INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,000 city, county, state and national Directories, present to subscribers and the general public, this, the 1964 edition of the Providence City Directory.

Confidence in the continued growth of Providence's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Providence in the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Providence Directory will fulfill its mission as a source of authentic information pertaining to the city.

Three Major Departments

The three major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a large commercial and industrial center like Providence, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Providence, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on green paper, is the third major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Providence.

The Providence Directory Library

Through the courtesy of the publishers of the Providence City Directory, a Directory Library is maintained in the offices of the Greater Providence Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

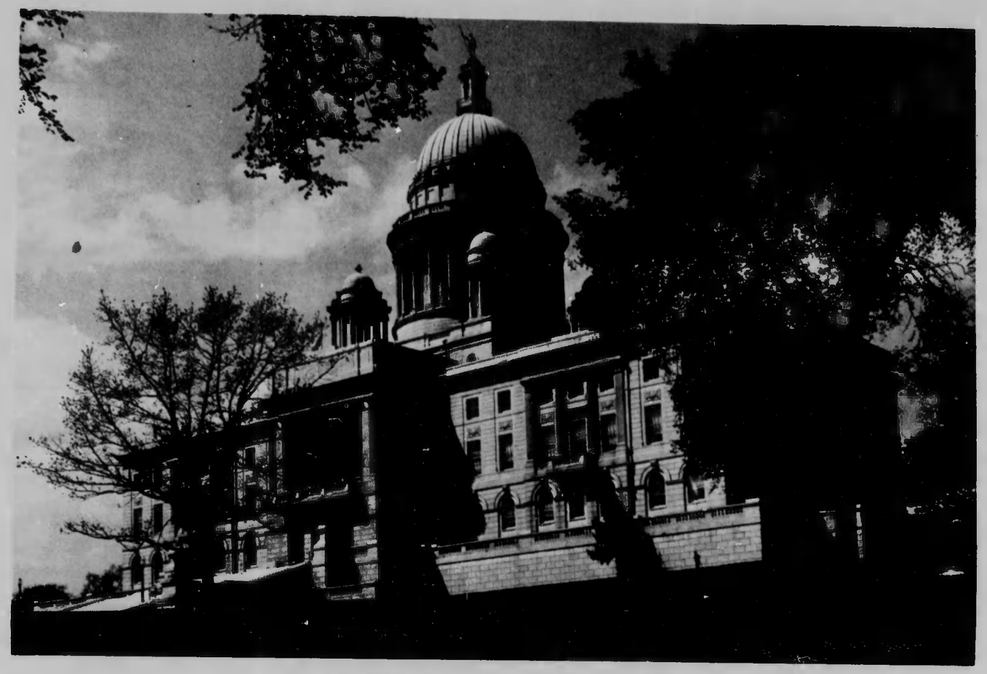
All fire and police vehicles are equipped with two-way radio.



Providence is located at the head of Narragansett Bay, which offers one of the finest ports on the U. S. Coastal line, whether on the Atlantic or the Pacific. The Bay not only is suited for shipping, but it furnishes recreational playgrounds for Rhode Islanders and people from all parts of this country and the world. Newport, which is located at the entrance to the Bay, has long been famous as a resort and showplace. Narragansett, on the opposite side of the Bay entrance from Newport, also is a well-known summer resort. The fishing industry thrives on many parts of the Bay, which yields an abundant supply of fish and shellfish. Many eating places on the Rhode Island shores of Narragansett Bay are well-known for shore dinners, clambakes and Rhode Island johnny cakes.

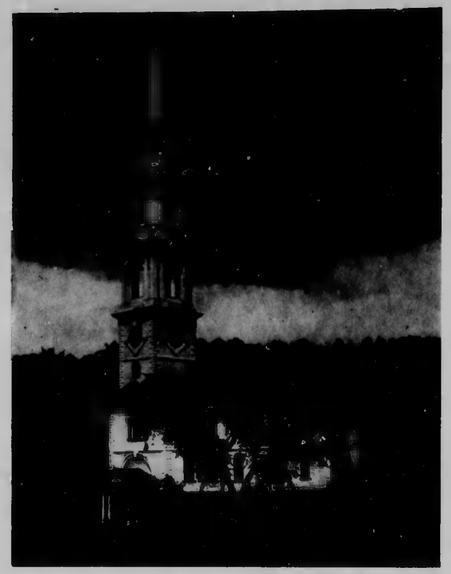
PROVIDENCE . . . *A New-Old City*

New in Spirit and Vigor—

Old in History and Tradition



State Capitol Building, Providence, R. I.

Providence was founded in 1636 by Roger Williams, who received a deed for the land from the Narragansett Indians. The primeval forests were gradually cleared from the hills, and what is now a thriving city gradually developed during the intervening centuries. The fame and importance of Providence has given it a high place among the nation's cities. The name of Roger Williams will always be perpetuated in Providence because it was here for the first time that a charter proclaimed a doctrine of non-interference with the religious beliefs of the people. This doctrine of religious freedom has had much to do with the spirit and growth of the city. People of many nationalities and diverse religious faiths live together in tolerance and mutual respect.

The forefathers of many families which still reside in Rhode Island contributed greatly to the original enterprise of the city and state. These early inhabitants established mills, factories, shipping yards, counting houses, and sailing fleets by which means Providence became an important commercial and industrial center of the Thirteen Colonies. Its prestige has been maintained and broadened so that today metropolitan Providence includes some of the largest single industries in the country and is the largest center in the world for certain industrial products.

Providence is of interest historically by reason of its fine old houses and public edifices that are excellent examples of Colonial architecture. There are the First Baptist Meeting House, built in 1775; the old State House, the old Market Building in Market Square, and private residences too numerous to mention which principally are located on the hill. It is safe to say that there are more varied examples of residential architecture in Providence than in any other city in the U. S., each one a type of the best in architecture covering the period from the Colonial days to the present.

The population of Rhode Island is the largest per square mile of any state, and yet this is the smallest state in the Union. Providence is considered the world's largest jewelry manufacturing center and one of the nation's largest centers for the distribution of petroleum products. The city is important in the manufacture of machine tools, textile machinery, rubber goods, iron and steel products, silverware, and textiles, including silk, rayon, cotton, woolen and worsted products. Situated between New York and Boston, which furnish

First Baptist Church

large markets, Providence is in a strategic location for the distribution of goods and services of all kinds. Also, a very considerable foreign trade originates in Providence factories, which send their products to all corners of the world.

According to the U. S. Census of 1960, Providence has 207,498 inhabitants. It should be borne in mind, however, in regard to the population figure, that the city limits include only 18.91 square miles, in contrast to the 100 or more square miles of most cities of comparable importance. The State of Rhode Island has 859,488 people, all of whom are in the immediate trading territory of the city, much of which can be considered "bedroom communities" for those who do business and work in Providence. From a commercial standpoint, the trading area of metropolitan Providence includes not only all of Rhode Island, but southern Massachusetts and eastern Connecticut, with a total population of well over 1,500,000.

In addition to excellent port facilities, including both State and Municipal piers, Providence has rail transportation furnished by the New York, New Haven & Hartford Railroad system, extensive overland truck lines, bus service by the New England Transportation Co., Greyhound Lines, Short Line and others, and air service in all directions furnished by the American, Eastern, National, United, Mohawk and Allegheny Air Lines.

Providence is distinguished for its cultural and educational institutions. Colleges and schools which draw students from all over the world include Brown University, one of the oldest and most distinguished institutions of learning in the U. S. Other colleges are Providence College, founded by the Dominicans; Rhode Island School of Design, Rhode Island College, Pembroke College of Brown University, Bryant College, and Rhode Island College of Pharmacy, now in the University of Rhode Island, at Kingston. Other cultural and educational advantages include a concert series by the Boston Symphony Orchestra; the Rhode Island Philharmonic Orchestra, which presents a regular schedule of concerts; the Community Concert Association, which is the second largest in the country; the Providence Art Club, which sponsors many art exhibits; and the Players, which presents a series of dramatic productions each year.

The excellent library facilities include the Providence Public Library; the John Hay, Carter Brown and Ann Mary Brown libraries at Brown University, the Providence Athenaeum, and the Medical Library of the Rhode Island Medical Association. The museums include a natural history exhibition of Roger Williams Park, and a comprehensive museum display at the Rhode Island School of Design, which houses the famous Pendleton collection of furniture.

The people who work and live in Providence have ample and exceptional opportunities for play and recreation. Rhode Island is a natural playground, with miles of coast line and with beautiful sandy bathing beaches. As mentioned before, the Bay is a great recreational area. The hinterland is beautiful rolling country, dotted with many ponds, lakes and streams. Golf courses, tennis courts, yacht clubs and other recreational facilities are scattered throughout the state. Fine roads and short distances make them all accessible.

Roger Williams Park in Providence is a showplace, with its beautiful flower gardens, acres of shady fields, and a large body of water. This park maintains a zoo and public tennis courts. In winter, residents and visitors also have recreational advantages and sports. The state has developed an area at Diamond Hill for

Providence Skyline

skiing and other winter sports. Professional hockey and other winter sports are enjoyed at the Rhode Island Auditorium. The world's first fully automatic post office is located in Providence's West River Industrial Park.

Providence is a city small enough to be thoroughly hospitable and have its people know one another, and at the same time large enough to include the advantages of a great city.

How modern lighting can help your business

If you have a store, modern lighting will add eye appeal — and *buy appeal* — to your merchandise. Better light gives a better look to shelves, counters, display cases.

If you have an office or factory, up-to-date lighting can help you, too. It boosts output and efficiency — cuts fatigue and rejects — promotes cleanliness and morale.

Whatever your business, modern lighting can help it! Talk to your electrical contractor *today*. Or call STuart 1-0100 for more facts.

WHY A *Buyers' Guide?*

★ *It is customary to include a Buyers' Guide in the City Directory because:*

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . *EXTENDED*

EAT?
There's no finer food and drink served than at the Marco Polo Restaurant and Cocktail Lounge. Colony Motor Hotel chefs are European-trained and the continental cuisine is the answer to a gourmet's dream. The delightful atmosphere, the striking decor, make this the ideal place to entertain guests.

SLEEP?
You compliment your guests when you put them up at the Colony Motor Hotel. The 137 rooms and suites have been superbly designed for comfort and relaxation. You get motel conveniences with hotel service. There's ample free parking.

MEET?
The handsome Empire Ballroom, or North and South Ballrooms, seat up to 500 . . . and for smaller groups there are impressive Executive Suites, smartly decorated, quiet and comfortable. For either social or business gatherings —large or small—Colony Motor Hotel is the best answer.

TO PLACE A

JOURNAL-BULLETIN CLASSIFIED AD

Low cost, packed-with-power Journal-Bulletin classified advertising is the key to extra profit for thousands of commercial advertisers.

Fast. Easy to use, easy to place. A quick phone call can start your ad within hours.

Intense readership. With the Journal-Bulletin's combined daily circulation you get a market potential of more than 1,000,000 readers.

Small space. Big results. Lots of big ticket items bought and sold every day. Readership studies consistently indicate Classified's broad range of readership from all income and education levels.

If you've never considered using classified, why dont' you include it in present planning. With the cost squeeze on from all directions, you'll be smart to use and profit from one of the most effective forms of advertising available to you—time-proven Journal-Bulletin Classified advertising.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Out of Sight--Out of Mind
☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

☆

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
