44 (b).

The purpose of the Community Development Block Grant program is to plan and implement a program of physical development, historic restoration and preservation, parks development and associated social programming in low and moderate income areas of the City of Providence.

44 (c).

Over the past five years, the CDBG program has provided (1) low interest loans and grants for home improvements; (2) community center construction; (3) historic preservation activities; (4) parks and open spaces renovation and development; and (5) social programming in conjunction with other physical development activities.

The program outlined in this 6th year application continues each of these program areas in a concentrated manner in each of 6 NSA's and in a less concentrated manner in 7 secondary development neighborhoods and on a scattered site basis in the balance of the City of Providence.

44 (e).

The Community Development Block Grant program benefits those residents of Providence who are of low and moderate income. All age groups benefit from CDBG programs, from day care and after school day care to senior citizens programs. The NSA's are the areas of primary concentration with the secondary development neighborhoods receiving less concentrated programs of physical development.

(g) Other agencies involved in the project include:

- Department of Planning and Urban Development
- Providence Community Action Program
- Office of Economic Development
- Providence Industrial Development Council
- New Homes for Federal Hill
- Stop Wasting Abandoned Property

Various subgrantee agencies administer each of the Social Programming components of the CDBG programs.

## INTRODUCTION

## INTRODUCTION

In this our sixth year of funding for Community Development, the City of Providence will continue to emphasize rehabilitaiton, restoration and preservation of its neighborhoods. Among the activities funded are: housing rehabilitation; parks, playgrounds and recreational centers; street improvements; neighborhood facilities; historic preservation; public services and economic development.

In the past, and again this year, housing rehabilitation will comprise the greatest share of Providence's allocation. This is necessary to address conditions that exist in a City of this size and age. Housing rehabilitation will be accomplished through four programs: Home Improvements for Providence, Elderly and Handicapped Paint Program, Historic Home Preservation, and the Stop Wasting Abandoned Property Program. Each program, in its own way, makes a significant contribution to the total revitalization effort.

It is our belief that by addressing the total needs of a neighborhood and not concentrating on one type of activity we will restore not only the physical appearance of our neighborhoods, but also pride in one's living area.

Through the cooperative efforts of the citizens, local and Federal governments, Providence is well on its way toward reclaiming its position as a great city.

DESCRIPTION OF PROJECT</b> <p>The revitalization of the Elmwood NSA as outlined in this project description will meet certain unique criteria for neighborhood renovation in this second year of the next three year Community Development cycle. The Elmwood neighborhood was initially designated as a Neighborhood Strategy Area through the NSA - Special Procedures program for Section 8 Housing Subsidy set-aside. The Elmwood neighborhood had functioning within it many forces which made its choice as an NSA especially appropriate. The Elmwood neighborhood is not severely deteriorated. There is a substantial need for rehabilitation, however, this need is far from overwhelming. Elmwood has, as an urban neighborhood, shown real progress within the last few years, in part because of the impact of Community Development dollars and in part because of the significant commitments of private sector dollars to neighborhood revitalization.</p> <p style="text-align: center;"><input checked="" type="checkbox"/> Check if continued on additional page(s) and attach.</p>

10) Description of Project

The NSA program will also require the city to provide a concentrated level of public (city) services to support both the Section 8 development and the Community Development improvements over past and proposed funding cycles. These services will for the most part, be provided through a concentration of on-going public services provided by the City of Providence. City agencies and the services that they provide will all be used to support the overall development and revitalization of the Elmwood neighborhood. In succeeding years, some projects which cannot be adequately funded through city resources will be allocated funds through the Community Development program. The sixth year total allocation for the Elmwood NSA is \$420,375. The allocation is broken down as follows: Housing, \$164,728; Neighborhood Facility, \$100,000; Street Improvements, \$25,000; Storefront Improvements, \$20,647; and Public Services, \$110,000.

The housing needs of the Elmwood NSA will be met by four separate but related programs. The Office of Community Development will provide grants or loans totalling \$164,728 for the rehabilitation of homes in need of repair. The Home Improvements for Providence Program will provide \$44,728 to low and moderate income homeowners to bring substandard properties up to City Code Enforcement standards. The Stop Wasting Abandoned Property (SWAP) program will be allocated \$45,000 to rehabilitate previously abandoned properties through a grant incentive program. The Historic Building Improvement program has been allocated \$50,000 for the preservation and rehabilitation of Elmwood's many historic properties. The Elmwood Neighborhood Housing Service will be allocated \$25,000 to operate a High Risk Loan fund program for the purpose of rehabilitating homes in the Elmwood neighborhood.

The Elmwood neighborhood has been allocated \$100,000 for the completion of a neighborhood community center. This \$100,000 will be used to supplement the fifth year allocation of \$250,000 for the purchase of a facility for the Elmwood neighborhood. Twenty-Five Thousand Dollars has been set-aside for Street Improvements for the Elmwood neighborhood. A total of \$20,647 has been set-aside for Storefront Improvements. Public Services will be funded for a total of \$110,000 and involves three programs: (1) Elmwood Youth - a program of activities for youth, \$54,000; (2) Senior Citizens - a program for seniors, \$26,000; and (3) Intake/Outreach program, \$30,000.

<b>10. DESCRIPTION OF PROJECT</b> <p>This project continues the rehabilitation of private residential properties on a scattered site basis throughout the areas of the City of Providence which are not NSA's or secondary development neighborhoods. The neighborhood specific allocation process has left substantial portions of the City with no resources for housing rehabilitation or for the elderly and handicapped paint program. There are, however, a large number of CDBG eligible households in these areas and which require assistance for home rehabilitation. The allocation of \$417,000 for housing rehabilitation in the "Balance of City" areas will provide rehabilitation resources in the balance of the six NSA neighborhoods as well as Reservoir, Mt. 10) Description of Project

Some of the areas mentioned above, do not qualify for programs of concentrated physical development, yet contain significant percentages of low and moderate income households, for example, Reservoir (43.3%). In addition, the balance of the NSA neighborhoods, South Providence, West End, Olneyville and Smith Hill have a very significant number of low income households. It is very important that the destabilizing influences do not spread throughout currently stable neighborhoods and also that the concentrated programs of rehabilitation in the NSA's are not undermined in pockets of deterioration outside the NSA boundaries.

The Park is a major recreation resource for the City and West Providence.  There has been significant progress made to make the Park a cultural, educational and recreational focal point for the entire City.  In spite of this, there is still a great deal of work that needs to be done. Especially, a program of renovation must be undertaken at the Casino, Bird House and Zoo Barn. Each of these buildings is important, both by its potential usage in the Park, and by its importance to the history of the Park. All three buildings are located in a historic district. HOUSING ASSISTANCE PLAN

HOUSING ASSISTANCE PLAN  
CURRENT YEAR GOAL

The Current Year Goal prepared last year for inclusion in the Community Development Block Grant application was revised prior its final approval by HUD. At the direction of HUD staff, the numerical goals especially for family and large family assistance were changed to reflect correct proportionalities. When we were instructed to make changes to the Annual Housing Action Program - Annual Goals, these changes did not affect the Three Year - Housing Action Program - Three Year Goals. Unfortunately, the changes which were mandated to the Annual Goal made certain of the component goals of the total three year goals appear to be inconsistent.

In this years Annual Goal, we would like to recommend that the Second incremental submission reflect a series of changes which will make the goals especially those for large family assistance more realistic. We understand that this will necessitate some amendment to the Three Year Goals but the value of making the goals consistent is clear.

This Annual Goal Statement reflects the changes especially in the increase of large family units. In general, this HAP supports the strategy set out over the last 2 years which targets assistance towards families, and rehabilitation programs.

We hope that you will allow the appropriate changes to the three year goal for large families (only in the category of Rehabilitation of Rental Units.) We understand that the goals for large families have been increased somewhat.

We would be happy to provide further information or make other corrections which HUD might feel are more appropriate. Helen Priske can best answer questions about the preparation of these documents.
