-1964 to construct this school. This project to be coordinated with the Lippitt Hill Redevelopment Project.

It is recommended that \$200,000 be scheduled in the fiscal year 1962-1963 and \$800,000 in 1963-1964 to construct this school. Bond authority will be required.

Project SD8 - Modernization Program

\$500,000 has been requested in 1958-1959 and 1959-1960 for the modernization of existing school buildings.

It is recommended that \$500,000 be scheduled in 1958-1959 and 1959-1960 for this project. Financing will be from existing bond authority.

TRAFFIC ENGINEERING DEPARTMENT

Project TE1 - Traffic Signal Construction

\$25,000 has been requested for 1958-1959 and each succeeding year of the Capital Improvement Program.

It is recommended that \$25,000 be scheduled from current revenue for each fiscal year beginning 1959-1960 through 1963-1964 for this project.

Project TE2 - Parking Meter Replacement

\$10,000 has been requested for 1958-1959 and each succeeding year of the Capital Improvement Program.

It is recommended that \$10,000 be scheduled from current revenue for each fiscal year beginning 1959-1960 through 1963-1964 for this project.

Project TE4 - Parking Garage "A"

\$300,000 has been requested for 1958-1959 and \$900,000 for 1959-1960 to complete the first municipal parking garage.

It is recommended that \$300,000 be scheduled for 1959-1960 and \$900,000 for 1960-1961 with funds to be made available from existing bond authority.

Project TE8 - Off-Street Parking Lots

\$200,000 has been requested in 1958-1959 and \$265,000 in 1959-1960 for the construction of off-street parking lots.

It is recommended that \$200,000 be scheduled for 1960-1961 and \$265,000 for 1961-1962 with funds to be made available from existing bond authority.

The following projects requested by the Traffic Engineering Department have been placed on the deferred list until such time as the City's share of the cost of the construction can be determined. These projects are in the City's MASTER PLAN FOR THOROUGHFARES and should be accomplished as soon as possible.

Project TE13 - Kinsley-Promenade Reconstruction

Project TE14 - Red Bridge Reconstruction

Project TE15 - Western Expressway

Project TE16 - Construction Required as a Result of the Freeway

Project TE17 - North Main Street Widening

WATER SUPPLY BOARD

The Water Supply Board is practically an independent enterprise, financed chiefly from funds separate from those of the rest of the City Government. For this reason, projects of the Board have been shown separately in the schedules which follow. The scheduled projects are designed to meet existing or anticipated increasing demands on the system.

IV. THE RECOMMENDED PROGRAM

The total of the amounts requested for capital improvements by the various city departments for the six fiscal years 1958-1964 is \$19,932,995, exclusive of the Water Supply Board. This is a decrease of \$1,748,005 over the amount requested for 1957-1963. Most of these requested projects are necessary, should be started soon, and will have to be accomplished eventually. The limited funds available for capital improvements require, however, that some of these projects be rescheduled or deferred until after the current six-year program. The Finance Director and the City Plan Commission have attempted to schedule these requested projects according to their relative priority within the limits of the city's financial ability. The Recommended Six-Year Capital Improvement Program totals \$19,802,995, exclusive of the Water Supply Board. This represents a six-year program \$797,691 less than scheduled for the 1957-1963 program. The Capital Budget for 1958-1959 totals \$3,652,800.

Predictions of net general long-term debt and debt service are shown in Table 3. The limited program recommended will involve an increase in the debt and debt service. If it is assumed that no new bond issues will provide for five-year deferrals of payments on principal, except where bond authority makes a deferral mandatory, the net general long-term debt will increase from \$44,540,198 in 1958 to a peak of about \$50,202,557 in 1961.

If it is assumed that provisions for five-year deferrals of payments on principal will be required for most new bond issues of \$1,000,000 or larger, the net general long-term debt will increase from \$44,540,198 in 1958 to a peak of about \$50,414,557 in 1961.

Assuming no five-year deferrals of payments on principal

except where mandatory, debt service is expected to increase from \$3,883,681 in 1957-1958 to about \$4,828,570 in 1964-1965. Assuming five-year deferrals on principal for most new bond issues of \$1,000,000 or larger, debt service is expected to increase from \$3,883,681 in 1957-1958 to about \$4,153,850 in 1964-1965. This peak figure does not take into account the possibility of additional borrowing subsequent to the completion of the 1958-1964 program. With the backlog of school construction, redevelopment projects, and the various other capital projects, it does not seem likely that capital expenditures after 1964 can be reduced sufficiently to permit any easy, rapid reduction in the debt and debt service. Debt and debt service charges can more readily be reduced as it becomes possible to finance a larger part of the Capital Improvement Program from current revenues.

The recommended program schedules \$35,000 from current revenue for capital improvements in 1958-1959. The yearly average for the next five years is \$214,000. This is a smaller amount of financing from current revenue than was planned a year ago. It would be desirable to increase this figure considerably, but unfortunately with the existing and projected level of city revenues, it does not presently appear that more funds will be available soon.

In the event that a federally-aided public works program became necessary and activated to fight a general increase in unemployment, the recommended program could be accelerated and the presently deferred projects could be advanced in timing.

1970-1971	26,367,673	22,318,673	3,855,893	3,715,213
1971-1972	23,786,141	19,736,141	3,459,556	3,318,841

- Notes: 1. Assuming 5-year deferrals on principal payments for most issues larger than \$1,000,000.
2. Assuming no 5-year deferrals on principal payments except where mandatory.

All figures are exclusive of Water Supply Board. Figures assume new bond issues to be financed at 3½%. Items within the Capital Improvement Program to be financed from current revenues are excluded.

Figures above line indicate the probable effect on net debt and debt service as the 1958-1964 Capital Improvement Program is accomplished and funded. Figures below the line indicate only the rate of decline in debt under the artificial assumption of no additional borrowing subsequent to completion of the 1958-1964 program.

Source: City Controller. Predictions are based upon the schedule of Capital Improvement Projects for 1958-1964 and the anticipated schedule of funding the projects.

* Estimated

SOURCE: Annual Financial Reports of the City of Providence (Controller's Reports).

NOTES: (1) These figures are exclusive of the Water Supply Board

(2) Miscellaneous includes these items from the general fund report on revenues in the Controller's Report: Business and nonbusiness, state-shared liquor tax licenses, special assessments, fines, donations and sewer rentals. It also includes poll taxes and dog license fees from the School Fund section of the Controller's Report.

(3) Departmental Revenue includes all items listed under total departmental revenue in the Controller's Report plus School Departmental Revenues listed separately in the School Fund.

(4) Grants-in-Aid includes all items listed under general fund revenues in the Controller's Report plus grants-in-aid for schools and public school teachers' salaries as listed separately under the School Fund.

(5) Total includes total General Fund Receipts (less the Water Supply Board) plus School Fund Receipts. The sum of the subtotals may not always equal the total column because the numbers have been rounded off to the nearest thousand.

SOURCE: Annual Financial Reports of the City of Providence.

NOTES: (1) These figures are exclusive of the Water Supply Board.

(2) The totals in each category are based on general fund expenditures except for the Public Schools account. The total expenditure for public schools is listed separately under the School Fund and includes expenditures additional to those made from the general fund.

(3) The Parks and Recreation category includes the expenditures for "Celebrations" listed separately in the Controller's Report.

(4) "General Government" expenditure is obtained by adding the totals for financial and for general administration.

(5) As of 1952, the Fire Insurance Fund was added to the miscellaneous category.

(6) Beginning in 1952 the expenditures for Public Bath Houses and Public Comfort Stations are included under Public Health rather than under Public Works.

(7) The sum of the subtotals may not always equal the total column because the numbers have been rounded off to the nearest thousand.

TABLE V
NET GENERAL LONG-TERM DEBT
AND
ANNUAL DEBT SERVICE CHARGE
City of Providence
1945 - 1957

(In 000's to nearest 1,000)

Year	Net Debt	Annual Debt Service Charge
1945	\$ 40,305	\$ 3,457
1946	38,599	4,027
1947	37,116	3,511
1948	37,011	3,401
1949	39,987	3,319
1950	43,681	3,396
1951	43,752	3,569
1952	43,305	3,652
1953	42,037	3,538
1954	42,248	3,471
1955	41,756	3,512
1956	39,672	3,592
1957	42,204	3,684

SOURCE: City Controller and Annual Report of City Treasurer.

NOTE: These figures are exclusive of the Water Supply Board.
The annual debt service includes payment of principal
and interest.

Net Debt, exclusive of Water Supply Debt is determined as
follows:

For 1957 - Total Serial Bonds	\$ 35,959,500
Plus Total Sinking Fund Bonds	<u>1,600,000</u>
	\$ 37,559,500
Less Sinking Funds and Premium on Serial Bonds	<u>2,516,795</u>
	\$ 35,042,705
Plus Notes Payable	<u>7,160,857</u>
Net Debt	\$ 42,203,562

TABLE VI
NET GENERAL LONG-TERM DEBT
BY PURPOSES
City of Providence
1952 and 1957
(In 000's to nearest 1,000)

Purpose	Amount of Debt
