EXPERIENCE

- Providence Emergency Management Agency, Providence, RI** April 2018–present
Deputy Director
- Perform essential operational leadership roles during disasters in the Emergency Operations Center, including the role of Deputy EOC Director.
 - Communicate, coordinate, and lead emergency management activities with internal and external departments, agencies, and stakeholders including city, state, private, nonprofit, and federal entities.
 - Direct and manage emergency planning activities including the Multi-Hazard Mitigation Plan, Emergency Operation Plan, THIRA/HIRA, and Hazard Mitigation programs.
 - Serve as the Local Hazard Mitigation Officer for the City of Providence and lead all hazard mitigation efforts within the City.
 - Manage multiple projects on tight schedules and provide leadership in a complex, high-stress environment.
- National Disaster Medical System: Incident Management Team, Rhode Island** April 2019–present
U.S. Health and Human Services - Assistant Secretary of Preparedness and Response
Information Management Section Chief (GS-13)
- Direct, manage, and coordinate the Information Management Section of the Federal Incident Management Team during activations, deployments, and responses in the field.
 - **Collect, analyze, and distribute information necessary to maintain situational awareness, support response preparedness, and mitigate risks and threats.**
 - Communicate critical information, situational awareness, and incident briefings to command staff, operational teams, and the Secretary of Health and Human Services Operations Center.
 - Develop, implement, and revise Incident Action Plans, Situation Reports, Status Reports, and other plans as **needed to effectively and safely manage National Disaster Medical System resources and teams deployed** during major disasters.
- CDR Maguire, Providence, RI** June 2014–April 2018
Emergency Management Planner
- Developed tsunami evacuation plans for U.S. Virgin Islands schools; produced GIS data and maps for evacuation planning.
 - Coordinated implementation of the tsunami evacuation plans; planned and executed multiple school evacuation trainings and drills.
 - Created and implemented Community Fragility assessment methodology; conducted Community Fragility and Unmet Needs Assessment for Office of Emergency Management, Larimer County, Colorado.
 - Collected and analyzed Community Fragility data; produced technical writing for final assessment reports.

Coastal Resources Center, University of Rhode Island, Narragansett, RI

Sept. 2011–Jan. 2018

Rhode Island Sea Grant Marine Affairs Fellow

- Conducted coastal hazard, climate change resilience, and vulnerability assessments of coastal properties, communities, businesses, and critical infrastructure.
- Developed best practices guidelines for coastal climate change adaptation and hazard mitigation; produced public outreach materials.
- Assisted in the development, organization, project coordination, implementation, and evaluation of multiple projects focused on hazard mitigation, coastal management, community resilience, climate change adaptation, and stakeholder engagement.
