Mr. Michael Grimaldi Sr.  
City of Providence  
Communications Department  
One Communications Place  
Providence, RI 02903

Dear Mr. Grimaldi,

As a result of your request, I am writing to you to explain the reason for the NICE Logging Recorder upgrade.

First and foremost, as you are aware the 800 MHz State Interoperable Radio System is in the process of being upgraded from version 7.11 to 7.14. This impacts the City of Providence because you are connected to the State owned Master Site, this interface is what provides the city with State Wide radio communication coverage.

Your existing Nice Logger is no longer compatible with the system when the upgrade occurs to 7.14. Also today you operate with Scenario Replay which is no longer supported by Nice who now supports Inform software. These changes also require the upgrade from a G5 Server to a G8 Server.

Finally, Scenario Replay also impacts your Call Focus III Voice Recorders which will no longer be supported. So they also need to be upgraded to Inform Software in order to be supported in the future.

**MOTOROLA SOLUTIONS**

I hope this explains the reason for the upgrades and the necessity to move forward immediately in order to remain compatible and record all of the information that is recorded today.

Sincerely,

*Ron Provost*

This Contract Amendment is issued under the provisions of the State Contract identified above. The changes authorized are within the scope of the original contract. All rights and obligations of the parties shall be subject to and governed by the terms of the original contract including any subsequent amendments, which are hereby incorporated by reference.

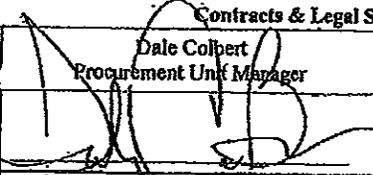

**Purpose of Amendment**

**Purpose:** One-year Contract Extension (10/30/13 – 10/29/14)

Motorola Solutions, Inc. agrees to extend Contract 02702 for WSCA Public Safety Communications Equipment and Services for one additional year (October 30, 2013 through October 29, 2014), under the existing contract terms, conditions, specifications and pricing. This extension will allow additional time to complete the rebid of a replacement contract and should a WSCA-NASPO replacement contract be awarded and become effective for products and/or services available through this contract prior to October 29, 2014, both contracts may run concurrently to allow time for participating entity customer transition to the new contract.
