# PREFACE.

The semi-centennial of the organization of the city of Providence has given occasion for many references to its early history. In 1832, one hundred and ninety-six years after its settlement, the town of Providence was merged into a municipality. The growth in population to this time had been very gradual. Beginning with Roger Williams and his five companions in 1636, the inhabitants in 1730, nearly one hundred years thereafter, numbered 3,916. In 1748 the population was 3,452; in 1755, 3,159; in 1774, 4,321; in 1776, 4,355; in 1782, 4,310; in 1790, 6,380; in 1800, 7,614; in 1810, 10,071, and in 1820, 11,767. In 1830 the census showed Providence to have a population of 16,632, which, in 1832, the date of the city's incorporation, had increased to upwards of 17,000 people. The Directory published in that year contained 4,559 names. In the Directory of 1882 the names number 43,523, and using these figures as a basis for an estimate, we find the population of Providence to-day to be a little over 116,000, an increase of nearly 100,000 in fifty years.

The earlier history of Providence is of an exceedingly interesting nature. Thrilling scenes and incidents, and remarkable exhibitions of fortitude, heroism, and devotion have given a charm to its pages, which has found proof and recognition in the general and intelligent regard with which the records are held by the people of this community. There are, too, unusually abundant opportunities for the acquirement of information in this direction, and it is safe to claim for the citizens of Providence that nowhere in this country are they surpassed in the possession of local historical works, or in their knowledge of and veneration for what they contain.

Among the repositories of material facts relative to this city, the Directory may very properly be classed. Not only because of its positive and practical importance in the office and store in the common uses to which it is put, is it valuable, but it has become an index of the thrift, enterprise and advancement of the commercial and professional interests of this locality. There is also upon its pages a singular record, which, to say the least, demonstrates the continual unrest of many who are a part of the population of this city.

To illustrate this we give the following statistics, the result of a careful comparison of the Directory of 1881 with that of 1882. During the twelve months between the canvasses of these two Directories, 6,849 individuals whose names appear in this book changed the location of their residences. This is nearly 16 per cent. of the whole number of names in the Directory. These figures (6,849) represent over 18,000 men, women and children who have stepped into new homes within a year, and this takes cognizance of only one move, whereas there are doubtless not a few who have moved more than once within that period. We find also that among those engaged in business and others, such as salesmen, bookkeepers, clerks, etc., 1803 have removed into new locations, while 1662 have made a change in the nature of their occupation or business. In 100 firms, changes have been made either in their names or their membership, and 732 individuals or firms have gone out of business. The whole number of men and women engaged in a business or a profession (counting firms and companies as one), in this city is 5,323, which includes 801 who have commenced business since the canvass of the Directory of 1881.

The above facts and figures are of no little importance and may be of service to any who are especially interested in noting matters of this nature, while some doubtless will discover nothing of value in them. One thing is certain, that from no source, other than the Directory, can such information be deduced from year to year.

It will be readily seen that to collect, correct, compile and publish the information which the Directory furnishes, requires a great deal of care and labor, and it is only through the co-operation of the public that satisfactory results are attained. This we have received from the citizens of Providence, and to them we give our thanks.

SAMPSON, DAVENPORT, & Co.

Connection. CENTRAL FALLS.

We would invite attention to the large and varied stock of Papers, Envelopes and Furnishings generally, for the complete equipment of Counting-rooms, Schools or for personal use.

IN THE LINE OF PRINTING

we are prepared to give estimates for any job, large or small and can promise that extra care shall be taken to have all work correctly and neatly printed.

In the matter of BLANK BOOKS, we make from any desired paper, any quality of binding, with or without printed heads. On request will send and take pattern of any book and give prices.

We have the largest variety of Legal Blanks, for the use of Lawyers, Town Clerks, etc., to be found in the State, and are constantly making additions as new forms are needed.

Having the agency for supplying the Schools of the State under the appropriation of the General Assembly, we are prepared to furnish Webster's and Worcester's Dictionaries, Lippincott's Gazetteers and Biographical Dictionaries, Globes, Maps, Charts, Chalk Crayons, Call Bells, Feather Dusters, etc., etc.

For all classes of work in our line send for estimates.

THE FASTEST PRINTING PRESSES IN THE WORLD IN THE OFFICE OF THE JOURNAL BULLETIN.

The large and continuous increase in the circulation and business of the PROVIDENCE JOURNAL and EVENING BULLETIN has compelled the introduction of the best printing machinery known. The office is now equipped with two Hoe Perfecting Presses (pictured above), which will together print one thousand copies of the BULLETIN, or five hundred copies of the JOURNAL in one minute. Notwithstanding the increase in size and circulation, the rates of subscription and advertising remain unchanged, or rather have, in some particulars, been reduced. The JOURNAL, daily, 88 per annum; three cents, single copy. Semi-weekly, \$3.50, in advance. Weekly, \$2.00, in advance. The BULLETIN, daily, 66 per annum; two cents, single copy.

LIBERAL TERMS WITH NEWSDEALERS AND CLUBS.

# Commercial College Circular.

Twenty-first Edition.

COLLEGE LOCATION:

PARIS HALL, 193 WESTMINSTER ST.,  
PROVIDENCE, R. I.

1882.

A BRIEF HISTORY  
OF  
SCHOLFIELD'S COMMERCIAL COLLEGE.

THIS Institution was founded by its present Proprietor, Albert G. Scholfield, in June, 1846.

In the absence of suitable quarters, not to be found in the City of Providence, in which to locate such an Institution, it was located temporarily in the Mallett Building, on South Main Street, waiting the completion of a building in process of erection on Westminster Street, near the junction of Westminster and Weybosset streets, to which (Jones Building) it was removed in April, 1847.

This was the first commercial school established in Rhode Island, and the patronage for its first year was secured by great exertions on the part of the principal, so skeptical were the citizens of the State in regard to the necessity for such a school and the advantages to accrue therefrom.

The primary object of this Institution was to cultivate a taste for Writing, and awaken a greater interest in the science of accounts. Hence, Writing and Book-keeping were the leading branches taught. For the first three years its patronage was drawn mainly from men in actual business, either as accountants or their employers.

It soon became apparent that it were wise to introduce other branches, the common and higher English department and Mechanical Drawing, which latter study has been almost exclusively confined to professional mechanics.

After three years' occupation of a suite of rooms in the Jones Building, and it having become apparent that a more favorable location could be obtained elsewhere, this Institu-

tion was removed, in the spring of 1850, from the Jones to the McNeal Building, No. 81 Westminster Street, where it thrived beyond all precedent, and maintained itself against all competition, near or remote. At this stage of progress, occupying, as we did at this time, seven large apartments, all of which were crowded to their utmost capacity, we were compelled, by the constantly increasing number of students, to seek more capacious quarters, which we did, in the Howard Building, to which this Institution was removed in July, 1866.

Whilst the accommodations for such an Institution, thus secured, were the best that could be obtained in this city at that time, and served our purpose better than the place from which we last moved, yet it did not meet all the requirements of an Educational Institution like ours. In the erection and completion of the Paris Building, so-called, on the corner of Westminster and Eddy streets, every desirable provision was made to meet the demands for a Mercantile and Commercial School edifice, and in April, 1881, Scholfield's Commercial College was removed to this edifice, where it now occupies apartments in every way suited to the demands of the times. The patronage of the school has ranged since its establishment from Fifty to Five Hundred Students per annum. The Teachers have numbered from two to twelve, as occasion has demanded. During the Thirty-six Years of its existence it has enjoyed a patronage of Eleven Thousand Students, and has graduated Three Thousand Four Hundred in the Business or Book-keeping course. In relation to the merits of this Institution, let its past history and the Eleven Thousand who have received instruction within its walls, answer. In relation to its future, we have only to say that never since this Institution was founded were we as well prepared to impart instruction in the various branches we advertise to teach, as we are to-day.

*Removal.*

This Institution, recently removed to its present quarters, occupies the entire fourth story of the new Paris Building,

### SCHOLFIELD'S COMMERCIAL COLLEGE.

No. 193 Westminster Street, embracing the Paris Hall, the dimensions of which are thirty-three by seventy-five feet, fifteen feet studded, and lighted by eight massive windows on the north. Connected with this splendid hall are five spacious and commodious rooms, two of which are each sixteen by twenty-four feet. The entire premises are heated by steam, and for light and ventilation are not excelled, if equaled, by any other Educational Institution in this city or State. These unsurpassed College Rooms are reached by a well-lighted and easy staircase, or by means of an elevator. The public are cordially invited to call and look through our premises.

#### *Branches Taught in Scholfield's Commercial College.*

The branches taught in this Institution are as follows:

Penmanship, plain and ornamental; Book-keeping, with its kindred appendages, viz.: the Laws of Business; practical Business Formulas and Business Correspondence. Instruction is imparted also in the common and higher English Branches, Mechanical and Perspective Drawing. Instruction is given also in Painting in Oil and in Water Colors, on Canvas, Paper, Silk, Satin, and on China.

#### *Writing.*

Writing is made a specialty in this Institution, and is under the supervision of an experienced and proficient Penman.

The instruction in this department is never rendered in classes, but each student is favored with special instruction, imitating copies executed with the pen instead of lithograph.

Parents should see to it that their sons and daughters are initiated into the art of Writing under a professional Teacher of Penmanship, before they are allowed to practice writing in any school in which no professional Teacher of Penmanship is employed. Such a course of procedure would not only

### SCHOLFIELD'S COMMERCIAL COLLEGE.

advance the student more rapidly and effectually in this most practical and desirable art, but it would relieve the student from one of the hardest of tasks, which is to unlearn what has been learned amiss under unprofessional and incompetent Teachers of Penmanship before he or she can proceed intelligently, successfully, and satisfactorily in this most fascinating art.

Students will be admitted in Writing at the age of Eight Years and upward, to whom special attention will be accorded.

#### *Book-keeping.*

The study of Book-keeping is made a specialty in this College, and the plan adopted and pursued in teaching this important science is the nearest possible approximation to actual business, combining, as it does, both theory and practice. Our method of teaching this science, which is original, is the most practicable and effectual pursued in any institution of learning, and saves to the student one-half the time and expense attending the same instruction in any other institution in this country. Furthermore, in imparting instruction in this Institution no false theories are engrafted into the science under consideration, which all treatises on the science of Book-keeping embody, to a greater or less extent, with one exception. Besides, the Principal of this College has, recently, written and published a treatise on the science of Book-keeping, which exposes the glaring inconsistencies which abound in all other treatises on this subject, to a greater or less extent. Students in this Institution will receive the full benefit of Scholfield's treatise on Book-keeping as a Text-book, which is sought, approved, and adopted by the best accountants in the land.

Among the many Editorial notices of this work, submitted for criticism, we submit the following from the *Elmira Daily Advertiser* of July 14, 1881:

"A new treatise on the science of accounts, modestly called an *Essay on Debit and Credit*, has been presented to

SCHOLFIELD'S COMMERCIAL COLLEGE.

us by the author, Mr. A. G. Scholfield, the founder of Scholfield's Commercial College, in Providence, R. I., and for thirty-six years its Principal. This exhaustive work marks a new era in the science of accounts. It presents many important and invaluable features not known to the old system, the latter being so intricate and puzzling as to mislead young learners and old accountants alike. This Essay will admirably serve the double purpose of simplifying many hitherto complicated things in the science of accounts, and transforming what in its study has heretofore been an irksome task into a pleasant pastime. It exposes the errors fallen into by most, if not all other treatises on Book-keeping; it also fully elucidates the duty of an Administrator, a Guardian, a Trustee, and a Treasurer. Thus, these and many other features constrain us to pronounce it a work of great excellence and merit, an invaluable guide to the student, an indispensable companion to the accomplished accountant, and a desirable accessory to every well-appointed counting-room."

*Business Formulas and Business Correspondence.*

The instruction in the details and mature composition of practical business forms, viz.: Promissory Notes, Drafts, Bills of Exchange, Checks, Due Bills, Orders, Receipts, Memorandum Bills of Sale, Leases, Bills of Sale of personal property, and Articles of Agreement between Partners, together with Business Correspondence, is under the special supervision of the Principal. In this Institution no skeleton printed business forms are used in the education of the Student (which skeleton forms are used in most commercial schools), but he is taught to construct each financial document, in all its practical details, in harmony with the laws by which their legal compositions are governed, which laws are made familiar to the Student as bases by which his several compositions are governed.

SCHOLFIELD'S COMMERCIAL COLLEGE.

In this College special attention is paid to Business Correspondence, which seldom receives in our seminaries of learning the attention which the subject merits. The student in Book-keeping will be required to compose and write thirty-four letters of correspondence, which grow out of the business narrated as the subject-matter of his lessons. These letters of Business Correspondence will be criticised by the Principal, and made to reflect credit on the firms they represent, and as such will serve the student as a guide in his future correspondence.

*English Department.*

The English Department of this Institution is under experienced and competent Teachers. In this department, as well as in all other departments of study in this Institution, students will receive from their teachers attention and aid whenever they need it. Classes in this department will be limited in the number constituting each class, in order that students may make the most rapid progress practicable.

*Mechanical Drawing.*

Mechanical Drawing has been successfully taught in this Institution during the last thirty-six years, as the testimony of many of our best Draughtsmen in Machinery, in Architecture, and in Engineering abundantly proves. Our students in this Department of practical Engineering are favored with original Diagrams and with Models as the subject-matter of their lessons, and, by the aid of proficient and competent Teachers, acquire a practical knowledge of the art. The demands upon us for Draughtsmen during the last year, at remunerative salaries, have been greater than we have been able to supply. The business of the Mechanic is suffering to-day for the want of competent Draughtsmen. Shall this want be supplied? Let the Student answer.

SCHOLFIELD'S COMMERCIAL COLLEGE.

*Painting.*

The Oil and Water-Color Painting is under the care of a Lady, and will be taught in all their popular varieties, in classes or in private, as the student may elect.

*Lady Book-Keepers in Demand.*

During the last ten years there has been a constantly increasing demand upon us for Lady Accountants, until it has come to pass that we have not, during the last year, been able to supply all orders upon us for this class of Accountants.

In our past experience in teaching Book-keeping and its concomitants, we have observed that ladies have acquired a knowledge of this practical science as rapidly and as effectually as gentlemen, and observation has convinced us that Lady Accountants, educated under competent teachers, fill such places as creditably as do Gentlemen Accountants. Under these circumstances, and in view of the fact that it is difficult for ladies, as a class, to obtain agreeable and remunerative employment, we see no good reason why enterprising ladies should not qualify themselves to fill the Accountants' offices open to them, alike honorable and remunerative. By the late removal of our College quarters to the Paris Hall, and its accompanying spacious and commodious rooms, reached by an elevator, rare accommodations are provided for our Lady patronage.

For an article on Book-keeping as a study; a Business Education, and where to obtain it; our method of teaching Book-keeping; a Testimonial from One Hundred and Seventy Practical Accountants and Business Men in the City of Providence; terms for instruction, together with all other detail information in relation to this College, see our Annual Circular and Catalogue, to be had at the College, or by mail.

*Public Buildings and Manufactories made a Specialty.*

Where Manufactories are heated by *EXHAUST STEAM* a great saving in Fuel is effected where the Exhaust Steam is used without the excessive back pressure usually produced on the Engine. By our system we guarantee to *UTILIZE THE EXHAUST STEAM* with the highest degree of Economy, in a simple and inexpensive manner. *Abundant References given.*

SPRINKLING PIPING.

## PARMELEE AUTOMATIC SPRINKLER

The *PARMELEE AUTOMATIC SPRINKLER* has been practically proved to be the most efficient Fire Apparatus ever invented. The water is liberated by the effects of Heat. It concentrates all available water on the fire, thus securing *Greater Efficiency and Less Damage by Water* than the present system of sprinkling. It has been subjected to *FIFTEEN* accidental fires, and worked with entire success, and is endorsed by all the Factory Mutual Insurance Companies of New England.

BUILDERS OF

**COAL AND OIL GAS WORKS, AND GAS HOLDERS,**

For Cities, Towns and Manufactories.

## OUR PETROLBUM OIL AND ROSIN GAS WORKS

Have been in successful operation for more than *TWENTY YEARS*, and we are now lighting upwards of One Hundred First-Class Manufactories, at less than one-third the cost of coal gas in cities, or at an average cost of less than *One Dollar a Burner a Year*, when running full time.

CONTRACTOR FOR

**Artesian and Driven Wells,**

(HYDRAULIC PROCESS.)

Legal Protection Guaranteed. Successful where three other Well-men have Failed.

PURE WATER

Obtained by passing through salt water, or hard and bad surface water. Deep driven wells have proved inexhaustible where all others have gone dry. They yield water free from contamination. No ice is needed, and no water rent to pay. Steam Engine, Steam Pump, Modern Appliances, and Skilled Workmen employed, whose experience aggregates 954 wells. Water pumped up FROM ANY DEPTH from surface, in DRIVEN or drilled wells, by means of lower-working cylinders, put down with tools of my own invention.

I refer by permission to my Patrons: Dr. Job Kenyon, Warwick, R. I., and Hon. James M. Pendleton, Westerly, R. I., of the State Board of Charities and Corrections of Rhode Island. **PATENT CARPET BEATING MACHINE.**

GREASE REMOVED BY A NEW PROCESS. SPECIAL RATES FOR RENOVATING.

By this method of Cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, yet thoroughly expel all the Dust and Moths. The dust and dirt, as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

Orders sent by Mail or otherwise to the Factory will receive prompt attention. Open every working day of the year.  All Work Guaranteed.

**PRICES FOR CLEANING CARPETS:**

Ingrain and Three-Ply.....	5 cents per yard.
Brussels and Tapestry.....	6 " " "
Velvet and Aubusson.....	7 " " "
Axminster and Turkeys.....	8 " " "
Taking up Carpets.....	1 cent " "

Carpets called for, Cleaned and Returned without regard to weather. Cartage free.  
Carpets Taken Up and Relaid when desired. Send for Circular.

A Purely Mutual Company. A Just and Safe Company. A Well-Managed Company. Our Tontine Policies a first-class investment. Endowment Policies at ordinary life rates. Finest line of Investments held by any Company in the World. No stockholders. Dividends declared and paid annually, beginning the second year. Policy-holders thus secure their insurance at as low cost as is practicable to obtain it under the plan upon which they are insured. The Company is conducted in the interests of Policy-holders alone. In the decision of questions involving their rights, the invariable rule is to consider, not only the technical legality of a claim, but also in real justice.
