MEMORANDUM

TO: Councilman Terrance M. Hassett, Chairman, Committee on Public Works

FROM: William C. Bombard, PE, City Engineer/Acting Traffic Engineer *WCB*

CC: John D. Nickelson, PE, Director
Anna Stetson, Office of the City Clerk

DATE: 1/7/2005

SUBJECT: Request for 4-Way stop at Cumerford St and Dora St

The office of Traffic Engineering has investigated the request for a 4-way STOP at the intersection of Cumerford Street and Dora Street. Please note the following:

- Presently there are STOP signs on northbound and southbound Cumerford Street
- Dora Street stops 200 feet to the west at the intersection with Whitehall Street
- Dora Street ends 200 feet to the east at the intersection with Atwood Street
- A review of the accident history shows a total of four right-angle accidents during the last five years

Based on the information above, this intersection doesn't even qualify for a two-way stop, according to the Manual of Uniform Traffic Control Devices. The installation of a 4-way STOP at this intersection is not justified nor warranted.

"...signs, if used to excess, tend to lose their effectiveness."
Manual of Uniform Traffic Control Devices
