STEINWAY HALL, Westminster Street, Cor. Snow. To Let by the Day, Week or Month.

10 CENTS a day saved will give you $500 in eight years. 20 Cents a day, $1000. This money loaned and the interest compounded at six per cent. twelve times a year, gives your small savings the same proportionate profit that the capitalist receives. ROBT. S. FLETCHER, State Agent, 9 Custom House St.

11th YEAR.

ESTABLISHED 1882.

THE INDICATOR A NATIONAL JOURNAL OF INSURANCE PRICE 2.00 PER YEAR

INCORPORATED 1885.

THE INDICATOR is issued monthly, *PRICE $2.00 PER ANNUM,* contains matters of particular interest to all Insurance Companies, Agents and Brokers of Life, Fire, Marine, Accident and Plate Glass Insurance, Real Estate Agents, Banks, Loaning Offices, Book-keepers, Clerks, Capitalists, Lawyers, Physicians, Manufacturers and Business Men. It contains from time to time special articles from the pens of some of the ablest writers in the country on insurance matters, which alone are worth more than the subscription price; gives list of fires, amount of losses, the companies writing on the risks destroyed, etc.

"The Indicator" wages an unrelenting war on "undergrounders," "wild cats," and all "shady" proceedings. Every wide awake Insurance Agent should take it. Every business man should take it. Price $2.00 per year.

One subscriber writes as follows, viz.:

"THE INDICATOR saved one of my patrons $3,000 and put over $100 extra commissions in my pocket; you may continue it indefinitely."

Another subscriber (a prominent banker and large property owner) writes:

"You may send me THE INDICATOR for another year. I would not be without it for five times its price. It has warned me *in time* of many unreliable companies. I think property owners should pay more attention to the class of companies their property is insured in, and keep posted concerning the companies whose policies they hold. Whenever I place any insurance I always try to secure the policies of the companies whose advertisements appear in THE INDICATOR, for I know *they* are reliable."

The aim of "The Indicator" is to uphold the genuine and expose and fight the shams of all kinds in insurance. Every agent representing an insurance company doing a legitimate, lawful business should subscribe for it. Address,

From the TRIBUNE, Detroit, Mich., Nov. 29th, 1891.

F. H. Leavenworth Publishing Co.

This publishing house has its business offices and editorial rooms on the top floor of the McGraw Building. It makes a specialty of various insurance publications which find their way into every state and territory of the United States and throughout Canada. The publications of this firm have a national reputation among insurance agents as being honest and correct in every particular. Chief among these publications is the Indicator, a national journal of insurance, which will soon begin its eleventh year. The Indicator has regular subscribers in every state and territory in the union. The agents all like the paper, take it, read it, and pay for it. The well-known reliability of the Indicator and the care exercised by its editors to verify everything before printing has earned for the paper an enviable reputation for truthfulness, until it has become a well-known phrase among insurance agents throughout the country that "if you read it in the Indicator, it is so." The Indicator is issued the first of each month and can be had for the exceedingly low price of $2 per year. When asked why the company did not charge a higher subscription price, Mr. Leavenworth replied: "We would much prefer to have several thousand subscribers that cheerfully pay $2 per year each for the Indicator than to have only a few hundred that begrudgingly pay $4 or $5 per year." This firm also publishes the Pocket Chart of Co-operative Life, Accident and Fraternal Associations, which has now reached the seventh year of publication, and the Indicator's Pocket Chart of Regular, Legal Reserve Life Insurance Companies. Both of these charts are issued each year, with figures for the five years ending Dec. 31 preceding. Other publications issued by this firm are charts of both fire and life business in Michigan, both of which are used quite largely by insurance agents throughout the state; the Indicator's Combined Expiration Register and Line Book for Fire Underwriters; the Life Agents Tickler and Insurance Record for Life Insurance Agents, besides various other publications, which our space will not permit us to mention at this time.

Every new subscriber to THE INDICATOR gets a $1.00 book free, provided they write at once, and say where they saw this advertisement. Address,

Time Was

When printers did not advertise. "Our work advertises itself" they said. . . . . .

When, convinced of their error, they did begin to advertise, they found that they, like every other branch of trade, were dependent for success upon GOOD WORK and FAIR DEALING.

The firm of E. L. FREEMAN & SON are PRINTERS, and they advertise for business upon the basis of these two principles.

We Do

All kinds of Book and Job Printing, Lithographing, and Gelatine, or Artotype, printing, for which we have one of the most complete plants in the country. Particularly to our facilities for turning out all kinds of Book Work requiring speed and accuracy, such as Town Reports, Tax Books, Legal Briefs and Evidence, Genealogies, etc., do we invite attention. In fine Cut Printing and Illustrated Catalogue Work, requiring great skill and care, and first-class materials and presses, we are surpassed by none, and those in want of this class of work are especially asked to examine our claims. . . .

We guarantee satisfaction on any kind of work. Estimates given and personal interviews when desired. . . . . .

PROVIDENCE, R.I.

Incorporated June, 1856; Established by

GEORGE H. CORLISS,

INVENTOR OF THE CELEBRATED

"CORLISS ENGINE."

DESIGNER & BUILDER OF THE FAMOUS

"CENTENNIAL ENGINE,"

Exhibited at the Philadelphia Exposition, 1876.

THIS company, established in 1849, by Geo. H. Corliss, builds these Engines in different styles, *i. e.*, condensing, non-condensing, single or in pairs, compound and triple expansion, in sisze from 50 to 2,000 horse power.

These works are fully equipped with heavy special tools of Mr. Corliss' invention, for the manufacture of these perfected Engines. This guarantees a degree of precision in workmanship and consequent interchangeability of parts not hitherto attempted.

These Engines are in general and successful use for Manufacturing and Electric Lighting, and all other purposes requiring close regulation and economy in fuel.

The public will understand that we have no relations with American or European builders of so-called "Improved Corliss Engines," and that the final and perfected Engine of Mr. George H. Corliss, embodying his latest ideas, is to be obtained exclusively at our works.

These works are fully equipped with heavy special tools of Mr. Corliss' invention, for the manufacture of these perfected Engines. This guarantees a degree of precision in workmanship and consequent interchangeability of parts not hitherto attempted.

These Engines are in general and successful use for Manufacturing and Electric Lighting, and all other purposes requiring close regulation and economy in fuel.

The public will understand that we have no relations with American or European builders of so-called "Improved Corliss Engines," and that the final and perfected Engine of Mr. George H. Corliss, embodying his latest ideas, is to be obtained exclusively at our works.

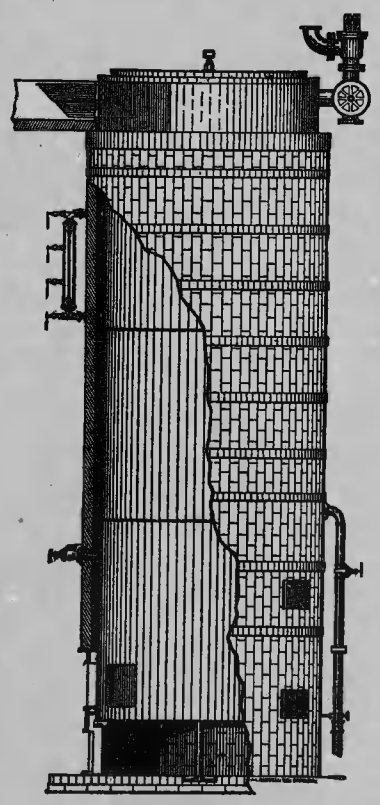
SOLE MANUFACTURERS OF THE

CORLISS PATENT VERTICAL TUBULAR



Water Leg Boilers

These Boilers, invented by George H. Corliss (inventor also of the Corliss Engine) as now built by this company, contain his latest designs and patented improvements.

Thirty years' actual use and operation of these Boilers have proven that they possess, in the highest degree, the following special

Printing

ALL classes of Mercantile, Insurance, Legal, general Job and Pamphlet Printing done promptly and in a satisfactory manner. Special facilities for the printing of the better class of Transient Advertising Mediums, such as Church Papers, Programmes and similar work.

If it is not convenient for you to call at our office, enquiries by mail or telephone will be promptly answered, and we are always ready to call on Providence business men, either to give estimates or take orders.

GOOD WORK AT FAIR PRICES.

Advertising

IN connection with other mediums, which will be brought to the attention of the public from time to time, we are the publishers of

THE BURRILLVILLE GAZETTE,

issued from Pascoag Fridays.

THE GAZETTE is the best paper to reach the people of Burrillville, Glocester, Smithfield and adjacent territory, embracing the villages of Pascoag, Harrisville, Mapleville, Glendale, Oakland, Nasonville, Chepachet, Laurel Hill, Nicholsville, Slatersville, Harmony, Greenville, Georgiaville, Centredale, and many others, and along the line of the New York and New England Railroad, in Providence County.

We invite the merchants to test its virtues as an advertising medium; and all others, as a source from which to derive an epitome of the news of the territory which it covers. Address all mail to

The Key to Success in Business.

By A. G. SCHOLFIELD,

Principal of Scholfield's Commercial College, Providence, R. I.

COPYRIGHT 1890, BY A. G. SCHOLFIELD.

The Intellectual Advantage to the Student of the Study of Bookkeeping, as it is Taught in Scholfield's Commercial College.

THERE is no study that one can take up and pursue for the same limited time, that combines as much in variety, and that can so effectually discipline the mind in reasoning from cause to effect, and that can so intellectually and effectually equip him, or her, for the various duties of life, as the study of Double Entry Bookkeeping under a competent teacher. This study secures to the student an easy, graceful and legible handwriting. This study compels its students to acquire a thorough knowledge of Commercial Arithmetic as a preliminary qualification for the study of Bookkeeping. This study in its practical details, as pursued in this college, also requires its students to write all the letters of business correspondence suggested by the business which is the subject of the students' lessons. Each student is required to write all these letters and to submit them for criticism and when corrected to copy them into his Book of Forms for future reference. The laws of business to which every person's business is subject more or less, in its conduct and its records, are also here taught in all their practical details in connection with Bookkeeping.

This study embodies not only the foregoing preliminary considerations, but it calls into requisition certain fundamental governing principles, a thorough knowledge of which the student must acquire before he can commence or pursue understandingly the study of either single or double entry. Intellectually equipped with a thorough knowledge of these elementary governing principles, the student proceeds alone, aided by a competent teacher withal, to solve understandingly in the Day Book, Journal and Ledger and auxiliary books, the various actual business transactions which are the subjects of the students' lessons in both Single and Double entry. So definite, clear and available, to satisfy any inquiry which may arise in the business they represent are these business records, made under our supervision, that the student becomes at once fascinated in pursuing this very interesting and most important branch of education.

Finally, the time having come when the net gain or loss in the business of the past should be ascertained, that business the records of which are rendered in conformity with correct principles and their subordinate rules; the student proceeds to perform this task by making a Grand Balance Sheet, which sheet combines a Trial Balance, a Balance Sheet and a Profit and Loss Sheet, his Grand Balance Sheet made from the Ledger constitutes a mathematical process by which both gross aud net gain or loss in the business in the past is ascertained and proven beyond a doubt. The student having intelligently solved the profit and loss problem under consideration, proceeds to close the Profit and Loss account in the Ledger into the account or accounts to which it is subordinate. Having availed himself of the rare opportunity offered in Scholfield's Commercial College, for acquiring a thorough business education, and having under the guidance of the principal and his assistants opened a set of business books in double entry, penned their records daily, weekly and monthly, solved every problem demanded of the Accountant from day to day, and closed the business into Profit and Loss correctly and understandingly, the student realizes for the first time that he holds the intellectual key to the science of double entry bookkeeping—the key to success in business and to a competency through life. What enterprising young gentleman or lady does not covet such an accomplishment?

Shorthand and Type-Writing.

Among the improved facilities in the prosecution of business, which American invention has developed during the last decade, is the Amercan Type-Writer. During the year 1891, Fifty Thousand of these wonderful machines have been manufactured and sold in the United States. This large number of sales in a given time will doubtless increase annually, for years to come. Each of these machines will require an operator. At least ninety per cent. of these operators will be young ladies; hence, at least Forty-five Thousand young ladies per annum must qualify themselves to meet this demand in the United States for years to come.

In order to operate one of these machines practically and successfully, the operator must understand and practice in her work, shorthand writing. The necessary qualifications for the study of shorthand writing and its practical use in connection with type-writing are as follows: The student must understand Grammar, and must be a good speller. In order to utilize shorthand writing successfully in connection with type-writing, a knowledge of composition and punctuation is also required in the prosecution of this study. Besides the pecuniary advantage which must accrue to the practitioner in shorthand and type-writing, important intellectual advantages are gained by the operator, and a consideration and respect attained from the employer which none but a Shorthand and Type-writer, or Bookkeeper can command.

Furthermore, the expert Shorthand and Type-writer is not only always in the line of promotion, but her daily practice in the line of her profession opens to her wider fields of thought, the cultivation of which qualifies its subject for a large field of usefulness.

Such are the emoluments, intellectual tendencies, aspirations, and accomplishments of an accomplished and efficient Shorthand and Type-writer. Ladies, will you qualify yourselves for this honorable and remunerative occupation? The increased demand for Type-writers waits for your reply. Does the reader ask where can this instruction be acquired most effectually? We answer, it can be acquired most effectually in Scholfield's Commercial College, where Shorthand has been taught duri g the last thirty-six years and Type-writing has been taught during the last four years. Our machines employed in teaching Type-writing are in variety, five of the best makes known to the profession.

The facilities for providing situations for its graduates is not excelled, if equaled, by any other school in New England.

Makes Daily Trips from Providence, Doane's Wharf, Foot of Planet St., to Seaconnet Point, from May 1st, to October 1st, and Balance of Year Tri-Weekly.

The sail down Narragansett Bay by this line is unsurpassed. Leaving the heat and dust of Providence behind, you are soon on the clear bright water, which wends its way to the ocean. The cottages of the summer residents dot the shore on either side as you pass Silver Spring, Riverside and Nayatt on the one side, and Pawtuxet, Long Meadow and Rocky Point on the other. After passing Nayatt, Warren comes in in sight; then Bristol and Fall River. Sailing up Mt. Hope Bay, you pass Mt. Hope, celebrated in the early history of the State. After turning the northern extremity of the island of Rhode Island, you enter Seaconnet River and pass through the two bridges, and a short sail takes you by Fogland Point, and out where you can feel the gentle swell of the ocean, and soon arriving at Seaconnet point, where ample time is allowed for getting dinner, and for a drive or a bath. The hotel capacity has been doubled and all parties can be accommodated.

Newspaper Advertising
—AND—
SUBSCRIPTION AGENT,
No. 62 Westminster Street, Providence, R. I.

JUDICIOUS ADVERTISING PROMOTES TRADE.

Mr. Danielson for more than twenty years connected with the "Providence Journal," established in 1886 a general Newspaper Advertising and Subscription Agency, in the Lyceum Building, No 62 Westminster Street, and March 1, 1890, purchased the business of the late C. J. Wheeler.

Large experience in the newspaper business, and a familiarity with the best mediums for advertising, enable him to offer practical advice and assistance in so placing advertisements that the advertiser may reap the best results from the money expended.

Advertisements and subscriptions received for all the leading Newspapers and Magazines at low rates. Special attention given to "locals" or reading notices in the Providence papers.

Libraries, Societies or individuals requiring any considerable number of Newspapers and Periodicals will find it to their advantage to send for terms.

Estimates for any amount of Advertising and information as to best medium cheerfully furnished.

THE Corliss Safe!

THE CORLISS SAFE is radically different from all others in form and in the material used in its construction.

THE CORLISS SAFE is the only safe ever made without a door (*the weakest point in all other safes.*)

The form and construction of **THE CORLISS SAFE** is a guarantee of its proof against the practical use of explosives.

THE CORLISS SAFE is the only safe that cannot be opened by tearing its fastenings apart by means of wedges and slight explosives, for it is practically one solid piece.

THE CORLISS SAFE is the only structure made from which the contents cannot be abstracted by use of the blow-pipe and drill.

THE CORLISS SAFE is the only safe ever sold with a written guarantee that its contents cannot be abstracted within a space of thirty-six hours' continuous attack by burglars or experts.

THE CORLISS SAFE is the only safe ever made that really merits the name of **Burglar Proof, it never having been burglarized.**

Pamphlets and Photographs illustrating and giving full description of the Corliss Safe and Patent Vault Doors, will be sent on application, to parties desiring to purchase.

UNITED STATES
SAVINGS AND LOAN CO. OF ST. PAUL.

NEW ENGLAND OFFICE:

37 WEYBOSSET STREET, (Opp. P. O.) PROVIDENCE, R. I.

For obvious reasons "United States" mortgages cannot be sold direct to investors. They are therefore all deposited with a Trust Company, and various forms of certificates are issued to investors. Hence a certificate of stock represents an equity in each and every Mortgage that the Company receives. Thus by buying certificates of stock, investors obtain as near absolute security as is possible.

Absolute safety in handling moneys.

Stands peerless among National Associations.

A corporation within a corporation.

Its unique system secures for its investors the united co-operation of three great financial institutions, including the GERMANIA BANK, its Treasurer (resources over $2,000,000) and the MINNESOTA LOAN & TRUST CO., its Trustee (oldest Trust Co. in the Northwest). Security, strength and profit render its stock especially desirable as an investment for every person willing to spend less than his income, whether the amount be $6 per month or $2500 Cash.

INSTALLMENT STOCK. Definite contract, 85 Installments. Interest compounded. No Fines. No lapses. Withdrawable after 6 months. Most desirable, if you wish to invest your money as you receive it.

PARTIAL DIVIDEND STOCK. Cost $51. Cash dividends at 6 per cent., paid semi annually, at the office of the Rhode Island Hospital Trust Co., Providence. Balance of the earnings accumulate to par $100.

GUARANTEED STOCK. Cost $100, par. Bears Interest at 7 per cent., payable semi-annually. This stock is guaranteed by the Company. Guaranty ratio 4 to 1. A profitable and absolutely safe investment for Trust Funds.

Over three-quarters of a million of stock owned in Rhode Island.

Call or write for prospectus, etc.

THOMAS EVANS,

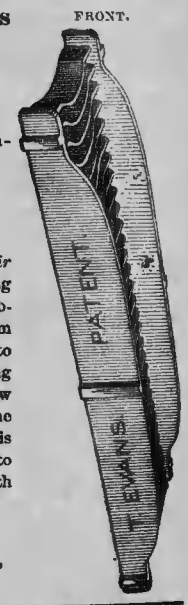
Steam Engineer.

Examinations and Test of Steam Plants for securing economy of fuel. Steam Engines Indicated and Power carefully measured.

Investigations made on the performance of Steam Engines and Boilers under all working conditions.

Thomas Evans' Patent Grate Bar.

FRONT.



To Steam Users:

One of the chief features of this grate bar is "*A Uniform Air Space*," free from sharp angles and curves, the air flowing through this bar meets with the least possible resistance, enabling a large amount of air to pass through with minimum amount of draught. The very large amount of air necessary to form a perfect combustion under ordinary conditions in burning coal demands a carefully designed grate bar, one that will allow free access of air or oxygen to the incandescent fuel and at the same time allow of the refuse ashes to fall through freely. This bar contains from 46 to 65 per cent., air space, according to nature of fuel used. To all parties using grate bars, it is worth their serious consideration.

Yours truly,

THOMAS EVANS, Steam Engineer,

DOUGLAS'S PATENT

Instantaneous Water Heater,

FOR

Baths, Offices and Domestic Purposes.

The value of an apparatus that will heat water instantly, any minute of the day or night, in unlimited quantities, can not be over estimated, when the convenience and so often the necessity of getting hot water instantly is considered. The bath need not be neglected with the Instantaneous Water Heater, which is ECONOMICAL, DURABLE and ORNAMENTAL, and can be used in any place where gas and water can be obtained.

A CARD.

In order to meet the increasing demands of trade, we have greatly improved our plant, until now we have one of the LARGEST and MOST THOROUGHLY EQUIPPED paint factories in NEW ENGLAND.

We have also secured the services of a superintendent who is well known in this country and Great Britain as one of the best and most practical paint manufacturers and chemists in the business.

With these increased facilities, we are prepared to supply a full line of paints of superior quality at prices which defy competition.

Careful attention will be given to orders requiring paint for special purposes.

Steam Carpet Beating Company,

New Number 151 Summer Street.

Telephone No. 1539.

Economy! Neatness!! Despatch!!!

Old Carpets made to look nearly as good as new by the use of the **Patent Carpet Beating Machine.** Grease removed by a new process. Special rates for renovating. By this method of cleaning Carpets they are uniformly beaten their entire length and breadth, by revolving flexible whips, which will not injure the finest fabric, *yet thoroughly expel all the dust and Moths.* The dust and dirt as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

If it be found necessary, we can apply our *heated steam process* in addition to the machine for removing dust and dirt; and this process will effectually relieve the carpet of all impurity, and in doing this bring the colors out almost like new. The moths and vermin are killed and not likely to trouble the fabric for a long time to come. Health and comfort are both promoted thereby. The carpets are not only beaten and cleaned but are thoroughly aired, there being a constant supply of fresh air going through the machine at all times.

Orders sent by Mail or Telephone to the Factory will receive prompt attention. Open every working day of the year. ALL WORK GUARANTEED.

CARPETS, RUGS, BLANKETS, ETC., WASHED.

Carpets called for, Cleaned and returned without regard to weather. Cartage free. Carpets taken up and relaid when desired. Send for circulars.
