TO : Councilman James A. Petrosinelli

RE : Pedestrian Bridge, Rice Street

I have reviewed the progress plans presented to this office by the Winthrop Group for the erection of a pedestrian bridge across Rice Street connecting two properties owned by Harold Homonoff.

This Department has no objection to the erection of the bridge providing that the bridge is built entirely of non-combustible materials, that it is covered and that double fire doors are installed at each end of the bridge in line with the existing building walls. The double doors should be arranged to swing in opposite directions for egress purposes.
