# CHILSON'S PATENT IMPROVED CONE FURNACES, AND DOUBLE-OVEN COOKING RANGES,

Should be Seen by all in Want of Superior Work.

## CHILSON'S CONE FURNACE.

(Patented in America, England, and France.)

It has also received another GOLD MEDAL (first premium) at the Middlesex Mechanics' Exhibition, just closed at Lowell (1868).

This Furnace is now in such general use, and its reputation being so well and favorably established, renders it needless to particularize here its many superior advantages for Warming Buildings over any other known plan. Sizes suitable for Warming all classes of private or public buildings, and for setting either in Brick Work or as Portables.

A GOLD MEDAL was awarded to this celebrated Furnace at a recent Fair of the Massachusetts Charitable Mechanic Association, and the only gold medal ever awarded to any furnace in Massachusetts.

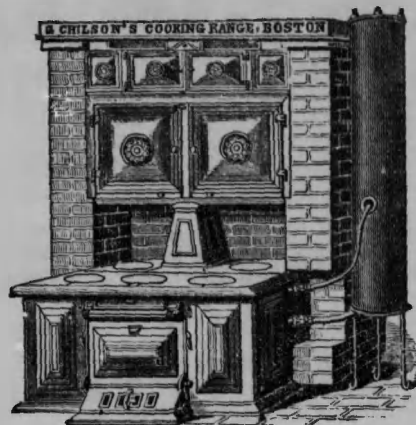

IN PORTABLE CASINGS.

Combines the most important improvements ever made in Cooking Stoves. This statement is fully confirmed by the large number of Testimonials received from those who have used these Stoves the past season, and five minutes' examination of the Stove itself will further prove all that is claimed for it.

Sizes suited to all practical purposes, from that of the smallest family to the largest class of Hotels, with or without WATER FRONTS, EXTENSION TOPS, HOT CLOSETS, RESERVOIRS, &c., and fitted for either Coal or Wood. Chilson's New Parlor and Store Stoves, Registers, Ventilators, Frame Grates, &c., &c., constantly on hand, and for sale at the subscriber's Store, 89 & 101 Blackstone Street, Boston, or at his Foundry in Mansfield, Mass.

## CHILSON'S PATENT ELEVATED DOUBLE-OVEN COOKING RANGE.

This celebrated Range, just remodeled and improved, has become an INDISPENSABLE FIXTURE in all well-regulated Kitchens. It is truly the

### COOK'S FAVORITE,

as can be proved by the many thousands of TESTIMONIALS received.

Sizes in variety, for Dwellings, Hotels, &c., with or without

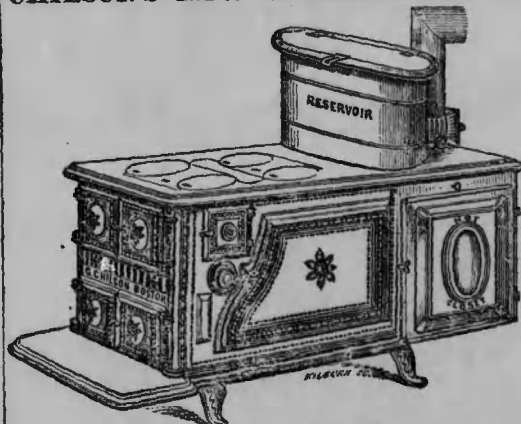

Water-Backs, for Bath-Boilers,

and other Warming purposes; also

**HOT CLOSETS & HOT-AIR FIXTURES,**  
FOR HEATING ADDITIONAL ROOMS, WHEN DESIRED.

No Housekeeper will long use any other plan of Cooking-Range after an examination of this.

as there is no wear to the surface and edges of the belt by constant slipping and rubbing of the  
 shipper, as there is where tight and loose Pulleys are used; they occupy less than half  
 the room, require much less shipping motion, thereby starting or stopping more  
 quickly, with less strain on the belt than where the belt is shipped from one Pulley to another,  
 as the full width and power of the belt is always on the Pulley.

Various sizes are manufactured, from ten (10) inches to six (6) feet diameter and upwards.

**WHERE THEY ARE USED**

## THEY EFFECT A GREAT SAVING IN BELTING, &c.,

as there is no wear to the surface and edges of the belt by constant slipping and rubbing of the  
 slipper, as there is where tight and loose Pulleys are used; **they occupy less than half**  
**the room, require much less shipping motion.** thereby starting or stopping more  
 quickly, with less strain on the belt than where the belt is shipped from one Pulley to another,  
 as the full width and power of the belt is always on the Pulley.

Various sizes are manufactured, from ten (10) inches to six (6) feet diameter and upwards.

ALSO, MANUFACTURE A VARIETY OF SIZES OF

## FRICTION COUPLINGS,

having V or wedge-shaped segments, which are especially designed for starting heavy-gear  
 machinery, for connecting slatting without sudden shock, and without check or hindrance to  
 motive power while it is being started. In connection with their manufacture, we have  
 facilities for executing general

**TELEGRAPHIC FIRE ALARM.**

The Telegraphic Fire Alarm will be used for signaling all fires that occur within or near the city.

The bells to be used for alarming the Fire Department are upon the following buildings, viz: No. 5 Engine House, on North Main street; Fourth Baptist Church, Bacon street; St. John's Church; Police Station, Wickenden street; High Street Church; (in the night,) No. 9 Engine House, Pallas street; Central Baptist Church; Gardner T. Swarts Tower on Dorrance street, and No. 8 Engine House, on Harrison street.

The signal boxes where alarm may be communicated, may be found in all the engine houses; at the residences of the Chief Engineer, No. 21 Chestnut street, and Asst. Engineer, No. 15 State street; and at the several stores of A. F. Fuller, No. 66 Wickenden street; Byron Smith, No. 203 North Main street; F. Thoen, No. 6 High street; John Tillinghast, Olneyville; and Chief Engineer's office, room No. 1, City Building.

Upon the discovery of a fire in any locality within or near the city, let the fact be made known to those having charge of the nearest signal box, and the alarm will be immediately telegraphed through the line.

ARTICLE 1. The operators are the Police, the Firemen, and those having charge of the boxes in the several stores.

ART. 2. The operator who first gets possession of a signal box, shall commence operations by making from five to ten rapid movements of the knob, as preliminary signals. He shall then strike the ward and district the fire is in, two minutes or more.

ART. 3. To avoid striking the wrong district, the bell ringer shall not leave his station to ring his bell until he has received two or more distinct signals through his box.

ART. 4. Upon receiving the correct alarm, he shall proceed immediately to the bell assigned him, and after ringing smartly thirty seconds, shall toll distinctly the ward and district where the fire is, five times in succession at slight intervals, and repeat the same at least five times.

ART. 5. It shall be the duty of all persons authorized to make signals for fire alarms, to note whether the armature is against the magnet or lying upon the pin; if in the latter position, then the telegraph is not in working order; and the bell ringers shall then proceed to ring an alarm, and the firemen will use due diligence in finding the place of the fire if any there be.

ART. 6. The Foreman of the several companies will report immediately to the Chief Engineer, when the alarm shall have been given from their station, and the name of the person giving the alarm.

ART. 7. Those having charge of the signal box at Station No. 1, on Exchange Place, will, every evening at 9 o'clock, strike the number of the hour. If the response is not made at the other stations throughout the city, it is required of the several operators to report the same at the office of the Chief, No. 1 City Building.

ART. 8. An employee of the Fire Department failing to comply with the above rules, on being reported to the Board of Engineers, will be liable to discharge from the Department.

**FIRE DISTRICTS.**

The First District includes all that portion of the city north of a line commencing at the North Providence line, on the Woonasquatucket river, and running thence through said river to Moshassuck river; thence through the Moshassuck river to Church street; thence through Church street to Benefit street; thence in a straight line to the west end of Lloyd street, at its junction with Congdon street; thence through Lloyd street to Hope street; thence in a straight line in continuation of Lloyd street to the Seekonk river.

## Furniture, Stoves, and Iron Ware.

'GOODS WELL BOUGHT ARE HALF SOLD.'

Our goods are invariably bought of the manufacturers, of the best quality, in large quantities at low figures, which enables us to furnish our customers with a good article at a fair price. One of our firm recently visited Europe, and made arrangements with one of the leading potteries of England, for regular shipment of the most improved China and Crockery Ware, which we are now receiving per invoice. We have constantly on hand a large assortment of STOVES, among which are the

"EMPEROR," cook, and "EUREKA," parlor.

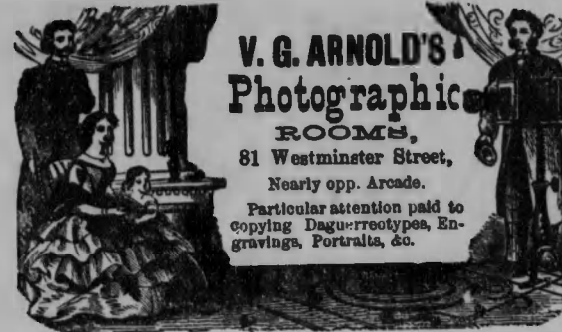

The Emperor is a double top Stove of the most improved pattern. Double topped stoves will ultimately supercede all others, their superiority is seen at a glance. Those in want of a first class Parlor Stove should examine the "Eureka Gas Burner," and we are confident they will purchase none other. Our teams patrol the city daily, with a good assortment of our goods, receiving in exchange Rags of all kinds, old Books, and Papers, Barrels, old Iron, Metals, Cotton Waste. Old stoves taken in exchange for new, &c., &c. Parties not wishing goods in exchange for their stock, will invariably receive the highest cash price in current funds. Negligence or inattention on the part of the drivers in filling orders, or otherwise, will receive prompt attention by applying to the office.

124 BROAD STREET, PROVIDENCE, R. I.

N. B.—Also, would say to dealers in Junk, Paper Stock, &c., that we have the largest junk store in Rhode Island, at Nos. 134, 136, and 138 Dorrance Street, corner of Dyer, Providence, R. I.

N. B.—All orders promptly attended to, and articles delivered in any part of the city, free of expense.

The above engraving is a view of a Time Detector, which is carried about by the watchman to all the different stations to be guarded. At each station is a small key, securely fastened to prevent his taking it with him. The watchman goes from station to station, takes the key fastened there, inserts it into the clock, gives it one turn, and goes on to the next, or to any other station, for he is not bound to go in regular order. By this it follows that a perfect record will be kept of each operation.

The broken-out portion of the watch shows the mechanism which operates the pin which pricks the paper. At A, there is a number of sliding bars which connect with the pricking points, so that, by turning round the key, the ward on it strikes a certain bar and penetrates the dial-paper B. By that act, a small hole is made in the paper, which tells what time the man appeared at each station; how often he came there; how long he stopped; how long it took him to go from one to another; whether he went in regular order or not; in short, it gives a complete record of his night's work.

# BUERK'S Watchman's Time Detector.

This WATCH-CLOCK was introduced to the public in almost every section of the United States and Canada, several years ago; and it has proved itself to be the best invention in the world for testing the faithfulness of Watchmen. Since its introduction, the Proprietor has improved on some parts, and corrected deficiencies which have been suggested by using it; and he has now a perfect check upon the Watchman. With other clocks, a regular routine has to be followed, but with this a Watchman can be ordered to visit any particular place as often as required, without being compelled to go to places where it is not necessary to visit as often.

The instrument is complete in itself, portable, and as reliable as the best lever watch.

It is not so likely to become disarranged in its works as a good watch, because its parts are stronger. But when it needs cleaning, any common watchmaker can adjust it, its mechanism being simple.

It requires no fixtures or wires communicating from room to room, as is the case with the ordinary Watch-Clocks; a small, inexpensive, stationary key is alone required at each station.

Its use is not restricted to a single building, and places can be guarded that it would be impossible to guard with any other instrument, such as Railroad Tunnels, Bridges, Yards, Shops, &c.

It is very essential to carry the clock secure, taking care that it is not brought in contact with any hard substance, and thereby broken. I have on hand pouches with straps to go over the shoulder and around the body, which I will send with the clock, if ordered. Price, \$2.50.

The instrument will in all cases be warranted perfect and satisfactory.

Its price is invariably **Seventy-Five Dollars**, Cash on Delivery, including as many Keys as are requisite, not exceeding twelve.

**THIS WATCH-CLOCK IS SOLD AT A LESS PRICE THAN ANY OTHER IN THE MARKET.**

The DETECTOR is used extensively by large Manufacturing Establishments and Railroad Companies in the United States, from whom numerous testimonials have been received.

N.B. Parties purchasing these Clocks should test them sufficiently in the counting room or office, as they will not be taken back after having been injured by the Watchman through carelessness.

This Detector is covered by two U. S. Patents. Parties using or selling these instruments without authority from me will be dealt with according to law.

*All Communications promptly attended to.*

**THE BEST IN USE.**

The RELIANCE possesses all the requisites for a First Class Machine.

RECEIVED THE HIGHEST PREMIUM

GIVEN ON WRINGERS, AT THE  
GREAT NEW ENGLAND FAIR, 1867.

In competition with ALL others.

The Rubber of these Rolls is keyed to the Grooved Shaft as shown in the cut, and is vulcanized to its canvas support when made. This gives great strength to the Rolls, and overcomes what has always been the weak point in a Wringer.

The RELIANCE will compare favorably with any similar machine in quality and price.

Sold at the leading Stove Stores and House Furnishing Depots in Providence, and by Country Merchants generally.

WILCOX

Caloric and Steam Engine

COMPANY,

112, and 114 Dorrance Street,

PROVIDENCE, R. I.,

Make a speciality of manufacturing Safety Motors, from 1 to 20 horse power. For 1, and 2 horse power, the Caloric Engine is recommended, but for larger sizes, the Safety Steamer is preferable.

These Steamers have the following recommendations to public favor: Safety from Explosion—Economy of Fuel, and attendance. They do not increase the rate of insurance. They have a circulation of water, which prevents foaming, and carries away all sediment from the heating surfaces. They can be used without objection where ordinary boilers would not be allowed.

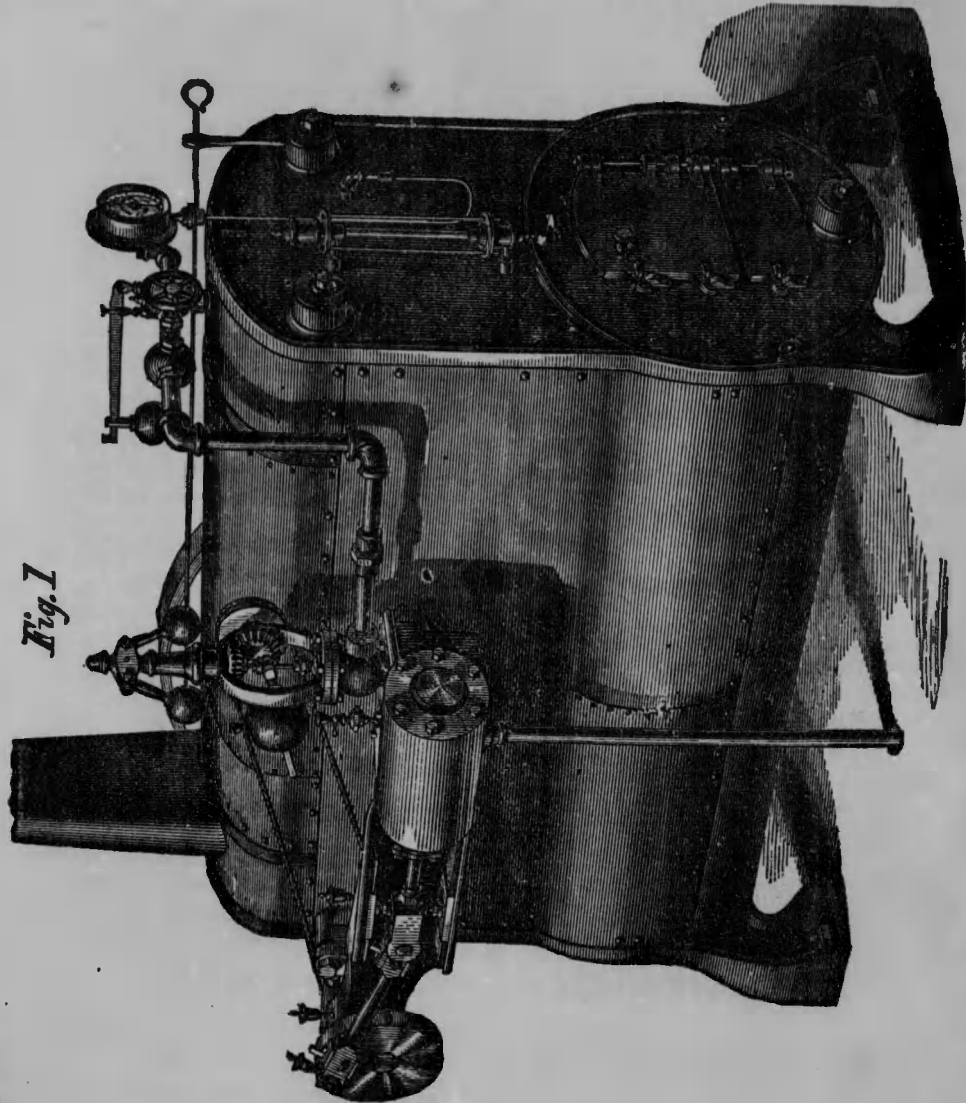

S. WILCOX, JR.,

**MARRIOTT & CHAMPLIN,**  
PROPRIETORS AND ORIGINATORS OF

**MARRIOTT & CHAMPLIN**

ARE MANUFACTURERS OF THE FOLLOWING ARTICLES, FOR THE USE OF  
DYERS:

Improved Chrome Mordant, Improved Scarlet  
Spirits, Improved Wood Red Spirits, Muriate  
of Tin, Oxy-Muriate of Tin, Nitrate of  
Iron, Muriate of Iron, &c.

The Chrome Mordant is fully equal to Bichromate of Potash, in every particular, and in one respect, it is its superior, as it renders the wool softer, and better to work, and yet the price is 20 per cent less, than Bichromate of Potash. Add to this, that no other ingredient is necessary to use with it, and its value will be obvious.

The Improved Scarlet Spirits are acknowledged to be by far the best in use, for Scarlet, Cherry, Crimson, Red, Orange, and Yellow, producing colors unequalled for brilliance, and permanence, and as they obviate the use of Cream of Tartar, for cheapness.

Also, all other articles, of their own manufacture, they warrant to be of the very best description, and of one uniform quality.

All orders for the above preparations should be addressed to

## "The Providence Weekly Gazette."

WHEN we first conceived the idea of starting the present WEEKLY GAZETTE, we based it upon our experience in publishing the WEEKLY TIMES, which we printed up to the very time we left in the Tenth Rhode Island Regiment of Volunteers, for the defense of our Capitol, the City of Washington. The TIMES had paid us well. The GAZETTE, thus far, has netted us a better profit than ever the TIMES did. We attribute the success to the CIRCULATION, which is entirely in the hands of our Agent and Business Manager, Mr. JOHN W. COLS.

Three thousand copies are printed weekly; two thousand of which are circulated in the wards of the city, which supplies about one-quarter of the families in all the different wards, weekly, every week supplying new families in those wards, thereby taking four weeks to supply the entire city. The balance, one thousand, goes into country villages through the State; never two weeks in succession in the same village. Our distributing in this way precludes Mr. COLS from having any remuneration at the end of the year by CARRIAGE'S ADDRESS, as we circulate to the same families only once in four weeks. We pay Mr. C. what he thinks a fair and honorable remuneration, together with his travelling expenses. Of course he has to hire the services of a boy, (who is under his immediate eye,) in order to get the large edition circulated in two days. We think this is the whole secret of our success. The GAZETTE has been published thirteen months, and is now in so prosperous a condition that its permanency has become a "fixed fact." We desire to give the readers of our paper a full reading page, but as yet have been unable to do so, but will as soon as our narrow limits will admit.

Thankful for the very liberal patronage already received, we invite the citizens of the State, generally, to call and see the

## Volney W. Mason & Co.,

MANUFACTURER OF MASON'S

# Patent Friction Clutches!

FOR

STARTING MACHINERY,  
WITHOUT SUDDEN SHOCK OR JAR.

References can be given to many of our best Manufacturers who have them in use, among others, the

Corliss Steam Engine Co., Providence; S. H. Greene, & Sons, Riverpoint; Atlantic Print Works, East Greenwich; Oriental Print Works, Apponaug, R. I.; James Sanders, Centreville, R. I.; W. F. & F. C. Sayles' Bleachery, Pawtucket, R. I., and many others, in Providence, and vicinity.

BALTIMORE, February 15th, 1867.

This is to certify, that we have used MASON'S PATENT FRICTION PULLEYS on our looms for two or three years past, and have recently applied them on all of our new looms. We use the 26 inch diameter, 5 inch face, and their action is quick to start or stop, and devoid of all sudden shock on starting. They save our belts from the constant wear of shipping, and they are constructed in a durable manner, and we consider them the best device known to us for the purpose of driving "Looms."

WM. E. HOOPER, & SONS.

COAL MINE, PORTSMOUTH, R. I., July 16th, 1857.

Mr. VOLNEY W. MASON,—Sir—Yours of the 11th instant, is at hand. In reply, would say that we are using, and have been, for the past two years, at our North Mine, two of your Friction Couplings; one is used for hoisting coal, and rock, weighing, with the car, about one and a half tons, from a depth of from 400 to 600 feet, up an incline of some 35 degrees, and it has worked to our entire satisfaction.

The Friction Coupling on our pump also works well, and we are satisfied that for ease of working, EFFICIENCY, and DURABILITY, YOUR FRICTIONS ARE UNEQUALLED by any other arrangement known to us.

Yours, very truly,

WM. COBB, Ag't Mt. Hope Coal Mine Co.

PROVIDENCE, June 28, 1861.  
 I do not hesitate to pronounce Butterworth's Improved Window Spring superior to any which has come to my notice.  
 JAS. C. BUCKLIN, Architect and Builder.

PAWTUCKET, June 28, 1861.  
 In our opinion, Butterworth's Improved Window Spring is not surpassed by any which we have ever seen.  
 D. D. SWEET & CO., Sash, Blind, and Door Manuf'rs.

U. S. ARMOY, SPRINGFIELD, Mass., Sept. 3, 1861.  
 I cheerfully recommend Butterworth's Window Spring as superior to any which has come to my knowledge.  
 JOHN D. LORD.

CINCINNATI, O., May 31, 1867.  
 This is to certify, that we have had J. C. Butterworth, Jr.'s Patent Sash Fasteners in constant use for the past four years, on the heaviest windows in this city, and to-day they work to our entire satisfaction, being much cheaper, and less trouble than cords and weights.
