

Response to Resolution #736

Robert Arthur Dodge, painter of the City Council Chambers receives his funding from the item in the City Budget under Grants, Restoration Study-City Hall.

He commenced painting in the Spring of 1978.

The South Wall will be completed around March 1, and each additional wall will take approx. 2 years. (Throughout the time spent on the first wall was over a year discovering the patterns and designs and colors, and, the difficult task of recreating and hand mixing those 60 or more colors).
